Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and breast, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchia affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded to their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.
SOLE PROPRIETORS.

Sold in Portsmouth, by Jos. H. Thaxter, B. Hutchings and J. P. Morse. ap19eod6m&w

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thusentirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 Jewry street, Aldgate, London, and of

L. & A. HERTS, No. 49 John street, NEW YORK,

And in PORTSMOUTH, from the following Houses:

a10

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. F. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

LIFE INSURANCE.

All men of education and reflection should ponder well upon the advantages of Life Insurance, and should promulgate their acquired knowledge throughout the whole circle of their acquaintance. They should remember that it recommends itself in many instances not merely as a measure of expediency, but as a bounden duty—a duty easily discharged by the payment of a moderate sum. The question is, shall the married man trust the comfort of his family to a chance, albeit a promising one, or is he not rather bound to make sure of a provision as far as he can for his wife, his children, his helpless relatives, for all those dependent upon him for support, and through the medium of Life Insurance, *assure* an adequate provision against impending poverty and irretrievable distress? How many men have I heard say, "Yes, but I want to insure for a large sum *when I do insure*, and it is not convenient now," and so, because the man cannot gratify his vanity and pay the life premium on $10,000 at an expense of two hundred dollars per annum—receive an eighty per cent. scrip dividend and give a promissory note—he dies and leaves his wife and child houseless, sorrow-stricken, and broken-hearted, thrust on the cold kindness of *quasi* charitable relations, without a cent to bury him or provide food for themselves—and this, because he, the loving and devoted husband, would not make even a temporary provision, consonant with his circumstances, for the wife who had been his nurse in sickness, his friend in distress, and whom he had sworn to cherish and protect—and by the payment of twenty or thirty dollars annually for seven years, secure two thousand dollars for her use, provided he should die within that period! *

HOW TO MOUNT A HORSE.—A letter from an officer on board the U. S. ship St. Marys, dated at St. Mary's Anchor, Peru, published in the "Burlington Free Press," gives a ludicrous mode of mounting a horse. The women do all the work, and the men are a good for-nothing set of gamblers and thieves. The women ride on the hind quarters of their horses, without a saddle, cross-legged, with the load on the horse in front. They mount the animal by taking hold of his long tail, making a loop by doubling it up, and clasping with one hand the upper and lower parts of the tail, and then putting one foot in the loop and the other foot on the joint of the horses leg, they ascend as if going up stairs. They usually stand erect on the horse, before sitting down. The horses never kick or stir.

Mr. Wharton, editor of a paper at Wheeling, Va. having expressed himself against the repeal of the Missouri Compromise, a public meeting of the citizens was called to denounce the editor as an anti-Virginian, abolitionist, &c. all of which was done, but, before the chairman submitted the resolutions, Mr. Wharton, the editor on trial, asked permission to say a few words in his own defence, which being granted he proceeded to defend his position and to show that slavery was a curse, that it had proved so to the working men of the State, and that no more slave territory should be formed. The applause which attended every sentence of Wharton's speech convinced the getters up of the meeting that they were outnumbered, the resolutions were withdrawn, and the meeting abruptly closed without the usual formality of an adjournment.

A REVOLUTIONARY SOLDIER.—Died at the residence of his grandson, one mile from Luray, Va., 20th ult., Wm. Parrott, aged 100 years and 7 months. This old Revolutionary soldier was born in the old county of Orange (now Greene) in the year 1754—fought under Gen. Washington in the Revolution—voted for him as President, and for every President down to Pierce. He served in the capacity of High Sheriff twice in the counties of Orange and Greene. He was a man of information, conversed freely about the scenes of the Revolution even to the last, retained his eyesight unusually well and wrote a plain and legible hand.

GREAT FAMILY EMIGRATION.—Among the upward passengers on the Eastern Railroad, Wednesday, was a patriarchal family, consisting of the father, mother, and *thirteen children*, who were journeying from their home and birth place in Maine, to cast their lot in the fruitful West. They were bound for Wisconsin, where the land yields crops in proportion to the wants of such wide spreading families. The eldest of the family was a smart young man of about twenty five years of age; the youngest was a child in its mother's arms. We wish our Wisconsin friends joy upon such a valuable acquisition to their ranks and society.—*Boston Courier.*

CALLS the attention of Citizens and Strangers to his extensive and complete
DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.
The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in
Surgical or Mechanical Dentistry,
materially increased.
The services of a skilful and competent Assistant,
DR. JULIUS GUTTMAN, OF GERMANY,
For some years past in the employ of DR. HITCHCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.
☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.
☞ Office open day and evening.

Morning Chronicle.

SATURDAY, SEPTEMBER 23, 1854.

PRINCIPLES AND NAMES.

A few days ago, we took occasion to say a few words on the democratic name, and democratic principles. Now, more at leisure, and in no controversial mood, we would discuss the matter in more general terms.

Strictly speaking, there can be but *one Democratic Principle*, viz.: that the Government shall be *by*, as well as *for*, the whole body of people who are governed.

To govern by less than the whole, to have the suffrage less than universal, partakes of the nature of *Aristocracy*, which word, much as it is abused, simply means Government by the Best.

Very few perfect Democracies exist. The Quaker Churches perhaps are the purest democracies in existence. They have no aristocracy of sex, and no clerical aristocracy.—Men and women have equal voice and vote, and all their few officers and servants are the direct choice of the whole, or of a *majority* of the whole.

This government by a *majority*, is a necessary consequence of the democratic principle; and so is the submission by the minority to the expressed will of the majority.

It also happens, when any community becomes considerably large, that actual democracy, as its form of government, is really impossible. The whole body of the people cannot meet to make its laws;—and when they choose delegates or representatives to do this duty, they cease to be a democracy in form, and become a *Republic*.

Still this may be done without losing sight of the democratic principle. It is so done, to some extent, but not perfectly, in the Federal Constitution, under which we live, as a nation. This mention of the Federal Constitution, affords a good opportunity to say, that the term or word *Federal*, is by no means antagonistic to *Republican*, or *Democratic*.

Our several States, are each a Republic, founded on the Democratic idea, (however imperfectly carried out,) that government is, or should be, founded on the will of the governed. Then these several States are welded together in the Federal Union, to which many modern patriots have sung Hosannas, as "our glorious union."

We suppose there is not now, and has not been for the last thirty years, much difference of opinion in this country, as to our form of government, nor as to the democratic principle.

The people of each State, cherish it as their own Republic, and would not wish it a monarchy or oligarchy; and nearly all wish well to the Federal Union. Those who agree in these things, are both *Federalists* and *Republicans*.

So of the Democratic Principle. Few persons of any description, can be found in the country, who do not feel and say, that political power is safer in the hands of the whole People, or of a majority, than in any select class or single ruler. And all such are *Democrats*, in the true and proper sense, if words have any meaning.

It is quite obvious, however, that these views, thus described, have not been held exclusively by the parties which have borne these names—nor have the parties always been true to their titles. We have seen men called Federalists calculating the value of the Union; others called Republicans bowing down low to the one man power; and others still, called Democrats, making shameful apologies for slavery, and trembling before a storm of popular indignation.

Such considerations as these, make it apparent that party names, though convenient, and perhaps indispensible, are not always infallibly descriptive of the principles or measures promoted by their use.

But principles lose none of their character; measures are right or wrong, wise or foolish: Men are good or bad. And it is with these entities, these realities, that voters have now to deal. Names seem to have less power now, than heretofore.

DEATH OF BISHOP WAINWRIGHT.—Died in the city of New York at 5 P. M. on Thursday, Sept. 21, the Right Rev. Jonathan M. Wainwright, DD. DCL. Dr. Wainwright was the Provisional Bishop of the Diocese of New York, at the time of his death. He had been a distinguished Episcopal Clergyman in Boston; and was known to the musical public as an arranger and composer of Church Music. His loss will be severely felt in his diocese and among his friends. His age was 61, and his disease intermittent fever.

THE SLAVE TRADE. — The New York Journal of Commerce, in reporting the arrest of Capt. Smith and Wm. C. Valentine, in that city on Thursday, for being engaged in the slave-trade between Africa and Cuba, says:—"If the information we have obtained is correct, it would appear that since January last, the fitting out of vessels for the slave trade, has been a regular business in N. York."

MAINE ELECTION.

The Eastern Argus contains the following abstract of election returns in Maine, condensed from the Augusta Age, which has had access to the Official Returns. These comprize the vote for Governor in the whole State, except three towns and one plantation, which gave, last year, Pilsbury 202 votes, and all others 54.

According to this publication, Parris (dem.) has 28,285, Reed (whig) 14,014, Morrill (fusion) 44,817, Cary and scattering 3419 votes.

There is no choice of governor by the people, the majority against Mr. Morrill being 901.

The whig candidate (Reed) is in a minority of 75,521. The whole vote is 90,535. Last year, it was 83,734, as follows: Pilsbury (dem.) 36,419, Crosby (whig) 27,191, Morrill (irregular) 11,058, Holmes and scattering 9066. In 1855, the whole vote of the State was 94,903.

In the sixth congressional district (the only one doubtful) the Age gives Milliken (fusion) a plurality of 303 over Fuller (dem.) with a portion of Aroostook to hear from. The run is very close.

To the State Senate, twenty-one have been chosen, and there is no choice in York (3), Oxford (2) Somerset (2), Lincoln (2) and Aroostook (1). The Age classifies the *fusionists* elected, as 11 Whigs, 5 Morrill men, and 5 Free Soilers.

In the House, it gives the Democrats 41, Whigs 45, Morrill men 40, and Free Soilers 24, with one to hear from.

The only Democrats who appear to be elected to county offices are, Benj. Waterhouse, County Commissioner for Androscoggin, and Daniel W. Ames, Treasurer of Somerset. All the rest are Whigs, Morrillites, or Free Soilers.

Thus, the Legislature will have to make the Governor for 1855. The members of the House will send two names to the Senate, and then the Senate will decide between.

THE WEBSTER ESTATES.—It ought to reconcile small men to their insignificance to know how soon great men are disregarded.—In the first gush of grief at the death of Daniel Webster, great were the monumental promises of Boston and the demesnes. Marshfield was to be forever sacred—the Franklin estate in New Hampshire, so dear to Webster, kept in the family—and an immense statue of bronze put up at once in State street. Now Marshfield is advertised "to let," and is recommended as very fit "for a tavern." The Franklin estate is advertised "for sale," and we hear nothing of the statue. Fortunately Webster erected his own monument before his death, and it is one of the few that are harder than brass.—*New Bedford Mercury.*

This reflection is just: and we add another, viz. that a man has no use for land after his death, except for a burial place. Mr. Webster has this, and a good monument at his grave. And he enjoyed his lands to the end of his days. The Boston Journal also says:

The estate advertised to let at Marshfield is the former residence of Fletcher Webster, who has moved into the mansion of his lamented father, which with the estate, will be held in accordance with Mr. Webster's dying request.

The farm at Franklin, N. H. has been advertised for sale by the administrators, in accordance with the usual form, to settle the estate. It may not go out of the family.

The statue of Mr. Webster is now in the hands of the artist, and the necessary funds have been raised to pay for it when completed. It will thus be seen that the friends of Mr. Webster and the public have not forgotten his distinguished services. His memory will long be kept green.

SLAVE TREATY WITH ENGLAND.—We have been greatly surprised, says the Boston Transcript, to find several influential journals at the South gravely argue the expediency and necessity of a new treaty with Great Britain and her Colonies, in which the main features of the Fugitive Slave Law should be incorporated. How any person at all familiar with the English mind, and aware at what period of the Christian Era we are living, should undertake to argue this point, and gravely set out to anticipate and remove the objections that would at once arise in opposition to the arrangement, must surely be chargeable to some idiosyncrasy. The man who should suggest that the Mormon Bible be used in the schools of Massachusetts, instead of the Sacred Scriptures, would probably meet with about as much success as will be attained by those who have started this movement. The New York Albion doubtless expresses the general and universal sentiment of the people of England upon this subject, when it says:

"Such a Treaty as the one suggested, can never, under any possible circumstances, be extorted from Great Britain. It would be scouted out of the Cabinet and out of Parliament, and repudiated by the entire voice of Press and People. There would be no argument upon it. It would not be considered as open for discussion. You might as well propose here a return to the Colonial servitude of a century ago, as talk in England of any such Extradition. This is simple truth, matter of fact, incontrovertible and unalterable. If any section of the South think otherwise, or rely upon the particular conjunction of affairs, it will waste its time and its breath.—The point is one of feeling; it is ingrained in the national mind, and is not to be affected by appeals to conviction or interest. Not even a threatened loss of the cotton trade, or the hazard of a war with the United States, would change the popular will hereon. The long and the short of it is this: any hope of Great Britain being induced to adopt the Fugitive Slave Law in her Colonies may be dismissed, forthwith and forever.

THE ASTEROIDS.—In 1800, no planets were known to exist between the orbits of Mars and Jupiter. In 1801 the first of the asteroids was discovered. As late as 1845 only four were known; but the number has been largely increased by recent discoveries, and thirty-one have been seen, so that the asteroids equal in number the stars of the American Union. The National Intelligencer mentions the noticeable circumstance that on the night of the discovery of the thirty first at the Washington Observatory, the thirteenth, was visible in the field of the telescope with it.

LOCAL.

☞ The Rev. Mr. Sunrise, a converted Indian of the Oneida Tribe, of New York State, will preach at the Methodist Church to-morrow P. M. and in the evening at the Temple. Mr. S. is agent of church and society in New Bedford, and is soliciting aid in behalf of that church, of which he is Pastor, a collection will be taken up in the evening for that purpose. He comes well reccommended, and we hope those who attend to hear him will be prepared to contribute liberally.

Mr. S. is to preach at the Rev. Mr. Payne's Church, (Kittery Foreside) in the forenoon of to-morrow.

MECHANICS' LYCEUM.—This is the Lyceum for Tuesday evening; the coming course will consist of 16 lectures, by gentlemen whose names warrant high expectation of good lectures. We acknowledge the reception of tickets from the Managers; and are glad to learn they go off rapidly. Those who wish to secure seats there, should be prompt in their application.

MERCANTILE LIBRARY ASSOCIATION.—This institution gives a course of lectures on Thursday evenings; and is intended by its managers to be of the highest order of excellence which they can attain. Tickets are acknowledged for this course; with the expectation of well deserved success in the effort to sustain a course of popular and instructive lectures. Get seats early, or you lose them.

For the Chronicle.

Messrs. Editors:—Among the lectures delivered during the last winter at the Cameneum, was one by the highly respected pastor of the Middle Street Church, entitled "The Family." None who heard that lecture will forget the pure and beautiful spirit which pervaded it, and not a few subsequently expressed the earnest desire that it should appear in type, in a pamphlet form, in order that its practical and useful suggestions, as well as its gentle influences, might go abroad in the community, and like a pebble thrown upon the stream, extend its ever-widening effects. We bring this subject now to your consideration, in the hope that it is not even yet too late to suggest and urge its publication, for the benefit of many a household where the name alone of its author will render it not only acceptable, but strongly influential in producing much-to-be-desired results.

EASTERN RAILROAD.—The entrance of the cars on this road into the city proper, and the abandonment of the ferry crossing, has had the effect of increasing their through as well as their local travel. The increase has been such as to render it necessary to add to their rolling stock, and within a short time new and beautiful passenger cars, manufactured by Mr. Davenport at his establishment in Cambridgeport, and fitted up in superior style, have been placed upon the road. They have had for some time past cars mounted upon sixteen wheels,—being double the usual number,—and others on twelve, the multiplicity of wheels adding not only to the ease and comfort of the traveller, there being less motion, but ensuring more safety. Large and capacious baggage cars have been supplied, each being fifty feet in length, giving ample room to the mail agent, expressman and baggage master. The company has also augmented its motive power by the addition of new locomotives of great power and speed. The conductors are polite and gentlemanly, and are ever ready to impart any information to the traveller. Thus equipped and conducted, the business of the road cannot fail to still further increase.

EASTERN RAILROAD.—An impression having obtained that the Eastern Railroad, by removing their station from East Boston, had forfeited their title to the lands which were given them there, the President has procured the legal opinion of E. S. Rand, Esq., on the subject. This opinion is that none of the lands held by the Company at East Boston were given "in consideration that the Company should build their road through East Boston; nor are any of them on condition that they continue it there. The conveyances are all in fee simple, and the tenure of the Company is in no way dependent upon their maintaining their road, or using the lands so conveyed to them for railroad purposes."—*Boston Traveller.*

DR. IRA WARREN'S
COMPOUND OF
PURE COD LIVER OIL, LIME AND SUGAR OF MILK.

THE great value of Cod Liver Oil as a medicine in Consumption is now generally admitted. It promotes assimilation, the primal defect in this disease, by initiating the growth of cells—the cell resulting, according to Dr. Burnett, from the union of a minute particle of oil with albumen, under the quickening force of vitality. The PHOSPHATE OF LIME has been proved to promote the same great end throughout both the vegetable and the animal world

The SUGAR OF MILK, manufactured from the whey of goat's milk, being a supporter of respiration of weak lungs, and having a powerful affinity for oxygen, greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil, and supplying a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in THROAT AND LUNG DISEASES, I resort directly to the fisheries for a pure oil. The excellence of this combination will be at once appreciated by my professional brethren, and a trial of it will commend it to the people generally.

BURR & PERRY are my wholesale and retail Agents for the United States and British Provinces, to whom all orders should be addressed.

J. G. TOMPSON, JR., Sec.

Cheap Daguerreotypes Triumphant!

OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Duerreotype will be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge*. But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they will still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to office call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

On Monday Evening, Oct. 2,
at 7 o'clock.

The Term will consist of 24 lessons, on two evenings of each week.

In connection with this Class, at the close of the Term, there will be held a public

Musical Convention,

at some large hall in Portsmouth,—to continue four days,—under the direction of

Prof. B. F. BAKER, of Boston.

TICKETS for membership to the Class and Convention—including the use of three descriptions of Books—$1.50; to be had of W. R. Fenton, James H. Head, and at Mr. P.'s room, No 4 Exchange Buildings

The Books to be used are the Melodia Sacra, the new Handel collection, and the Union Glee Book.

Portsmouth, Sept. 19, 1854.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES
BY STEAM

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenes.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1w16

TWENTY-FIVE CENTS.
BOSTON STYLE.

THE kind of pictures that are advertised for Fifty cents, can be had for TWENTY-FIVE CENTS at No. 33 Congress street, opposite the City Hotel.

N. B.—Widows with their "mite" can leave that "mite" at home; all such can have a picture free of charge. sept. 21.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a fine lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, LASTING PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Feduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

THREE DAYS LATER FROM EUROPE.

NEW YORK, Sept. 21.—The British steamship Arabia, Capt. Judkins, from Liverpool 9th inst., arrived here this afternoon, bringing three days later news from Europe and 112 passengers.

WAR NEWS.

The Emperor of Russia has refused the terms proposed by Austria, but will retire behind the Pruth, and there await the course of events, whether they are hostile or peaceable. A special meeting of the Austrian government has decided that this is not to be considered a casus belli against Russia. Consequently Austria will maintain her present position, awaiting the result of the allied armies and fleets upon Sebastopol.

Accounts from Rutschuk of 3d states that all the vessels of the expedition to the Crimea had left Varna on the 3d. It is said that the fleet will consist of 100 steamers, 300 transports, 36 sail of the line, 70,000 troops, and an immense amount of siege and storming material.

The first part of the expedition will include 35,000 French troops, 25,000 English, and 10,000 Turks. Marshal St. Arnaud had issued an order of the day acquainting the troops with the destination of the expedition, dated Varna, Aug. 25. It was for the Crimea; and the duty of the allied forces would be to take Sebastopol as a pledge of peace.

The Duke of Cambridge and Prince Napoleon, against the advice of their physicians, had proceeded to join the expedition. Both were still suffering from fever.

The Russian Embassy at Vienna has received notice that the greater part of the Russian army will have quitted Moldavia on the 20th of September, and the remainder will leave by the beginning of October, unless hostilities should render a fresh concentration necessary.

Georgia has been surprised by Schamyl with 20,000 Circassians. The Russians were defeated and have retired into their fortresses.

Another despatch says that Schamyl had made descent into Georgia, where he destroyed about two hundred villages. Forty Russian ladies were carried off. Gen. Rebute has blown up the fortifications at Bayazid and abandoned the town in order to throw his forces on the points more immediately threatened. Bomarsund has finally been destroyed, and the troops reembarked. There is nothing else of any importance from the Baltic.

General Bodisco, who recently surrendered the fortress of Bomarsund, is a brother of the late Minister at Washington.

SPAIN.—The Madrid correspondent of the London Times charges Mr. Soule, the American Ambassador, with having stimulated the insurrectionary attempt. He began his operations in a few hours after Queen Christina's departure. He had his agents among the barricades, and supplied money.—Mr. Soule has left Madrid for France, and the inference is that he will not return again to his post.

St. Petersburg, Sept. 2.—All the convicts in Poland, except murderers, have been liberated on a promise that they would set fire to any place that the enemy may attack.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronese, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyronees, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtasy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A emedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
So matter of how long standing—and at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 204 Broad way, New York. D TAYLOR, JR., General Agent, Boston.

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Blotches
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach, and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchia affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pains in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
D. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which has been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,
No. 76 State Street, oppo. Kilby street,
Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and withdrawn through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 30 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies and trusts of any patent furnished by remitting one dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success.

I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,
"R. H. Eddy, Esq., Boston, Mass.

"SIR—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Dec 7 1852 codly

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase a Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Cholera Morbus, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

This an English Remedy, and was used by William IV, late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers the warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green st.

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

241 Green street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. H. Preston and J. H. Wells. m21 cod&wly

Dentistry.

FRANK FULLER, DENTIST, CALLS the attention of Citizens and Strangers to his extensive and complete

DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,
materially increased.

The services of a skilful and competent Assistant,

DR. JULIUS GUTTMAN, OF GERMANY,

For some years past in the employ of DR. HITCHCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the FACSIMILE of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, JR., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

Morning Chronicle.

MONDAY, SEPTEMBER 25, 1854.

ONE OF THE SERMONS.

Pope Pia None is to signalize his administration as Pope, by a great Jubilee, Dec. 8, 1854, kept as the feast of the Immaculate Conception; at which time he proposes to communicate to the World, as a dogma of the Church, the doctrine of the Immaculate Conception, which is now generally held by members of the Roman Church, but has not yet passed into a dogma.

Zealous priests are laboring to prepare the people for this new dogma. Among them, Rev. Dr. Cahill has preached a sermon on the subject, a report of which is published in the Pilot. The following extract is a fair specimen of the preaching of the Roman Church at the present day:

Do you not think that She who had the three persons of the Trinity around Her here on earth is worthy of veneration in Heaven? I think there is not in the Sacred text a more beautiful passage than that which says "She is to be ever Blessed in all nations to the end of time." The passage should have ended, "To all nations except England." I am sure that no man should call Her by any other name than the ever Blessed Virgin Mary. Were I to write to a King I would not for my life omit one of those words. After alluding to the protecting power of Mary and relating examples of miracles performed in Her name, he said, "nothing, under Heaven, could induce me to cross the sea without a Scapular of the Blessed Virgin with me; I always carry two, one round my neck, another in my pocket. And, I will tell you what you'll do if you are ever travelling in a railway carriage, and wish to insure yourself against accident.—Take your seat in the third-class carriage, and give the difference between the fare and that of the first or second class to the poor in the name of Mary and she will surely protect you." He then said he never knew any great man in the Catholic Church who was not remarkable for his devotion to the Blessed Virgin, and cited the late Dr. Doyle, of Carlow, as an example. He said, we are now about to convene a Synod of Bishops to declare the Immaculate Conception an Article of faith which it will be a *sacrilege* not to believe. Not because it is a truth of the Scriptures but because the *Church* teaches it as an Article of Faith.

ADMINISTRATION MEETING.

A Washington Despatch of the 22d Sept. says:

The meeting to organize a Democratic association in opposition to the Know Nothings was held this afternoon at Caruse's saloon, agreeably to adjournment on Wednesday night. The hall was crowded to overflowing, and there was a large number outside. Messrs. Florence and Carrigain of Philadelphia and Stanton of Kentucky addressed the meeting, and there was no disturbance beyond the usual interruptions of such promiscuous gatherings. The theme of each speaker was laudation of the Democratic party and bitter denunciation of the Whigs and Know Nothings. It was apparent from the first that the audience was composed three-fourths of opponents to the stated objects of the meeting, and the fact was demonstrated when the regularly organized body dissolved into the formation of a counter meeting of those opposed to the proceedings.

When the meeting dissolved, the opposition moved for the stand, and something of a rush occurred, in the effort to keep them off by some indiscreet sympathizers with the objects of the regular meeting. Order was, however, restored in a few minutes, by Postmaster Barrett stating that the regular meeting was dissolved, and that there was an opportunity for for those to be heard who dissented from the views of the preceding speakers. He was greeted with hearty cheers, and the counter meeting was organized in a quiet and orderly manner.

The meeting was addressed by Capt. Cutters of Kentucky, and Capt. Carrington of Washington, whose remarks were received with much enthusiasm. There appeared to be but little diminution in the number in the hall. After voting to adjourn till next Tuesday evening, the vast crowd quietly retired.

On this occasion there can be no complaint on either side that liberty of speech was abridged in the least. As a demonstration, the efforts of the administration Democracy against the Know Nothings in this quarter must be set down as a complete failure, notwithstanding, the distinguished talent engaged and the favorable auspices which seemed to smile upon it. The great number of government employees present and appointed as officers, gave it the appearance of being an administration movement, and contributed much to its defeat.

There was an error in the notice of the first meeting, in the number stated, arising from the darkness and attendant circumstances, as at the meeting to-day there was not probably more than 1,000 persons present.

FUGITIVE LOST.—Bark Franklin, of Portland, Capt. Cook, which arrived at Bath, Me. on Wednesday, from Jacksonville, Geo. was boarded by a number of the "sturdy friends of freedom" of that place, who had been informed by the Vigilance Committee of Boston that a fugitive slave was on board. The negro, however, had made his escape at Holmes's Hole, where the bark had put in. It is stated that the captain had made every exertion to surrender up the fugitive, by notifying the Custom House officers at Holmes's Hole and the authorities at Jacksonville, and seeking for a U. S. Marshal; but the fugitive, ascertaining what was going on, made his escape.

The United States Revenue Cutter Caleb Cushing was at Bath when the Franklin came in, probably to catch the fugitive; but as he was missing, the voyage was bootless, and the C. C. went elsewhere.

THE MAINE DELEGATION IN THE NEXT CONGRESS.—The Portland State of Maine, in alluding to the Maine delegation in the next Congress, says it may fairly be called Young America, as the list shows a striking preponderance of young men. The Hon. Samuel P. Benson, of the Fourth District, is the senior member in either branch, and he is under 50 years of age. Next to him is Senator Fessenden, who is some years younger.—Messrs. Hamlin, Wood, Perry, and Washburn are of about the same age, and in the neighborhood of 40. Messrs. Knowlton and Milliken are younger still, and both are clergymen—Mr. Knowlton a Free Will Baptist, and Mr. Milliken an Universalist. Mr. Knowlton has had much legislative experience, and was Speaker of the House of Representatives in Maine, in 1846.

It adds,—Mr. Milliken is one of the most accomplished men of the State, but of no political experience. He is held in the highest esteem wherever he is known, as a scholar, a gentleman and a friend.

With the exception of the member elect from the 1st district, who is a business man, and makes no pretensions as a public speaker, our delegation will present an array of speaking talent in Congress beyond what has ever before been known. Messrs. Fessenden and Hamlin in the Senate, and Messrs. Washburn, Benson, Perry and Knowlton of the House, are all of them men trained to political life and public speaking, and we think that in Mr. Milliken, we shall have one of the most attractive speakers that has yet been heard on the floor of Congress.

WOMAN FOUND IN THE WOODS.—A woman upward of fifty years of age, was found about seventy or eighty miles above the mouth of the Oconto river, in the early part of last week. She seems to be partially crazed, and can give no intelligence as to where she belongs. She has probably been wandering in the woods for weeks. She says that her maiden name was Mary Ann Kingsland; that when a child she lived in the city of New York; went from there to Genesee county, where she went to school until she was 18 years old; she there married a man by the name of Crosby, who lived in Canada, who died soon afterward; that she next came to Illinois and married a Mr. James Day, an engineer on an Ohio river steamboat. Up to this point she relates her history very clearly, but all after is confused, and it cannot be ascertained where she belongs or how she came to stray into the woods, except that she has been on Wolf river, and says something about hunting for roots and herbs. It is possible that she has wandered from there to where she was found on the Oconto. It was the intention to bring her here.—*Green Bay Advocate.*

NEW YORK AND NEW HAVEN RAILROAD.—The directors of the New York and New Haven Railroad Company, publish the report which is to be submitted to the meeting of the stockholders on the 3d of October. The report shows that the amount of spurious stock issued by Robert Schuyler is 17,732 shares, or $1,773,200, besides certificates for 1800 shares, ($180,000) conferred without surrendering the original certificates. The whole amount of the fraud comes very near two million dollars. The directors express no opinion as to the assumption of the spurious stock by the company; but their counsel express a decided opinion that the fraudulent certificates are illegal and void, and do not in any way implicate the company.

PHILADELPHIA, Sept. 21.—This morning the Universalist Convention adopted the new Constitution reported by the committee, after striking out the provision requiring its approval by Ten State Conventions before going into effect, instead of which it must be reaffirmed by the next General Convention.

The slavery question was introduced by resolutions from the Business Committee, renewing the opposition to the sin of American slavery, and deploring the violation of the Missouri Compromise by Congress in the passage of the Nebraska bill.

After a spirited debate the resolutions were adopted. After some further business the Convention adjourned to meet next September at Middletown, Conn. The Rev. Mr. Sawyer of New York, was appointed to preach on the occasion.

QUEBEC, Sept. 23.—The Reciprocity Bill passed both Houses last night, and will receive the royal assent to-day. The Governor General will then issue a proclamation declaring the Treaty to be in force, so far as Canada is concered, whenever the President of the United States will take the responsibility of doing the same.

RAILROAD ROBBER CAPTURED.—The police of Philadelphia have succeeded in arresting a negro who for the past year or two has been engaged in stealing trunks, valises and other baggage of travellers, while it was in the cars of the Camden and Amboy Railroad Company. It is estimated that his depredations amount to at least $5000.

SLAVE DEALING IN NEW YORK.—The Journal of Commerce of Friday, states that from additional information obtained by the United States District Attorney in relation to the fitting out of ships for the slave trade, warrants have been issued for the arrest of sundry persons in that city, accused of having been concerned in it.

FLIGHT OF COLORED PEOPLE.—At the late meeting of the North Baptist Association, in Boston, a letter from the Twelfth African Church was read, stating that the Church had lost many of its members, who had fled from the city, alarmed at the return of Anthony Burns into bondage.

In Somerset, Mass., on Thursday night, a new ship on the stocks in the yard of Mr. James M. Hood, of some two thousand tons burden, was destroyed by fire, together with the dwelling house of Mr. Hood. The loss is said to be heavy, estimated at about $60,000. Mr. Hood left Somerset on Thursday afternoon for New York. It is stated that he was building the ship on his own account. The owner was insured. The fire was seen plainly in New Bedford, 18 or 20 miles off.

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Sept. Term.

Friday Sept. 23.—Jere. Mahony, indicted for pedling without license, plead guilty and was sentenced to pay a fine of $15,00 and costs.—He was also indicted for stealing $15,00 from Ami Bean of this city, on the 21st of June last. He was tried on the last named indictment.—The Jury returned the verdict on Saturday morning, acquitting the prisoner. Attorney General for the State. Hackett for the Deft.

Jacob Eliot of Raymond was tried for liquor selling. Verdict, not guilty. Sullivan for State. Wells for Respondent.

Saturday, Sept. 23.—The State *vs.* Edward Kimball, otherwise called Edwin Kimball, a transient person. The Respondent is indicted for an assault on the 18th Sept. upon Joseph P. Morse, of this city, with intent to kill, and was arraigned on Saturday last, and plead not guilty. His counsel, J. S. Wells, Esq. made a motion that his trial be postponed to the adjourned session, Oct. 17. which was granted, and the respondent was required to give bail for his appearance in the sum of six hundred dollars, otherwise to be committed to jail.—He was committed. The wound upon the head of Mr. Morse was inflicted by an iron one pound weight, which, had it struck one or two inches lower, would probably have caused immediate death. Mr. M. has since been confined to his bed, but there now seems to be a favorable prospect of his recovery. According to the evidence, the assault was made without any justification whatever.

Jacob Eliot, of Raymond, was again tried on two other indictments for liquor selling, on which the Jury returned a verdict of not guilty. Mr. Eliot plead guilty on one other indictment of the same nature.

Most of the liquor cases were settled by pleas of guilty, and fines of $20 each and costs. It is obvious that some new light has dawned on this business.

Mrs. Ames, indicted for keeping a disorderly house, was found guilty, and sentenced to six months imprisonment, and to pay a fine of $150.

The flowage case, Bassett *v.* Salisbury Manufacturing Co. which was postponed to allow the jury to view the premises, will be taken up on Monday morning at 10 1-2 o'clock, to which time the Court adjourned.

This will be the only case tried at this term. The Court will hold an extra term in October.

☞ At a meeting of the Young Men's Christian Association on Thursday evening, Sept. 21st, the following list of officers were elected for the ensuing term:

Samuel H. Kingsbury, *President;* Henry Works, David Tooke, *Vice Presidents;* Daniel H. Spinney, jr. *Recording Secretary;* Wm. Seavey, *Corresponding Secretary;* Stephen Lovejoy, *Treasurer;* E. Washington Brown, *Librarian;* John T. Leverton, *Assistant Librarian;* Luther E. Martin, J. Alliston Paul, David S. Webster, Joseph Pettigrew, John H. Lowd, *Directors.*

The Eastern Railroad Company are now erecting a new depot in Beverly; the car house 250 feet in length and 50 feet wide, with passenger rooms projecting eastwardly from the centre 30 by 20 feet. They are also about bringing the track of their Gloucester Branch up to this point, and contemplate ultimately to build an engine house contiguous, so as to provide accommodations for their iron horses in Beverly over night, and thereby avoid the dangerous and inconvenient practice of backing over any of their trains between Salem and Beverly. They are now engaged in removing gravel from their estate in Beverly, to fill up the mill pond bridge in Salem, and while thus putting their bridge in permanent condition, are at the same time bringing the grade of their Beverly premises into such favorable shape as to furnish ample business facilities to themselves and also to the public.—*Salem Register.*

Advanced Singing School,
AND
Musical Convention.
A. PEARSON,
WILL commence a CLASS FOR ADVANCED SINGERS, (or those having some knowledge of music,) in which he will give particular attention to the Development and Cultivation of the Voice, Formation of Tone, Style in Singing, &c.,
AT EXCHANGE HALL,
No. 4 Exchange Buildings, Portsmouth, N. H.,
On Monday Evening, Oct. 2,
at 7 o'clock.
The Term will consist of 24 lessons, on two evenings of each week.
In connection with this Class, at the close of the Term, there will be held a public
Musical Convention,
at some large hall in Portsmouth,—to continue four days,—under the direction of
Prof. B. F. BAKER, of Boston,
TICKETS for membership to the Class and Convention—including the use of three descriptions of Books—$1.50; to be had of W. R. Preston, James H. Head, and at Mr. P.'s room, No. 4 Exchange Buildings.
The Books to be used are the Melodia Sacra, the new Handel collection, and the Union Glee Book.
Portsmouth, Sept. 19, 1854.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.
P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.
TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.
All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.
A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.
ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."
Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already stilling *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES Please observe that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Feduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

THE SANDWICH ISLANDS—TERMS OF ANNEXATION.—Notwithstanding the contradictory rumors in regard to the treaty for the annexation of the Sandwich Islands to the United States, there is no reasonable doubt not only that a treaty provided for annexation has been agreed upon, but that it is now in this country, for the sanction of the general government. It was a matter of notoriety at the time, that Mr. Gregg, the U. S. Commissioner at the Islands, was sent out with full powers to agree upon a treaty.

Mr. Gregg, as is well known at Washington has been indefatigable in prosecuting the duties of his mission. He met with obstacles at the outset from the fact that he was a (Roman) Catholic—an almost unpardonable offence in the estimation of the present ruler of the Island. But this obstacle was overcome; and Mr. G. soon found his propositions received with marked favor by nearly all, except the heir apparent, and a few of his immediate friends and partizans. It is believed that at least four-fifths of the natives and nearly as large a proportion of the foreign residents are in favor of the measure.

We learn from well informed sources at Washington that the terms of the treaty are substantially as follows:—

The islands are to be at once admitted into the Union, not as a territory but as a state—with full state sovereign powers. In consideration of this surrender of their national sovereignty, the United States, besides agreeing to respect all existing charters, land titles, &c. are to pay some $300,000 or $400,000 annually as life annuities to such persons as the sovereign authorities shall designate.

It is believed that the number who will be declared entitled to a share in this annuity, will not exceed thirty individuals, including the King, his two sons, and the members of the House of Nobles, all of whom are now rich, and constitute the great land-holders of the kingdom. Their ages will average about 40 years; and the sum to be paid to each will cease to be a debt upon the United States government at their death.

Beside the sovereignty of the islands, all the government property—including buildings, claims upon foreign governments, &c.—will, it is understood, be transferred to the United States government by this treaty. The value of these buildings alone is said to exceed $1,500,000, and the claims upon the British and French governments amount to about $500,00 more; making an aggregate of $2,000,000.—*Albany Evening Journal of the 20th inst.*

NEW YORK, Sept. 22.—In the King's County Court of Sessions, yesterday, the persons convicted of rioting on Sunday, June 4, were brought up for sentence. Ten of them were sent to the penitentiary for terms ranging from one year to ten days; and another of the culprits, upon whose person a slung shot was found, was sent to the State Prison for one year. The prisoners were of a party that attacked a procession of Native Americans in Brooklyn at the time above mentioned.

In accordance with the call of a large number of the stockholders of the New York and New Haven Railroad, living in Connecticut, a meeting was held last evening in Metropolitan Hall, for the consideration of such matters as the interests of all may require. There were about one hundred gentlemen present. Col. Dwight Morris of Bridgeport, was elected President. The meeting was preliminary to one to be held on the 3d of October. A series of resolutions were adopted, calling on the Directors to resign, and appointing a committee of investigation into the affairs of the company, to report at an adjourned meeting to be held at New Haven. Another resolution was passed recommending the Board of Directors to offer a reward of $5000 for the arrest and delivery to the proper authorities of Robert Schuyler.

NEW YORK, Sept. 23.—It appears that immediately after the discovery of the Schuyler frauds, criminal charges were preferred against Schuyler, before Judge Stuart, who, after a full investigation, decided to deliver warrants for his arrest on the charge of forgery. An active search was immediately instituted for the absconder in almost every State in the Union, as well as in Canada, but without any success; and a copy of the warrant for his apprehension is published in the papers of this morning, that it may be more generally known that he is a fugitive from justice from this State.

The anniversary of the declaration of the French Republic in 1792, was celebrated yesterday by some of the French residents of our city, among whom was M. Marc Caussidiere, the Prefect of Police in Paris in 1848. The celebrants proceeded on an excursion to Staten Island, and as their steamer passed the two French vessels of war at anchor off the Battery, some of the republicans saluted them with "*Vive la Republique Francaise!*" "*A bas Napoleon!*" accompanying them with threatening gestures, but no notice was taken of these insults.

Grisi and Mario are announced to appear in the opera of "I Puritani," on Monday night. A new baritone, Signor Culuri, makes his first appearance.

Several officers of the French vessels of war visited the Navy Yard yesterday, and were received with a salute of nine guns from the North Carolina.

The sailing of the razee Independence for the Pacific Ocean is delayed in consequence of the desertions from her crew.

On Wednesday morning the prisoners who had been sent home from the Brazil squadron for mutinous conduct on board the frigate Savannah, escaped from the yard. They effected their object by throwing quicklime into the eyes of the sentinel at the guard house, and it is feared that his sight will be entirely destroyed in consequence. One of them, named Williams, had been sentenced to wear a chain and ball for one year, and the other to wear single irons for six months. The latter was captured, but the one who threw the lime escaped.

Rev. Dr. Lewis was very ill at his residence in this city, and his physicians have abandoned all hopes of his recovery.

Gen. Paxhains, whose name is so well known in connection with the artillery and the bullets named after him, died on the 19th ult., after a short illness at his estate of Jouy-aux-Arches, near Metz, at the age of 72.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A emady of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 204 Broadway, New York. D Taylor, Jr., General Agent, Boston. d6 2awlw f18

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. Kelley, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth.
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all the gloomy feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Gravel, it is the most wonderfully unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory, and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

Price 25 Cents a Bottle.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchia affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

Price 50 Cents a Bottle.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

Price 25, 37½ and 50 Cents a Bottle.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time bestowing the most unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

Caution.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "Herts, Brothers' Patent, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jewry street, Aldgate, London, and of*

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
F. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown in the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name Jas. Swaim stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive benefit of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, opp. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered by inventors by others, has made arrangements, whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be permitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 30 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries: besides being saved a journey to Washington, the usual great delay there, as well as all the trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ———.

"R. H. EDDY, Esq., Boston, Mass.

"SIR—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston Dec 7 1853. eodly

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea-Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Sprains, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV, late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers it warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's office, 240 Green St. Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

Sold by all druggists in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. m21 eod&w1y

FOR SALE & WARRANTED PURE.

We have constantly on hand, (and for sale) of our own manufacture—Candles, Tallow, Hard Soaps and Fancy Soaps, and Soap Stock. m21

Dentistry.

FRANK FULLER, DENTIST, CALLS the attention of Citizens and Strangers to his extensive and complete

DENTAL ESTABLISHMENT,

No. 60 Congress Street,

PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,

materially increased.

The services of a skilful and competent Assistant,

DR. JULIUS GUTTMAN, OF GERMANY,

For some years past in the employ of Dr. Hircock, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and serviceable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, J. D. GALE, J. H. LANE, *Principal Examiners.*

T. R. PEALE, THOS. H. EVERETT, F. SOUTHGATE SMITH, WM. CHAUNCY LANGDON, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF

DR. S. O. RICHARDSON'S

Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—O. H. MORTON, Jr., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

Morning Chronicle.

TUESDAY, SEPTEMBER 26, 1854.

CHRISTIANITY.

A writer, styling himself "A Layman," has published a Review of Rev. O. B. Frothingham's Sermon, delivered in Salem last June. Mr. Frothingham preached from the text, "A new commandment—love one another:" and directed his argument against slavery and slave-catching.

A layman thinks he ought not to preach so, and argues as follows:

To be a christian, to cultivate christian virtues and christian consolations, to live in the faith of Christ and die in the embrace of his love, should be the highest aspirations of the soul. Compared with these things on christian principles everything else is but dust in the balance.

Now a state of slavery is as compatible with these attainments as a state of freedom; and judging from some facts, we do not know but that a state of slavery is more conducive to those christian graces than a state of freedom. In the beatitudes pronounced by Christ, the poor, the meek, the humble, the lowly, the oppressed, the persecuted are especially blessed: while not a single blessing is pronounced upon the great, the free, the independent, the rich and the wise. These latter would seem not to need these blessings, or not to deserve them; their worldly prosperity and condition not being conducive to the growth of these higher and purer christian graces. In this respect we are struck with wonder and admiration in reading that most popular book of the day *Uncle Tom's Cabin*. Black and terrible as the picture of slavery is there drawn, the talented authoress, either consciously or unconsciously, has woven into it a color that relieves the system of half its horrors, by showing that a living faith in the Lord Jesus Christ can not only make slavery tolerable, but can even make it conducive to the highest cultivation and exhibition of every christian grace and joy. Go, thou political christianizer of christianity and study the life of Uncle Tom, a slave, suffering all the evils of the system, torn from the family he loved, sold to a fiend for a master, scourged, flayed alive, and suffering death itself through lingering tortures, yet manifesting in all that exultation, yea *that exultation*, of faith, and hope, and joy, in his blessed Lord and Savior Jesus Christ. What devout christian would not if necessary be a slave and suffer with Uncle Tom if he could enjoy with him the power of faith and consolation in Christ?

We think we understand this reasoning, and feel the full force of it. We have no doubt that a slave, a prisoner, a pauper, or a man in the last stages of consumption, may be a bright and heavenly minded Christian. But we never dreamed of plunging voluntarily into any of these conditions, in order to promote our christian growth and brilliancy.—And still less can we imagine that we have the right to enslave our neighbor, cheat him out of his property and make him poor, or work him into a consumption—in order thus to promote his spiritual improvement and growth in grace.

It seems to us that A Layman's argument proves either a trifle too little, or a trifle too much for his purpose. It may be stated in these words:

1, Uncle Tom was a rare Christian: 2, his Christianity grew and shone in a state of horrible slavery: therefore, 3dly, Mr. Frothingham ought not to preach against the institution.

An argument precisely parallel may be drawn from the history of Israel, thus:

1, The Nation of Israel while in Egypt, multiplied and grew: 2, The more Pharaoh oppressed them the more rapidly they increased: therefore 3dly, Moses ought not to have made such a fuss about it.

NATURALIZATION.—The Know Nothing movement has had a tendency to make our foreign population more alert and watchful. The Irish in particular, are extremely busy in getting out naturalization papers, and their vote in the State will be much larger than it has hitherto been. A gentleman in Lowell, (Mr. Molloy) gives notice in the Pilot that he is ready to attend to the wants of those recently arrived, who may wish to become voters. He adds, that "in view of the recent demonstrations in other cities and towns in Massachusetts, and elsewhere, it is time for every Irishman who lands on these shores, not to lose a single day, but to become a citizen. We ought to have a vote in the election of the officers by whom we are to be governed; and to have a vote we must be naturalized. The time may come when the privilege of becoming a citizen after the lapse of five years, may be far away from every one of us."

This is not a vain warning. It is possible, (we can hardly say probable,) that the Naturalization Laws will be repealed. There is really less objection in the public mind, to this movement, than we could have supposed, five years ago, was possible. It would not disfranchise one man who is now a voter; nor would it stop one of those who had declared their intentions, previous to the passage of the repeal bill, from becoming a citizen.—Only a small portion of our present naturalized voters feel opposed to it,—and those the least valuable.

QUEBEC, Sept. 23.—The 71st regiment has been withdrawn from Canada, and embarked to-day for Liverpool. It will not be replaced by other troops. Other troops will soon follow.

The royal assent was to-day given to the reciprocity bill.

KING'S CHAPEL, BOSTON.—This noble and massive structure, the *third* in antiquity among our churches, rounded its century just a month ago. The corner stone was laid with an imposing ceremonial, in the presence and with the helping hand of Gov. Shirley, August 11th, 1749; the dedication service, by Rev. Henry Caner, was performed in August, 1754, (not the same day, but some ten days later in the month.) In the eyes of that generation, it seemed as huge an undertaking, doubtless, as, in the eyes of the present, was that of the New York Trinity a few years since; its full completion, if we do not mistake, occupied a period as long. The pleasant and graceful historiographer writes—

"They proceeded but slowly with their labor. Granite was not then the manageable material that it is now."

There was a hindrance indeed more serious than that: the heavy cost involved (eventually £7405) and the slowly collected tribute from their friends beyond the sea. Of the material, we may well suppose, it was the earliest specimen in the town; likely enough, by a third of a century or little less; and making everything in sight, look ephemeral and fragile in the contrast.

The present organ followed in about two years, the new church; having had, before its selection, the approving judgment of Handel himself. This was the tradition at least; and Mr. Greenwood shows, plausibly enough, in what sense this might be taken and be true.—And in 1772 was obtained the bell; the only one, probably, from that tower which any one of our living population ever heard. Both these accompaniments, worthy of such an edifice, were obtained from nowhere short of the fountain head—the capital of the father land—the seat of majesty and of the primacy, to which their twofold allegiance was paid. All this was in the spirit of the church, in which they gloried. Christ church at Cambridge went as far as the land of "His Holiness" and of Michael Angelo, to find in a little Italian chapel, that so long admired model, which beholders still feel to be uneclipsed; while after the pattern *at home*, it adopted parchment for its records and registers, in use down to this day. As to King's Chapel, those chiefly concerned, we may be sure, would not have dreamed of seeking from any meaner quarter than the old English soil for artificers of either instrument of sound, that without or that within.—*Boston Transcript.*

This is all interesting and true, as to the building; but the allegiance to "majesty and the primacy" all departed long ago. The liturgy remains, but that is expurgated to suit the Unitarian theology. And instead of Episcopacy, the most entire Independency prevails as the form of government.

A MORMON CUSTOMER.—The Sun of this morning states that a few days since a man of very prepossessing exterior, hailing from the Mormon region of Salt Lake, whilst returning from New York to Baltimore, fell in company with a member of the firm of John Cushing & Co., to whom he represented himself as an extensive merchant, with plenty of the rocks in his pocket. Upon reaching Baltimore, Mr. McIntosh, of the Howard House, gave him tip top accommodations on the recommendation of Mr. John Cushing, whilst Mr. Joseph Whitney, of the firm, sold him a large bill. The individual also visited the stores in the vicinity quite generally, made purchases, had an immense number of large boxes packed with goods, marked and turned out ready for shipment, and in the meantime was being treated like a lord, lining his caput with all the delicacies of the Howard, and at the same time was supplied with tickets for all the amusements. When the bills were made out, however, and the hour for payment arrived, the Salt Lake man was leaving the Monumental City on the fastest express train. It was a perfect sell.—*Baltimore Patriot, Wed.*

NEW FASHION.—There is a new thing under the sun. The gentlemen's beavers this Fall have the brims set underneath, with *white* fur, instead of black. The effect is very startling, for it gives you the idea that every man you meet has either been born with lint white locks, or has grown prematurely grey. Fitzboodle says it looks as if a man were two hats, Jew-Costermonger fashion, instead of one. It is a curious fashion, and a new one.—*N. Y. Times.*

HOW TO JOIN THE KNOW NOTHINGS.—The Amesbury Villager tells a good story of an exceedingly anxious individual, who was most crazy to obtain some account of the Know Nothings. He was told by a wag one day last week, that if he would come out to ———, that night at ten o'clock, and advance fourteen paces into the barn, he would there find a party to initiate him in due form into the mysterious order. The proposition "took," and he accordingly went to the place at the time appointed; he had scarcely entered, however, when he was saluted with a most unceremonious "grip," in the rear, which caused him to vacate the premises in quick time, leaving a part of his binder garments in the teeth of a careful watch dog, whose owner had given him the euphonious title of Know Nothing.

WHICH PARTY IS AHEAD.—The whig papers are crowing loudly at the defeat of the democracy in Maine, while the democratic sheets announce the complete annihilation of the whig party. Will the Journal of *any* party in Maine inform us which party is ahead? Isn't there a little of the Young America visible in some parts of Maine?—*Great Falls Journal.*

WANT OF EMPLOYMENT.—We have seldom seen the time when there were more men and boys out of employment than just now. We have just had occasion to advertise for two or three persons, and the responses have been numberless.—*New York Express.*

This is the sure premonitory symptom of a decline in wages.

MEASURES AND MEN.—It appears that, owing to the prevalence of the cholera in the fleet, every seaman is to be supplied with an extra quantity of spirits. The compromise between British ardor and Jamaica rum will no doubt meet with universal satisfaction, as by that means every Jack will be enabled to *have his Gill.*

LOCAL.

For the Chronicle.

PLEA FOR TEMPERANCE.

"Am I my brother's keeper?" was the inquiry of the first murderer. And the same spirit and principles have, from that time to the present, governed all those who are seeking their own personal gratification at the expense of their neighbor's welfare—all those who are willing to countenance and sustain the wrong position for the sake of popularity or patronage. Now what is it but this same selfish spirit that continues the rum traffic, with its long, dark catalogue of crimes and miseries, in this city? Here we are too, in close proximity to communities which are trying to rid themselves of the evils of intemperance. What is our position towards *them?* Are we not robbing many a household of its security and its peace, and throwing the pall of gloom and despair over the brightening hopes of many a faithful woman's heart? I appeal to the honest, intelligent convictions of the citizens of Portsmouth. Are we not doing this while we furnish from our fifty grog shops the means of self destruction to those who are dearer than life to these broken hearted wives and mothers and daughters and sisters? Verily we *are* guilty concerning our brother.

One prolific source of evil in this community at the present time, causing deep anxiety among the true friends of the temperance reform, is the frequency with which intoxicating drinks are introduced at our launchings, levees, and other social gatherings. But this is not, by any means, the worst of the case.—Were such Babylonish usages confined to those who make no professions of sympathy with their fellow men, the injury to the community would be comparatively slight. But when we see such practices unrebuked in the presence of woman—in the presence of our clergymen—and that too when our children are guests with us at these festivities, we feel that the very stones should cry out against such abominations. When shall we learn that the proper place to preach effectually against such evil practices is *on the spot?* It really seems to some of us, injudicious though it may be regarded by caterers for popularity, that all who love their race and desire to advance the best interests of the community, should rebuke the evil spirit whenever and wherever it shows itself—either by a dignified and manly withdrawal from all participation in such scenes, or by an earnest out-spoken remonstrance against the enormity.

But we are not discouraged. There are those even in Portsmouth who will not bow the knee to Baal. A few names even here who have not defiled their garments; and the time will come when ramsellers and wine bibbers will be alike regarded as enemies to the best interests of the community, and those who withhold the merited rebuke as aiders and abettors in the wrong. J.

STATE FAIR.—The Annual Fair of the N. H. Agricultural Society will be held at Keene, in Cheshire County, to commence one week from to-day, and continue three days. From the promise held out at the Rockingham and other County Fairs, the display of produce and fruits will equal that of any previous year, notwithstanding the severe drought.—The rains in the early part of September, in many places, brought up the corn and potatoes, so that the prospect now is, that in the staple productions of the State a considerable crop will be harvested, much nearer the usual average than was expected.

Every one that can should attend this Fair, for which extensive preparations have been made. The citizens of Keene are ready to receive any number of visiters. The most direct route is to Boston over the Eastern Railroad—thence to Keene on the Fitchburgh Road.

HUSKING FROLIC.—A "Husking" is one of the things you read of, but which seldom take place in these parts, now-a-days. A few jovial, convivial spirits, however, are to be found in almost every town, who keep up this time honored custom of mingling a little innocent amusement with their labor. We attended one of these gatherings a few evenings since, by invitation of our friend F., at his farm in Kittery. About one hundred were present. It was one of the real old fashioned kind;—the corn was husked and traced amid the customary accompaniments, the company partook of an excellent supper, and when we left, which was not very early, some of them were talking of having a dance. T.

A NEW TEACHER.—Our advertising columns contain the notice of a new private school, shortly to be opened in this city by Mr. James B. Kendall, whose letters of reference may be seen at Mr. Foster's Bookstore. These testimonials we have seen, on examination, to be quite ample, both as to qualification and character; and they come from the highest literary and professional sources.

LAUNCH.—A fine ship of 800 tons burthen, will be launched from the yard of Messrs. Tobey & Littlefield, this day at 3 1-2 o'clock. She is to be called the Ocean Rover, and will be commanded by Capt. M. F. Pickering.

A FORMIDABLE DOCUMENT.—There is a law in New Hampshire providing that no child under the age of fifteen years shall be employed to labor in any manufacturing establishment, unless such child shall have attended a day school during twelve weeks of the previous year; and children under twelve years of age must have attended school six months, or as long as the District school is kept. The Concord Patriot says that Messrs. H. H., J. S. & D. A. Brown, operators of the Penacook Manufacturing Company, at Fisherville, were last week brought before the Police Court in Concord, to answer to a printed complaint thirty eight feet in length, and containing some seventy five separate counts, charging them with employing in their mills seventy five children under the ages of twelve and fifteen years, who had not attended school according to this statute. The penalty in each case is $50, making an aggregate of $3750, all of which, upon conviction, goes to the complainant. The respondents, who declare that they were ignorant of the existence of such a statute, were held to answer at the next term of the Court of Common Pleas.

FROM CALIFORNIA.

NEW YORK, Sept. 25.

The steamship Prometheus, with San Francisco dates to Sept. 1, arrived at about 12 1-2 o'clock. She brings $1,000,000 on freight, and 361 passengers.

Political affairs are the chief theme of the California papers. The State and municipal nominations were complete, there being three tickets in each case.

The mining news is very cheering, altho' scarcity of water retarded operations somewhat in certain localities.

Two men, foreigners, detected in disposing of stolen cattle at San Antonio, were dragged out of the prison where they had been confined, and hung to the nearest tree without any trial whatever.

Three towns, Kokelumme Hill, Camposece, and St Louis have been burnt. Total loss $800,000.

Emigrants were pouring in rapidly by way of the Plains. Chinese were also arriving in great numbers—no less than 2400 in the fortnight.

W. B. Atkins charged with the murder of W. S. Way, of Boston, has been discharged, the Grand Jury failing to find a bill against him.

A negro has been arrested in Toulomne as a fugitive slave of Mr. Tucker, of Arkansas. He claims to have purchased his freedom several years since.

Two tribes of Digger Indians had had a pitched battle on the 23d at American Flats, El Dorado county. At last accounts five warriors had been killed, and many wounded. The fight was still going on.

LATER FROM CALIFORNIA.

NEW ORLEANS, Sept, 23.—The steamship United States has arrived at this port from Aspinwall, with the California mails and dates to Sept. 1. She reports that steamship George Law was to have sailed from Aspinwall 27th inst. for New York, with the California mails and $1,900,000 in specie on freight.

The California news is unimportant.

Acapulco dates to Sept. 5 come to hand by this arrival.

Alvarez is reported to have entered the city of Uyutta, and was pushing toward through the Guerrier, intending to march upon the city of Mexico. The insurgents had had two unsuccessful engagements with the government troops, who were retiring on the city of Mexico.

New York, Sept. 23.—THE MAYOR OF NEW YORK INDICTED.—The Grand Jury have found two bills of indictment against the Mayor of this city, in one of which he was jointly indicted with a councilman of the eighth ward for granting a license to a female who was not a citizen. In the other case, he has been jointly indicted with a councilmen of the seventh ward for licensing an improper person.

The Grand Jury have found a large number of bills against sundry persons in this city for selling liquor without license.

MORTALITY OF NEW YORK.—The mortality the past week has been 625 deaths, including 86 from cholera.

The total number of deaths for the week were 697, a decrease of 84 from the previous week. There were 86 from cholera, showing a decrease of 40.

The weather here continues good for the season, and unusually pleasant.

NEW YORK, Sept. 24.—John P. Ware, an extensive clothier in Chatham street and Broadway, hung himself to-day, owing to a depression of mind caused by a failure in a California speculation. He leaves a wife and several children.

A boat belonging to the French frigate Penelope, manned by eight men, was upset yesterday afternoon by the steamer Wyoming. Seven of the men were rescued by the steamer, but the other is missing.

BUFFALO, Sept. 23.—*Collision.*—Early this morning the steamer Northern Indiana ran into the propeller Oliver Cromwell, twenty miles below the Detroit road, sinking the propeller instantly. No lives were lost. She was loaded with wheat, and now lies in 12 feet water.

The orders for umbrellas, in Burmingham, Eng., are now immense, many thousand being needed to accompany the troops to the warm climate of the East. Fancy something as terrible, not as "an army with banners," but an army with umbrellas, if possible.

QUEER NEIGHBORS.—The New York Tribune publishes a list of popular lecturers, in which the name of the Rev. Dr. Potter, Episcopal Bishop of Pennsylvania, is placed between those of Lucy Stone and the *Rev.* Antoinette L. Brown!

A party of belated gentlemen about a certain hour began to think of home, and their wives' displeasure, and urged a departure. "Never mind," said one of the guests, "fifteen minutes now will make no difference; my wife is as mad now as she can be."

A letter from Boulogne says "Some persons in England would have been shocked to have heard as they might have heard, a polka and variations from *Robert the Devil* played during high mass. The mass was chanted in Latin, and some verses were sung by the men composing the bands."

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes

AT

SALEN'S

DAGUERRIAN GALLERY,

No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES

BY STEAM.

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability we have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtonteteromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!

OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Pedduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

s9 J. P. BARTLETT, Agent.

Hartford Fire Insurance Company.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says—

"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.

By order of the Board of Directors—

H. HUNTINGDON, Pres."

YOUNG AMERICA.

☞ The progress of this country in all that concerns the ingenuity of the people is yet without a parallel in the known history in any other part of the world. Young America! Beautiful progressive appellation! Young America, with its railroad travel, steamboat competition, balloon exploits, express wonders, and all kinds of travel, progress and reform, not excepting that

METEOR FLASH!

across the sky of the medical world, in the shape of the wonderful effective, and no mistake

WORM SYRUP!

Invented by DR. SWAYNE, of 120 North Second Street, Philadelphia, Pa. another testimony in favor of Young America.

For sale by F. B. SLATER, & CO. No. 3 Tremont Temple, Boston, Wholesale Agents for New England.

Over 10,000 Boxes sold in 5 Months.

" " No. 3—Camilla "	75 00

THE LAMPLIGHTER, 65,000 Published in 5 Months.

TO THE AFFLICTED.

From the New-England Directory.

THE great virtues of Botanical remedies have in all ages, been universally approved and acknowledged, but it remained for the Chinese to discover a never-failing remedy, not only to cure disease, but to render the face young and blooming, and lengthen the life of man. Such are the benefits derived from the use of the celebrated "COMPOUND ESSENCE OF CHINA ROOT," prepared by Dr. F. MORRILL, No. 15 Howard st. This invaluable article is composed of thirteen vegetable ingredients, and as we have tested its qualities, do bear willing testimony to its being all that Dr. M. claims for it as a nourishing and invigorating remedy for a debilitated and worn-out system. Try it. See Herald and Bee, Boston.

PIANO FORTES TO LET!

THE subscriber has at all times a large number of PIANO FORTES, MELODIANS, SERAPHINES and PARLOR ORGANS, For Sale or to Let, to persons residing in this city or at a distance. Persons hiring, who may conclude to purchase within the year, will receive a deduction of rent. OLIVER DITSON, Music Publisher.
115 Washington street.

THE NUTRITIVE CURE.

THE attention of invalids is earnestly invited to LA ROY SUNDERLAND'S Pamphlet of Information respecting his NEW METHOD of cure by Nutrition without Drugs, Boston Mass. sent by mail for one dime prepaid. Every form of Disease, especially of the Stomach, Liver, Heart, Lungs, Bowels, "Impurities of the Blood" and "Nervous Complaints," radically cured without a particle of medicine! Mr. Sunderland advocates the love of *Nurses* and prescribes for the *Deaf, the Lame, the Blind;* he has patients in every part of the country, among whom are gentlemen of the Medical Profession, who have themselves successfully adopted the New System of Practice.

Important Notice.

DR. SPEAR'S WOMAN'S FRIEND is unquestionably the only remedy ever discovered for that distressing complaint, Falling of the womb, obviating all necessity of resorting to instruments. It is put up in packages, and can be sent to any part of the world. Thousands are suffering from pressing down pains, pain in the groin and across the hips and small of the back—also very low down the back, with heat and scalding of the water, with some affection of the liver, great weakness and prostration of strength, nervous debility, &c. Much exercise, walking, standing, riding or lifting, greatly increase the above symptoms. In advanced stages of the disease the sufferer is deprived of all exercise, and is obliged to be confined to the house, sometimes to her bed. These are the symptoms of this complaint, all of which can be radically cured by the use of this extraordinary medicine. Price $3 per Package.

Dr. Spear's Golden Bitters.

This valuable and popular specific stands unrivalled for the cure of Female Weaknesses, Nervousness, Barrenness, Fluor Albus, &c. In common cases of weakness in the stomach, in male or female, they form an invaluable remedy. If these Bitters were appreciated as their virtues demand, they would find their way into every family.—They are compounded especially for those complaints which often form the prelude to many others of a more serious character—such as excessive Nervousness, Prostration of Strength, Bloating of the Bowels, Dropsy, Consumption, Palpitation of the Heart, Scrofula, Cancer in the Womb, Pressing Down of the Bowels, &c. Price $1 per Package, or six Packages for $5.

E. D. SPEAR, the celebrated Indian Doctor, 18 *Enceland* st, Boston, may be consulted at his office, or by letter, upon all diseases which afflict humanity, free of charge. Dr. S. invites those who are pronounced incurable to consult him, as he believes that in many cases he will be able to restore them to health.

All letters strictly attended to, and answered promptly.

FIFTEENTH ANNUAL RE-OPENING
—OF—
Comer's Commercial College,
NO. 139 WASHINGTON STREET, BOSTON.

THIS well known establishment will be open for DAY AND EVENING STUDIES, the coming season, on and after MONDAY, Sept. 4.

E. L. SMITH,
SIGN, BANNER AND ORNAMENTAL PAINTER—32 Washington street, Boston.
Apothecary's Ware LETTERED in the neatest manner. All orders punctually attended to.

DR. IRA WARREN'S

COMPOUND OF
PURE COD LIVER OIL, LIME AND SUGAR OF MILK.

THE great value of Cod Liver Oil as a medicine in Consumption is now generally admitted. It promotes assimilation, the primal defect in this disease, by initiating the growth of cells—the cell resulting, according to Dr. Burnett, from the union of a minute particle of oil with albumen, under the quickening force of vitality. The PHOSPHATE OF LIME has been proved to promote the same great end throughout both the vegetable and the animal world.

THE SUGAR OF MILK, manufactured from the whey of goat's milk, being a supporter of respiration of weak lungs, and having a powerful affinity for oxygen, greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil, and supplying a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in TRACHEAL AND LUNG DISEASES, I resort directly to the fountain for a pure oil. The excellence of this combination will be at once appreciated by my professional brethren, and a trial of it will commend it to the people generally.

BURR & PERRY are my wholesale and retail Agents for the United States and British Provinces, to whom all orders should be addressed.

IRA WARREN, M. D.
No. 1 Winter place, Boston.

New Music Books,

For Singing Schools, Choirs, &c.

J. F. SHORES, Jr., No. 1 Congress Block, has just received

THE CHIME: an extensive collection of new and Old Tunes, consisting of arrangements from the old masters, and modern European Writers; gems from the continental school, with valuable selections (kindly permitted) from living American composers; also, a variety of new pieces by the author, with some of the choicest productions from his former publications. Including also, a MELODEON INSTRUCTOR, by the use of which, a knowledge of all instruments of the Organ kind may be easily acquired. By Virgin Gerydon Taylor, author of "Golden Lyre, &c.

THE HALLELUJAH: a book for the service of Song in the House of the Lord; containing Tunes, Chants and Anthems, both for the Choir and the Congregation, to which is added THE SACRED SCHOOL; a manual for classes in Vocal music, with exercises, rounds and part songs, for Choir practice; also, Musical Notations in a Nut Shell, &c. By Lowell Mason. Teachers and others are invited to call and examine these books.

j19

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyrenees, Lisbon, Siena and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

j23 G. N. CARLETON, 15 Daniel st.

Dentistry.

FRANK FULLER, DENTIST, CALLS the attention of Citizens and Strangers to his extensive and complete

DENTAL ESTABLISHMENT,

No. 60 Congress Street,

PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,

materially increased.

The services of a skilful and competent Assistant,

DR. JULIUS GUTTMAN, OF GERMANY,

For some years past in the employ of Dr. HAYDCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

REFERENCES—Hon. Nathaniel B. Baker, Governor of N. H.; Hon. Noah Martin, Ex-Governor of N. H.; Ichabod Goodwin, Esq., Portsmouth; Hon. Richard Jenness, Portsmouth; Hon. Geo. W. Kittredge, M. C.

m21

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE,

"R. H. EDDY, Esq., Boston, Mass.

"SIR.—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Boston, Dec 7, 1853. eodly

Morning Chronicle.

WEDNESDAY, SEPTEMBER 27, 1854.

GOOD HUMOR.

The Augusta Age is a well conducted, able paper of the democratic party in Maine. It was not remarkably fond of the Nebraska bill, but has supported Mr. Parris for Governor, and the regular ticket generally, during the late canvass. The Age of last week contains the following reflections, among others, on the late elections and other political events.

Two years ago the democratic party was in the hey-day of prosperity. Now it is every where experiencing reverses. Whatever may have been the cause of this sudden and overwhelming change, our own duties to the democratic party remain the same. We are members of the same political family. Our duty binds us to promote its prosperity, and our good sense enjoins us to keep its secrets. If a *blunder* has been committed, let us repair its damages as fully and speedily as possible. If a *fool* is born into the family, it is perhaps more of a misfortune than a fault—yet we have got to bear the affliction, and we help nothing by blazing our misfortune before the world. Let us keep him in doors, and out of sight as much as possible. The establishment of "*a great principle*" is no doubt a very fine thing if the times are ripe for the movement, but if prematurely ushered into the world, a few such experiments would prove the death of the unhappy authors of the undertaking.—There are many beautiful theories in the world, but *honesty and fair dealing* must ever take precedence of them all.

We have marked a few words in *italics*, for definition. By the blunder the Age means the Nebraska bill; by the great principle it means squatter sovereignty; by honesty, the keeping of promises and compromises;—but we do not know exactly what fool the Age refers to, as being recently born into the family. There we are puzzled. Who can help us?

EDITORIAL CHANGE.—Mr. Charles Holden, one of the editors of the Eastern Argus, retires from that paper, and is succeeded by Hon. John Appleton.

It has been, under the former, an able and successful democratic paper. The new editor announces his creed as follows:

Not to govern too much; to take no power needlessly from the people; to construe the Constitution strictly; to support the State governments in their just rights, as the most competent administration of our domestic concerns, and the safest bulwark against anti-Republican tendencies; free religion; free instruction; free speech; freedom of the press; freedom of the person under the *habeas corpus;* trial by jury; the arraignment of all abuses before the bar of public reason; frugality in expense; equal and exact justice to all nations, entangling alliances with none;—these are some of the grand features.

To all these items we add a hearty Amen; and hope the Argus will adhere to them strictly.

RECIPROCITY TREATY.

Canada has already acted promptly and well. It is now to be acted upon by the Legislatures of New Brunswick, Nova Scotia, and Prince Edward's, and probably within a month from this time we may have the result. We should judge from the tone of the New Brunswick papers that there can be but little doubt the more eastern Provinces will follow Canada, and ratify.

The Boston Traveller of Saturday evening has the following extract from a letter from Hon. George Coles, Colonial Secretary of Prince Edward's Island, a firm friend of reciprocity, and through whose influence the treaty will no doubt be promptly accepted by that government, to a mercantile house in Boston:

"The Treaty will, I hope, be in operation this Fall, as our Legislature is called to meet on the 26th inst., so as to give effect to it so far as our Island is concerned; and, in the mean time, the Government here has given orders to all concerned, not to molest the American fishermen, even if they should be found fishing within the three miles prescribed by the former treaty; and I hope the American Government will admit our produce duty free this Fall.

We have a law now on our statute book, allowing all articles therein named—the same articles as are named in the Treaty—the growth and production of the United States, to be imported into this Island duty free, provided the like articles are admitted into the United States free of duty. Our crops are better this Fall than they have been for years; and up to this time the potatoes are free from rot, and I am in hopes will entirely escape."

We see it strongly urged that our Government should immediately give directions to collectors not to exact duties on the articles named in the treaty, and that duties have been paid in several cases under protest, with the expectation that they will be remitted.

QUINCE TREES AND BORERS.—Those little pests of the quince tree, the borer, it is said may be kept out of a young tree, or killed, if they have got in, by first washing the bark of the tree with potash water, or strong suds, down to the roots, then putting on a good coat of coach varnish, and lastly sprinkling it thickly with sand, for a foot or two from the ground. This coating will last two or three years. So a friend says, who has tried it: he has fine large quinces on his trees this year, where they have been treated. This treatment is just as good for apple, or other trees, as for the quince.

GREAT HAUL OF GAMBLERS IN NEWBURYPORT.—It is well known to most of our citizens, that, for the past twelve months, gambling has been on the increase to an alarming extent, and no steps have been taken to eradicate the evil. We have been informed of a dozen places where heads of families, and young men, have been in the habit of resorting nightly, to spend their daily gains at the gaming table. Inexperienced young men, are enticed into these sinks of vice, and there robbed of their character, respectability and money. Parents and guardians cannot be too careful in ascertaining where their sons spend their evenings. On Saturday night, last, at 12 o'clock, City Marshal Brown, accompanied by his posse, entered a dwelling-house on Merrill street, where he found six men seated around a table, on which was spread cards, dice and money, together with a jug of rum, and one of gin. After a severe encounter, in which the cooking-stove, table, chairs, etc. were strewed about in the most glorious confusion the party were conveyed to the watch-house, and on Sunday morning, removed to the Granite Hotel, kept by John Akerman, Esq. On appearing before Judge Marston, Monday, they plead guilty, and were fined $3 and costs, which amounted to about $9.

At one o'clock, Sunday morning, the officers made a descent upon a billiard saloon on the corner of Middle and State streets, and, after noiselessly forcing three doors, surprised a party of six young men, all of whom were were led into captivity. The Marshal took good care to remove the deposits, together with their cards and dice.. After remaining in the watch-house the remainder of the morning, they were released on bail, to appear Monday afternoon. On appearing before his honor, they severally plead guilty, and were all fined, which on being paid, they left the Court, wiser and we trust better men. Great praise is due our officers, for the beginning they have made, towards the breaking up of these dens of iniquity, which of late, have become so alarmingly prevalent.—*Herald.*

SUPPOSED MURDER IN SOUTH BERWICK, ME.—We learn from Emerson's Express, that the body of a man was discovered, day before yesterday, in the woods directly back of Powder House Hill, and about forty rods from the main road, in South Berwick. The back part of the skull was crushed completely in, and three of the ribs were broken.

The physician at the Coroner's Jury gave it as his opinion that the breaking of the ribs was occasioned by pressing the body down into the marshy earth in the woods. The body had nothing on but a shirt and a pair of suspenders, and had the appearance of having been dragged to the place where it was found, by the heels—as the hands were extended forward, and the face very much scratched and disfigured.

The body was almost entirely decomposed. The hat—a straw one—and a black satin vest, probably belonging to deceased, were found about six feet from him, and had the appearance of having been pressed into the soil by force. Deceased was about six feet in height and supposed to be an American by birth.—No elucidation of the mystery could be reached by the Coroner's jury.

It is conjectured that the body may be that of a pedlar named Wilbur.—*Boston Journal.*

GODEY'S LADY'S BOOK, for October 1854, contains, for a frontispiece, a refreshing picture of Crossing the Brook, which is far better seen than described. Then there are the Fashions, colored and uncolored, work patterns, &c. &c.

For matter: we have the Lady Doctor, Lydia's Wages and the Match Making Mother, with a good variety of choice articles—all making about 100 pages. The work may be had for a year by remitting $3 to Louis A. Godey, Philadelphia.

BLACKWOOD'S EDINBURG MAGAZINE for September, 1854, contains a Review of Mrs. Stowe's Sunny Memories of Foreign Lands, decidedly unfavorable to the book. The other contents are: The Holy Land, Bellerophon, The Coming Fortunes of our Colonies in the Pacific, Speculations Among the Stars—Part I, The Crystal Palace; The Secret of Stoke Manor: A Family History.—Part IV, The Spanish Revolution.

Published by Leonard Scott & Co. New York.

SUPPLIES FOR SOUL AND BODY.—A gentleman at Washington, who has been looking over the records of the Continental Congress, to make himself acquainted with the legislation of the glorious patriots of that day, writes that he finds on the 11th Sept., 1777, that body voted that the committee on commerce be directed to import 20,000 copies of the Bible from Holland, Scotland, or elsewhere, into the different ports of the Union. On the day following, the same body "resolved that the commissary general of purchases be directed to purchase, on the most reasonable terms he can, 30 hogsheads of *rum*, and that the same be presented to the army, and distributed among the soldiers in such manner as the general shall direct, in compliment to the soldiers for their gallant behavior in the late battle of *Brandywine.*"

GREAT MEN'S DANCING.—We read that Napoleon was a very awkward dancer. On one occasion he danced with a very beautiful countess, who could not conceal her blushes at his ridiculous postures. On leading her to her seat, he remarked: "The fact is, madam, my forte lies not so much in dancing myself as in making others dance." This reminds us of an anecdote of Daniel Webster, who being present at a ball in Washington during his incumbency as secretary of state, was asked by an effeminate, foppish sort of a chap, who thought a great deal of his own dancing, "don't you dance, Mr. Webster? I never see you dancing." "No," said Mr. Webster, as he only could say and look such things, "I never had the capacity to learn how, sir."

LOCAL.

THE NAVY YARD.—The works at the Navy Yard in this city are now progressing finely; about 430 men being employed. The frigate Santee in a private yard would be considered almost ready for launching. The frames which were taken down to lengthen her about 15 feet are all replaced, a new keel and stern-post put in, and much of the planking on.—As the work now goes on she will probably be launched early in the spring.

The repairs of the Franklin are well underway, though so much like building a new ship that most persons would not discover the difference. The keel is laid, and the stern-post and nine of the forward frames are already up. When she is completed she will be the largest war steamer in the world.

The new stationary engine, which was built on the yard to be placed in the engine house, for sawing, &c. is in its place, and will shortly be put in operation.

With a comparatively small additional appropriation, this yard might be furnished with the necessary conveniences, to admit of its supplying the place of the Charlestown yard, the removal of which is desired by the citizens of Boston and Charlestown.

A WORD FROM MRS. PARTINGTON AND B. P. SHILLABER.—Mr. Shillaber, otherwise Dame Partington, called yesterday, and stated that our announcement in regard to engagements to lecture and poetize before Lyceums is a little premature. He has indeed engaged to appear before the Portsmouth Mercantile Library Association, but that is the *only* one.—Invitations have poured in upon him from Cincinnati to Bangor for his services, but he has felt it incumbent upon him, in view of his constant duties upon a daily paper, to decline them.—*Boston Bee.*

All who wish to hear the renowned printer-poet, Mr. B. P. Shillaber, should improve this occasion by procuring their tickets to the Mercantile course immediately, as they are going rapidly.

THE LAST DODGE.—A female passenger from this city, on one of the steamers on Lake Winnepiseogee, a day or two since had her trunk plainly labelled with her own name and place of residence. As the boat neared the landing, she saw another label, made of paper, neatly placed over hers, bearing the name "John Thurston, Boston, Mass." She took it off, and keeping a sharp look out on her trunk, brought it home safely: but the design was doubtless to get the trunk on the wrong track, and then steal it.

STATEMENT OF VOTES

FOR COUNTY OFFICERS FOR 1854 & 5.

The following is a statement of the votes cast for County officers, at the March election, as declared at the Court of Common Pleas for Rockingham County, on Monday last:

PORT OF PORTSMOUTH.

Sch Edward & Frank, Stewart, hence, arr at Boston 25th Sept.

Schs Amelia, and Banner, hence, arr at Bangor 23d inst.

Ship Levi Woodbury, Nickerson, arr at New Orleans 23d inst, fm Boston.

Brig Nitheroy, Harriman, fm Portsmouth, arr at Norfolk 21st inst.

Ship Peter Marcy, Hickey, arr at Philad'a 22d inst, 65 days fm Leghorn, reports that, 2nd inst, experienced a severe gale from S E, in which had fore and main top-gallant sails blown from the yards, split all three toptails and foresail, had jibs blown from the booms after they were furled, carried away cross-jack and mizzen topsail yard, and sprung rudder-head. 11th inst, lat 44 lon 66, had another gale fm S E, which lasted four hours, when the wind suddenly shifted to N W, and blew a terrific hurricane for 14 hours, carrying away close reefed main topsail. No date, lat 37, saw a large ship with loss of all three topmasts—had courses set. Same time, saw a brig with loss of mainmast and foretopmast. The Peter Marcy has experienced light variable winds for the last 12 days. Capt. Hickey reports that one day the barometer fell ⅞ of an inch in one hour.

Carl Meinerth,

TEACHER OF MUSIC,

Gives Instruction in Harmony, Thorough-Bass, Organ, Piano Forte and Singing, Guitar and Flute.

Hanover Street (Chapel), Portsmouth, N. H.

At home every day but Saturday and Sunday.

Correction.

THE undersigned, finding various misstatements and misleading reports current, respectfully informs the public, that, with the exception of having transferred his Schoolroom to the beautiful and very convenient locale above the Hanover street Chapel, *not the least change* has taken nor will take place in his business of Instruction in Music and Drawing, which he is attending to, and will always continue to attend, in Portsmouth, with the same unceasing ardor and faithfulness as ever before in the last five years of his residing here.

CARL MEINERTH.

Portsmouth, Sept. 27. 1m

School for Boys.

MR. JAMES B. KENDALL proposes opening a Classical and English School, for Boys, at the Exchange Reading Room, on MONDAY, the 9th day of October next. The number of pupils will be limited. The French and German languages taught if desired.

Highland Nurseries,

STRATHAM, N. H

J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c. to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.

J. H. DIMAN.

CALIFORNIA NEWS.

An association of citizens of foreign birth had been organized at Sacramento, in opposition to the Know Nothings.

False "slugs" are said to be circulating in California.

News from Nevada to 28th says that French Corral, a town of seventy-five to one hundred houses, had been burnt.

Walter Sherwood had committed forgeries in San Francisco for $17,500.

The heat in many parts of the interior had been very oppressive. In some places the thermometer indicated from 104 to 114 degrees for several days together.

Murders and fights had as usual been of frequent occurrence, mostly, however, amongst the Chinese and Mexicans.

Bateman had been acquitted on the charge of an attempt to kill Mr. Soule editor of the Chronicle.

The first public county school celebration took place on the 22d, at the Ross Gardens. Nine hundred and thirty children were present.

Under the date of August 17, the Sonora Bulletin contains accounts of Indian outrages. Six white men have been murdered by the Indians in Russian River township within a few months.

The British frigate Amphitrite and French corvette Artemise sailed from San Francisco on 25th. They are off again in search of the Russian frigates Aurora and Diana.

The Alta California says it is stated on good authority that the English, French and Russian governments have agreed not to disturb each others possessions on the Pacific Ocean.

EQUESTRIANISM.—As horseback riding is quite fashionable among young ladies and gentlemen, we copy the following in relation to a very important and hitherto undecided point, which proves, we think, pretty conclusively, that the right side is *not the right side*, after all:

The reins are to be held in the left hand and the right hand is free to render aid should the horse become fractious, or the habit of the rider require adjusting. If the gentleman rides on the right side, he must use his left hand, and can do so to very little. Instances have occurred where the lady's horse has taken flight on the instant, and the rider was rescued by the gentleman being on the left side and taking her from the frightened animal to his own. If the lady wishes to converse, and her escort is at her right hand, she must turn her head half round to make herself heard. Again, the escort being at the left hand, her dress is protected from the vehicles passing, and if it becomes disarranged, is not exposed to public view.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. DOBLAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

wich street, New York.

Other lecturers will be advertised when engaged. Tickets to be had of the Secretary and at the Bookstores. Tickets limited to eight hundred.
s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES
BY STEAM,

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtonteteromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!

OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity.) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge*. But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his MOUNT-FINISHED, LIFE-LIKE, ARTISTIC PICTURES Please observe that his reputation is of *seven years* permanent residence in this community,

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

OVER 100,000 BOXES SOLD IN 6 MONTHS.

s9 J. P. BARTLETT, Agent.

Hartford Fire Insurance Company.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says:

"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.

By order of the Board of Directors—
H. HUNTINGDON, Pres."

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, ... Boston.
SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.
References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. RENWICK, L. D. GALE, J. H. LANE, T. R. PEALE, THOS. H. EVERETT, F. SOUTHGATE SMITH, WM. CHAUNCY LANGDON,
Principal Examiners, Assistant Examiners.
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.
WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

MEXICAN MUSTANG LINIMENT—
Every land has hailed with
Xtasy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to supleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union.
A. G. BRAGG & CO., Proprietors, 304 Broad way, New York. D. TAYLOR, Jr., General Agent, Boston. d6 2awlw f18

10,000 Bottles Sold since the First of January.
DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.
DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for
HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.
The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.
If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 6 or 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth.
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.
For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.
FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.
FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.
FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.
FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications first appear. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.
FULL DIRECTIONS ON THE BOTTLE.
☞ Price $1.00.
HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.
No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.
Full directions for using the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.
ORDWAY & WADLEIGH,
LAWRENCE, MASS.,
SOLE PROPRIETORS.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.
HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.
This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.
CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.
MANUFACTORY, BIRMINGHAM, ENGLAND.
May be had, Wholesale, at the Manufacturers' DEPOTS,
1 *Jewry street, Aldgate, London, and of*
L. & A. HERTS, No. 49 John street,
NEW YORK,
And in PORTSMOUTH, from the following Houses:

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.
SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.
It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Lux, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Hibert Robertson, British Consul, &c. &c.
And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.
The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.
BEWARE OF IMPOSITION.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—
"SWAIM'S—PANACEA—PHILADA."
and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been unrivaled for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.
ALSO, SWAIM'S VERMIFUGE.
A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.
CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

New Music Books,
For Singing Schools, Choirs, &c.

J. F. SHORES, Jr., No. 1 Congress Block, has just received

THE CHIME: an extensive collection of new and Old Tunes, consisting of arrangements from the old masters, and modern European Writers; gems from the continental school, with valuable selections (kindly permitted) from living American composers; also, a variety of new pieces by the author, with some of the choicest productions from his former publications. Including also, a MELODEON INSTRUCTOR, by the use of which, a knowledge of all instruments of the Organ kind may be easily acquired. By Virgin Coy don Taylor, author of "Golden Lyre, &c.

THE HALLELUJAH: a book for the service of Song in the House of the Lord; containing Tunes, Chants and Anthems, both for the Choir and the Congregation, to which is added THE SINGING SCHOOL; a manual for classes in Vocal music, with exercises, rounds and part songs, for Choir practice; also, Musical Notations in Nuts-shell, &c. By Lowell Mason. Teachers and others are invited to call and examine these books.

a18 j

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of of the richest and most expensive Spanish, Galway, Egyptian, Pyrenees, Lisbon, Sienva and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling-houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above-named desirable Goods, to which he invites the attention of all interested.

j e21 G. N. CARLETON, 15 Daniel st.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"PATENT OFFICE, ——.

"R. H. EDDY, ESQ., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

AND NOTARY PUBLIC.

No. 17 Congress Street.....PORTSMOUTH, N. H.

CONTINUES TO PROSECUTE CLAIMS of every description against the United States, such as Pensions, Bounty Land, back pay, and three months extra pay to the Soldiers and Marines of the Mexican War, and all other claims arising out of said War. Also Extra Pay to the Sailors and Marines who were in government vessels on the coast of California, from the commencement of the war with Mexico until Feb. 1852, or during any part of that time, and all other Claims for Naval Service. Pensions to the Widows of Revolutionary Soldiers, and to the Widows of officers and soldiers in any of the wars who have died in service, or since their discharge, by reason of wounds received or disease contracted while in the line of duty. Also, to officers and soldiers disabled in the service, and to the Widows of officers, sailors and marines who have died in the Naval service.

BOUNTY LAND obtained under the recent Acts of Congress.

The highest cash price paid for Land Warrants.

Morning Chronicle.

THURSDAY, SEPTEMBER 28, 1854.

DEMOCRACY IN MASSACHUSETTS.

We learn from the Boston Post of Wednesday, that the democratic convention at Lowell was a glorious representation of the democracy of Massachusetts. Over five hundred delegates were present.

The results were most honorable and gratifying. The principles of the Nebraska bill—the measures of the administration—were approved in bold, explicit, and truly democratic and constitutional resolutions. There was no dodging of issues, either on the part of the convention or its candidates; but the resolves were up to the mark of the occasion, and were passed not merely with assent, but with an enthusiasm rarely seen in any gathering.—They were opposed by J. M. Usher, but he was eloquently replied to by Hon. H. H. Cook, of Lenox, and by Dr. Loring, of Salem, and when the vote was taken there was all but a unanimous response of YEAS—but two or three saying *nay*.

The same decided tone is seen in the candidates. Judge Bishop was renominated for governor, and Caleb Stetson, Esq., for lieutenant governor. The letter of Judge Bishop, squarely on to the Nebraska platform, is worthy of his high character.

The principal resolutions were, in brief—

1 That we once more declare our adherence to the doctrines of the Baltimore platform of 1852.

2 That we recognize an obedience to the principles of that platform in all the measures of Gen. Pierce's administration.

3 That the constitution recognises the principle of self government and the power of the people in whatever bond united with each other, whether in state, county, town, district or *territory*, to control their own institutions.

There was some opposition to the 2d resolution, in a speech by Mr. Usher of Medford; but it will be seen that the regular democratic party of Massachusetts, unlike that of Maine, fully endorse the present administration, Nebraska bill and all.

NEW YORK FREE DEMOCRACY.—Their meeting has just been held at Auburn.

Hon. John P. Hale reported resolutions, denouncing the Fugitive Slave Law, and expressing a willingness to co-operate with other parties favorable to the overthrow of the slave power; regarding slavery as a sin against God and an outrage upon all valid law; and calling for a Prohibitory Liquor Law. The resolutions were adopted.

In the anti-Nebraska meeting held the same day, John P. Hale obtained the floor, and made a brief but thrilling appeal to the Convention in favar of an endorsement of the Whig nominees. His speech was received with loud cheers.

A debate followed relative to the orthodoxy of Mr. Raymond, the Whig nominee for Lieut. Governor, upon the subject of temperance; and at the close of the discussion Mr. Chambers produced a letter from Mr. Raymond, in which that gentleman pledges himself in favor of a prohibitory liquor law. Letters were also read from each of the Whig candidates in which they fully endorsed the action of the Saratoga convention.

The convention nominated Raymond for Lieutenant-Governor, and adopted the whole whig ticket after a warm debate.

ADAMS AND WISE.

We have already published some extracts from Hon. Henry A. Wise's Letter to Rev. Dr. Adams of Boston, on Slavery. We now copy about half of a reply written by Mr. Adams, and published in the Boston Advertiser.

On reading your letter once, I laid it aside, thinking of it only as a reply to my questions. General sentiments in it met my approbation; but I did not view some things which it contained, as I now do after an attentive perusal. I shall not reply to them, however, not being willing to enter into controversy on this subject, and my purpose in my forthcoming book being altogether conciliatory. You speak of this purpose as "meek, gentle, and well meaning." All this, I trust, it will prove to be.—We have had enough of pride, noise and selfishness on this subject.

But inasmuch as I did not become a proslavery man at the South, though more strongly than ever an anti-abolitionist, and though I do not propose now, or at any time, to obtrude friendship or advice upon you, there was one passage in your letter which I should do wrong to pass in silence, now that you have addressed it to me in the public prints.

You say, alluding to my thoughts of the African race in connection with the slaves:

"Why take a thought about benefiting the race of my slave, more than about benefiting the race of 'my ox or my ass,' or any thing that is mine, and not yours?"

Sir, this question, the sentiment conveyed in this interrogative form, is more than unchristian. It seems more like the spirit and feelings of some other order of beings than man. You, sir, and we, and that race, are hastening to the bar of God, where your question will be answered in behalf of the race of your slaves, by their Redeemer and yours; and if you shall, in any way, have shut up the kingdom of heaven against them, what will you do when God riseth up? and when He visiteth what shall you answer him? I beg that you will reflect upon your question, and consent that all your fellow men, who will, should aid the efforts which you and the South are so well able to make, and in very many directions are making, to benefit the race of your slaves. We must not interfere with your private relations to those slaves, but you have acquired no such "property" in that "race" as to diminish our obligations and accountableness with regard to the race, as fellow heirs of future, endless retribution.

LOCAL.

For the Chronicle.

UNSIGHTLY BUILDINGS.

Messrs. Editors:—Through your columns we would discourse to-day with the respected Mayor of our city, regarding the beauty, symmetry and fitness of certain things, the amendment or removal of which, would render his mayoralty memorable, and insure the gratitude of all lovers of good taste. We believe that he has sufficient influence to carry into effect any reasonable project, and therefore we call upon him to take his stand on some bright, sunny day, at the junction of Market and Daniel streets, on the centre of the crossing at the head of the latter—let him look straight before him, and say if his eye is not offended by an unsightly building just below the Post Office, and on the opposite side, jutting out obtrusively upon the pavement, destroying its regularity, and depriving the street of the symmetry which it might otherwise have. Cannot an arrangement be made by the town for its removal? And will not the Mayor exert his influence to that effect, as well as to the obtaining of a new pavement on which one can walk with comfort.

We well remember the time in our childhood, when, below this building, which we would willingly thrust into obscurity, Daniel street was exceedingly beautiful: on the left, as one approached the river, stood the spacious lawn with its rows of trees on either side, which enclosed the Jaffrey estate; and in front, no unsightly objects cut off the view of the blue Piscataqua, which in its turn did not obstruct a view of the Navy Yard, lying upon its bosom in serene repose, and clad in verdure. But what was our horror and dismay, when one day walking in that direction, an object met our gaze which checked the life-current and almost froze it in our veins. Our heart sunk within us, our limbs trembled, and we would willingly have given up the ghost, could the ghost of departed good taste have been permitted "to revisit the glimpses of the moon." That object! never shall we forget its impression upon us, as it reared its horrible face, and dared to obtrude it between the river "and our nobility"; it was one of those establishments which to our childhood's vision was the only earthly and visible type of that doleful region where the love-lorn Orpheus sought his Eurydice. Messrs. Editors, it was no other than a blacksmith's shop!! Many a time in childhood,—frightened yet chained to the spot—have we stood and gazed through the windows of a smithy, and watched with intensest interest the mighty Vulcan and his satellites, with sleeves upturned, every muscle strained to its utmost tension, and with reeking brows reflecting those glowing and unearthly fires, while the red hot iron hissed and steamed, and glowing faces leaned over it, and brawny arms upraised in the air, descended again with regular and frightful emphasis, till the submissive metal was moulded to the will. We can see now, the sulphurous smoke and flame, and hear the ring of the iron as it answered to each appalling stroke, and we feel once more as then, the terrible fascination; but never, never in the wildest riots of our childish fancies, did we dream that such an object would presumptuously invade a scene like this! Other buildings afterwards took their place beside the intruder, and now we see no more our own blue Piscataqua, until we have passed all of these intermediate objects. But we say, "down with them! down with them even to the ground." Blot out their unsightly visages, and let—not the memory, but the bad taste—perish, of those who located them on their present sites.

The Mayor, Messrs. Editors, we respect as a man of taste; (unquestionably so, since he some time since assented to our own opinions regarding another subject of considerable importance.) And the Mayor "is an *Honorable* man," as every newspaper of our city, in addition to his daily acts, will testify. The honor of his town is involved, and his own individual honor as its mayor, to cut off these spots and blemishes from our fair city, and to restore to her the beauty she has lost. Daniel, Congress, and Islington streets, cry out upon the obtrusive and presumptuous buildings, "away with them," and Piscataqua echoes back the sound, while her bosom heaves with unrepressed indignation.

Should the Honorable Mayor comply with our request, "may we be there to see." In a few days we hope to turn him round, and ask him to raise his eye-glass in another direction.

M.

The Mayor will doubtless consider the above matters, but M. should remember that the Mayor is only *one* of the "Powers that Be,"—and that the other powers are quite tenacious of their dignities and rights. It is the misfortune of all *growing* cities, that the useful covers up and hides the beautiful.

BISHOP WAINWRIGHT.—The recent death of Rev. Dr. Wainwright was noticed in the services at most of the Episcopal Churches of the Union on Sunday last. In this city in the afternoon, Rev. Dr. Burroughs preached to his memory from the text, "He was a burning and a shining light."

CONCERT.—Mr. Perabo of Dover, and his talented son Ernst, only 9 years of age, assisted by a superior violinist from New York, give a Concert at the Temple this evening.—Mr. P. and his son have given several concerts in Dover, which have given great satisfaction, and at each repetition have been attended by large audiences.

WATER COLORING.—One of the beautiful specimens of Mrs. Lamprey's water-color paintings, which received the highest premium at the recent Rockingham Fair at Exeter, is to be seen at Mr. Sores's bookstore. Mrs. L. paints exquisitely, and has the faculty of imparting much of her skill to pupils—of which she receives a limited class.

KNOW NOTHINGS IN NEW HAMPSHIRE.—The Great Falls Journal, after quoting the statement of the editor of the N. H. Gazette, that he "has never ceased his opposition to the 'Know Nothings,' and never shall, while they hold their present exclusive creed," says:

"We wish to inform the Gazette man that notwithstanding his unceasing opposition to the party which he styles "Know Nothings," that party in New Hampshire now numbers more than 12,000, and is rapidly increasing; and before our next annual election will be large enough to control the State."

Grand Jury Room, Portsmouth, Sept. 21, '54.

Resolved, That in the opinion of the Grand Jury, it is the imperative duty of the Legislature of New Hampshire to enact a law regulating the sale of intoxicating drinks, similar in its provisions to the "Maine Liquor Law."

Resolved, That the foreman is requested to procure the publication of the foregoing resolution.

JOSHUA GETCHELL,
Foreman of the Grand Jury.

FOSTER'S REEFING APPARATUS.—Mr. W. H. Foster, of this city, who has recently obtained a patent for a new arrangement for reefing topsails from the deck of vessels, has placed a model in the Mechanic's Fair at Portland, where it has been examined by many nautical men, who speak in the highest terms of its practicability. A letter from Portland to Mr. F. says:

"Yesterday and last evening I exhibited the model to more persons than you have altogether. When seamen or nautical men come round they make a dead stand, which keeps up a crowd such as no other article in the whole Fair attracts."

THE SEA'S TREASURES. — The schooner James Wyman, belonging to the Boston Sub-Marine Wrecking Co., is on a visit to Newburyport harbor, to recover the hidden treasures which lie buried off the bar and in the river, consisting of anchors, chains, cables, &c. Considerable ground has been walked over in the vicinity of the bar, and the Herald states that it is thought the ground will prove rich enough to resume operations.

FIRE IN EXETER.—On Thursday afternoon last, about three o'clock, a two story wooden building, situated on tee banks of Exeter river, nearly three miles from town, and occupied by Mr. Mark Colbath, as a cotton batting manufactory, was discovered to be on fire, from the friction of the machinery, and was soon totally destroyed.

Mr. Colbath's loss is some $200. The building was erected about forty years since for the purpose of manufacturing cotton warp. It has since been used by O. M. Whipple, of Lowell, in his manufacture of powder, in that immediate vicinity, and was owned by him at the time of its destruction. It was worth about $400. Neither Mr. C. nor Mr. W. was insured. A general alarm was not raised, and therefore our excellent Fire Department was not called upon.—*Exeter News Letter.*

STRUCK BY LIGHTNING.—On Tuesday at midnight, during the violent storm, a valuable barn in Brentwood—one of the best in the county—built two years since and owned by Mr. S. P. Gordon, was struck by lightning, and was entirely consumed, together with a pair of good cattle worth $100, a cow, eighteen tons of hay, and most of Mr. G.'s farming tools. The loss is about $1500—only $200 insured, in the Exeter "Rockingham Farmers' Office."

The fire, although five miles distant, illuminated Exeter, and most persons supposing it to be on the Plains, an alarm was raised, the bells rung, and the engines (notwithstanding the deluging rain) were manned and taken to the depot, where the distance of the fire became apparent, and the tubs were returned.—*News-Letter.*

The light of a fire, then supposed to be in Stratham, but which was probably the above, was plainly seen for a long time, by persons in Portsmouth.

At Manchester, on Friday, the train of the Merrimac and Connecticut Railroad was stopped by a sheriff, who stepped up and put an attachment upon the engine and cars, thus causing the detension of some twenty passengers who had secured seats, and of the United States mails. The heaviest suit was instituted by the Eastern Railroad, for a sum of $30,000. The others were by private individuals.

PUTNAM'S MONTHLY for October, 1854, contains 18 articles; those most interesting to us are, A Day on the Danube, and A Trip from Chihuahua to the Sierra Madre.

Received from Fetridge & Co., Boston, via J. F. Shores of Portsmouth.

RUMORED DISMISSION OF MR. SOULE FROM MADRID.—*New York, Sept. 27.*—The Washington correspondent of the Courier & Enquirer telegraphs as follows: It is stated upon the authority of a foreign legation, that our Minister Soule has been dismissed by the Spanish Government, for tormenting the insurrection and intriguing for a republic.

FALL IN THE PRICE OF FLOUR.—The New York Herald of Sunday, reports that on Saturday common brands of flour sold at a decline of 25 a 50 cents per barrel, and closed at about $8 25. Extra and medium grades, with southern brands were dull, without further change of moment in prices.

AT THE TEMPLE, THIS EVENING.

CONCERT.

MR. PERABO, of Dover, with his son ERNST PERABO, only 9 years old, assisted by HENRY LAUTENSCHLÄGER, Violinist from New York, will give a Concert on the Piano and Violin, on THURSDAY Evening, Sept. 28, at the TEMPLE. s23

P. Y. M. Christian Association.

WEEKLY MEETINGS. The meetings of the Association will hereafter be holden Weekly on THURSDAY Evenings, at 7½ o'clock.

A subject which interests every member is on the order of business for the next meeting.

MARRIED.

In Boston, Mr D. Lyman Laws of Boston, to Miss Eliza J. Fay, of Fitzwilliam, NH.

DIED.

In this city, Sept 26, Timothy Ham, Esq., aged 77; highly respected as a man of industry, integrity and general worth.

In this city, Sept 27, Miss Mary Walker, aged 80 years.

Funeral this afternoon at 2 o'clock.

In Danville, Mr Barnard Currier, aged 72.

In Hampton Falls, Miss Sarah Maria Brown, aged 21 years, daughter of Mr Sam'l Brown.

In North Hampton, Mrs Abigail Wetherbee, aged 68 years, wife of Rev Josiah Wetherbee.

In Brentwood, Mrs Lydia Sanborn, aged 80 yrs., widow of Mr Ebenezer Sanborn.

In Newburyport, very suddenly, Mrs Johanna C Woodwell, aged 52 years, wife of Mr David W.

In Johnson, Vt, Miss Mary Hill, aged 20 years, eldest daughter of the Mr Geo W Hill, former publisher of the Vermont Patriot. She was a niece of the late Gov Hill of New Hampshire, and second cousin to the late Judge Woodbury. It is intimated in an obituary notice, that the young lady's death was caused by grief for the death of her affianced.

Carl Meinerth,

TEACHER OF MUSIC,

Gives Instruction in
Harmony, Thorough-Bass, Organ, Piano Forte and Singing, Guitar and Flute.
Hanover Street Chapel, Portsmouth, N. H.
At home every day but Saturday and Sunday.

Correction.

THE undersigned, finding various misstatements and misleading reports current, respectfully informs the public, that, with the exception of having transferred his Schoolroom to the beautiful and very convenient locale above the Hanover street Chapel, *not the least change* has taken nor will take place in his business of Instruction in Music and Drawing, which he is attending to, and will always continue to attend, in Portsmouth, with the same unceasing ardor and faithfulness as ever before in the last five years of his residing here.

CARL MEINERTH.

Portsmouth, Sept. 27. 1m

s24 *MATHES & VARRELL*, 48 Market st.

LATER FROM CALIFORNIA.

NEW YORK, Sept. 27.—The steamship George Law arrived at this port at a late hour last night. She left Aspinwall on the 17th, at 5,45 P. M., and arrived at Kingston, Ja. at 6 A. M. on the 20th, where she left at 2 P. M. the same day. She brings the California mails of Sept. 1, $1,202,272 in treasure on freight, and 737 passengers.

As the George Law was about leaving Aspinwall, Capt. B. W. Fenly of Portland, Me., fell into the hold, and received injuries which caused his death on the 21st.

The news from the Isthmus is not important. The railroad had suffered but little from the heavy rains, and the rise of the streams along its line.

The Aspinwall Courier calls loudly for the interference of the American government in the protection of travellers across the Isthmus.

Two Americans, while making repairs upon some premises in Lima, are said to have discovered concealed treasures of the value of $30,000, with a prospect of considerable more.

The dates from Valparaise are to the 15th of August. The principal item of political interest is the bill to re-establish the Jesuits in Chili. The latest in reference to it is as follows: The bill to restore to the Jesuits the Convent and Premises, which belonged to them in Santiago, and of which they were dispossessed in the last century by the King of Spain, having been approved in the Senate, passed to the Chamber of Deputies for discussion. The Deputies rejected the bill by a vote of 30 against 6.

From Bolivia, we learn that the American Minister had celebrated a treaty for the Navigation of the river flowing into the Amazon, which treaty was soon to be presented to Congress for ratification.

The decree of Amnesty issued by Belyu has several times been violated by him. It is only a short time since Gen. Guarana was shot in one of the Barracks of Oruro.

Mexico.—A letter from Acapulco of the 7th Sept. says: "Gen. Alvarez in person, at the head of 2500 men, entered the city of Yutela on the 4th inst. the government troops having evacuated it on the 3d. Alvarez is pushing forward for Chispanciugo where he will arrive in a few days without any opposition, as all the government troops have been withdrawn from the State of Guerrero for the capital, except a force of 1500 men left at Titzla to retard it possible his onward movement. Alvarez is in fine health, and leading a body of men, who to a man would die for their Chieftain."

By a Courier which just arrived, official information has been received that Vera Cruz has pronounced for Alvarez, and from all indications it is very firmly believed that Santa Anna will abdicate.

FROM OREGON we learn that gold has been discovered by the Indians, about 30 miles below the dalles of the Columbia.

New potatoes were selling in the same vicinity for $3 per bushel.

A party just returned from Mount Hood report it to be a volcano, although it has not probably been in an active state for a long period. Smoke is issuing at the present time, however.

An extensive quarry of granite, the first discovered in Oregon, has been opened about five miles from Portland.

The Times of the 19th, says that the harvest is nearly over and the crops are abundant throughout the territory. The weather has been favorable for harvesting.

Immigrants are arriving in Oregon by the road leading to the head of the Willamette valley. They report good grass and water, and are all in good condition.

The light house at Cape Disappointment, at the mouth of the Columbia river, has just been completed.

FROM SAN JUAN.—The news from the interior is to the effect that the Chimerro star is in the ascendant, but that the war is about *in statu quo*. A detachment of about 3000 men of the Chimerro army had marched against Leon.

An Englishman named Edward Higginson was shot at Virgin Bay by Dr. William H. Davis, an American, while intoxicated. The murderer is in prison.

There have been many deaths recently from exposure.

HALIFAX, Sept. 26.—*Loss of the steamship City of Philadelphia.*—The new steamship City of Philadelphia, from Liverpool for Philadelphia, out eight days and a few hours, was stranded on Cape Race, Newfoundland, 7th inst. and will be a total loss. She had five hundred and forty passengers, but no lives were lost. One hundred and fourteen of her passengers have arrived here, the remainder stopping at St. Johns, N. F. where they were awaiting the means of conveyance to this port or New York. The City of Philadelphia was a very splendid vessel and on her first voyage.

The cargo was being taken out on a damaged state. The vessel was insured in England, and is supposed to have been worth $200,000.

The City of Philadelphia was running at the rate of ten knots an hour, when at 11 P. M. the weather being dark and rainy, she struck upon Cape Race. She then backed off and afterwards ran ashore in Chance Cove, about seven miles and a half north of Cape Race, where she lies in three fathoms of water. A hole was made in her bottom when she first struck, and the water poured in so fast that her fires were extinguished before she again touched. Her cargo was valued at £60,000, and all of it in the lower hold is damaged.—The Telegraph Company's steamer took the passengers to St. Johns, N. F. and left again to render all possible assistance.

CINCINNATI, Sept. 26.—A riot occurred last night in the 20th ward of this city, between a party of Protestants and German Catholics. The difficulty originated in an attempt to organize a Sabbath School in the neighborhood, which was forcibly resisted by the Catholics, who attacked the house rented for the purpose, and threatened death to any person who should attempt to organize a Sabbath School. During the disturbance, three persons were wounded by pistol shots.

Mercantile Library Association
LECTURES.

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity.) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge*. But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.
ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Fedutzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste. and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, ... Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, | T. R. PEALE,
L. D. GALE, | THOS. H. EVERETT,
J. H. LANE, | F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners. | *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

MEXICAN MUSTANG LINIMENT—

Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 304 Broadway, New York. D. TAYLOR, JR., General Agent, Boston. d6 2aw1w f18

10,000 *Bottles Sold since the First of January.*

DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattle snake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES.

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivaled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how to forward the same.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.
SOLE PROPRIETORS.

Sold in Portsmouth, by Jos. H. Thatcher, B. Hutchings and J. P. Morse. ap19eod6m&w

By Royal Letters Patent

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thusentirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also in Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jewry street, Aldgate, London, and of*

L. & A. HERTS, No. 49 John street, NEW YORK,

And in PORTSMOUTH, from the following Houses:

J. F. Shores, Jr. Stationer; J. H. Head, Stationer; J. S. Harvey & Son, " J. H. Foster, "

a10

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British consul, &c. &c.

And, also, the wonderful cures effected by Swaim's Panaces, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietors, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., FRIDAY, SEPTEMBER 29, 1854. VOLUME 5. NO. 52.

THE DAILY MORNING CHRONICLE

is published by FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER

At No. 4 Exchange Buildings,

Pleasant Street,.....Portsmouth, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.

☞ Obiituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

New Music Books,

For Singing Schools, Choirs, &c.

J. F. SHORES, Jr., No. 1 Congress Block, has just received

THE CHIME; an extensive collection of new and Old Tunes, consisting of arrangements from the old masters, and modern European Writers; gems from the continental school, with valuable selections (kindly permitted) from living American composers; also, a variety of new pieces by the author, with some of the choicest productions from his former publications. Including also, a MELODEON INSTRUCTOR, by the use of which, a knowledge of all instruments of the Organ kind may be easily acquired. By Virgin Corydon Taylor, author of "Golden Lyre, &c.

THE HALLELUJAH: a book for the service of Song in the House of the Lord; containing Tunes, Chants and Anthems, both for the Choir and the Congregation, to which is added THE SINGING SCHOOL; a manual for classes in Vocal music, with exercises, rounds and part songs, for Choir practice; also, Musical Notations in a Nut Shell, &c. By Lowell Mason. Teachers and others are invited to call and examine these books.

s15

Marble Chimney Pieces.

THE PENRHYN MARBLE is a new and beautiful article, manufactured of Stone imported from England, which is enameled in imitation of the richest and most expensive Spanish, Gallway, Egyptian, Pyrenees, Lisbon, Sienna and other rare and desirable kinds of Marble—the imitation being so perfect as to challenge detection without the closest scrutiny. In style of finish these Chimney Pieces stand unequalled, being very highly polished—retaining their beauty much longer than common marble, and are not injured by oils, smoke, coal gas or acids. They have been extensively introduced into public and private buildings, giving perfect satisfaction to those who have used them. The best of references can be given, showing their adaptedness for general use, the subscriber having furnished some of the best dwelling houses in the city with them during the last two years.

While excelling all others in beauty of finish and appearance, they are sold much cheaper than any thing of the kind in the market. The subscriber has now in Store a complete assortment of the above named desirable Goods, to which he invites the attention of all interested.

G. N. CARLETON, 15 Daniel st.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and Infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,

Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

"PATENT OFFICE, ———

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully, Yours, &c. THOMAS EWBANK,

Commissioner of Patents."

Morning Chronicle.

FRIDAY, SEPTEMBER 29, 1854.

CROPS AND SUPPLIES.

The Boston Journal says,

In Brimfield, Mass. good potatoes can be bought for two shillings a bushel; and in Southbridge they have been sold as low as twenty-five cents per bushel, and apples at $1 per barrel.

The New York Express of the 26th remarks:

The declining tendency of the market for Flour and Wheat, noticed yesterday, continued to-day, and prices at this morning's market were 25 a 50 cents lower for Flour, and 5 a 10 cents for Wheat. With increasing receipts and an entire absence of any demand for export, the prospect of materially lower prices within a short period, is highly encouraging. Prices of Breadstuffs have been ridiculously high for the past three months, and this sudden breakdown will be good news to every family in town, more especially everybody in indigent circumstances. The attention of bakers is respectfully directed to this important decline in the "Staff of Life."

The Cleveland, Ohio, Herald, gives the following extract of a letter received by a produce house of Cleveland:

It is reported here that 25,000 bushels of wheat have been ordered back from England. A little wheat has actually arrived this morning in the Atlantic, about 1000 bushels. We understand English wheat weighs 66 lbs. per bushel.

MAINE ELECTION.—The Augusta Age Sept. 28, having received nearly all the returns for Governor, says the majority against Morrill is now over 1100.

The same paper announces the re-election of Thomas J. D. Fuller, to Congress from the 6th District, where Mr. Milliken was before supposed to be chosen. Fuller is of the Democratic party, and voted against the Nebraska bill. The vote in the 6th district stands Fuller 4803; Millikin, fusion, 4665; Smith, whig, 2447.

A PATTERN TOAST.—Among other good things which we find in looking over the report of the proceedings at the Newburyport Fourth of July Celebration, is a spicy and comprehensive sentiment offered by Col. Sweet of Boston. The venerable and venerated Dr. Dana was present, and received this compliment among others:

Rev. Dr. Dana—His actions speak louder than words; for while he attempts to convince us of original sin, he shows by his life that he is free from it.

'Tis a pity that preaching and practice don't more often contradict each other *thus*.

The Charleston Mercury, commenting upon a statement in the letter of Mr. Wise to the Rev. Mr. Adams, that the laws against the slave trade have not broken up that nefarious traffic, but have greatly increased its inhumanities, says:

"He might have gone a step further, and shown that if Christian nations had not only forborne to persecute the slave traders, and force them to become desperadoes, and half-pirates, but had put them under the guardianship of wholesome laws and regulations, they might easily have relieved the trade from every strain of inhumanity, and made it as a great gain to the individual Africans transported, as it has proved to be to the African race."

We copy the above to show the "progress" which is making at the South in the agitation for the re-opening of the slave trade. When we are told that the slave trade may be made humane, and that it is a philanthropic traffic, we think there is but one step further in the range of argument in defence of the greatest evil of modern times, and that is to show that the negro has no soul, and that he is where Mr. Wise classes him, on a level with "my ox or my ass."—*Boston Journal.*

WASHINGTON, Sept. 27.—Purser Sinclair, Chief of the Bureau of Provisions and Clothing, received notice to-day that he was supplanted by Purser Horatio Bridge.

The meeting at City Hall of the true friends of civil and religious liberty was the largest and most enthusiastic ever held here. Resolutions were adopted that America is the home of the oppressed of whatever creed or nation, but that Americans should rule the country. The meeting was called as a counter to that of Friday last, the call for which intimated that civil and religious liberty was in danger in this city, and strong ground was taken against the administration by the speakers on account of so many government officers having taken part in it. The demonstrations show the strength of the Know Nothings in this city. Some three thousand persons were present, and entire unanimity prevailed.

Samuel Davidson King, formerly of this city, and late Surveyor-General of California, is reported a defaulter to the amount of $20,000 to $30,000.

RATHER GREASY.—The Boston Post of Thursday was accompanied by a supplement containing a public act, passed at the last session of Congress, "To establish certain Post Routes." It makes *only* 32 columns of small type. The mere setting of the type cost about $100.

GLASS BRICKS.—One of our small city urchins hearing his father read an article in the paper in relation to a new invention of bricks of glass, exclaimed:—"Glass bricks? I know what them is!" "What are they?" inquired one of the family. "Tumblers of licker!" almost shouted the juvenile.—*Toledo Blade.*

BABY TALK.—A bright-eyed, curly-haired boy of three years old, was, on his good behavior, promised a child's drum *to-morrow*.—Early the next morning he turned to his mother and said, "Mama, is to-day to-morrow?"

MUSIC IN MAINE.

We published the Nebraska and Administration Resolutions of the Sagadahoc Democratic Convention, just before the Maine election. Now, in the same paper with full returns of the election, the Augusta Age, an excellent paper of the "regular democracy," publishes the following remarks on the Sagadahoc democracy and its organ:

Heavy sub-base from a very small organ.

The Bath Times, the "organ" by instinct and by adoption, of the little knot of politicians who blew so heavy a blast on the Nebraska bugle in the Sagadahoc County Convention, more with the view that its tones should be heard at a *distance*, than for the purpose of inspiring the democratic forces at home, (then on the eve of battle,) to union and to victory, is exceedingly wroth with the Age (as a faithful "organ" should be) firstly, because it was not enamored of that species of instrumental music, and secondly, because it expressed the belief, that the performance was to be regarded rather in the light of a "serenade under the windows of the White House," than as one of those bugle-horn blasts "that we read of," which are said to be "better than a thousand men."

The Times used to agree with us, as to the general policy to be pursued by the Northern democracy touching the slavery question, but since the establishment of the Lincoln Democrat in its immediate vicinity at New Castle, it has endeavored to take wind out of the sails of that worthy sheet, by assuming a more decidedly ultra tone on "the great question" than its unwelcome neighbor has the face to do. The only reward it has, to our knowledge, received for its new service, has been its recent adoption as the "organ" of the Sagadahoc Convention. And as the organ of that convention, it takes us to task for our alleged "ignorance of democratic sentiment" in the bailiwick. It avers that the democracy of that locality have ever been the "pioneers of true democratic conduct"—that they were foremost in throwing Van Buren overboard, and in declaring for Polk—that they led the van on the Texas question, and finally have always been the first in every great and good work—always true and always right. And what is more they always mean to be. They are, according to their "organ," never to be caught napping—not they. They are prepared to proclaim themselves thus early (and without qualification) in favor of the annexation of Cuba, the Canadas, Sandwich Islands, all Mexico, and the "Islands of the sea"—AND IN FAVOR OF THE NEXT WAR—*it matters not with whom, or by whose act it may exist!*—We like this promptness—this ready spirit on the part of our Sagadahoc friends. They are genuine *volitjeers* in politics—always cocked and primed, always on the spot, always first at the feast. They are a sort of "flying artillery"—they make up in celerity of movement what they lack in numbers—they are almost *ubiquitous.*

It is quite possible that the Times does understand "democratic sentiment" in Sagadahoc better than we; and that as an "organ," we have no reason to doubt its performances are entirely acceptable in that quarter. Its audience is, however, becoming exceedingly "select," if we may be permitted to judge from the returns of the recent election. In Sagadahoc, the vote for Governor stands, Parris 546, Reed 524, Morrill 2258, Cary 68. In the same towns last year (now composing Sagadahoc) Pilsbury received 832 votes, Crosby 1336, Morrill 186, Holmes 369. In Bath this year, Parris received 147, Reed 144, Morrill 936, Cary 7, against 237 for Pilsbury, 529 for Crosby, 87 for Morrill and 67 for Holmes, last year. The vote for Congressmen and county officers in Sagadahoc, exhibits the same decadence. Although other localities may have fallen off in nearly the same proportion, the fact is nevertheless apparent that Sagadahoc has derived no strength from the Times' peculiar ministrations. If we have suffered all over the State, it is in consequence of causes with which the Times is anxious the democracy of Maine shall connect themselves.

The remainder of the piece (too long for us in the whole) shows clearly that in the opinion of the Age, the sufferings of the Democratic party in Maine were caused by the repeal of the Missouri Compromise line, and the support of this measure by the administration. We have no doubt the Age is correct.

NEW YORK PEOPLE'S ANTI-NEBRASKA CONVENTION—*Conclusion.—Auburn, N. Y., Sept.* 26.—After a protracted debate, and a very lively opposition, the whole Whig ticket for State officers was adopted. The following resolutions were added to those adopted at Saratoga:

Resolved, That the Baltimore Platform, adopted by the Democratic and Whig National Conventions, without authority and in direct violation of the sentiments of a vast majority of the people of this State. We, Whigs and Democrats, hereby repudiate for the past, the present and the future.

Resolved, That we deem the Fugitive Slave Law an act of usurpation; an exercise of power not granted by the Constitution; adverse to the declared sentiments of the republic North and South as set forth in the Declaration of American Independence, the platform on which the General Government was erected.

Resolved, That the Federal Government has no rightful power to interfere between the fugitive slave and his master; that the clause in the constitution where such power is sought, refers not to the general government, but to the State only; is not a grant of power to Congress, but merely a recognition of a compact previously entered into between the States when under the confederation before the Constitution was formed, and that when the General Government assumed to pursue, and consign to perpetual bondage a guiltless man, it mistook its calling.

Resolved, That a Convention of Delegates from the free States, equal in number to their representatives in Congress respectively, be held at the city of Syracuse on the 4th of July, 1856, to nominate candidates for the Presidency and Vice Presidency of the United States, for the next Presidential election.—Adjourned sine die.

LOCAL.

Reported for the Chronicle.

Court of Common Pleas—Sept. Term.

WEDNESDAY EVENING.

The case State v. Aaron Young, of Candia, on complaint of Dr. Hill, of Manchester, came on by special assignment. The respondent had been previously held to bail for making certain threats against the personal safety of said Hill. The State now in behalf of the complainant moved for a renewal of the bonds to keep the peace, especially against said Hill. The motion was granted, but the bond was reduced from $400 to $200.

Solicitor Hatch for State; J. W. Towle for Respondent.

CITY COUNCIL.—On Thursday evening, there was no quorum in the Board of Aldermen. In the Common Council, an ordinance was passed restoring the City Messenger's salary to $300 per annum.

CONCERT.—Mr. Perabo, with his son and Mr. Lautenschlager, gave a capital concert last evening. The boy is a prodigy on piano and violin; and Mr. L. is a charming violinist. We hope they may have a crowd to-night.—Tickets only 15 cents.

PREMIUMS ON WORKING OXEN, at the late cattle show at Exeter, were as follows:

Zebulon Sanborn, Epping, 1st premium.
Joseph Brown, Kensington, 2d "
A. D. Cate, Hampton, 3d "
S. B. Clarke, Exeter, 4th "

MR. DEMPSTER is to give one of his popular Ballad entertainments, at the Temple, on Wednesday evening next, Oct. 4th.

THE LAST TENT MEETING IN EXETER.—The believers of the final wind up of all earthly things this year,—will hold a Tent Meeting in Wadleigh's field, (near the so called Rowland spring,) commencing on Friday, October 6—and continue 10 days.—*News Letter.*

NEW YORK, Sept. 27.—In the Supreme Court to-day, the motion for the removal of the case of Durand *vs.* Capt. Hollins, for the destruction of property at Greytown, to the United States Circuit Court, was renewed and argued pro and con by the respecting attorneys of the parties. Judge's decision reserved.

The Protestant Episcopal Diocesean Convention assembled in this city this morning, the attendance both clerical and lay was large. After prayers Rev. Dr. McWicker delivered the annual sermon, in which he made a feeling allusion to the late Bishop Wainwright. At the close of the discourse a collection was made in behalf of the Education Fund of the Diocese, and the sacrament was administered.

At the Episcopal Convention this afternoon a committee of nine was appointed to report what measures are necessary to testify their sense of the loss sustained in their sore bereavement, and to do honor to the memory of the late Bishop Wainwright. Rev. Dr. Creighton was unanimously elected President and Rev. Mr. Eigenbroot Secretary of the convention. Various committees were appointed, and Rev. Dr. Haight presented a report from the Standing Committee of the Diocese, embodying a record of the acts of the late Bishop. Adjourned to Thursday morning.

Castle Garden contains a fashionable audience of upwards of 5000 persons this evening. Grisi and Mario are giving unbounded satisfaction in the opera of *Il Puritani.* The season closes on Friday.

PITTSBURG, Sept. 26.—There were twenty-seven deaths by cholera in this city yesterday. The disease has greatly abated since Saturday last, and the panic has entirely subsided. On Sunday the deaths from the disease reached 38; on Monday 27, and to-day only 9.

A steam boiler in Messrs. Hall & Spear's plough factory, Manchester, exploded this morning, and was thrown about two hundred yards, falling into an adjoining lot, and slightly injuring two houses which it passed between. The boiler head was thrown in an opposite direction, nearly destroying an engine house. Four men were hurt, but not seriously. Loss about $3,000.

Auburn, Sept. 27.—The State Temperance Convention daily assembled to-day. E. C. Delancis was chosen President, but declining, David Wright of Cayuga was substituted.—Committees were appointed on resolutions, &c. Adjourned until half-past two P. M.

After passing resolutions strongly in favor of the Maine Law, Myron H. Clark was nominated for Governor, and Henry J. Raymond for Lieutenant Governor, the former by acclamation and the latter by a vote of 163 against 112 for Bradford R. Wood.

It is said by a correspondent of the New York Times, that Robert Schuyler, the New York and New Haven railroad defaulter, is in England. The Express says, per contra, "His whereabouts nobody seems to know, although we are informed that if communications are desired with him, they can be made and answers received on application to certain parties who are in daily correspondence with the notorious defaulter. A resolution was passed at a late meeting, authorizing a reward of $5000 to be offered for his apprehension.—Commodore Vanderbilt, who is a large owner of the spurious stock, it is said, in case his stock is not recognized, will exert all his powers of attack, by running on the Sound, lines of steamboats in competition with the road."

THE ROMAN CATHOLIC COUNCIL called by the Pope is not to discuss the immaculate conception of the Savior, but of the Virgin. It is a doctrine of some powerful sects of the Catholic church, and especially of the Jesuits, that the mother of Christ was herself conceived without sin, but this has never received the sanction of the highest authority; and it is to discuss and settle this question that the council is called.—*Providence Journal.*

Carl Meinerth,
TEACHER OF MUSIC,
Gives Instruction in
Harmony, Thorough-Bass, Organ, Piano Forte and Singing, Guitar and Flute.
Hanover Street Chapel, Portsmouth, N. H.
At home every day but Saturday and Sunday.

Correction.

THE undersigned, finding various misstatements and misleading reports current, respectfully informs the public, that, with the exception of having transferred his Schoolroom to the beautiful and very convenient locale above the Hanover street Chapel, *not the least change* has taken nor will take place in his business of instruction in Music and Drawing, which he is attending to, and will always continue to attend, in Portsmouth, with the same unceasing ardor and faithfulness as ever before in the last five years of his residing here. CARL MEINERTH.
Portsmouth, Sept. 27. 1m

200 HHDS. St. Ubes SALT for sale by
s22 J. B. UPHAM & CO.

FOUR DAYS LATER FROM EUROPE.

Arrival of the Alps at Boston.

The Cunard screw steamer Alps, Capt. Moodie, arrived at Boston at 8 o'clock, Thursday morning, bringing advices from Liverpool to Sept. 13, four days later than previous accounts.

Prince Albert returned to Portsmouth on the 9th, from his visit to the Emperor Napoleon.

THE NEGOTIATIONS.—*Vienna, Sept.* 8.—The opinions of this government, as they have been communicated to its diplomatic agents abroad, may be given in a few words. Although Austria does not consider the rejection of the four conditions a *casus belli*, she still looks on the guarantees demanded by the Western Powers as the only basis for a durable peace, and will, therefore, at the same time that she maintains her armed neutrality, neglect no opportunity of urging Russia to accept them.

The above is from the correspondence of the London Times. The same writer says the Prussian government is even less inclined than before to make common cause with the three Powers. The excuse for holding back is that the Emperor Nicholas, "at the demand of the German Powers," has consented to quit the Turkish territories, and therefore Prussia does not feel herself called on actively to interfere in the quarrel between the Western Powers and Russia.

The news from the Baltic is confirmatory of the opinion that no further important movements would be undertaken in that quarter this season.

THE WAR ON THE DANUBE.—A proclamation, it is said, has been issued by a Russian General to the inhabitants of Odessa, commanding them, in case the allied forces should attempt the capture of their city, to reduce it to ashes and retire to a town in the interior—expressly declaring that any persons remaining behind or attempting to extinguish the flames, will do so at their peril.

The embarkation of the expedition to Crimea would take place at Baltschik, where the two armies had concentrated. Letters received in Paris from officers at the head quarters of Marshal de St. Arnaud, announcing that the expedition would positively put to sea on the 2d inst. Three days afterwards, it was anticipated, the expedition will have landed on the coast of the Crimea.

From the Army in Asia.—The recent successes of the Russians in Asia have been rendered nugatory by a diversion made by Schamyl. A letter from Erzeroum of the 12th ult. in the Paris Pays, says:

"I have to announce to you a fact which has produced a great sensation in Asia, and is of material importance, after the defeat of the Turks at Kars. Schamyl, at the head of 16,000 horsemen, has descended from the mountains into Georgia. As the Russians expected no attack on that side, they were not on their guard. The Circussian chief has inflicted upon them serious damages. 200 villages were put to fire and sword. Schamyl is now within a few leagues of Tefflis. Bajazid has been evacuated by the Russians, who have entirely withdrawn from the Ottoman territory.

SPAIN.—Mr. Soule, the American Minister, has written a violent letter to the Diario Espanol in reply to the charges of the Madrid press of participation in the recent events.

The Madrid correspondence of the London Times, under date of 4th, says that the Spanish Government considers the affair of the Black Warrior as mutually settled, and even if it had not been, the recent removal of General Pezuela from his post of Captain-General of the Island of Cuba would greatly facilitate the amicable adjustment.

THREE DAYS LATER.

Halifax, Sept. 28.—The steamship America, from Liverpool, 16th inst. arrived here at an early hour this morning.

The expedition against Sebastapol sailed on the 4th inst. It consisted of 600 ships and transports.

The harvest reports from England and the Continent are highly satisfactory.

LORD ELGIN.—*Quebec, Sept.* 26.—Lord Elgin left here this morning in a special train on the Quebec and Richmond Railroad, for the Western part of the Provinces. He intends to make a tour of Upper Canada previous to his departure for England, and will be present at the Provincial Agricultural Exhibition to be held at London, C. W. about the middle of next week.

Providence, Sept. 27.—The Rev. Dr. Thomas M. Clarke of Hartford was this morning elected Bishop of the Episcopal Church, in this Diocese, by a great majority of both orders. The Convention adjourned sine die.

Pittsburg, Sept. 27.—The aqueduct at Freeport fell last evening, and canal navigation is suspended to-day. There were but twelve deaths from cholera to-day, and the panic has entirely died away.

Louisville, Sept. 27.—The steamer Cleona was burned on Red River, together with her cargo, consisting of five hundred bales of cotton, three days ago. No particulars have reached us.

MURDER.—Jesse E. Scurry and servant, of Newberry, S. C. were shot dead a few days since by Dr. Gunter and his brother. An old feud existed between the parties. A reward of $2000 is offered for the arrest of the Gunters.

RAILROAD ACCIDENT.—The recent collision on the Georgia Railroad killed one of the engineers and a fireman, and severely scalded the other employees, but the passengers were uninjured.

MOUSUM RIVER BANK.—The bills of this institution at Sanford, Me., are not received at the Suffolk Bank.

☞ The Boston Hemp Company's works on the Milldam, with the City Grain Mills, were destroyed by fire on Thursday afternoon.

Mercantile Library Association
LECTURES.

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the public, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.
TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge*. But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.
All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.
A good assortment of Fancy Cases and Lockets
CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.
ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."
Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be creat.d at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A cordial invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Twine Bags and Reticules.
J. F. SHORES, JR., No. 1 Congress Block, has just received a few more
TWINE BAGS and LADIES RETICULES.

UNITED STATES AND FOREIGN

PATENT AGENCY,

No. 39 State Street, ... Boston.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. REDWOOD, T. R. PEARL,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CHAUNCY LANGDON,
Principal Examiners. *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

MEXICAN MUSTANG LINIMENT—

Every land has failed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union,

A. G. BRAGG & CO., Proprietors, 394 Broad way, New York. D. TAYLOR, Jr., General Agent, Boston. 6m2awlw 718

10,000 Bottles Sold since the First of January.

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. Kelley, an Indian, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

ORDWAY & WADLEIGH,
LAWRENCE, MASS.,

HERTS BROTHERS'

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BRAMAH PASSAGE, LONDON," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jenny street, Aldgate, London, and of*

L. & A. HERTS, No. 49 John street, NEW YORK,

And in PORTSMOUTH, from the following Hawkers:

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swellings, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Physic, Pa. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, late Member Parliament, London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S PANACEA DEPOT, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them bearing a name having a *somewhat* similar name, well calculated to deceive.

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., SATURDAY, SEPTEMBER 30, 1854. VOLUME 5. NO. 53.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1.25 year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

PATENTS.

American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the selection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.
Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"PATENT OFFICE, ———.
"R. H. EDDY, ESQ., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec 7 1853. eodly

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.
If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.
It is an English Remedy, and was used by William IV, late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.
Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as fire is applied.
It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.
Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.
Price 50 cents. Dr. Tobias's Office, 240 Green
Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.
wich street, New York.
Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&wly

FOR SALE & WARRANTED PURE. New Bedford Oils.
RECEIVED DIRECT FROM THE MANUFACTORY AT NEW BEDFORD,
And for sale by

BLEACHED and UNBLEACHED SPERM OIL, North West do., Whale Oil and extra Bleached Polar OIL.
Fresh OILS will be received every few weeks, and will be sold at the manufacturer's prices, by SAMUEL CLEAVES & SON, at their Candle Manufactory opposite the Eastern Railroad Station.
We have constantly on hand, (and for sale) of our own manufacture—Candles, Tallow, Hard Soaps and Fancy Soaps, and Soap Stock. m21

Dentistry.
FRANK FULLER, DENTIST,
CALLS the attention of Citizens and Strangers to his extensive and complete
DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.
The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in
Surgical or Mechanical Dentistry,
materially increased.
The services of a skilful and competent Assistant,
DR. JULIUS GUTTMAN, OF GERMANY,
For some years past in the employ of Dr. Hircocock, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.
☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and servicable as can be produced in Boston or elsewhere.
☞ Office open day and evening.

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, - - - - - - - - - - Boston.
SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.
References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. RENWICK, J. D. GALE, J. H. LANE, *Principal Examiners,*
T. R. PEALE, THOS. H. EVERETT, F. SOURWALTZ SMITH, WM. CHAUNCY LANGDON, *Assistant Examiners.*
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.
WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853.

BEWARE OF COUNTERFEITS!!
THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters
HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.
I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the Fac Simile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border of the same covering.
Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.
N. B.—OTIS MORTON, Jr., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

Morning Chronicle.

SATURDAY, SEPTEMBER 30, 1854.

THE NEBRASKA BILL.

The New Hampshire Gazette promises to publish the Nebraska bill next week, and remarks:

As our neighbors of the Journal, Messenger and Chronicle, have had much to say in opposition to the Nebraska bill without giving their readers an opportunity to examine its provisions, we gladly offer them the use of type from which our impression of the bill will be printed. We hope in justice to the good sense of their readers that they will accept this opportunity of enabling them to become conversant with the real merits of an enactment, which they have so constantly misrepresented and abused.

We could not think of lumbering up our precious columns with matter so dull and stupid; but we take the earliest opportunity to say we have neither misrepresented nor abused the bill.

We have found three faults with the bill; and have correctly published the three brief extracts from the same, which contain these faults.

The *first* fault is the breach of faith committed in the repeal of the Missouri Compromise line:

The *second* is the deliberately false assertion in the bill, that its intention is not to legislate slavery into the territory nor out of it:

And the *third*, which proves the second to be a falsehood, is that little provision which says that the Supreme Court of the Territory alone shall decide *"on the title to slaves."*

We copied the item on the *title to slaves*, months ago, and called attention to the contradiction between this clause and that about the intention!

We stated, and we now repeat the statement, that this clause *legalizes slavery* in the territory, so thoroughly that any one slaveholder there can hold his slaves, though every other white man in the territory should be opposed to it. And we call upon any man who can, to deny it, and show his proof.—We call upon him also, to reconcile if he can, the two items which we style the second and third faults.

NEW HAMPSHIRE FAIR.

The Agricultural Fair and Cattle Show of the State of New Hampshire, is to occupy public attention next week, in the thriving town of Keene, in the south-western corner of the State. The following plan of the campaign is from the Manchester Daily American:

The programme is now issued. There are to be four days of the Fair, commencing Tuesday the 3d of October. On the first day the business office will be open for the sale of tickets &c., but the grounds will not be open. The Judges and members of the Society will meet in the Town Hall at Keene.

On the second day, Wednesday, the grounds will be open, and the entrees can be made.—At 10 o'clock the horses will be exhibited, at 11, oxen and steers. At 12 o'clock, stallions take the course for examination. At 1 o'clock the trotting will come off. At 2, draught horses will be examined. At 3, matched horses. At 4, county and town teams. At 5, trotting horses, and the gates will be closed at six.

Thursday is the great day. Gates open to the Judges at 7 o'clock, A. M.,—to the public at 8. At 8 o'clock, all the horses on the course. At 9, mares and colts, and colts for examination at the same time. At 10, working oxen—single teams—trial on cart and drag. At 12, carriage horses—geldings and mares, for examination. At 1, exercise of trotting horses. At 2, an Address will be delivered from the platform, on the field, by Simon Brown, Esq., of Concord, Ms., editor of the New England Farmer. Addresses will also be made by other gentlemen who may be present. After which matched horses and stallions will have the track, and be under the direction of the Judges. At 5, exercise of trotting horses. Gates will be closed at six o'clock.

On Thursday evening there will be a meeting of the Society, at the Town Hall, at 7 1-2 o'clock, at which time addresses will be made, and any necessary business transacted.

On Friday there will be a procession which will march to the ground to witness the ploughing match. At 12 o'clock the Judges will make their report and the Premiums will be awarded.

Most of the railroads carry to and from the Fair on the same terms as in former years.

The ground selected is a level plain, about one mile northwest of the railway station.—An area of twenty-five acres, two sides of which are protected from the sun and wind, by thick pines, has been substantially enclosed and furnished with water, a handsome trotting course, stalls and pens, and supplied with all the conveniences for the accommodation of exhibitors and visitors.

A large building has been erected, four hundred feet in length, with three rows of counters, and sufficiently commodious for the arrangement and display of all machinery, implements, farm products, Manufactures, fancy articles, &c., &c. This is so constructed, as to afford perfect security from the weather in case of a storm or excessive heat.

Hay, grain and straw, will be furnished for stock. All animals from other States will be kept without expense to the exhibitor, and may receive any awards the Judges may deem advisable, except cash.

The same Grand Jury which indicted the Mayor of New York, has found bills of indictment against *one thousand one hundred and thirteen* persons for selling liquor without license.

GREAT EXPEDITION.

The last arrival from Europe, iuforms us that the Anglo French expedition to the Crimea has sailed. It was the largest naval force ever concentrated, consisting of seven hundred ships, carrying at once 70,000 men, with horses, guns, pontoons, gabions, tents, provisions and all the material of war. The fleet is manned by 25,000 seamen, and carries 3000 cannon. The land force comprises 25,000 English soldiers, 35,000 French, 10,000 Egyptians, 5000 Tunisians, and 5000 other Turkish soldiers. On the 3d, the greater part of the english squadron, with the British troops on board, and on the 5th, Marshal St. Arnaud and the Turkish part of the force, left Varna to join the expedition at Fedonico or Serpent Island, off the mouth of the Danube and opposite Eupatnia, on the Crimea. The debarkation will take place at a point near Baba, near the mouth of the river Katcha, where there is fifteen fathoms water. Once landed, the allies will entrench themselves. The Russians must next be driven from the field, or they will occupy the heighths above the city. From the sea, Fort Constantine, mounting 110 guns, will be the principal object of attack. A position has already been discovered by which the Russian fleet can be enfiladed, either set on fire in the harbor or compelled to come out and fight. Not much is known of the Russian preparations. Prince Menschikoff in person will conduct the defence of Sebastopol. He attaches great importance to forts Oczakoff and Kherson, and about a thousand men are engaged in strengthening these places. Continual reinforcements arrive at Odessa and pass on. Sixty thousand men are said to be in camp, besides a full garrison in the city.—A number of ships were being converted into fireships. All the available pilots were being distributed among the ships. The allies were seemingly prepared for their coming out.

There are strange rumors current that the French Admiral Hamelin strongly opposed the expedition against Sebastopol; that Marshal St. Arnaud takes the sole responsibility, and that sealed orders were on their way from France to discontinue it. But this may be all rumor.

THE SEMINOLE INDIANS.—A letter from Fort Meyers, Flo. of Sept. 8th, says:

"Bowlegs is not anxious to renew hostilities. He says he will not emigrate to the West, but will die in Florida. He will molest no one, but if attacked will fight to the death.

His entire force is insignificant in numbers. He cannot muster two hundred warriors; still the country is such that that number would seriously annoy any force sent against them. Many of the Floridans hereabout think it would be as well to let these people have their own way a few years longer, and death and emigration, (for some go off every year,) will so thin their ranks, that they will be entirely powerless. The land they occupy will not be cultivated while there is any other soil in the United States fit for tillage. It is a worthless waste.

The expense to the government in keeping troops here, to protect the settlers from the Indians, or the Indians from the settlers, I know not which, must be immense. There are seven companies on the Penisula, and their cost is something. Many actually believe that some of the "Crackers" in these parts would, were the troops withdrawn, get up a sham fight among themselves, call it an Indian attack, and petition government for military aid to repel another threatened one. Such things have been done, and poor Billy Bowlegs has had the blame when entitled to none. It is notorious that very many citizens in this part of Florida depend for their living upon the troops stationed here, and their withdrawal from the country would compel these to find some other mode of gaining their subsistence."

The above remarks seem to us to be perfectly correct. Let the celebrated William Cruikshanks, alias "Billy Bowlegs," and his dusky friends, die out in their native fastnesses, while the seven companies ostensibly acting against him should at once be sent to our Western and Southwestern frontier, where their services would be of some real value to the country.—*Boston Journal.*

THE STATE REFORM SCHOOL FOR GIRLS.—We learn from the Advertiser that the whole sum of $20,000, required by the resolve of the legislature at the last session, to be contributed by private individuals for the establishment of a State Reform School for Girls, in order to secure the appropriation of a like sum from the treasury of the State, has been made up. The subscriptions amount to $20,300, and cannot fail to be satisfactory to the Governor and Council. The resolve required that the subscriptions should be made within six months from its passage, that is by the 12th of October. The work has thus been completed within a fortnight of the prescribed time. Thirteen hundred dollars were collected by Mrs. Brown, at New Bedford. With the exception of a single subscription in each of the cities of Salem and Worcester, all the rest of the money has been contributed in Boston, by gentlemen generally known as Boston men, in some instances residing in towns in the vicinity.—*Boston Jour.*

KANSAS.—The Washington Star learns from "good authority" that thus far no slaves have been carried into the territory of Kansas, although many Arkansas and Missouri slave holders, and other Southern State citizens, have taken up claims there. At the present time, says the Star, the immigrants from Northern States out number those of the Southern States, and probably ere the next Presidential election comes off, Kansas will have formed her State Constitution and will be knocking at the door of Congress for admission into the Union.

BREADSTUFFS.—Notwithstanding the panic about 'short crops,' prices of breadstuffs have steadily declined during the past two weeks. The New York Journal of Commerce says there is every reason to believe that instead of the 'hard winter' which many predicted, the poor will have a supply of the necessaries of life at far more reasonable rates than were anticipated. Even at the decline in price, the market is depressed, and holders are free sellers, while buyers are looking for still lower rates.

Pants procured on tick, are considered 'breeches of trust.'

LOCAL.

SUICIDE.

The body of a man was found on Friday, in the suburbs of this city, near Sodom Road, on land of Mr. Langdon, under a large pine. He was found by Mrs. Abraham Holmes, who notified the City Clerk; whereupon Aldermen Tucker, Jenkins, Colcord and Dearborn, visited the spot, and found the body of an unknown man, apparently a foreigner about 5 ft. 6 in. in height, medium size, supposed to be about 50 years old. He had apparently been dead about 4 weeks. On examination, a piece of rope was found about his neck, and another piece from which it was evidently broken, was fast to a limb of the tree overhead; thus making it evident that the deceased had committed suicide by hanging; but the rope being slender, merely strangled him and broke, bringing the body to the ground.

His clothes were green satinet pants, thick foreign made boots with hob nails, and dark figured vest. A cane and pack, with a strap, lay near him, containing 1 large blanket; 4 shirts, 1 marked C S, and one F K 2; 2 cotton hdkfs; 1 blue frock; 1 pair drawers; 1 pair striped pants; blue cloth cap with large leather vizer, evidently foreign; 1 tin pot, spoon, razor, needles and thread—probably a sailor's outfit.

Any friends wishing to identify the deceased can find these effects at the city alms house.

The body was enclosed in a coffin and interred in a burial ground near at hand, by the city authorities.

TEACHERS' INSTITUTES.—We are informed by Horace Webster, Esq. School Commissioner for this County, there will be held two Institutes in the County this Autumn. The first session to commence Oct. 23, at Hampton or some other convenient point in the eastern part of the County. The second session to be held at Chester, commencing Nov. 13th.

Efficient Boards of Instruction have been engaged for each Institute, which with other arrangements will be hereafter announced.

MALICIOUS TRESPASS.—Last Saturday evening, John Wheeler, of Centre street, Concord, N. H. a man who moves buildings, loaded his wagon with tools, blocks, rollers, &c. in order to be ready at an early hour on Monday morning for his engagement for the week. About 12 1-2 o'clock Sunday night, the wagon with its contents was taken by some persons unknown, to the lower bridge, more than a mile distant, and thrown into the river below, where they were found on Monday after much search and disappointment. The whole value of the apparatus was estimated $300—all but about $50 worth was recovered. Suspicion rested upon Walter Brown of Green street, who was arrested, examined and bound over for trial. It is probable that others were concerned, as several were seen with the team in the morning in the direction of the bridge between twelve and one o'clock. Horses were tracked from the door of a certain stable the next morning.—*Concord Phenix.*

SAD ACCIDENT.—Mr. Joseph Hatch, a ship carpenter, in the yard of Messrs. D. & S. Ward, Kennebunkport village, was instantly killed on Wednesday, by the fall of a staging. He was aiding others in carrying a heavy stick of timber up the side of a ship building in the yard, when the stage gave way. Mr. Hatch was about fifty years old, and had a wife and aged mother, who looked to him for support.—*Biddford Union.*

ATTEMPT TO BREAK JAIL.—We are informed that James Waters attempted to liberate his brother John Waters, who has been for some time confined in Alfred Jail, under sentence for the murder of Lewis Maxwell.—Our informant says that Waters attempted to liberate his brother by breaking into the jail, and succeeded in forcing an entrance inside the outer door before he was discovered. He made his escape and is now at liberty, but the the officers are upon his track, and we doubt not he will shortly be overhauled.—*Great Falls Journal.*

The semi-annual meeting of the York Conference (Congregational) will be in Buxton, in the South Meeting House, Rev. Mr. Bartlett's, commencing Tuesday Oct. 10th, at 10 o'clock, A. M. Preachers Rev. Messrs. Wilcox and Gould.

NOVEL PREMIUMS.—At the anniversary of the Norfolk County Agricultural Society at Dedham yesterday, a premium of $2,00 was awarded to Miss Mary Quincy of Dedham, for a very neatly mended stocking. The committee also made some complimentary remarks by way of encouraging young ladies to cultivate this very useful art.

A daughter of the Hon. Caleb B. Smith, late United States Senator from Indiana, at a recent County Fair at Connersville, in that State, received the highest prize—a side saddle worth $100—as being the best lady rider of all who presented themselves as competitors.—*Boston Journal.*

ELOPEMENT.—The husband of a very pretty wife, residing at the West End, eloped with a young woman on Tuesday afternoon, having taken passage for New York by the Norwich route. The deserted wife, not fancying this style of treatment, last evening forwarded a telegraphic despatch to have the parties arrested on the arrival of the boat at New York, this morning. This will rather check the programme of the elopement. The wife is not above 19.—*Boston Bee.*

AGRICULTURAL DISTRESS IN ENGLAND.—The last number of the London Punch has a picture of a British farmer, upon whose countenance the most intense distress is depicted. The cause of his trouble is explained by the following statement: "Well! Here is a pretty business! I've got so much corn, that I don't know where to put it."

Cheap Excursion.

Great Mechanical Exhibition at Portland.

A GRAND MECHANICAL EXHIBITION AND FAIR is now open in Portland. A large expense has been incurred in the erection of commodious buildings, and extensive preparations have been made to render this Exhibition one of uncommon attraction to all interested in the progress and improvement of the Mechanic Arts.

Arrangements have been made by which passengers from PORTSMOUTH and other Stations on the P. S. & P. Railroad will be carried to PORTLAND and back at HALF THE USUAL FARE, with the price of an admission ticket (25 cts.) to the Exhibition added.

Excursion to be THURSDAY, Oct. 5. Tickets good to return either on the 5th or 6th.

Tickets to be obtained at the Railroad Stations.

STRATHAM, N. H

J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c., to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.

J. H. DIMAN.

Stratham, Sept., 1854. 3taw5w

Cure for Cholera.

Cholera Morbus, Dysentery & Bowel Complaint.

THIS very valuable medicine is prepared and sold only by

BRACKETT HUTCHINGS, 4 Market st.

Where all those who are desirous of having the Best medicine for the above complaints, are invited to call and purchase a bottle.

New York, Sept. 28.—In the matter of Durand *vs.* Hollins, for destruction of property at Greytwon, Judge Bosworth delivered his decision to-day, granting the petition for the removal of the case to the United States Circuit Court.

President Pierce, it is said, leaves Washington to-day or to-morrow to attend the Pennsylvania State Fair.

New York Politics.—A despatch from Albany states that very strong efforts are making to unite the two wings of the Democratic party—the "Softs" to withdraw, and Seymour to have the mission to Europe.

The steamer Troy, which left Troy last night for New York, went ashore near Peekskill about six o'clock this morning. A dense fog prevailed at the time, and she was going very slowly, but her bow ran some twenty feet out of water, by which all the passengers were enabled to get ashore in safety. The steamer remained ashore at latest accounts, leaking badly.

The War Steamer Santa Anna.—This vessel, built at Webb's ship yard for the Mexican government, broke down soon after leaving New York, and has been compelled to put into the Delaware for repairs. As so much has been said of our own steamship disasters, it is well enough to note this fact.—Just before the Mexican war there were two steamships contracted for in New York for Mexico, which were purchased for our own navy when war was declared. Both turned out badly: one of them was subsequently condemned as utterly worthless, and the other was almost wholly reconstructed, at a cost hardly warranted by her original merits.—They neither of them could carry a battery of any force, and both narrowly escaped being swamped in the "Northers" of the Gulf. The Santa Anna, we are told, has a pretty model, but can mount only a light armament, and even if her engine be made to work, she is a failure as a war ship. The skill and experience which our shipwrights unquestionably possess in building merchant vessels do not seem to secure them equal success when they undertake the construction and equipment of men-of-war.—*Boston Courier.*

The New York Express says, there is a great surplus of labor here in the city just now. Any number of men can be had to do any job. The trades of luxury, such as Jewess, and the like, have been rapidly dismissing their men, and they are crowding into other employments. Building, etc. will be greatly diminished as soon as existing contracts run out, or else contracts will be undertaken a great deal lower.

The Mayoralty of San Francisco.—Four parties are in the field heading for the office of Mayor of San Francisco:—the Whigs—the "Electionists"—and two divisions of the Democracy, called respectively the "Rose Water" and the "Bone and Sinew" parties.

Large quantities of roofing slate are arriving at Bangor, from Piscataquis county, where an inexhaustible ledge has been opened. Nearly all the slate used in the vicinity of Boston, is now supplied from Vermont, and the prospect is that the importation of the article from Wales will soon cease altogether.

The New York Tribune says a steam-engine capable of doing the work of twenty slaves can be purchased for the price of a single one, and fed at less cost than the single laborer.

Annexation of Charleston.—So far as the action of Boston is concerned, the annexation has been carried by the decisive vote of 3310 to 1370—a majority of 1940, and a relative proportion of nearly two and a half yeas to one nay.

Mind Your Pronunciation.—A young gentleman of our acquaintance created quite a sensation a few evenings since while reading to a circle of young ladies a poetic effusion—"To a Beautiful Belle,"—by pronouncing the word Belle with two syllables.—*N. Y. Day Book.*

Mr. Green, one of the wealthiest men in Chicago, worth three or four hundred thousand dollars, is charged with the murder of his wife. He resisted the arrest with knife and rifle.

Mr. Lawrence Myers, of Buffalo, died in that city a few days since of hydrophobia.—His agony during his paroxysms was terrible to behold, and his struggles were so fearful that five powerful men could with difficulty lash him to the bed, which, in his sane moments, he requested them to do.

The Washington Star states that this season double as much wheat and flour will be shipped, both from Richmond and Alexandria, as ever before in a single season.

An exchange mentions hearing an address from Miss Susan B. Anthony of Rochester, one of the 'strong minded.' "She made some good hits, but not a very strong case, and tipped over all her arguments for woman's independence of the other sex, by *passing a man's hat to take up the collection.*"

There is an institution in Havana called the Penala, a sort of hospital, where husbands have the power to confine their naughty wives. The power is frequently exercised, the husband during the durance of his wife, paying the jail and subsistence fees.

☞ Agent for the sale of Messrs. Hallett, Davis & Co's celebrated Piano-Fortes. A splendid Grand Piano from their manufactory, may be seen at his Room.

25 Cent Daguerreotypes

AT

SALEN'S

DAGUERRIAN GALLERY,

No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES

BY STEAM,

For the extremely LOW PRICE of 25 cents.

Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability, you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromcnas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!

OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, tpr 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it to their economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES Please observe that his reputation is of *seven years* permanent residence in this community,

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Pedduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Hartford Fire Insurance Company.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says—

"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.

By order of the Board of Directors—

H. Huntingdon, Pres."

YOUNG AMERICA.

☞ The progress of this country in all that concerns the ingenuity of the people is yet without a parallel in the known history in any other part of the world. Young America! Beautiful progressive appellation! Young America, with its railroad travel, steamboat competition, balloon exploits, express wonders, and all kinds of travel, progress and reform, not excepting that

METEOR FLASH!

Across the sky of the medical world, in the shape of the wonderful effective, and no mistake

WORM SYRUP.

Invented by DR. HOBENSACK, of 120 North Second Street, Philadelphia, Pa. another testimony in favor of Young America.

For sale by J. R. SLATER, & CO. No. 3 Tremont Temple, Boston, Wholesale Agents for New England.

Over 10,000 Boxes sold in 5 Months.
DEVINES COMPOUND
Pleich Lozenge.

THE great Remedy is at last discovered, for Colds, Coughs, Whooping Cough, Croup, Asthma and Consumption. THE LAMPLIGHTER, 65,000 Published in 5 Months.

TO THE AFFLICTED.
From the New-England Directory.

THE great virtues of Botanical remedies have in all ages, been universally approved and acknowledged, but it remained for the Chinese to discover a never-failing remedy, not only to cure disease, but to render the face young and blooming, and lengthen the life of man. Such are the benefits derived from the use of the celebrated "COMPOUND ESSENCE OF CHINA ROOT," prepared by Dr. F. MORRILL, No. 15 Howard st. This invaluable article is composed of thirteen vegetable ingredients, and as we have tested its qualities, do bear willing testimony to its being all that Dr. M. claims for it as a nourishing and invigorating remedy for a debilitated and worn-out system. Try it. See Herald and Bee, Boston.

PIANO FORTES TO LET.

THE subscriber has at all times a large number of PIANO FORTES, MELODIANS, SERAPHINES and PARLOR ORGANS, For Sale or to Let, to persons residing in this city or at a distance. Persons hiring, who may conclude to purchase within the year, will receive a deduction of rent. OLIVER DITSON, Music Publisher,
115 Washington street.

THE NUTRITIVE CURE.

THE attention of Invalids is earnestly invited to LA ROY SUNDERLAND'S Pamphlet of Information respecting his NEW METHOD of cure by Nutrition without Drugs, Boston, Mass., sent by mail for one dime prepaid. Every form of Disease, especially of the Stomach, Liver, Heart, Lungs, Bowels, "Impurities of the Blood" and "Nervous Complaints," radically cured without a particle of medicine! Mr. Sunderland eradicates the love of Narcotics and prescribes for the *Deaf, the Lame, the Blind;* he has patients in every part of the country, among whom are gentlemen of the Medical Profession, who have themselves successfully adopted the New System of Practice.,

Important Notice.

DR. SPEAR'S WOMAN'S FRIEND is unquestionably the only remedy ever discovered for that distressing complaint, Falling of the womb, obviating all necessity of resorting to instruments. It is put up in packages, and can be sent to any part of the world. Thousands are suffering from pressing down pains, pain in the groin and across the hips and small of the back—also very low down the back, with heat and scalding of the water, with some affection of the liver, great weakness and prostration of strength, nervous debility, &c. Much exercise, walking, standing, riding or lifting, greatly increase the above symptoms. In advanced stages of the disease the sufferer is deprived of all exercise, and is obliged to be confined to the house, and frequently to her bed. These are the symptoms of this complaint, all of which can be radically cured by the use of this extraordinary medicine. Price $3 per Package.

Dr. Spear's Golden Bitters.

This valuable and popular specific stands unrivalled for the cure of Female Weaknesses, Nervousness, Barrenness, Fluor Albus, &c. For common cases of weakness in the stomach, in male or female, they form an invaluable remedy. If these Bitters were appreciated as their virtues demand, they would find their way into every family.—They are compounded especially for those complaints which often form the prelude to many others of a more serious character—such as excessive Nervousness, Prostration of Strength, Blouting of the Bowels, Dropsy, Consumption, Palpitation of the Heart, Scrofula, Cancer in the Womb, Pressing Down of the Bowels, &c. Price $1 per Package, or six Packages for $5.

E. D. SPEAR, the celebrated Indian Doctor, 18 *Kneeland st*, Boston, may be consulted at his office, or by letter, upon all diseases which afflict humanity, free of charge. Dr. S. invites those who are pronounced incurable to consult him, as he believes that in many cases he will be able to restore them to health.

All letters strictly attended to, and answered promptly.

FIFTEENTH ANNUAL RE-OPENING
—OF—
Comer's Commercial College,

NO. 139 WASHINGTON STREET, BOSTON.

SIGN, BANNER AND ORNAMENTAL PAINTER—32 Washington street, Boston.
Apothecary's Ware LETTERED in the neatest manner. All orders punctually attended to.

DR. IRA WARREN'S

COMPOUND OF
PURE COD LIVER OIL, LIME AND SUGAR OF MILK.

THE great value of Cod Liver Oil as a medicine in Consumption is now generally admitted. It promotes assimilation, the primal defect in this disease, by initiating the growth of cells—the cell resulting, according to Dr. Burnett, from the union of a minute particle of oil with albumen, under the quickening force of vitality. The PHOSPHATE OF LIME has been proved to promote the same great end throughout both the vegetable and the animal world.

The SUGAR OF MILK, manufactured from the whey of goat's milk, being a supporter of respiration of weak lungs, and having a powerful affinity for oxygen, greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil, and supplying a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in THROAT AND LUNG DISEASES, I resort directly to the fisheries for a pure oil. The excellence of this combination will be at once appreciated by my professional brethren, and a trial of it will commend it to the people generally.

BURR & PERRY are my wholesale and retail Agents for the United States and British Provinces, to whom all orders should be addressed.

For the Chronicle.

A VISIT TO WACHUSETT.

It may seem presumptuous for one in Massachusetts to write to a friend in the Granite State, where the "Crystal Hills" greet the rising sun as he comes up out of the Atlantic, about any mountain or earthy eminence in the old Bay State. Nevertheless, I shall venture on such an experiment, as I have it in mind to write a few words to my good friend and welcome visiter, the Chronicle.

Blessed be the Maker of mountains! and blessed be the mountains, too! We like to gaze upon them, as they rise like sentinels in the sky, looking abroad in the great distance, and reminding the thoughtful beholder in audience with them, of the mighty creative power of the God of all. We like to climb to their summits, and see the vast expanse of land and water,—rivers, lakes, hills, valleys, forests and fields,—the thickly populated villages and towns, and the scattered dwellings of the husbandmen, and others, in the "country places." And to breathe the mountain air, too, that is worth something; more than all the patent medicines ever invented or taken.

We have just enjoyed a brief mountain banquet, having been for the first time to Wachusett, one of the very considerable mountains of Massachusetts. It is situated mostly in the town of Princeton, and is one of the most agreeable localities in the State, and one of the best of all places to visit in the summer or early autumn days. We went on the twentieth of September, a day "eminently qualified" for the occasion. It had rained during the night previous, and the morning air was clear, and freshly greeting us, as we commenced our ride through the pleasant towns that lay upon the route between Worcester and Princeton. The signs of harvest time were in nearly all the fields by the way; the leaves of the trees were not much turned, while the fruit hung thickly upon many of them; and the farmers were busy in looking after the good things, which their well tilled lands had yielded them.

Leaving our carriages at the Mountain House,—a good traveller's home,—we took our course up the mountain, by a better path than we had anticipated. We had in other days trudged from "Gibbs's" up Mount Clinton, and Pleasant, and over Franklin and Monroe to the granite Washington; and also up that harder pathway to the top of Lafayette in the Franconia range;—but the ascent of Wachusett is but leisure work, in the comparison. With a few little obstructions over head and under feet cleared away, the path might be a very good one for riders on horse back. We were a little more than half an hour making the ascent. Arrived at the top, we had all to see that could be desired during the time we tarried there.

"Prospect immense spread out on all sides round."

Away north in New Hampshire, old Monadnock was looking down upon us; and not far off, Ascutney, over the Connecticut river, in Vermont. The Green Mountains, that run through the last-named State, formed a dark background as far as the eye could see. Far west, were the mountains of Berkshire; and nearer, Holyoke and Tom. East we could just espy the smoke coming up from some of the furnaces in or near Boston. The northeast gave us mountains in abundance, and Lyndeboro'; but no stretch of vision could bring up old Agamenticus—that was too far away. Then the inland settlements were on every side of us: Westminster, Barre, Hubbardston, Rutland, Holden, Fitchburg, Lancaster, Boylston—but we will not attempt to name them all.

What a picture of our old and honored Massachusetts—of the real "heart," too, of this commonwealth! How much of plenty, thrift, comfort, and peace, abide on this surface now within the range of vision. Massachusetts! where is her equal? Where upon the Lord's earth can a million of mortals be found, holding in common so many blessings? Says a good friend of mine: "I was born in New Hampshire, and love my native State; I went to college awhile in Vermont, have strolled in Maine, dwelt a little in Connecticut; have taken a bird's-eye of great Rhode Island, resided some years in New York, a little in Pennsylvania and Maryland; and have been up and down New Jersey;—but above all the other States I have seen, I must say, the old Bay State forever!" This I give as the language of my friend. Do not let it stir your Granite State pride, Mr. Portsmouth-born. I need not compare States, any farther than to remark that the one mostly seen from Wachusett, is a little better than States in general will average.

The mountain air! what a profusion of it have we here to-day; and what an excellent quality, too! It cured an invalid friend, who was with us, and whom we considered doomed to at least a week's illness. Soon after his interview at this air-cure "establishment," he was a remakably restored man. Had he gone there soon again, he might have experienced the moving sensations of one mentioned in B. D'Israeli's Contarini Fleming: "There is something magical in the mountain air. My heart is light, my spirits cheerful; every thing occurs to me without effort. Whatever passes before me, gives birth in my mind to a new character, a new image, a new train of fancies." Let us say to all lovers of mountains and of scenery from mountain-tops, go, if you can, to Wachusett. J. G. A.

Dentistry.

FRANK FULLER, DENTIST,
CALLS the attention of Citizens and Strangers to his extensive and complete
DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in
Surgical or Mechanical Dentistry,
materially increased.
The services of a skilful and competent Assistant,
DR. JULIUS GUTTMAN, OF GERMANY,
For some years past in the employ of DR. HITCCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.
☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and serviceable as can be produced in Boston or elsewhere.
☞ Office open day and evening.

Morning Chronicle.

MONDAY, OCTOBER 2, 1854.

CRIME AND PUNISHMENT.

On Friday, Sept. 58, in the jail yard at Cambridge, Mass., one Thomas Casey was hung, for a murder which he committed on the night of the 17th of September, 1852, upon Ossra Taylor and his wife, Angeline, in their own house at Natick.

Since his removal from the State Prison to the East Cambridge jail, Casey has, when talking to officers and prisoners, manifested indifference at his fate, and to some he has said that he should prefer hanging to perpetual confinement in the penitentiary; to his confessor, Rev. Mr. O'Brien, however, he has spoken in a different tone. To the last moment of his life, he expressed a wish to live—to live anywhere—rather than suffer the ignominy of hanging. It has been said that he has never betokened remorse or sorrow for his great sin. This may be true so far as he unfolded his thoughts to his keepers and associates in jail; but in his serious moments, when aroused to a realization of his condition and his nearness to eternity, he has manifested all the emotions of a saddened heart.—When speculating upon the enormity of his offences, and judging of them, it should be borne in mind that he was a creature barely removed from brute nature—with an intellect scarcely sufficient to appreciate the value of a soul—of ungovernable, plodding temper which exaggerated an imaginary injury into an unpardonable wrong. The conduct of the prisoner during his last days was placid. On Thursday night, his confessor attended him in his cell, and during the interview administered the sacrament to him.

His crime was awful and his death terrible. His body remained suspended about half an hour, when it was cut down and surrendered to his only surviving relative, a brother, who interred it in the Catholic Cemetery at Cambridge.

Prior to his execution Casey gave prayer books to the sheriff and two of the jailers as token of appreciation of the kindness which they had extended to him during his confinement. The criminal was about nineteen years of age and a native of Ireland.

A traveller from Philadelphia has just visited the new jail in Boston, and writes thus:

We made some inquiries concerning the population of the building, and were informed by the Superintendent that of all the prisoners confined there not less than nine-tenths were of foreign birth. The same disproportion to natives of the soil has also been remarked in the population at the Penitentiary, the Alms House and House of Correction.—When this fact is taken into consideration that but comparatively few foreigners reside in Boston, this state of things is no small compliment to the people.

This state of things also shows the comparative state of morals of natives and foreigners. This comparison does not exhibit the superior fitness of foreigners for making or executing laws. But it does present their *comparative* unfitness. We say comparative: for there are no better men in the country than some who have come from other shores. But the general average is in favor of keeping power in safer hands, viz. of well-known, well-tried citizens.

WRECKS.—The New York telegraphic report of Friday night says:

Capt. M. Leary, of bark Mary Morris, which arrived here to-day, from Glasgow, reports that on the 18th of August, latitude 53° 26', longitude 16° 07', fell in with the hull of a large iron vessel, painted black, with a bright red bottom. She was apparently a Clyde-built vessel, and had three or four compartments. The wood work was entirely burnt out. Sent some men on board, who, on their return, reported having seen some machinery in her. It was very foggy at the time, with a heavy sea. Next day, fell in with and took on board a full length female figure-head, seven feet high, with a wreath on her head and gilt stripes on the dress, and the hands extended. It is the impression on board the bark that the wreck was that of an iron propellor, and no doubt it was the remains of the ill-fated and missing steamship City of Glasgow.

Our Philadelphia correspondent telegraphs that the City of Glasgow had no such figure-head as that picked up by the Mary Morris. She had, however, a red bottom, and the figure head may have belonged to some other vessel.

The Boston Daily Advertiser says the wreck was undoubtedly that of the iron ship Shandon, which was burnt on the voyage from Glasgow for Montreal, 4th ult., in about latitude 54, longitude 17. The Shandon had a full length female figure-head, and when fallen in with two days after the disaster was supposed to be a steamer.

The supreme court of Vermont, through Chief Justice Redfield, has just given judgment in favor of the constitutionality of the prohibitory liquor law of that State, assailed on the ground of its submission to the people. The court said—

It is admitted by all that a law depending upon a general contingency is valid. It is fallacious to attempt to distinguish between that and the contingency of a popular vote.—The policy of a license or prohibitory law depends upon the state of public feeling upon the subject; and it is perfectly proper for the legislature, by any proper mode, to ascertain that condition of things. In all great moral questions of this character, the efficacy of the law must depend upon the state of public feeling; and that should be ascertained by petition, or other intermediate mode, as in this case.

EXCURSION TO PORTLAND:

THURSDAY, OCT. 5.

A very extensive and attractive Mechanics' Fair commenced at Portland, last week, and is to be continued this week also. Next Thursday, as will be seen by an advertisement in our columns, excursion tickets at half price may be obtained, from this place to Portland, when many of our citizens will doubtless be induced to attend.

Thus far, the fair is very successful. Over 2000 visitors are present daily.

Among the articles on exhibition, is a grand invention, from this city, Foster's Reefing Apparatus, and a specimen of the magnificent glass apparatus for light houses, known as Fresenel's Lens. It is the first of the kind that the Government have ordered for our coast, and although the cost of the glass globe and its connecting prisms is very large, (between five and six thousand dollars) yet this will be more than compensated, in a year or two, by the saving in oil—ten times the ordinary amount of light being obtained through this means, with one fourth the quantity of oil. This apparatus is intended for Boon Island light house, and is to be placed in an outer covering or lantern which is building by Mr. Ira Winn, under the supervision of Lieut. Franklin of the Coast Survey, the Fair being indebted through the latter gentleman to the general government for having it set up in its present position.

As another inducement for our military citizens to visit Portland on the 5th of October, there is to be one of the greatest Military Trainings on that day which has ever been witnessed in Portland. It will be a general muster of all the independent uniformed companies far and near, under general officers.

A NEW BISHOP.

The Episcopal Diocesan Convention in New York, on Friday, Sept. 29, balloted eight times for a Bishop, to take the place of Bishop Wainwright, deceased. The principal candidates were Rev. Messrs. Vinton, Haight, Harris and Potter. Finally, at the evening session, the Rev. Dr. Potter of Albany, was chosen Bishop of the diocese of New York, on the eighth ballot. He received 182 votes of the clergy and laity against 126 for the Rev. Dr. Vinton. The election was confirmed by acclamation.

A NEW MEDICINE.—Our readers this morning will perceive that one of our advertising columns is filled with a brilliant description of a new BALSAM, discovered by a German doctor, and manufactured by Dr. S. O. Richardson, of Boston, the proprietor of the celebrated and popular Sherry Wine Bitters. Homœopathic Balsam is beautifully put up in neat oblong metallic cases, like a sardine-box; and is accompanied with full general directions in German and English. As we don't find ourselves afflicted with any thing in the list of ills enumerated in the advertisements, we shall keep our box at hand for use when occasion demands. Thacher and Preston are the agents here.

KNOW NOTHINGS IN CALIFORNIA.—A correspondent of the Newburyport Herald, writing from San Francisco says:

The order of "Know Nothings" has entered this State, and is making immense progress. Six thousand members belong to the order in San Francisco alone. It is causing a great ferment among the foreign population. Into the scale of which political party the said order will throw its influence here is yet undecided; but politicians of all shades equally dread it.

Coal Associations are extremely fashionable in many towns of the eastern States at the present time. One was recently formed at Pawtucket, and the Dunnel Manufacturing Company are supplying the large number of people who work for them at the Franklin Print Works at that place with coal at cost, which is, in the state in which it arrives at the wharf, about $6,60 per ton, or nearly $3 less per ton than it is retailed from the yards, broken and screened.

INCIDENT AT SEA.—Captain Gookin of ship Richmond, at this port yesterday, caught on the 15th, at eight A. M. latitude 31.10, longitude 79.50, a large booby, having a tally on its neck marked "Schr. Rose, Ruddly, from Matanzas for Halifax, all well." After giving the bird a breakfast on a dolphin, tied a tally on his neck, marked "Ship Richmond, from New Orleans for Boston," and let him go on the 16th. The same bird was again caught on the 16th, latitude 32.10, longitude 77.11, by the bark Robert Mills, arrived at New York on the 24th.—*Boston Courier.*

BREADSTUFFS.—Common brands of State flour, at the close of the New York market on Thursday, sold at $7 a 7 12, which was in some cases 12 1-2 cents per barrel lower.—Other descriptions were dull at about the previous day's rates. Canada white wheat sold at $1 64 a 1 65 per bushel, free of duty, and a lot of Wisconsin or Upper Lake sold at $1 46. Indian corn was a trifle better and closed at 76c a 77c for sound Western mixed.

Cincinnati, Sept. 29.—The old line Democrats held a mass meeting in Fifth Street Market Space last night, and addresses were made by the Hon. Geo. E. Pugh add others. The meeting was very disorderly and the Know Nothings seemed to be in the majority. The excitement increases as the election approaches.

LOCAL.

MUSIC IN PORTSMOUTH.

That there are less good singers in this city now, than has been the case at former periods,—at all events, less who can be considered available for public occasions—must be generally allowed. And we presume, it is almost as generally regretted. The causes of this decline in music, or at least in singing, we do not now intend to discuss. There is not less talent in our community, or less money spent in its development;—there are many more pianos, and musical education perhaps runs more in this direction.

We consider music an essential element in the education of every individual—next to the three primitives, reading, writing and ciphering; and we are sorry its use in our public schools was discontinued. May it soon be permanently restored. Meantime, let all parents send their children to juvenile singing schools; and let all who find themselves benefitted by or interested in the habit of singing, keep it up in after life. It is too often the case that "the fiddle and the bow" are "hung up," long before "the shovel and the hoe" are "laid down." This is to be regretted. Let the old, the middle aged, and the young, all sing, and enjoy it. We have heard some talk of getting up an Old Folks' concert in Portsmouth, this season, similar to those which have met with so much favor everywhere else; and we hope the "still harps" may be generally taken from "the willow" on that occasion at least.

Mr. Pearson announces an evening Singing School, to commence this evening at his room in Exchange Buildings,—to the first lesson of which all friends of music are invited. As a special attraction, membership to the Class is to include free access to a Musical Convention in Portsmouth, at the close of the term—in which singers will have the advantage of Prof. Baker's skill and experience in tuition. Mr. Clark also announces the re-opening of his Evening Singing School, in Academy Hall, a fortnight hence. He had a large and well conducted class last season. The terms of both these Classes are very low, and we hope each may be full. We have no doubt attendance on either will be profitable to all who wish to learn or practice singing, whether they have any knowledge of music before or not.

☞ Mr. Perabo, of Dover, with his little son, Ernst Perabo, and Mr. Lautenschlager from New York, gave a second concert at the Temple in this city, on Friday evening. They had rather more hearers than on Thursday evening; but nothing like the house we hoped, and which their excellent playing deserved. Those who did attend were highly gratified, as they could not fail to be with the beautiful Violin playing of the professor from New York and of the boy Ernst. The boy also performed finely on the Piano, sometimes with his father and tutor, and sometimes alone.

Mr. Perabo, though we are sorry to say he did not put money in his purse here, has certainly shown us that he is a musician to be highly prized, and worthy to be encouraged.

POCKETS PICKED.—Several ladies had their pockets picked at the Eastern Railroad depot in this city, on Saturday forenoon as the trains were about leaving. Miss Abby A. Towle, of Newington, lost money and tickets—and was thereby prevented from pursuing her journey to Great Falls. Her sister also lost money. Another lady from Newington was relieved of $40. Seven pockets were rifled,—some of the victims being left entirely minus, far from home. By the courtesy and attention of Conductor Alex. Rowe, they received passes to their several destinations.—The theft was committed while these, with the other eastward-bound passengers, were hurrying to get in the car, before the upward passengers could dismount—a common but foolish practice. Three men suspected of being concerned in the transaction, were arrested Sunday forenoon.

ACCIDENT.—Capt Thomas Oliver, of New Castle, was knocked down by a horse and wagon, on Saturday forenoon, while crossing Market street at the Square, in this city. The team passed over him, inflicting injuries so severe as to render it necessary to convey him home. Dr. Boardman attended him, and he is doing well.

☞ Commodore Morris, Chief of the Bureau of Ordnance and Hydrography, visited the Navy Yard on Saturday forenoon, and was honored with the usual salute.

OUTRAGE.—As Mr. Reuben Rand was standing on his door step in Congress street, Saturday evening, a man came along and knocked him down and beat him. A person supposed to be the author of this outrage, was taken by the officers on Sunday forenoon, and asked permission of them to go up stairs and change his clothes before being taken to the lock-up. His request was granted, and he has not since been heard of.

Dancing Exhibition.

ALL those who have at any time attended the Dancing Academy of the subscriber in Portsmouth, are invited to meet at RECHAB HALL, over B. Chesley's store, Market street, on WEDNESDAY afternoon, Oct. 4, at 3 o'clock, to practice preparatory to an Exhibition to be given in Congress Hall some evening in October free of expense to pupils.

o1 SAMUEL LAMPREY.

Cheap Excursion.

Great Mechanical Exhibition at Portland.

A GRAND MECHANICAL EXHIBITION AND FAIR is now open in Portland. A large expense has been incurred in the erection of commodious buildings, and extensive preparations have been made to render this Exhibition one of uncommon attraction to all interested in the progress and improvement of the Mechanic Arts.

Arrangements have been made by which passengers from PORTSMOUTH and other Stations on the P. S. & P. Railroad will be carried to PORTLAND and back at HALF THE USUAL FARE, with the price of an admission ticket (25 cts.) to the Exhibition added.

Excursion to be THURSDAY, Oct. 5. Tickets good to return either on the 5th or 6th.

Tickets to be obtained at the Railroad Stations.

MR. DEMPSTER,

COMPOSER of "The May Queen," "Lament of the Irish Emigrant," "The Blind Boy," and other popular songs, will give his

ORIGINAL BALLAD ENTERTAINMENT AT THE TEMPLE,

On WEDNESDAY Evening, Oct. 4th,

Which will include the following songs:

The Dark Eye has left us; Some things love me; John Anderson, my Jo; My father and my mother; Come over the mountains to me, love; The barring o' the door; Lament of the Irish Emigrant; Song of Burns—"Oh! poortith cauld and restless love"; Highland Mary; Duncan Gray; and The May Queen—in three parts.

Tickets 25 cents. Books 12½ cents. To commence at 8 o'clock.

The Books to be used are the Melodia Sacra, the new Handel collection, and the Union Glee Book.

☞ A general invitation is extended for the first evening.

Portsmouth, Sept. 19, 1854.

EVENING SINGING SCHOOL.

J. W. CLARK

GIVES notice of his intention to recommence instruction in the several branches that are usually taught in an adult Singing School, on the evening of *MONDAY, Oct. 16th, in ACADEMY HALL,* at 7 o'clock. The course of instruction will be particularly adapted to the class which honored him with their respect and confidence, last winter, and, whose patronage, with others who have sufficient knowledge of the elementary principles of Vocal Music, to read common psalmody, is respectfully solicited. The correct style of performing the *Monophonic, Polyphonic,* and *Homophonic* forms of musical composition, which will be of great advantage to leaders, and prominent members of choirs, will be fully exemplified. In addition to the book which was adopted last winter, the class will have the gratuitous use of a work that contains several of the great compositions which were performed at the Musical Congress held in the *Crystal Palace,* New York, under the direction of M. Jullien. A Glee Book will also be introduced during the term, which has been used by the best musical societies in Boston and New York, and will be furnished to the class without extra charge.

The term will consist of 24 lessons. Terms, for ladies, $1.00; gentlemen, $1.50, payable on the evening of the second lesson. s27

School for Boys.

MR. JAMES B. KENDALL proposes opening a Classical and English School, for Boys, at the Exchange Reading Room, on MONDAY, the 9th day of October next. The number of pupils will be limited. The French and German languages taught if desired.

Terms—$10 a session of 12 weeks.

Letters of reference may be seen at Mr. J. H. Foster's Bookstore. (MJG) s26

Penmanship.

$1.00 ONLY for the Duntonian System of Penmanship taught by Mr. A. K. L. BEDELL, in twelve lessons, at the Temple (or Mr. Demerit's school room,) commencing MONDAY afternoon, Oct. 2, at 5 o'clock. Evening Classes at 7 1-2 o'clock. Instruction given on Mondays, Wednesdays and Fridays. Specimens may be seen at the Post Office, to which he would invite the attention of the public. Two splendid premiums will be given. Come one, Come all. s30 1w

Currente Calamo.

J. F. SHORES, JR., No. 1 Congress Block, has for sale MAC LAURINS' SELF INSTRUCTING WRITING BOOKS; or every Man and Boy his own Writing Master. A special adaptation of the school system to the use of individuals who wish to acquire rapidity and elegance of handwriting, without the aid of a teacher; an entirely new and eminently successful method. Also intended for the assistance of teachers who wish to acquire the ability to teach the system themselves. The series comprises 12 Books, which teachers and others are invited to call and examine. s28

Carl Meinerth,

TEACHER OF MUSIC,

Gives Instruction in
Harmony, Thorough-Bass, Organ, Piano Forte and Singing, Guitar and Flute.
Hanover Street Chapel, Portsmouth, N. H.
At home every day but Saturday and Sunday.

Correction.

THE undersigned, finding various misstatements and misleading reports current, respectfully informs the public, that, with the exception of having transferred his Schoolroom to the beautiful and very convenient locale above the Hanover street Chapel, *not the least change* has taken nor will take place in his business of Instruction in Music and Drawing, which he is attending to, and will always continue to attend, in Portsmouth, with the same unceasing ardor and faithfulness as ever before in the last five years of his residing here. CARL MEINERTH.

Portsmouth, Sept. 27. 1m

Life of Chrysostom, based on the investigations of Neancer and others—translated from the German of Perthes;
A further supply of Bayard Taylor's Africa; Fashion and Famine; Wensley: This, That and the Other, &c. Just received by

s29 JOSEPH H. FOSTER.

DARING CASE AT CORINTH.—We learn that at the Methodist camp meeting at Corinth, held during the past week, an affray took place which resulted seriously. A young man by the name of Bussel was stabbed in the side by another young man named Herrin, inflicted a flesh wound which bled profusely. Deputy Sheriff Higgins, of Brewer, was attending the camp meeting, arrested Herrin and a brother of his, the latter having been engaged in the assault, and took them to Exeter for examination.

Young Bussel was taken into one of the tents, where the wound was dressed by a physician. He was then asked if he would be carried home. "I have no home," said he, "my parents are dead, and I have no relatives save one sister, who lives in Wisconsin, and a young brother. I am only here on a visit to Exeter, where I was born, and I suppose I must now die by violence among strangers." The parties in the affray were only visitors to the camp ground. The trouble is said to have grown out of a remark made the day previous by Herrin, in reference to Bussel's sister.—*Bangor Whig.*

SUDDEN DEATH AND SINGULAR FATALITY.—On Tuesday morning, Mrs. Martha Whitcomb, widow of the late Jeremiah Whitcomb, of Stowe, was found dead in her bed at the house of her son-in-law, Mr. Charles Peck, residing in Crown street, in this city, and by her side, at the same time, was discovered the lifeless body of her grandchild, the only son of Ferdinand and Martha Derby, aged seven months. Mrs. Whitcomb had taken the child to her bed, in order to assist its mother in weaning it; but it is supposed that she expired suddenly in the night, from heart disease, with which she had been for some time afflicted. At the time of her death, appearances indicated that her arm fell across the face of the infant, and as it stiffened in death, the child was unable to extricate itself, and was smothered by the pressure of the arm upon its mouth and nostrils.—*Worcester Spy.*

NEW YORK, Sept. 29.—Police officer James Cahill was shot dead at 3 o'clock this morning, while attempting to arrest some burglars. Three men have been arrested on suspicion.

A meeting of the so-called Practical Democrats was held in this city last night, preparatory to a mass meeting in the Park on Wednesday next. Amongst other objects they profess to aim at protecting the constitution, to democratize the government, to elect all officers by the people, and to repeal the system of contracting for public work, &c.

FROM HAVANA.—Gen. Jose de la Concha, the new Captain General, landed at Havana Sept. 21, and was received by Gen. Pezuela in state, with great pomp and display. He escorted him to his palace, where he was honored in the grandest style, when Pezuela retired to his country residence, refusing to accept a coach and horses which had been purchased to be presented to him. Bull fights and illuminations were the order of the day when the steamer left.

PHILADELPHIA, 29th.—A reward of five hundred dollars has been offered by Mayor Conrad for the detection of the murderer of the Frenchman on Monday night. There is yet no clue to his name.

The State Fair.—The last day of our State Fair promises a more numerous attendance than yesterday, when no less than 40,000 single tickets were sold, as also 9000 family tickets.

SYRACUSE, Sept. 29.—The American Anti-Slavery Society met at City Hall at 10 o'clock this morning, and was called to order by Wm. Lloyd Garrison. The attendance is quite full, and consists of men of all parties. A series of resolutions were reported. Messrs. Garrison, May, Pryne, and Gerritt Smith discussed the question whether the Federal Constitution, legitimately interpreted, legalizes slavery.

FATAL ACCIDENT.—On the 24th ult., a sad accident occurred upon one of the islands of Winnipisseogee Lake. A lad named Alpheus Brown, aged 17 years, son of John Brown, Esq., of Long Island in Lake Winnipisseogee, was instantly killed by the accidental discharge of a gun. It appears that he had the gun in his hand, and after reaching it up to knock an apple from a tree with the breech, sat it down somewhat heavily upon the ground, when it discharged and its contents passed into his chin, tearing out his teeth and the front part of his face, and passed out at the top of his head.

FATAL ACCIDENT.—On Thursday afternoon, Mrs. Elizabeth McCarty of Mattapoisett, a middle aged married woman, in stepping upon the cars of the New York train after it was in motion, fell between the cars and the platform and was rolled the length of the car. She then fell upon the track. She survived only about five minutes. Her husband was present.—*New Bedford Mercury.*

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.

Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromonas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in the city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now ask the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Pedunzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

AN assortment of Bristol Board, Drafting Paper, Drawing Pencils and Osborne's Water Colors, for sale by J. H. HEAD, 18 Exchange Buildings. s28

WINDOW SHADES.

A LARGE and beautiful assortment of Shades for sale by JOHN S. HARVEY & SON.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thorse scientific analysis of the celebrated
MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of there waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of
HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in
PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable
Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for
CHILDREN,

Thereby sparing the distress usually attending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and convenient for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Hartford Fire Insurance Company.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says—

"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.

By order of the Board of Directors—
H. HUNTINGDON, Pres."

OVER 100,000 BOXES SOLD IN 6 MONTHS.

DEVINES' COMPOUND

PITCH LOZENGE.

The Great Remedy is at Last Discovered,
FOR COLDS, COUGHS, WHOOPING COUGH, CROUP, ASTHMA AND CONSUMPTION.

CERTIFICATES of Cures may be found in the Circulars, and the world is challenged to produce such cures as are effected by faithfully using this cheap and delicious luxury.
Manufactured by S. D. FULLER & CO.
4 Wilson Lane, Boston, Mass.
P. R. SLATER & CO. General Wholesale and Retail Agents, No. 3 Tremont Temple, Boston, Mass. Sold by Druggists and Merchants generally throughout the country; also by the Manufacturers, No. 4 Wilson lane, Boston, Mass.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.
If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.
It is an English Remedy, and was used by William IV, late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.
Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.
It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.
Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.
Price 50 cents. Dr. Tobias's Office, 240 Green
Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.
wich street, New York.

By Royal Letters Patent

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metallic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and cleanness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.
This Pen will be found an invaluable article in Offices, as they never need wiping; also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.
CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.
MANUFACTORY, BIRMINGHAM, ENGLAND.
May be had, Wholesale, at the Manufacturers' DEPOTS,
1 *Jewry street, Aldgate, London, and of*
L. & A. HERTS, No. 49 John street, NEW YORK,
And in PORTSMOUTH, from the following Houses:
J. F. Shores, Jr Stationer; J. H. Head, Stationer;
J. S. Harvey & Son, " J. H. Foster, "
a10

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.
It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by
W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
I. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallé, Prof. of Medicine, Havana.
Jose Fourneco de Lan, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.
And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.
The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.
BEWARE OF IMPOSITION.
Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—
"SWAIM'S—PANACEA—PHILADA:"
and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.
ALSO, SWAIM'S VERMIFUGE.
A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet which may be had gratis accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.
CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS

With the U. S. Patent Office, Washington,

No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,

Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Dec. 7, 1853. eodly

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc.

wich street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. n21 eod&wly

Dentistry.

FRANK FULLER, DENTIST,
CALLS the attention of Citizens and Strangers to his extensive and complete

DENTAL ESTABLISHMENT,
No. 60 Congress Street,
PORTSMOUTH, N. H.

The establishment has been recently thoroughly refitted and enlarged, and the facilities for the performance of every operation in

Surgical or Mechanical Dentistry,
materially increased.

The services of a skilful and competent Assistant,

DR. JULIUS GUTTMAN, OF GERMANY,

For some years past in the employ of DR. HITCHCOCK, of Boston—have been secured, and persons desiring DENTAL OPERATIONS will be attended to with less delay than formerly.

☞ Every operation performed at this Establishment is warranted as satisfactory, elegant and serviceable as can be produced in Boston or elsewhere.

☞ Office open day and evening.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

Boston, Dec. 31, 1853.

BEWARE OF COUNTERFEITS!!

THE CELEBRITY OF
DR. S. O. RICHARDSON'S
Sherry Wine Bitters

HAS induced several persons, who do not possess the least medical knowledge, to assume the title of Doctor, and put before the public an article in imitation of my Medicine, which they call Sherry Wine Bitters, and attempt to palm them off under the pretence that I have retired from business, and also that they manufacture an improved article of the same name.

I would say to those in pursuit of health, to be sure that you obtain the REAL article, which may be known by the FacSimile of my signature upon the outside wrapper, covering each bottle, and also by the copyright border on the same covering.

Sold wholesale and retail at my office, No. 51 Hanover street, Boston, and by all dealers in Medicine in every city, town and village throughout the New England States.

N. B.—OTIS MORTON, JR., is my sole Travelling Agent for the N. E. States. je23 3m2aw*

Machine Work and Pattern Making.

THE Portsmouth & Concord Railroad are prepared at their Machine Shop at the corner of Deer and Bridge streets in Portsmouth to do all kinds of Machine Work and Pattern making for customers.

Morning Chronicle.

TUESDAY, OCTOBER 3, 1854.

Correspondence of the Chronicle.

SACO, Oct. 2, 1854.

THIEVES AND ROBBERS.—On Wednesday, Sept. 27, at the Kennebunk station on the P. S. & P. Railroad, the ticket office was broken open in the daytime, shortly after a train had passed, and about twenty dollars in silver stolen.

Mr. Littlefield, the keeper of the station, at once suspected three young men, strangers, whom he had seen lingering round the premises, to be the thieves. And as there was no train in which they could have conveniently taken passage, he rightly concluded that they must be somewhere in the neighborhood.

Taking a couple of men with nim, he made a little excursion in a hand-car, and soon came upon the three young men in the woods, near the track. He made a rush upon them with his party, and seizing one who appeared to be the principal, he laid his right hand on a revolver in the young man's pocket, loaded and capped, ready for use; but he had seized him so suddenly as to give him no time to use it.

The whole three were secured and searched; they had plenty of change, and some New York money; but they could give no good account of themselves nor of their business. Therefore the Depot Master brought them before a Justice, who delivered them over to the Officer, and they were cast into prison at Alfred, to wait for their trial by the York County Court to be holden next February.

That's the way to serve such nice young men; snap them up at once, at the cat does the mouse. By the way, mice of this kind are altogether too plentiful "down east," just now. Some of the best mousers ought to be on their track, close behind them.

DROWNED.—A young man named Buzzell, 19 years of age, belonging in Biddeford, was drowned in the Saco river on Friday last.—He was in a gondola, loaded with wood, about a mile below the falls, and wished to carry a warp to the shore. He broke the oar of the boat, and attempted to carry out the warp by swimming. It proved to be too short, and he turned round to swim back, but failed and sunk. His body was recovered on Sunday.

LECTURES.—The Boston Transcript states that in addition to the customary course of lectures before the Mercantile Library Association, a series of lectures will be delivered during the ensuing season, on Thursday evenings, at the Tremont Temple, upon the subject of slavery, in turn by Lewis D. Cambell of Ohio, Anson Burlingame of Cambridge, Salmon P. Chase of Ohio, N. P. Banks, Jr. of Waltham, Cassius M. Clay of Kentucky, Horace Greeley of New York, Ralph Waldo Emerson of Concord, Rev. Henry Ward Beecher of Brooklyn, John P. Hale of New Hampshire, David Wilmot of Pennsylvania, Charles W. Upham of Salem, and Thomas D. Eliot of New Bedford. The course will not commence till the middle of November, when the introductory lecture will be given by Charles Sumner, and the poem by Rev. John Pierpont. This course will be independent of the regular course of literary lectures, and the above mentioned gentlemen have consented to lecture.

MEDICAL SERVICES TO NAVAL OFFICERS.—Recently a naval officer, who had occasion to obtain the services of a physician under circumstances wherein he could not command those of a naval surgeon, presented to the accounting officers of the Government a claim to be reimbursed the money paid on his account as above explained. It was, however, ruled that as the act of March 3, 1853, regulating and increasing the pay of the Navy, declares that the yearly pay provided in that act is all the "pay, compensation and allowance" that the officers shall receive "under any circumstances whatever," these provisions prohibit any special allowance to the officers on account of sickness, whether for medical services by a private physician, medicines or any other expense of a similar nature.

NAVAL ACADEMY AT ANNAPOLIS, MD.—The youths selected by the representatives in Congress from the different States, for the present year, report themselves for examination for admission as acting Midshipmen of the Navy between the 20th and the 30th of this month. A number have presented themselves. Immediately after admission, the youngsters are put into a military drill. The spectacle of the awkward squad of new recruits, at the primary drills, is represented as quite amusing. The boys are from every State and Territory of the confederacy.—There is a great diversity of appearance, apparel and manners, more than in a country militia company at a monthly muster. This soon disappears under the discipline of the officers, and when they all become attired in their uniforms provided by the government, they serve in the academy four years, provided they pass the semi-annual examinations, and comport themselves well. A practice ship is annually sent out on a cruise at sea, in which they act as sailors to learn their seamanship.—*Washington Star.*

NEW DRESSES.—The Boston Mail comes to us in an enlarged form. The editor now feels beyond restraint,—"giving his thought a fuller play—if not a higher and better aim." The price is to be two cents.

The Journal—one of the best *News* papers in Boston—also came out in a new dress on Monday, looking as bright as a new cent.

DR. NOTT IN THE PULPIT.—This venerable man preached two powerful sermons from Rev. Dr. Sprague's pulpit, yesterday, from the text, 'We beseech you, in Christ's stead,' &c. They were characterized by all the earnestness, clearness and eloquence for which their author is distinguished. Although his limbs are tremulous and his body enfeebled by the enervating weight of more than fourscore years, his voice is still strong, his enunciation clear and distinct, and his mind as vigorous as in the prime of his manhood.—Few of his delighted audiences ever listened to more incid or impressive sermons. Every sentence was as compact as granite, and as luminous as the sun. And his appeals, as an "ambassador of Christ," uttered with a touching pathos of age, fell with subduing power upon the hearts of his hearers.—*Albany Journal, Monday.*

THE CHICAGO FUGITIVE SLAVE.—The Chicago Tribune states that the slave whom the brothers Buchanan and their friend Grant recently attempted to arrest in that city—and for which attempt, illegally made, they were committed to jail—was the property of Capt. George Belfast, of the steamer Belfast, running on the Mississippi river. The captain had allowed him to hire out his time as he pleased, so that he might have an opportunity to earn money and buy his liberty. The negro, after partly paying for himself, ran away. Subsequently he sent several messages to Capt. Taylor, stating that he would return and make up the amount. Capt. Taylor finally obtained a requisition from the Governor of Missouri, and placing the necessary papers in the hands of John and George Buchanan, sent them to arrest the slave and bring him back. Arriving at Chicago, they saw the fugitive passing along the street, and attempted to make the arrest themselves, without waiting to place the writs in the hands of a U. S. Marshal. Their mistake, unfortunate for themselves, resulted in their own imprisonment.

ENGLAND TO CANADA.—The London Times devotes one of its stately leaders to "the Crisis in Canada." The tenor, not the language of the article is given thus: "Come darling, get on your little footies and see if you can't begin to toddle alone—mother can't always be with you to hold you up. Go now and play with your brother Johathan. See what a strapping big fellow he is, and he and you were twins! He, the willful young scapegrace, weaned himself long time ago, and here you are, with a mouthful of teeth, still hanging to the *papilli* and drawing sustenance from the mamillary fountain which is drained nearly to the last drop.

THE QUEEN'S SUBJECTS RETURNED.—Four paupers, named Henry Whalen, John Delaney, Richard Murray, and Joseph Goldthorp, were arraigned before Justice Russell, who held a special Court at Deer Island on Saturday, on a joint charge of being "foreign paupers, receiving aid from the city of Boston, against the peace of the commonwealth and contrary to the law in such cases made and provided." Murray has spent two terms in the State Prison during his ten years' residence in America, and, though about thirty years of age, is still a man of doubtful morality. Delaney has been four terms in the House of Correction for vagrancy; Goldthrop is an idiot, and Whalen is a vagabond. The charge of pauperism was sustained, and the Court ordered the prisoners to be returned to the Queen of Great Britain. They will be forwarded in the ship Star of Empire, which sails in a day or two for Liverpool.—*Boston Courier.*

A Washington despatch in the Daily Times says, in regard to the expected defence, by the administration, of the bombardment of Greytown:

The so-called Mayor of Greytown had made an arrangement with the pilot who took in the sloop-of-war Cyane to run upon the rocks and wreck her. The pilot, according to the story, became frightened, and thus failed to carry out the diabolical design.

The Worcester Spy learns that one of the three valuable imported cows, of the Alderney breed, belonging to Paine Aldrich, Esq. and which that gentleman had purchased at a very heavy cost, was found dead in the barn on Tuesday morning. The animal had taken the first premium at one of the cattle shows in the island of Jersey where she was raised.

Attending the ceremony of the coronation of the kings of Abyssinia, it was customary to present them with a human skull bone upon a vase of earth, that they might be thus reminded what would soon become of them, notwithstanding the dignity to which they were elevated.

A storm commenced on the coast of Texas on the 18th, and raged with terrific fury for four days. An immense amount of property was destroyed, and several vessels and many lives were lost. The town of Matagorda was destroyed with the exception of three houses. The crops both of corn and cotton were nearly ruined.

INCENDIARY CAUGHT.—Wm. Rogers was arrested in West Buxton on Saturday night last, charged with having attempted to fire a sash and blind factory in that village, on that night. He was seen to enter the building with a bundle of shavings, which were found afterwards on fire in a desk in the building. He was bound over to court in the sum of $1200.

Steam Tow Boat Kate was burned to the water's edge in the East River, New York, on Friday afternoon. The schooner Thomas Crawford, which she was engaged in towing through Hurl Gate, took fire and was abandoned by her officers and crew. A pilot went on board, and by throwing over the portion of her deck load which was on fire, succeeded in saving the schooner with but little damage.

DREADFUL ACCIDENT.—Saturday forenoon, Mr. Harris, who resides in LaGrange Place, Roxbury, was up in one of his apple trees, picking the fruit, the limb on which he was standing broke, and he fell backwards to the ground, breaking his back and fatally injuring him. When last heard from he was just alive, and could not live much longer.—Mr. Harris formerly resided in Dorchester, and had lately removed to Roxbury.—*Sunday News.*

LOCAL.

POLICE COURT.—The three young men (strangers) arrested on Sunday, were brought before Justice Parker on Monday afternoon. The first complaint was for stealing portmonnaie and $13, from a Miss Tebbets. A motion to postpone, to procure witness owning the property, was ruled out on the ground that the government should be ready for the trial. [*Per contra*, our Court of Common Pleas granted a like motion in the case State v. Locke, at the present term, the principal witness for the government being absent.]

On the complaint of assault and battery on Reuben Rand, jr. it was decided that as the complaint specified four persons, and as but three were proved to be present, it must fall—especially as the alleged chief actor in the assault not being brought to court, (not having yet returned from "changing his clothes.")

Another complaint was presented against the parties for stealing $40 from a Mrs. Smith, and a motion for continuance was made by the government, to procure evidence of Conductor Rowe; but it was argued in opposition to the motion, that witnesses were at hand who must know all the facts in the case.—The motion was overruled and the prisoners discharged.

City Solicitor Claggett for State; S. H. Goodall for defence.

LARCENY.—A fellow calling himself McLean, was arrested Sunday morning, charged with stealing a pair of shoes from the store of J. C. Carr, and a vest pattern from the store of Wm. P. Walker.

The prisoner was arraigned on Monday, and plead guilty to the complaint. He was fined $5 and treble the value of the articles stolen—$9, less the value of the vest pattern returned, and cost of prosecution—amounting in all to $16.39.

☞ We are pleased to observe that the Mercantile Library Association of this city, have secured the services of Rev. Wm. H. Milburn, for the coming season, who is to deliver his lecture so highly spoken of by the press, entitled "The Rifle Axe, and Saddle Bags," on the evening of Nov. 30. Mr. Milburn is a most entertaining speaker, and this lecture upon Western life and character, cannot fail to greatly interest all classes of hearers. In reference to this gentleman, the Boston Daily Advertiser, of a recent date, has the following:

"Among the lecturers engaged for the coming season at the Mercantile Library Association of this city, will be found the Rev. Wm. H. Milburn, one of the chaplains of the present Congress. This gentleman is a clergyman of the Methodist persuasion, and as such, has had a wide field of observation of Western and Southern manners, having passed his ministerial life in sections of the country of which we of New England know very little, engaged in the devoted and self-sacrificing labors which are always the lot of the Methodist preacher in those regions. As a public speaker, there are few men, of any profession, who can be heard with greater interest, by the most or the least cultivated audiences."

COUNTY OFFICERS.—We published the official vote of Rockingham County, a few days since. The name of Thomas Smith for Register, appeared twice. In the first case it should have been Thos. Smith. All abbreviations of Christian names, invalidate votes in New Hampshire. Several of our cotemporaries have copied our paragraph, error and all. The Dover Gazette, however, simply gives the vote on the three regular party tickets, putting down the rest as scattering. It classes all the Whig and Free Democratic nominees as "Free Soil."

☞ There is to be a Cattle Show and Fair of the York County farming and mechanic interest, at Biddeford, Me., on Wednesday and Thursday of the present week.

SMASHUP.—A horse, in Newburyport, took fright in Pleasant street, Saturday afternoon, broke his fastening, and ran through the street with the carriage attached—in his course he came in contact with and overset a wagon in which two females were seated; they were thrown into the street, but were not injured, notwithstanding the carriages were smashed around them. Both horses then became detached from the vehicles, and passed through Brown's Square at full speed.—*Herald.*

A meeting of the Choir of the Whitefield Church, Newburyport, on Thursday evening, Mr. Moses D. Randall, their recent chorister, was presented with a daguerreotype likeness of each member, set in a large oval gilt frame, and bearing the following inscription:

"Presented to Mr. MOSES D. RANDALL, by the choir of the Whitefield Congregational Society of Newburyport, as a token of esteem and respect."

VOLUNTEER PEACE OFFICER.—A notorious rogue in New Orleans recently assumed the badge and functions of a police officer, and made himself particularly busy in shutting up coffee houses, examining peaceable citizens to find concealed weapons, and in other duties of the legal guardians of the night; one of whom, disliking this kind of "poaching on his manor," took the fellow to the lock-up, and the Recorder the next day gave him regular city employment for sixty days.

In the case of the woman who stole a child three months old, from its mother, at Boston, last week, it appears the only indictment which can be found to punish her, is one of "falsely imprisoning the child, whose name is Charles Lewis Bemis, and detaining him in her keeping *against his will.*" May not the indictment fail for lack of proof that the detention of the child was against its will. Perhaps it will be attempted to establish a legal fiction that the *will* of the mother is the *will* of the child. The fact, however, is notorious, that even infants often have *wills* in opposition to those of their mothers.—Newburyport Herald.

IMPORTANT POLITICAL AND DIPLOMATIC NEWS—MORTALITY IN BROOKLYN—SLAVERS.—*New York, Oct. 2.*—The Paris correspondent of the Tribune asserts that a large loan to Russia has been taken in the name and through the agency of the American Minister at the Hague, Mr. Belmont, for his father and uncles, the Brothers Rothschilds.—Also, that a council held in Paris, convened by Hon. Dudley Mann, and attended by Messrs. Mason, Platt, Belmont, Cass, Sickles, and others. Mr. Belmont was charged with peremptory and explicit directions to demand the payment of $100,000 demanded by Capt. Gibson, by the Dutch Government, within the period of ten days. The same correspondent adds that a new and important political combination has just taken place on this side of the Atlantic, with a view of electing Mr. Buchanan, in 1856, President of the United States. This combination consists of Messrs. Buchanan, Sickles and Belmont.

There was the usual street preaching in this city yesterday, as also at Brooklyn and Williamsburg. There was no disturbance in either place, and the attendance was much smaller than usual.

The total number of deaths in Brooklyn last week was 102, of which 10 were from cholera. The Board of Health in that city held their final meeting on Saturday, when they ordered the Cholera Hospital to be closed, there being no more cases.

A letter from London, in the Daily Times, says Mr. Buchanan will resign his post on the 7th of July, and after a tour on the Continent, will return to America.

A Havanna letter in the Herald says the fast steamers Sir Dudley, Philadelphia and Catagua, took from that port officers and seamen for slavers to be fitted out in New York or Philadelphia.

SYRACUSE, Sept. 30.—A Temperance Mass Meeting was held at Courtland yesterday.—The sentiment of the meeting was favorable to the Clark and Raymond ticket. There was an immense crowd in attendance.

The anniversary of the "Jerry Rescue," was celebrated in Wieting Hall to-day. Gerrit Smith presided, and twenty-five hundred persons were present. Letters were read from Rev. H. W. Beecher and Charles Leonard.—The latter said that every good citizen would refuse to obey the Fugitive Slave Law. Resolutions were reported. The first declares that there can be no laws for slavery; the second, that Jerry was rescued in contempt of mis-called law; the third, that no man can properly celebrate the rescue who acknowledges the possibility of the legality of slavery; the fourth, that no man is honest who claims or admits that slavery can be law, &c. There were ten more resolutions in the same tone. A recess was then taken. The afternoon and evening sessions passed off with much animation. Speeches of an exciting character were made by Fred. Douglas, W. L. Garrison, L. Gillis, and others. Mr. Garrison, in the course of his remarks, said Boston had done more to settle the question of freedom than Syracuse. There were men in State street who would have paid $500 to have had Col. Suttle shot or tarred and feathered.

MEXICO—THE REVOLUTION IN THE SOUTH.—By the steamship United States, Capt. Schenck, which arrived last night from Aspinwall, we have intelligence from Acapulco to the 7th inst.

Correspondence with which we are favored announces that Gen. Alvarez in person, at the head of 2500 men, entered the city of Yutela, on the 4th inst. The government troops had previously abandoned it on learning of his approach. They leftonly on the 3d, just in time to escape him. From that point Alvarez purposes pushing forward to Chilpancingo, which he was expected to reach in a few days without opposition, as all the government troops are by no means capable of meeting him.—From Chilpancingo he will prepare to march direct on the city of Mexico. There is little doubt that he will enter it triumphantly.—Santa Anna, from all indications, is already preparing to abdicate.

Official bulletins of the liberating army, published at Acapulco on the 1st and 6th inst. with copies of which we are favored, denounce Santa Anna for selling the Mesilla Valley, and give accounts of various movements of troops, and pronunciamentos. Many of the principal towns of Jalisco are said to have joined the revolution. A detachment of Alvarez's troops, having been seduced at Aguililla to join the government forces, is said to have subsequently turned round again and fought very valiantly for their chief.

According to these accounts, the revolution is all but a *fait accompli*. We are curious to see what accounts with respect to it we shall receive through the papers published in Mexico.—*New Orleans Picayune, Sept. 23.*

Louisville, Sept. 30.—LOSS OF LIFE.—The steamer Malta sank in the Ohio River to-day, near Paducah. One cabin passenger and from twenty to thirty deck passengers are supposed to be lost.

KNOW NOTHING VICTORY.—At the Municipal election to-day, in Louisville, Wm. B. Shepherd was elected Mayor by nine hundred and fifty majority. He was not known as a candidate until this morning.

MURDER. — *Washington, Sept. 30.*—Mr. Duvall, owner of a farm near Bladensburg, was shot this morning by two persons from this city, who were gunning on his premises. Mr. Duvall ordered the intruders off, and during the altercation which ensued he was mortally wounded. The perpetrators have not yet been arrested.

SAD AND FATAL ACCIDENT.—*Arm, Leg and Hand cut off.*—Mr. Samuel Head of Hookset, a man of much wealth, 77 years old, met with a horrid accident this morning, about 9 o'clock, in his steam mill just this side of Hookset Bridge. He was seen to take hold of a board near the saw, and in a moment after the circular saw had cut off his right arm a little below the elbow, also cut off his left hand, and nearly severed one leg at the knee. He bled profusely and lived only two hours after.—*Manchester Mirror, Sept. 30.*

ALBANY, 26th.—Gov. Seymour has withdrawn his refusal to the nomination for Governor by the Democratic (Soft) Convention.

EVENING SINGING SCHOOL.
J. W. CLARK

GIVES notice of his intention to recommence instruction in the several branches that are usually taught in an adult Singing School, on the evening of *MONDAY, Oct. 16th, in ACADEMY HALL*, at 7 o'clock. The course of instruction will be particularly adapted to the class which honored him with their respect and confidence, last winter, and whose patronage, with others who have sufficient knowledge of the elementary principles of Vocal Music, to read common psalmody, is respectfully solicited. The correct style of performing the *Monophonic, Polyphonic*, and *Homophonic* forms of musical composition, which will be of great advantage to leaders, and prominent members of choirs, will be fully exemplified. In addition to the book which was adopted last winter, the class will have the gratuitous use of a work that contains several of the great compositions which were performed at the Musical Congress held in the *Crystal Palace*, New York, under the direction of M. Jullien. A Glee Book will also be introduced during the term, which has been used by the best musical societies in Boston and New York, and will be furnished to the class without extra charge.

The term will consist of 24 lessons. Terms, for ladies, $1.00; gentlemen, $1.50, payable on the evening of the second lesson. s27

A. PEARSON,
TEACHER OF THE
PIANO-FORTE AND ORGAN,
THOROUGH BASS AND SINGING.

No. 4 Exchange Buildings, rear Chronicle Off.,

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES
BY STEAM,

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!

OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or seven fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *multiply* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity.) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge*. But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality rooms can they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel,

making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Highland Nurseries,
STRATHAM, N. H
J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c., to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.

" " No. 3—Camilla "	75 00

THE LAMPLIGHTER,

65,000
Published in 5 Months.

TO THE AFFLICTED.

From the New-England Directory.

THE great virtues of Botanical remedies have in all ages, been universally approved and acknowledged, but it remained for the Chinese to discover a never-failing remedy, not only for disease, but to render the face young and blooming, and lengthen the life of man. Such are the benefits derived from the use of the celebrated "COMPOUND ESSENCE OF CHINA ROOT," prepared by Dr. B. MERRILL, No. 15 Howard st. This invaluable article is composed of thirteen vegetable ingredients, and as we have tested its qualities, do bear willing testimony to its being all that Dr. M. claims for it as a nourishing and invigorating remedy for a debilitated and worn-out system. Try it. See Herald and Bee, Boston.

PIANO FORTES TO LET.

THE subscriber has at all times a large number of PIANO FORTES, MELODIANS, SERAPHINES and PARLOR ORGANS. For Sale or to Let, to persons residing in this city or at a distance. Persons hiring, who may conclude to purchase within five years, will receive a deduction of rent. OLIVER DITSON, Music Publisher,
115 Washington street.

THE NUTRITIVE CURE.

THE attention of Invalids is earnestly invited to LA ROY SUNDERLAND'S Pamphlet of Information respecting his NEW METHOD of cure by Nutrition, without Drugs, Boston, Mass., sent by mail for one dime prepaid. Every form of Disease, especially of the Stomach, Liver, Heart, Lungs, Bowels, "Impurities of the Blood" and "Nervous Complaints," radically cured without a particle of medicine. Mr. Sunderland eradicates the love of *Narcotics* and prescribes for the *Deaf, the Lame, the Blind;* he has patients in every part of the country, among whom are gentlemen of the Medical Profession, who have themselves successfully adopted the New System of Practice.

Important Notice.

DR. SPEAR'S WOMAN'S FRIEND is unquestionably the only remedy ever discovered for that distressing complaint, Falling of the womb, obviating all necessity of resorting to instruments. It is put up in packages, and can be sent to any part of the world. Thousands are suffering from pressing down pains, pain in the groin and across the hips and small of the back—also very low down the back, with heat and scalding of the water, with some affection of the liver, great weakness and prostration of strength, nervous debility, &c. Much exercise, walking, standing, riding or lifting, greatly increase the above symptoms. In advanced stages of the disease the sufferer is deprived of all exercise, and is obliged to be confined to the house, and frequently to her bed. These are the symptoms of this complaint, all of which can be radically cured by the use of this extraordinary medicine. Price $3 per Package.

Dr. Spear's Golden Bitters.

This valuable and popular specific stands unrivalled for the cure of Female Weaknesses, Nervousness, Barrenness, Fluor Albus, &c. For common cases of weakness in the stomach, in male or female, they form an invaluable remedy. If these Bitters were appreciated as their virtues demand, they would find their way into every family.—They are compounded especially for those complaints which often form the prelude to many others of a more serious character—such as excessive Nervousness, Prostration of Strength, Bloating of the Bowels, Dropsy, Consumption, Palpitation of the Heart, Scrofula, Cancer in the Womb, Pressing Down of the Bowels, &c. Price $1 per Package, or six Packages for $5.

E. D. SPEAR, the celebrated Indian Doctor, 18 *Rockland st*, Boston, may be consulted at his office, or by letter, upon diseases which afflict humanity, free of charge. Dr. S. invites those who are pronounced incurable to consult him, as he believes that in many cases he will be able to restore them to health.

All letters strictly attended to, and answered promptly.

FIFTEENTH ANNUAL RE-OPENING
—OF—

Comer's Commercial College,

NO. 139 WASHINGTON STREET, BOSTON.
THIS well known Establishment will open for DAY AND EVENING STUDIES, the coming season, on and after MONDAY, Sept. 4.

GEORGE N. COBURN, Principal.

E. L. SMITH,
SIGN, BANNER AND ORNAMENTAL PAINTER—32 Washington street, Boston.
Apothecary's Ware LETTERED in the neatest manner. All orders punctually attended to.

DR. IRA WARREN'S

COMPOUND OF
PURE COD LIVER OIL, LIME AND SUGAR OF MILK.

THE great virtue of Cod Liver Oil as a medicine in Consumption is now generally admitted. It promotes assimilation, the primal defect in this disease, by initiating the growth of cells—the cell resulting, according to Dr. Burnett, from the union of a minute particle of oil with albumen, under the quickening force of vitality. The PHOSPHATE OF LIME has been proved to promote the same great end throughout both the vegetable and the animal world.

The SUGAR OF MILK, manufactured from the whey of goat's milk, being a supporter of respiration of weak lungs, and having a powerful affinity for oxygen, greatly aids the above remedies in Consumption, and when properly combined with them, makes an elegant preparation, removing much of the offensive taste and smell of the oil, and supplying a saccharine combustive for the lungs, much like that elaborated by a healthy liver.

In conducting a large special practice in THROAT AND LUNG DISEASES, I resort directly to the fisheries for a pure oil. The excellence of this combination will be at once appreciated by my professional brethren, and a trial of it will commend it to the people generally.

BURE & FERRY are my wholesale and retail Agents for the United States and British Provinces, to whom all orders should be addressed.

IRA WARREN, M. D.
No. 1 Winter place, Boston.

Riding.

C. H. SIDES & CO., having fully re-furnished their Stable with the best of Horses, and Carriages of the latest and most approved styles, for the summer travels, would respectfully invite a call from those about enjoying themselves by riding. The best and safest teams furnished, for any purpose, at reasonable rates.

HARNESS in all its departments, attended to with promptness. Their splendid new Hack, the most beautiful carriage ever brought into Portsmouth, will run for public accommodation as heretofore.

Stables, State street, nearly opposite the Rockingham House. m31

MORNING CHRONICLE.

BY MILLERS & GRAY. PORTSMOUTH, N. H., WEDNESDAY, OCTOBER 4, 1854. VOLUME 5. NO. 56.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.

TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.

TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.

Yearly, quarterly or monthly advertisers liberally accommodated.

Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.

Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.]

☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

From the New York Evening Mirror.

WITH THE STARS AND STRIPES AROUND HIM.

We found him as he had fallen from his horse, his sword still firmly grasped in his hand and the flag he had died defending drawn across his breast. He looked as though he had gone to sleep expecting every moment to be roused by a call to arms. There was not a clear eye among us, when one of his friends severed two ringlets from the many that clustered on his forehead, to "send home" to his mother and betrothed. He was buried as he was found—the flag, the sword, the soldier in one grave!—*Letters from the Rio Grande.*

Let him lie in the dark narrow grave you have made,
Let him lie as, dying, you found him,
Let him sleep with his hand on the dinted blade,
And the stars and stripes around him!
But first cut a lock from his long chestnut hair,
For one that the hero left weeping;
And another "send home," and with them tell where
The son and the lover are sleeping.

When long winter nights at the home of his birth,
Are shortened with legend and story,
Some voice in the household will tell of his worth,
And speak of his death and his glory;
And fancy will picture the place where he sleeps,
Beside him the blue winding river,
The long, sloping flats where the chapparel sweeps,
And summer breathes softly forever.

The mother will weep, "as she thinks of her boy,"
The ties that so tenderly bound him;
But the lad at her side will think 'twere a joy
To sleep with a banner around him!
And she the dark eyed and the beautiful one,
Who waited so long for her lover,
Will fall asleep tearful, and dream until morn
Of joys and the love meetings over.

When another shall kneel at the feet of the fair
To win her with sighs and with vowing,
She'll tell him her heart as he pleading kneels there,
Is tombed where a river is flowing.
The ringlets you cut from the pale marble brow
Of our comrade, warrior-hearted,
She'll press to her lips, and remember her vow
Of faith to the dear one departed.

May the magnolia leaf sweep over that mound,
The first orange blossoms bestrew it;
May moonbeams, like birds, on the branches sit round,
And the tears of star-eyes bedew it!
For never, oh never the eyes of a friend
Shall over that lone grave be weeping;
But across it dark chiefs their war paths will wend
Nor know of the brave 'neath them sleeping.

Lead the war-horse back to the cool hazel hurst,
Where the wild Merrimack is roving;
When the eye grows dim he'll be tenderly nursed
By those that will never cease loving.
Lead the war-horse back! There's a horrible stain
On the saddle seat—Oh! and gory!
'Tis the bear's blood of one for his country slain—
Death, death is the price of all glory!

Let him sleep by the wave of the Rio Grande,
With no proud sculptured urn above him,
There are tablets enough in his own dear land,—
The sorrowing, sad hearts that love him.
Let him lie in the dark, narrow grave you have made,
Let him lie as, dying, you found him,
Let him sleep with his hand on the dinted blade
And the stars and the stripes around him.

T. B. A.

A barber woke up the other day, and found that during the night, the pole at his shop door had been stolen. "In dry times," said he, "all signs fail."

JUST RIGHT.—The New York Tribune tells a good story of a very strong case of *No.* It is a hard word—a perfect granite word—strong, durable and plain; and it requires strong circumstance and good courage to give it its true stonelike emphasis.

The Tribune says a clergyman was called at rather a late hour to perform a marriage ceremony; he wished to postpone the matter, but the applicant overcame his objections, by stating that the lady in the case said "now, or never." Accordingly, the weary clergyman repaired to the place indicated, and found the lady, who was so impatient for a master, a very pretty young girl, neatly and tastefully attired, and evidently a temptation to the bridegroom to take her when he could get her, however it might inconvenience third parties. The usual preliminaries of the occasion were through, and the parties joined hands. The minister repeated the usual formula, and the bridegroom gave his assent to his part of the obligation; but upon asking the bride if she would "take this man to be her lawful wedded husband"—the ceremony was interrupted and finished, by the bride's pronouncing a firm and fatal "*no*;" and she walked off leaving her almost husband emphatically in an awkward position.

The officiating clergyman considered himself trifled with, and asked an explanation.

It appeared that the girl was a seamstress, and had worked for the would be bridegroom. He had made proposals of marriage, but she doubted his sincerity, left his employment, and went into the country. When she returned, she found that he had scandalized her character, denied his proposals of marriage, said she was—no matter what. She asked the friend from whom she learned the facts, if she would believe her, if her traducer would marry her then. The lady replied "yes, and so would all who know you."

Then to prove his falsehood and her own innocence, she renewed his acquaintance—accepted his renewed proposals of marriage, and rejected him at the altar, as before related.

New Music Books,
For Singing Schools, Choirs, &c.

J. F. SHORES, JR., No. 1 Congress Block, has just received

THE CHIME: an extensive collection of new and Old Tunes, consisting of arrangements from the old masters, and modern European Writers; gems from the continental school, with valuable selections (kindly permitted) from living American composers; also, a variety of new pieces by the author, with some of the choicest productions from his former publications. Including also, a MELODEON INSTRUCTOR, by the use of which, a knowledge of all instruments of the Organ kind may be easily acquired. By Virgin Corydon Taylor, author of "Golden Lyre, &c."

THE HALLELUJAH: a book for the service of Song in the House of the Lord; containing Tunes, Chants and Anthems, both for the Choir and the Congregation, to which is added THE SINGING SCHOOL: a manual for classes in Vocal music, with exercises, rounds and part songs, for Choir practice; also, Musical Notations in a Nut Shell, &c. By Lowell Mason. Teachers and others are invited to call and examine these books.

Morning Chronicle.

WEDNESDAY, OCTOBER 4, 1854.

SOME DIFFERENCE.

A late convention in Massachusetts passed the following resolution:

Resolved, That the Constitution recognizes the principle of self-government and the power of the people, in whatever bond united with each other,—whether in State, county, town, district or territory, to control their own institutions; that on this principle alone the colonies entered upon the struggle for independence, the confederation was established, and the constitution was adopted; that only by a rigid regard for this principle can we hope to preserve our liberties against usurpation, rivalries and anarchy.

The editor of the Boston Daily Advertiser "digs into" the bowels of the resolution, after the following fashion:

The right of the *States* to control their own institutions (subject to the Constitution) was never doubted. The right of the Territories to do so, as far as slavery is concerned (and that and nothing else is the "institution" in question) was never maintained by Congress till the last winter; and as for any such right being possessed by counties, towns and districts, it was reserved for the sagacious framer of this resolution to make the discovery; and having made it to find in it a remedy against "rivalries and anarchy." In the free state of Massachusetts for instance—if the County of Essex should exercise "its right of self-government" and establish slavery; if the city of Salem, however, should set at defiance the County ordinance and insist that there should be no slavery; and finally one or two of the districts into which that city is divided should claim the power of controlling its "own institutions" in this respect, we apprehend that a state of things approaching very nearly to anarchy would be the consequence.

This is what we call a settler in the way of answers. The resolution is used up.

KANZAS.—The following is taken from a letter, dated Sept. 22, just received from one of the last of the Massachusetts emigrants to Kanzas, a man whose statement, we are informed, is entitled to full credence:—

"The hotel and stables at Kanzas are always full and will be for some time. The roads are lined with teams from the border States. In about every fifth or eighth wagon, you will see a sprinkling of negro slaves. Do not believe that the slave-holders have given up Kanzas. A terrible struggle is before us at the very first election. They are determined to have a law recognizing slavery, at the first meeting of the legislature. If they do not get it then they never will."

It will be recollected however that the Washington Star, which would not be likely to be misinformed in this respect, has stated "on good authority" that no slaves have yet entered Kanzas.—*Boston Advertiser.*

We do not place much confidence in this statement of the Star, however—nor great confidence in the Star itself. There is evidently a mis-statement somewhere.

THE NEW YORK MUSICAL REVIEW for Sept. 28th is at hand, containing the usual amount and variety of new music and reading matter. This paper has acquired a leading position among musical journals, claiming now at least twice as many subscribers as any other musical periodical in the world. The publishers announce that back numbers of the Review are exhausted, and that they commence a new series with the first number in October, with which new subscribers may commence. The Review furnishes a constant supply of the best new music, as well as reading matter. It is $1 per annum. Mason, Brothers, New York, are its publishers.

THE REV. MR. ARMITAGE, lately of this city, was ordained Priest in St. Mark's Church, at Augusta, Me., on Wednesday, Sept. 27th. The services were conducted by Bishop Burgess, assisted by Rev. Mr. Weston of Augusta, Rev. Mr. Burgess of Portland, Rev. Mr. Willey of Bath, Rev. Mr. Willian of Bangor, Rev. Mr. Murray of Dresden, and Rev. Mr. Slattery of Rockport. Sermon by the Bishop, from 1 Timothy, 3d chapter, 1st verse.

CHARLESTOWN, Massachusetts, has by a concurrent vote, in accordance with a law of the State, become a part of Boston. The vote of Charlestown was taken on Monday, and Annexation prevailed by 295 majority, in a vote of 2500, being the largest vote ever thrown there.

CRIME IN BOSTON.—On Monday afternoon, in Boston, the Master of the House of Correction submitted his quarterly report, showing the whole number of prisoners to be 681; males of American parentage 85, do. foreign do. 389, males nativity unknown 2; females of American parentage 32, do. foreign do. 172, females parentage unknown 1; total males 476, females 205.

The Superintendent of the House of Industry reported the whole number of persons admitted during the quarter to be 373, of whom 77 were American and 254 foreigners; children of Irish parents 42.

The Chief of Police submitted his quarterly report, stating the number of arrests to be 9468—commitments 3155; males 7373; females 2095; foreigners 7671; Americans 1797; minors 1228. Amount of property reported as stolen, $27,590.11; recovered, $16,947.72.

We are disposed to keep these facts before the people for purposes of comparison. They afford strong arguments in favor of employing American citizens in preference to others, and also for efforts to suppress intemperance and riot.

GREAT TENT MEETING.

We have already given a brief notice of the great Second Advent Meeting which is to be held in Exeter on Friday, Oct. 6, and for some days afterwards. We now copy the Notice in full, as it appeared in the Advent paper called the World's Crisis. This notice at once explains the purpose of those who call the meeting, and their distinguishing doctrinal views.

THE LAST TENT MEETING.—There will be a general gathering of the saints at Exeter, N. H., commencing Friday, Oct. 6th, and continue ten days. It will be held in Wadleigh's field, near the celebrated Rowland Spring, so called.

As this is the last meeting of the kind ever to be held before our King comes, we invite our Brethren in this and the neighboring States, to come and worship with us; we care not from how far; for we should like to meet our Brethren from the uttermost parts of the earth, if possible, to enjoy with them one heavenly season, even before our Lord comes.

The object of the meeting will be to glorify God—to make a greater effort as we see the day approaching, to meet together, to exhort one another, and comfort each other's hearts, that our mutual faith may be strengthened, and we prepared for the great day of God.

Ample provision for boarding and lodging will be made for all, and should it be wet or cold, they will be made comfortable.

The meeting will be conducted on the free principle, that none lack; for distribution will be made to all as they have need. So, dear Brethren and Sisters, one and all, who can, come in and let us share and praise together; and may God grant that it may prove a preparatory step indeed for the final gathering of the saints. The meeting may not close till our dear Saviour comes.

Those that can, who are commissioned of God to give *present truth*, are invited to attend.

Brethren, bring all the tents and bedding you can. Remember this.

Arrangements will be made with the Railroad companies for a reduction of fares.

A place of worship will be fitted up to seat comfortably from five to ten thousand persons.

(sign'd) For the Master's cause,
J. Hemenway, J. Cummings, I. Adrian,
S. S. Brewer, J. W. Brittan.

AN INCIDENT.—In a certain town in Maine, a day or two before the late election in that State, a high officer in a Corporation suggested to a man employed in a subordinate capacity, that he feared he did not vote right; and intimated that he might be discharged if he persisted in voting according to his expressed opinions.

The man replied, that he was not aware, when he entered the service of the company, that he sold his political opinions, or made them the keepers of his conscience.

On the day after the election, he found that sundry keys, of which he had been the keeper, were in the custody of another; taking this as a hint that he was not wanted, he suggested to his superior, that if he thought it was time for him to leave, he would do so.—Whereupon the officer turned to his clerk and said, I wish you to take notice that I did not move the discharge of this man, but he requested it himself;—and thus dismissed him.

We purposely avoid any mention of the political party to which either of the persons belonged; and we do not know how or for whom the man voted; but we tell the story as it was told to us,—and hold it up as a case for public reprehension. It is also, if correctly reported, a case into which the Directors and Stockholders of the Company, as well as the public, have a right to inquire.

We consider such a movement to be anti-democratic, anti-republican—unworthy of a gentleman, and worthy of the reprobation of every American citizen.

The price of breadstuffs is now so much lower in England than in America that several cargoes of flour are said to have been shipped from Liverpool for New York. This has not happened since the inflation of 1837, when flour was imported into New York from the Mediterranean.—*Boston Post.*

We barely suggested the possibility of this occurrence, two months ago, and were rebuked for it. What was imagination then, has turned to fact now.

The New York Journal of Commerce of Saturday has the following:

The market has been somewhat disturbed by the calling in of loans preparatory to the payment of dividends and interest coupons due on the 1st proximo, most of which will be paid out on Monday. There is less pressure of business paper on the market, and one reason of this is that there is much less business paper *made* when trade is so dull and transactions of all kinds so limited. The falling off in the amount of traffic must make a large difference in the demand for money throughout the next two or three months.—The sales throughout the last five or six months will show a much smaller total than for the corresponding period in either of the last three years.

NEW YORK CATTLE MARKET, OCT. 3. Offered to-day 3919 Beeves, mostly in fine condition. The market, nevertheless, underwent a reaction, showing a decline of 50 a 75c per 100 lbs. The quotations range from 7 for inferior to 10 for fair; sheep and lambs were dull and drooping at the opening, but a better feeling was manifested towards the close. Veal was a shade lower.

Cincinnati, Oct. 5.—The small note law went into operation to-day. But little attention was paid to it outside the banks.

A census of Savannah taken Sept. 29, shows a population of 6255 whites, and 5491 blacks.

LOCAL.

Police Court.

[Before Justice Parker.]

STATE vs. CORNELIUS.—Respondent was arrested for striking a man. Evidence that Complainant, a man, was engaged in a controversy with a boy when Respondent interfered and struck the Complainant. Parties were separated by officers, when Respondent stepped up and struck again. Ground of defence that fine should be light, as there had been no previous quarrel between Complainant and Respondent, and that Respondent interfered through indignation at seeing a man fighting a boy. Fined one dollar and costs. I. B. Claggett, city solicitor, for State. S. H. Goodall for defence.

For the Chronicle.

CONTINUANCE OF TRIALS.

Editors of the Chronicle:—I noticed in your paper of this morning, (Oct. 3d) a statement of a ruling in C. C. Pleas in case of State *vs.* Locke, which might do much injury if not corrected. As I understood the ruling of the Judge of C. C. P. it was according to the ruling of the Police Justice. The facts in State *vs.* Locke were simply these:—The C. C. P. were in the *midst* of the trial of a flowage case, when the motion for a trial was had. The motion was made Saturday afternoon, *after the juries were dismissed*, and only one jury was to return the following week for the express purpose of trying the flowage case. All the rest of the docket, except the flowage case, was understood to be continued until the 17th of Oct. The court ruled that under the circumstances they could not ask the parties in the flowage case to delay longer, and therefor *for* that reason delayed, but did appoint the *first day of the adjourned term* for the trial, which was the first day that the case could be reached, as the flowage case was to occupy all the time until then. So you see that instead of delaying until the February term the court appointed the *first time* for trial that could be under the peculiar circumstances of the docket. There might be a case supposed where time could be granted, on proper *evidence* laid before the Court, when there was *no doubt of the prisoners guilt.* But the general rule must be that the State must be ready for trial, and the exceptions to the rule must be well and clearly made out in order to get delay. *

DANCING.—Mr. Samuel Lamprey invites all who have been his pupils in Portsmouth, to meet at Rechabite Hall, this afternoon at three o'clock, preparatory to a grand evening re-union and exhibition at Congress Hall, soon. The idea is pleasing, and will doubtless be largely responded to. Mr. S. has had many scholars here, and is popular with them and with parents. We much prefer to see a worthy citizen thus patronized and encouraged, rather than any transient dancing master.

☞ Mr. Dempster, the celebrated Ballad Singer and Composer, will give one of his musical entertainments at the Temple this evening. Mr. Dempster has had troops of friends here, and we hope he has not lost them. All admirers of the old and new Scotch, Irish and English ballads are apt to relish Dempster's rendering of them.

OUR OUTSIDE.—A press of advertising and job printing for a few days, has crowded out the usual miscellany from our outside. For the benefit of advertisers, and to suit our own taste, we generally distribute our reading matter on all four pages. We give on the first page this morning, a poem which we find going the rounds of the papers, from the pen of T. B. A.

VOCAL CONCERT.—We understand that Mr. T. P. Moses, with his "Nightingale Troupe" of twelve young ladies, from Portsmouth, will visit Newburyport the first week in October, and give a Concert at the City Hall. Several members of this favorite company have friends in this city, and doubtless they will be highly gratified at the idea of a concert from them. Visitors from New York and Boston, at Portsmouth, have highly complimented the performances of the "Nightingales," and the musical community of this city may depend on receiving one of the richest treats of the season.—*Newburyport Herald.*

This concert is to come off on Thursday evening of the present week.

☞ Chas. Washington Bachelder advertises in the Boston Times, that he "has recovered from his late illness, and is now at work at his trade in Boston," and would "be happy to hear from his wife Sarah Jane Bachelder, through the Post-office, from Boston, Portsmouth or Kittery." Sarah Jane, do write!

ENERGY.—I have lived to know, says Adam Clarke, that the greatest secret of human happiness is this—never suffer your energies to stagnate. The old adage of too many irons in the fire, conveys an untruth. You cannot have too many—poker, tongs and all—keep them all going.

Bulwer, the novelist, in a letter to a gentleman in Boston, said:—"I have closed my career as a writer of fiction. I am gloomy and unhappy. I have exhausted the powers of life, chasing pleasure where it is not to be found."

NEW YORK POLITICS.—The Central Committee of both the "Hard" and "Soft" Democratic parties met at Albany on Thursday night to concoct plans of operation. The "Softs" made no advances to the "Hards" with regard to a fusion, but received the acceptance from Gov. Seymour of his renomination.—The Governor proposes to address the people of the state before the election in defence of his position and his veto of the prohibitory liquor law.

The Washington Union referring to the fusion movements in New York, says:—

"If this condition of things does not bring the democracy of New York to their senses, they are lost beyond redemption. Such a coalition as this must sweep the state, unless it is met by a cordial union of the entire democratic party."

To this the New York Evening Post, a Democratic (Free Soil) paper, responds in the following spirited manner:—

"Well, who is responsible for this state of things? Who gave occasion to the Saratoga and Auburn conventions? The authors and supporters of the Nebraska act; the administration, without whose aid the bill repealing the prohibition of slavery in Nebraska would have failed. It was they who kindled the excitement over which the Union now wrings its hands and whimpers its lamentations.—But for the wanton revival of the slavery agitation by a new attack upon what the North deemed its rights, there would have been none of this severing of the party ties so long affectionately worn. We may thus fairly set down the Saratoga and Auburn conventions as the handiwork of the Administration."

A FAMILY POISONED.—On Friday afternoon, five of the family of Mr.—— Palfry, who resides in the 11th Ward, near Roxbury, were suddenly taken sick. Dr. C. M. Winship of Roxbury, was called who at once decided that they were all poisoned, and prescribed for them accordingly. After six or eight hours of severe sickness they all, we are pleased to learn, recovered. We learn from Mr. Palfry that they had cold corned beef for dinner, and that all the family ate of it except himself and wife; they escaped, while all the others were sick. The whole family partook of the beef at breakfast, and were not troubled, and it is supposed that the poison was put on the meat during the forenoon. How or by whom, is a mystery. The family narrowly escaped with their lives.—*Sunday News.*

DEATH OF THE OLDEST INHABITANT.—On the 14th inst., Mr. Leonard Mallonee, living in Anne Arundel county, not far from Millersville, on the Annapolis railroad, departed this life, aged 98 years, leaving a widow not much younger. The Despatch says he was the father of John and William Mallonee, former merchants of this city, and grandfather of the late George L. Mallonee, letter carrier of the Baltimore post office under Mr. Fillmore's administration. He had lived 75 years in the neighborhood where he died. On the afternoon after his death, his grandson, Alexander Mallonee, aged 22 years, was sent out by his father to deliver tickets of invitation to his grandsire's funeral, and unfortunately in jumping from the Annapolis train of cars, near Millersville, he fell and broke his neck. The result was two burials instead of one.—The old man of 98 years and the young man of 22, were laid in the earth side by side.—*Baltimore Sun.*

LATER FROM HAVANA.—*New York, Oct.* 3.—The steamship Black Warrior arrived here this morning with dates from Havanna to the 28th ult. There is no news of interest. Ex-Captain-General Pezuela was still in Havana. Yellow fever had disappeared, and the city was quite healthy.

A young man and young woman were found among the rocks near the Falls at Patterson, N. J., on Monday morning, where they had lain all night, having fallen down a precipice on the night previous. The woman had both legs and one arm broken, and the man had his back and ribs broken, and was otherwise injured.

In the French courts, railroad accidents, as we designate them, are punished with exemplary justice. A man was killed some time ago, while working on a railroad bridge. His widow brought an action against the company for damages for the neglect of the signal man, who did not warn her husband in time. The tribunal condemned the company to pay the widow $100 down, $40 dollars a year for life, and twenty dollars a year to each of her children, up to the age of eighteen.

New Fall and Winter Goods.

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.
P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely *LOW PRICE* of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies the Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Henri Ponteteroromenas.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1we16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.
TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.
All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.
A good assortment of Fancy Cases and Lockets CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.
ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."
Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. A. Feduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Highland Nurseries,
STRATHAM, N. H
J. H. DIMAN, PROPRIETOR,
NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c., to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for larger plants, or in the border, with slight protection.
Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.
J. H. DIMAN.
Stratham, Sept., 1854. 3tawSw

FORGED PASSES.—We learn from the Berkshire Eagle that the sixth brigade, third division of Massachusetts Volunteer Militia, went into camp at Pittsfield on Tuesday last, and for three days was the centre of a throng of admiring spectators.

During the encampment no incident of note occurred except a fruitless attempt to forge a set of false passes to and from the tented field. An order was given by certain persons to a printer to print a set of cards similar to those issued by Major Richmond, the commanding officer. Typo supposed the work was to be done for the authorities, and not liking the pattern, changed it for the better—thus at once destroying the possibility of a fraud in using the cards. To cap the climax, he proceeded to deliver them into the hands of Major Richmond personally, much to the astonishment of that worthy disciplinarian.

The typo was probably an honest man, but rather a green specimen.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks; some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutic Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take one of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually attending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchaser of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

FOR SALE BY
DR. S. O. RICHARDSON,
No. 51 Hanover street,
e1 eod&w3m* General Agent.

Agents for Portsmouth, W. R. Preston and J. H. Thacher.

By Royal Letters Patent

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinnest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by
W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Parliament, Lond. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it as a household word in the land. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving (the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD SERIES, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, - - - - - - - - Boston.
SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY L. ELLSWORTH, T. R. PEALE,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CRANCH LAWRENCE,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the will drawal through him within thirty days after the rejection. Caveats, Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, the extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents (for their claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of securing their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

"R. H. EDDY, Esq., Boston, Mass.

"SIR:—Your facilities for the prosecution of any business connected with this office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."

Boston, Feb 7, 1852 eodly

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Old Sores, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Chilblo, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. a21 eod&wly

MEXICAN MUSTANG LINIMENT—

Every land has failed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its tortures, have yielded to its
Magical influence; canners, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to suppleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.

Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates required by us. His receipts will be regarded as payments.

DR. CARL V. MEYER'S

GERMAN

HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoroughly scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of there waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason they become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owing to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,

LIVER COMPLAINT,

Piles, Costiveness, and

WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,

SUCH AS

Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,

Paralytic and Nervous Affections, CANKER,

AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,

PILES,

PIMPLES ON THE FACE,

Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,

AND ALL

RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS, COUGHS, SORE THROAT,

AND ALL AFFECTIONS OF THE

THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

New Music Books,

For Singing Schools, Choirs, &c.

J. F. SHORES, Jr., No. 1 Congress Block, has just received

THE CHIME: an extensive collection of new and Old Tunes, consisting of arrangements from the old masters, and modern European Writers; gems from the continental school, with valuable selections (kindly permitted) from living American composers: also, a variety or new pieces by the author, with some of the choicest productions from his former publications. Including also, a MELODEON INSTRUCTOR, by the use of which, a knowledge of all instruments of the Organ kind may be easily acquired. By Virgin Corydon Taylor, author of "Golden Lyre, &c.

THE HALLELUJAH: a book for the service of Song in the House of the Lord; containing Tunes, Chants and Anthems, both for the Choir and the Congregation, to which is added THE SINGING SCHOOL: a manual for classes in Vocal music, with exercises, rounds and part songs, for Choir practice; also, Musical Notations in a Nut Shell, &c. By Lowell Mason. Teachers and others are invited to call and examine these books.

Morning Chronicle.

THURSDAY, OCTOBER 5, 1854.

SPLENDID RASCALITY.

The holders of all kinds of Joint Stock, will be somewhat interested in the following article from the Boston Courier, on the connexion between the *Gem* Stocks of New England, and those of the Middle States.

Boston and New York have had their startling developments in railroad matters, and now comes Philadelphia. The papers of that city are much occupied with the affairs of the Sunbury and Erie Railroad, in connection with its President, the Hon. James Cooper, under whose management several hundred thousand dollars of the script of the city of Philadelphia was furnished for the use of his ward on the strength of a certain amount of stock subscription being realized by the Sunbury and Erie Railroad Company, which subscription, it is averred, was not actually furnished in good faith.

The Philadelphia Sunday Despatch has published two columns upon this subject, containing seven charges against Mr. Cooper, with extracts from a report of a committee of the City Council, who were appointed to investigate, and also portions of a card put forth by Cooper in explanation.

The North American, in an article by its editor upon railroad mismanagement in general, and the Sunbury and Erie in particular, commented very severely upon the conduct of its directors and others in the manner of obtaining the city loan. The reflections in this editorial were so very pointed and bold as to call from Mr. Cooper a letter addressed to Mr. Michael, the editor of the paper, calling upon him to state if these charges were intended to apply to him. This correspondence was printed in the Courier a few days since.

In an article upon Mr. Crane and his over-issue of Vermont Central stock, published in this paper last July, we alluded to this person having taken, with another railroad contractor, one million of dollars stock in the Sunbury and Erie Road, and that the pressure upon him to respond to it was the cause which led to the over-issue of Vermont Central shares. It appears now that a large portion of the first instalment on this million subscription was furnished by Messrs. Crane & Dillon, and what money and securities they did give Mr. Cooper was based upon the calling in from the city of Philadelphia of a portion of that city's subscription in aid of the Sunbury and Erie enterprise, which subscription, in all amounting to 2,000,000 of dollars, was, by vote of the City Council, to be paid over to the road in equal proportions with the amount actually paid in to the company from its stock subscriptions.

How far this proposition was actually observed in receiving the scrip from the city, and what was the available value of the securities deposited by the contractors in the vaults of their stock, is not made clear by anything that has yet been discovered from the investigation of the committee of the city government appointed for that purpose; but we are led to conclude, from the tenor of the newspaper controversy, that either by some delinquency on the part of the railroad managers in respecting the proposition above alluded to, or in the subsequent disposition of the scrip, a serious loss is likely to occur, and that it is likely in the end to be shared by the city itself. Several members of the city government are mixed up in these proceedings, and it bids fair now to become a subject pregnant with evil to both the city of Philadelphia and the Sunbury and Erie Railroad, as the position of them now is. Mr. Cooper himself has not cleared himself of implications, which, to say the least, reflect upon his judgment and faithfulness to the important interests committed to his charge.

A MONOMANIAC.—A New York letter writer, after speaking of business matters, says :—

Despite the "hard times" however, our places of amusement are well attended. Grisi and Mario go to the Fourteenth Street Opera House next week. Hackett has barely paid expenses with them at Castle Garden. Talking of the Opera, reminds me of the lady who haunts Mario. The seat taken for the seas on under the name of "Coutts" is filled every opera night by the plaster-of-paris looking female, who has adopted this cognomen.—Hitherto, it has generally been supposed that she was a manager's myth—a lady got up for effect by Hackett, and romanced into notoriety at so much per line. This is a mistake. To my certain knowledge she is an English woman of large fortune—mad as a march hare, no doubt—and just as desperately in love with le Marquis as a lunatic might be expected to be. She brought here a large sum in bank of England notes and letters of credit, drafts, &c. from the London Banking House of Coutts & Co. I have seen several of these letters, drafts, &c. and know that Brown, Brothers & Co. cash her bills without hesitation. She buys largely at Stewart's, Genin's and other fashionable stores, paying for her purchases in fifty pound letters of credit bearing the signature and water mark of "Coutts & Co." and her own endorsement. Her real name is "Frances Sarah Gyle" which she affixes in a very same looking hand to the aforesaid fifty pounds. Every time she visits the opera she arrays herself in a new costume, and, if I may judge from her appearance, gives her face a new coat of whitewash. She is staying at the St. Nicholas, and has with her a very nice looking "lady's maid," who seems quite in despair at the vagaries of her mistress, whom she is very anxious to get back to England again. Mario has had an interview with the fair demented, since her arrival, but what passed thereat, this deponent, not knowing, cannot say. The story about her having followed the handsome (but rather jew-visaged) hero to St. Petersburgh and elsewhere, is all true. One of these days she will have Grisi in her hair, I take it. *Nous verrons.*

The Israelites celebrated the Day of Atonement on Monday. This is a rigid fast day, every Israelite abstaining from food and drink for twenty four hours. The services commenced on Sunday evening and continued the next day until sundown.—*Boston Courier.*

IMPROVEMENTS IN THE EXETER FACTORY.—During the past year, the Cotton Factory in Exeter, has been undergoing a thorough renovation, and now we behold it a new and beautiful mill, completely remodeled, its machinery embracing all the latest improvements, and each department furnished with every possible convenience—the whole, in all its appointments, as nearly approaching perfection as is possible in an establishment of this kind. In every department, the good taste of the gentlemanly and efficient agent is displayed, not only within the main and adjacent buildings, but in the grading and beautifying of the surrounding grounds.

The improvements have been effected at an expense of rising $75,000, and are, in a few words, as follows :—

A finer quality of goods than formerly, will be manufactured, No. 25 yarn being now used, and the cloth produced, measuring thirty-six inches in width. Steam will be employed to drive the machinery, whenever any failure of water may occur. Steam pipes pass through every room in the factory building, keeping up a Summer temperature throughout the Winter. Gas, manufactured on the premises, will light the buildings. The burners were tried on Monday evening last, the first time gas has been used for burning in this town, and the result was highly satisfactory. The Counting Room is lighted by four burners, and appears flooded with noon-tide radiance. Indeed, in our visits to many of the manufactories of New England, we have never seen a counting-room wearing such an air of completeness in all its arrangements, as does this.

A Repair Shop, of brick, complete as such a shop can be, and measuring 74 feet by 36, also a Picker House of the same size and material, a Gas Holder, with a capacity of 4000 cubic feet, and an Engine House, have just been completed.

The spinning is by mules of the most approved pattern. The number of spindles used, is 7400.

The preparations for fire are so extensive that we regard the destruction of the buildings, by that means, as next to an impossibility. Water pipes run along the walls of every room, and in an instant, numerous streams can be turned upon any part of the interior of the buildings. Hot and cold water is also conveyed to each room, for purposes of washing and cleansing.

The mill will manufacture 1,200,000 yards a year. It has now employed, 168 persons, and will go into full operation upon receiving about 30 more assistants. When full, it will employ 150 females and 50 males.

The hill, at the foot of which the factory is located, has been materially reduced, and all the surrounding grounds much improved and beautified.—*News Letter.*

CAPITAL CRIME IN NEW YORK.—The New York Court of Oyer and Terminer, which opened in that city on Monday, has before it nine cases of murder, viz: Dr. Graham, for the murder of Col. Loring; John Corcoran, for the murder of Michael Coyne, trial Friday; Patrick McMahon, for the murder of Catherine McMahon; Henry King, for the murder of Timothy Redding; William Fowkes, for the murder of Bogan; Charles Jager, for the murder of John Moran; James Smith, for the murder of James Davis; Henry Glad, for the murder of James McKenna; Charles Graham, for the murder of John Wilson.

Will the New York Herald, Independent, or some other well-informed journal in that city, give us the *nativity* of these nine murderers, that we may know how much of this crime is home-made and how much imported. And will they also tell us how many of them, if any, were total abstinents, or even temperate men on any scale of estimation.

They need not enquire as to Dr. Graham's temperance; as the whole country has heard of him as a crazy drunken man, who in a fit of delirium killed a man who tried to still him.

One paper speaks of him as the Dr. Graham, who killed Col. Loring in an affray at the St. Nicholas hotel, and says his counsel confidently anticipates an acquittal.

NULLIFICATION.—Judge Benning, of the Supreme Court of Georgia, has decided that the courts of that state are *entirely independent* of the courts of the United States. This goes beyond the decision of the Supreme Court of Wisconsin, which decided that the fugitive slave law is unconstitutional.—*Boston Cour.*

So it does;—and also aside from it: for it does not cover nor touch the same ground.

CANADIAN SURPLUS PRODUCE.—The surplus products of free duty articles in Upper Canada, for this year, are estimated by a Canadian writer as follows :

12,000,000 bu of wheat at $1.50	$1,000,000
2,000,000 bu oats at 40c	80,000
1,000,000 bu barley at 40c	40,000
Seeds	100,000
Vegetables	50,000
Poultry	10,000
Furs and skins	150,000
Butter	200,000
Lumber of all kinds	4,000,000
Wool	1,000,000
	$23,630,000
Other articles under the treaty say	1,000,000
Total	$24,630,000

The Boston Post says—"The worst feature in the times is the decline of the shipping interest. Freights are falling everywhere, and there is not only much tonnage awaiting sale at the docks, but there are scores of vessels on the stocks, from Boston to Eastport.—Unless something favorable should occur, ships will go a begging, and a severe pressure for money will be experienced by a class of men who have been rich throughout all the hard times."

KNOW NOTHING VICTORY.—At an election of Magistrate last week, in Portsmouth, Va., a stronghold of executive influence, wielded through the Navy Yard. The regularly nominated democratic candidate was beaten by an independent opponent, who obtained more than three votes to one against the former.

LOCAL.

DRAMATIC READINGS.—Mrs. Macready, the celebrated American Actress, announces a single evening's Reading from Shakspere and other poets, at the Cameneum on Friday evening. She comes with the most unbounded praise from the oldest critics in all parts of the country; and we feel assured cannot fail of highly entertaining all lovers of the drama. Mrs. M. came last from Portland, where the press is loud in her praise. The Advertiser says,—

"Her peer as an actress, has never been in Portland."

John A. Poor, Esq. of the State of Maine, says,—

MRS. MACREADY'S READING.—It is quite impossible in any language of description, to give an idea of Mrs. Macready's prodigious dramatic power, as exhibited last evening.—Her recitation of "Zonel," and the impersonation of Bianca in Fazio, equalled if they did not surpass anything we have ever witnessed, in the whole range of dramatic effort. In fact each selection or scene read to us on both evenings, was acted with a degree of power quite unexampled.

For the Chronicle.

THE RECORD SPEAKS FOR ITSELF.

Ignoring all fear of injury (!) to the Police Court, which your correspondent expresses in his article on the "Continuance of trials," because of the comment upon Justice Parker in refusing to grant a *reasonable* motion, made by the City Solicitor in the case State *vs.* the alleged pickpockets—we simply desire to correct any false impression or misrepresentation.

The ruling of Justice Parker was *not* like the ruling of the Judge of our C. C. Pleas in the case of the State *vs.* Locke. The counsel for the defendant in this latter case, moved to have it taken up, according to the statement in said article, '*after the juries were dismissed,*' and insisted upon a trial at that time. A very proper time that, for a trial by jury!—But the Attorney General resisted the motion, *on the ground of the absence of a material witness;* and therefore moved for a continuance to the February term. The defendant's counsel stated that the Government should be ready for trial—that the said witness might have been subpoened—and that his client ought not to be compelled to remain in jail. The Court, therefore, taking into consideration the various circumstances, granted a '*postponement to Oct.* 17.' Thus the record reads.

But Mr. Justice Parker, although the Solicitor stated that *three* material witnesses were absent, by whom the State expected to prove the guilt of the prisoners; and related their *suspicious* conduct at the depot, when and where five ladies had their pockets picked; and that a lady's porte monnaie containing thirteen dollars in bank bills, was found upon the person of one of them—which porte monnaie and bills corresponded with the one that had been stolen from one of said material witnesses, as alleged in the complaint; yet the motion was *not* granted.

Your correspondent further says, 'there might be a case supposed where time could be granted, on proper evidence laid before the Court, when there was *no doubt of the prisoners guilt.*' Well, really, if there was *no doubt,* then if time could not be granted, the prisoners must be discharged! Herein do we complain—herein is justice made a solemn mockery or a mere farce, and the ministers of the law the jeer of the rabble or the patrons of pickpockets.

***

POLICE COURT.—We copy below, from the Messenger, some remarks respecting the decision of Justice Parker, which liberated the supposed pick-pockets, on Monday afternoon:

Our police officers are justly indignant at this decision of the police magistrate, and some of them are talking of resigning their offices. It is useless, they say, for them to attempt to bring rogues to punishment unless they have the cooperation of the court before which they are to be tried. By our police lays they are required to arraign prisoners within twenty-four hours after their arrest, and if the court refuses to postpone their trial when more time is required to procure evidence, it is entirely useless for them to trouble themselves about making arrests. The men arrested in this case gave no satisfactory account of themselves, pretended to belong to Baltimore, and contradicted themselves several times in their interview with the officers. We learn that a lady who lives near the depot saw the party examining the contents of a port monnaie soon after the above-mentioned thefts took place, and heard the one who held it remark that he had "made a pretty good haul from that girl's pocket." Considering all the circumstances in their case, we think the police magistrate was in duty bound to render the officers all the aid in his power; and we believe we utter the sentiment of a great majority of our citizens, in stigmatizing his administration of the functions of his office as a burlesque upon law and justice.

We understand the suspected men have all left town since their discharge. We wonder at this, for it is pretty certain they cannot find a place where they may prosecute their business more securely.

NAVAL.—Passed Midshipman Leonard Paulding has reported at the Navy Yard at this station, for duty as Master, in place of C. C. Simms, promoted to Lieutenant.

MR. KENDALL'S SCHOOL will be opened on Monday morning next, October 9, at No 2 Exchange Buildings, recently occupied as the Exchange Reading Room. 3o

COLONIZATION.—Some time since the Secretary of the American Colonization Society issued an appeal to four hundred and twenty-six gentlemen, asking them to contribute the sum of ten dollars each to a fund for the colonization of seventy-one colored persons, mostly belonging to the Rev. Mr. Herndon and family of Fauquier county, Virginia.—He now states through the columns of the National Intelligencer that he has received responses from three hundred and twenty-six of those gentlemen, accompanied by $6,265, or $2,005 more than the required amount.—The surplus money is to be appropriated towards the colonization of fifty-eight other slaves, who are anxious to sail for Liberia in November. There is yet lacking for the accomplishment of this object, $1475, and the Secretary of this Society will be happy to receive at his rooms in Wachington, a ten dollar bill, contributed to supply the deficiency, from any friend of humanity.

FAUSTIN I.—The St. Louis Intelligencer says that a gentleman of that city has recently received a present of coffee and sugar from Faustin I, Emperor of Hayti. The gentleman was formerly a resident of St. Domingo, and owned a number of slaves, among whom was His Majesty, Faustin I, who has, it seems, not forgotten his old master.

THE celebrated American Actress, will give a

Dramatic Reading,

selections from Shakspere and other Poets, on FRIDAY EVENING, Oct. 6, AT THE CAMENEUM.

TICKETS 50 cts, to be had of Wm R Preston, J H Thacher, and at the Door. Seats can be secured by application at the Cameneum from 10 to 12 on Friday.

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

For the rapid cure of coughs, colds, influenza, croup, hoarseness, pulmonary and bronchial irritations about the throat and chest; and may be had of all apothecaries, and in at least one store in every town in N. H.

Reader, recollect that more than half of all those who die of disease, die of consumption. Here you have a remedy used and sanctioned by the most eminent among the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o5istf

o4 RAYNES & NEIL, 59 Congress st.

PROVIDENCE, October 3.—Quite an excitement was created here to-day from the strange freak of an old man named Lyman Hawes.—The track of the Worcester and Providence Railroad runs through land formerly belonging to him, the price of which has been assessed by commissioners, but which he refused to accept. To-day he placed a small house, erected by himself for this purpose, upon both tracks, nailing himself inside with several kegs, which he represented to contain powder. The Boston & Providence train, and the Providence & Worcester train, were brought to a stand still near the house for some two hours. "The old fellow" swore that if they attempted to run the engine through the house he would fire the powder and blow all near it to atoms. After a long delay, during which the crowd increased to over 1000 persons, the North Providence and Providence police arrived, and with well directed blows the door was immediately smashed in, and he was seized. It was with difficulty at first that the crowd could be kept from injuring him, but he was hurried away to jail, and the house was then attacked and torn into a complete wreck. About a half keg of powder was found.

NEW YORK, Oct. 3.—The meeting of the stockholders of the New Haven Railroad Company upon the question of the assumption of the Schuyler over issue was attended with the greatest confusion and disorder, so that the police had to be called to maintain quiet. About 1200 persons were present.—Speeches of an exciting character were made, amidst frequent attempts to put the speaker down. A series of resolutions appointing a committee to thoroughly examine into the affairs of the company, from the commencement to the present time, defining the duties and qualifications of all officials and employees of the company—entirely abolishing all free passes — after much opposition, were adopted. The meeting then adjourned to the 21 Wednesday in November, at New Haven.

THE REACTION COMMENCED.—The steamship City of Manchester sailed from Philadelphia on Saturday with 30 cabin and 150 steerage passengers; and the packet ship Tonawanda, for Liverpool, sailed the same day with 204 steerage passengers. We have noticed, of late, frequent departures of large companies of emigrants from this port, on their return to the old world. These occurrences seem to indicate that a reaction to the excessive emigration of past years has commenced. A vast improvement has taken place in the condition of many of the estates in Ireland, since relieved of her redundant population, and which, added to the operation of wholesome laws, and the favorable yield of the grain and potato crops, impart strong additional attractions to the old "flesh pots."—*Journal of Commerce.*

SUICIDE IN JAIL.—Deputy Sheriff Neale arrested in Salem, on Friday last, a man named Alonzo Neal, *alias* Felt, on suspicion of stealing $100 from Mrs. Chandler, of East Boston, on or about the 10th of August last. Saturday morning, the turnkey, on entering the jail, found him stiff and cold, having hung himself with his suspender to the hinge of the window in the cell door. A jury was called, who rendered a verdict in accordance with the above facts. On the person of Felt was found a dark lantern, a pair of nippers, a flat file, a bunch of matches, and a wallet containing between two and three dollars. We understand he has a wife living in Salem, and a mother and sister in Newburyport. He came originally from Exeter, N. H., but has lived in Newburyport and Rockport. He has been known to the police before, and has frequently been imprisoned for perpetrating rascalities. During the war with Mexico he belonged to one of the New England Regiments, and behaved in a manner no ways creditable to himself. Subsequently he styled himself "Dr.," in this city, and carried on a nefarious business. Some year or two since he was arrested for endeavoring to pass a forged check at the Cambridge Market Bank.—*Boston Telegraph.*

A STABBING CASE.—On Wednesday night a fracas occurred at South Andover. George Hill stabbed James Clegg, a son-in-law of his wife, in the abdomen, so that his intestines protruded six or eight inches. It is not yet known whether the wound will prove fatal. Hill was taken before Justice M. Foster, Jr., on Thursday morning and committed, for want of bail in $2000, on the charge of assault with intent to kill. If Clegg should die from the wound, Hill will be taken for murder. It is said that cards and liquor were the principle instigators of the deed.—*Andover Advertiser.*

EXCITEMENT IN HAVERHILL.—A correspondent in Haverhill writes us that officer Davis of that place arrested on the evening of the 1st inst., Dr. J. Q. Adams for adultery with a married woman who resides in the North Parish, and that Adams was taken to Dover, N. H., where the crime is alleged to have been committed, for examination.—*Boston Herald.*

TERRIBLE DEATH OF A MOULDER.—Mr. John Brady, a moulder in Alger's Foundry, South Boston, on Thursday last, with a number of other men, was engaged in swinging a ladle of melted iron from the furnace to the mould, when the crane broke, in consequence of which the ladle was upset, and Mr. Brady, who was holding the handle, was, by some accident, thrown into the fiery liquid. He was burned in a shocking manner, and yesterday, after intense agony, he died. He was one of the best moulders in Mr. Alger's employ, a good citizen, and he leaves a young wife to mourn his untimely death.

"EVENHANDED JUSTICE."—In Sacramento recently a man was tried for the wilful murder of a Chinaman, and notwithstanding the testimony was positive against him, he was acquitted. A poor Chinaman, however, stole $200; the money was recovered, but he was tried, convicted and sentenced to five years imprisonment at hard labor.

NEW YORK, Oct. 4, 8 A. M.—Weather thick, and rainy. No news of the Arctic.—Sandy Hook line not working, and the weather too thick for the signal Telegraph.

City Clothing Store,
No. 8 Market Square, Portsmouth, N. H.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.

Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtonetoromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1w s16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that he never would stoop to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "Hovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are seen below par, yet on larger and better quality of—cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine both his work and his prices.

A good assortment of Fancy Cases and Lockets
CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be creat.d at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel,

making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Pedusz and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Highland Nurseries,
STRATHAM, N. H
J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c., to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.
J. H. DIMAN.

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattle snake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable, it is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

Laws, 1854.

LAWS of the State of New Hampshire, passed June Session, 1854. Private Acts passed, at same session. For sale by

JOSEPH H. FOSTER.

Also, Probate Directory; Justice & Sheriff.—Town Officer; new editions brought down to present time.

Blank Deeds, &c. of all descriptions.

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jenny street, Aldgate, London, and of*

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Lnz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK,	T. R. PEALE,
L. D. GALE,	THOS. H. EVERETT,
J. H. LANE,	F. SOUTHGATE SMITH.
Principal Examiners,	WM. CHAUNCY LANGDON, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1853. ja3 eodly

Canes.

12 DOZ. of various styles, just received by GEO. W. TOWLE & CO., City Sales Room, No. 8 Congress Block. je27

HOUSES, &c.

FARM FOR SALE.

A VALUABLE FARM, on Boyd's Road in Portsmouth, about a mile from the centre of the city: it contains 85 acres, well divided and fenced with stone wall; also a good two story HOUSE, two large Barns, and other out buildings, all in perfect order. The soil is very rich and productive, and the ground in superior order.

This farm must be sold, and offers a rare opportunity for any one in want of a valuable and productive estate, which from its central location must increase in value.

For terms and information, apply to

3m a14 HENRY H. LADD.

House For Sale to be Removed.

THE undersigned offers for sale his dwelling House, 9 1-2 Cabot Street, which he now occupies, together with a wood house and cellar walls, consisting of three feet of stone and three feet of brickwork. The House is nearly new and in an excellent condition. For further particulars apply, on the premises, to

a14 B. NORTON.

House to Let

IN Ladd street. Possession given next week.

a12 J. N. HANDY.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate sufferings, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Morning Chronicle.

FRIDAY, OCTOBER 6, 1854.

Editorial Correspondence of the Chronicle.

STATE FAIR AT KEENE.

KEENE, Oct. 4, 1854.

Fairs, like all other out door celebrations, require fair weather. But when rain at the time of the exhibition is combined with severe drought during the season, the show of vegetable products and spectators is necessarily much smaller and less attractive, than when the elements have been and are favorable for their entrance for exhibition and examination. The board of Managers have made admirable arrangements for this fifth annual exhibition of the products of New Hampshire, and their expectations have been in a measure gratified.

The fruits exhbited are numerous, and vegetables fair, though not nearly so extensive as at the last year's fair at Manchester.—These articles being convenient for transportation, the farmers in the immediate neighborhood, take such products as are intended for exhibition with them, in their own conveyances. On this occasion a heavy rain, which continued till Wednesday, prevented the attendance of many who would, under more favorable circumstances, have contributed their quota to the display of the staples or luxuries for domestic use. The entries are almost entirely from the south western part of the state, viz.: Cheshire County, with a few from Sullivan and Hillsborough, and that part of Vermont bordering on the Connecticut river.—From Portsmouth, we notice a good variety of pears from the garden of A. W. Haven, Esq.; Hosiery from the Portsmouth Hosiery Mill, by S. Strauss, agent, which are unequalled by any on exhibition. Painted Oil Carpets were entered by Abraham Folsom, of Dover.

Outside the tent, the exhibition of Live Stock is excellent—superior to any display ever presented in this state. Cheshire County has always been famous for horses, and this fair has proved that it is not behind-hand in the articles of oxen, cows, sheep and pigs.

Some of as disciples of the the quill, under the escort of His Excellency, Gov. Baker, went round the trotting course, when the horses were brought out for the inspection of the judges, and the unanimous expression was that a finer display never was seen in New Hampshire.

The names of those entering live stock would be uninteresting to the reader, as they are mostly from this quarter, therefore it is useless to particularize.

The favorite breed of cows and calves was the Durham, and Devon, or a mix of the two, and fine specimens of them all were offered.

Pigs of the Suffolk breed were in a majority, and from appearances the supply of carbon to preserve the human system during the coming winter, will not be wanting.

Saxony and Cotsworth sheep were offered in great perfection, and were all beautiful animals. The supply of wool for outside covering will counterbalance the pork and beef for the inside. We are informed by one of the officers of the society, that there are more than one thousand entries of live stock.

We almost forgot to mention that Mr. Albert Gregory, of Portsmouth, had on exhibition some splendid specimens of daguerreotypes and stereoscopes, which were not excelled by any on the ground.

The officers of the State Society have made excellent arrangements for the press, both for the comfort of the body, and convenience of intellectual operations. The Treasurer, Mr. Smyth, and Secretary James O. Adams, both of Manchester, who are the prime movers, have a perfect idea of these matters, and are deserving of the thanks of the entire press gang.

The prospect now is that the weather will clear up this evening; if so numerous entries will be made to-morrow, of which, more anon.

G.

THE SLAVE HUNTERS ON THE TRACK.—The New Bedford Standard has received information, from a gentleman in a neighboring town, that he had seen and conversed with a sea captain who had the necessary papers for the arrest of eight fugitive slaves—five of whom resided in New Bedford. The captain remarked that he knew three of them personally, they having "lighted" his vessel over the bar, while at the South. We do not wish, says the Standard, to create an unnecessary alarm; neither do we wish to have a successful slave hunt on our soil, without the use of all proper efforts on our part, to prevent it: if there be such fugitives in our city, we would advise them to be on their guard: in these times of man stealing and kidnapping, too much caution cannot be exercised by our colored friends.

TEXAS WHEAT.—The Austin Times states that in Williamson County, owing to the large yield of grain in that fertile region, and the lack of what a Yankee would style 'help,' it has been found impossible to garner and take care of the crops there raised. To remedy this evil, the farmers are about to introduce the culture of winter wheat, which has been so successful in other portions of the State, where the experiment has been made. By adopting this plan of raising two crops a year, one half the labor only will be required to harvest them.

LOCAL.

For the Chronicle.

LET THE WHOLE RECORD SPEAK.

Perhaps the editors of the Chronicle may remember the boy's reading of scripture as follows—'When sinners entice thee, consent thou.' He said the 'not' belonged to the next verse. So it may be perhaps in regard to the statement of 'The Record Speaks for Itself,' under signature of three stars in the Chronicle of Oct. 5. It may be admitted that the statement of three stars is correct as to what the States counsel in action before Justice Parker said they *expected* to prove, as far as it goes; but the difficulty perhaps with the statement is, that the 'not' is left off. Now I would ask for a *full statement of the record* or facts if one is to be given, and would ask three stars the following questions:

If the complaint was not founded on stealing a porte monnaie and the bills contained therein? If the State did not present the suspicions [as alleged] looking porte monnaie as the one on which the complaint was founded, and as one taken from prisoners when arrested? Whether the complaint was not sworn to by a police officer, and not by Miss Tibbetts personally? Whether the State claimed ever to have seen Miss Tibbetts, or to *know* even that the porte monnaie was hers? Whether the State claimed any thing more than a suspicion that it might be hers?—Whether after the porte monnaie was produced the respondents did not *prove* [on the question for continuance] by Mr. Wm. Hadley of Portsmouth, that the respondents were here at his house some time ago, in July, as he thought, and staid at his house for several days; that at that time he saw a porte monnaie similar to this in the possession of the prisoner from whom the Government alleged it to have been taken; that he had no doubt that this was the same porte monnaie?—Whether the Government did not then call on police officers Towle and Hanscom, and whether they did not swear to declarations of the prisoner that he bought the pocket book about four weeks ago in New York city, on his way here from Baltimore? Whether after this evidence was offered the Government did not produce [for which the respondents ought to be thankful] a paper which the States counsel stated to have been taken from the suspicious porte monnaie? [Query—Why in complaint did they not allege that paper also to have been stolen?] Whether that paper was not a receipt for the board of the prisoners while at Hadley's? Whether the receipt was not dated some of the last days of August last—just about 'four weeks ago'—thereby corroborating conclusively their story to officers Towle and Hanscom, and also the fact proved by the writing that it was August instead of July when they were here and when Hadley saw the porte monnaie? Whether the finding of the receipt in the suspicious looking porte monnaie taken from prisoners when arrested, had any tendency to prove the property to be Miss Tibbetts', or whether the prisoner would not be likely to carry his own receipts in his own porte monnaie? Whether the fact was not proved that prisoners were here a few days in August, as aforesaid, and also some two or three days before the pockets were picked? Whether any one heard in August last of any pockets being picked in Portsmouth, or during the two or three days they were here before last Saturday? Whether there were not other strangers at the depot on Saturday last, besides the prisoners?—Whether the evidence did not tend to show that they were not utterly strangers, but were persons who had been here before, and nothing had then been thought or charged against them? Whether the porte monnaie being proved conclusively to be the prisoner's a month before it was alleged to have been stolen, and the very porte monnaie produced by government as the one on which the complaint was founded, tended to support the complaint? Whether after proving the above facts, there would be anything left of the complaint to found a motion for continuance on? Whether these facts (if they are facts) amongst others, were not urged for the prisoners? Whether the rule of law is not that every man is supposed to be innocent until he is proved to be guilty? And generally, whether when the thing alleged to be stolen is proved to have been the prisoners property for a long time before a theft has been committed, it is customary for magistrates to grant a continuance on that disproved complaint, in order that government may hunt up Tom Dick and Harry, to see if they cannot prove by them something else?

Whether the Justice is to decide according to outdoor rumor and talk, and according to what everybody thinks they believe, or on the evidence before him? I did not before make a statement of what the record was, nor do I now; I only ask that three stars may add the 'not' to his statement, and not like the boy's version of scripture, give it just as far as it suits his peculiar case. He has stated the motion—let us hear the evidence and defence; not what government 'expected' to prove, but what was the evidence there—keeping out all outside rumor and talk. It was not for fear of injury to the Police Court, that I inserted my former statement, but to avoid injustice to future prisoners—believing it to be better that ten guilty should escape, rather than one innocent suffer.

For the Morning Chronicle.

CALL FOR AID TO SUFFERERS.

PORTSMOUTH, OCTOBER, 5, 1854.

A meeting of the Wardens of the several churches of this city was held this afternoon, at the store of Daniel Knight, Esq.

John Knowlton was chosen chairman and Joseph H. Foster secretary.

The following circular was read:

Great Fire in Waldoboro', Me.

On the 25th inst. about 1 o'clock, P. M. Waldoboro' was visited by one of the most destructive fires on record, this side of San Francisco. The entire business portion of the village was burnt to ashes. Not a store or workship is left. Mechanics had no time to save their tools. The GOODS IN THE STORES, (thirty-seven in number) were consumed, and consequently no article of provision, clothing, furniture or medicine can now be purchased. About seventy-five families are destitute of homes, food and raiment.

The fire spread with such fearful rapidity, that not even the Ladies had an opportunity to save a change of clothing for themselves or their children.

At a meeting of the citizens, held the following evening, the undersigned were chosen a committee to appeal to the sympathies of a generous public, and we now make that appeal in behalf of our suffering and destitute fellow citizens, many of whom barely escaped with their lives.

The whole amount of property lost, from the best estimate we are able to make, cannot fall short of half a million of dollars, not more than one third of which is covered by insurance.

Signed:—Isaac Reed, B. B. Haskell, Geo. Sproul, James Hovey, Henry Kennedy, George Allen, James Cook, Alfred Hovey, A. W. Clark, John Balch, Alfred Storer, John Bullinch, James Schwartz, 2d. William S. Cochran, John H. Kennedy, M. M. Rawson, William A. Schenck, D. W. Seiders.

WALDOBORO', August 26, 1854.

And it was—

Voted, That it be recommended to the several parishes to take up a contribution, in aid of this purpose, on the next Sabbath morning.

Voted, That a committee (to consist of one from each parish) be selected to receive any contributions of money, clothing or provisions which may be handed in.

Voted, That Messrs. J. Knowlton, John Sise, J. C. Carr, John Bennett, Dennis Libbey, and John M. Davis comprise said committee.

Voted, That these proceedings be published in the various city papers.

JOS. HILLER FOSTER, Secretary.

☞ Mrs. Macready announces a varied and interesting programme of Readings, at the Cameneum this (Friday) evening only. Respecting this lady's abilities as compared with other talented actresses, an able critic in Portland says:

We have heard Laura Addison in the Honey Moon, listened to Fanny Kemble's Lady Macbeth, to Charlotte Cushman's Bianca and Meg Merrilies; but we have been less moved and interested, than by Mrs. Macready's recitations, the two last evening, unaided as she was by accompaniment of music and scenic art.

BOARD OF ALDERMEN.—Thursday evening, Oct. 5th.—Alderman Jenkins in the chair. A note from the adjutant general, advises to let the Rockingham Guards retain their arms without the Captain's bond. Referred.

A little business was done, on sidewalks, &c.,—and many bills passed.

☞ It is hoped that every member of the Mercantile Library Association will be present at their meeting this evening, as on this occasion the election of officers for the ensuing term will occur. The meeting is called at half past seven o'clock.

☞ Rose Terrell, a middle aged Irishwoman, insane and a pauper, supported by this city at the Asylum in Concord, drowned herself on Thursday, in a pond near the asylum.

Portsmouth Circulating Library

In Boston, Sept. 28, Mr. Joseph L. Hilliard, formerly of Dover to Miss Clara S. Norton of B.

DIED.

In this city, October 5th Miss Annie Marsh Rogers, aged 19 years 9 months, eldest daughter of Frederic W and Susan P Rogers. The funeral will take place on Saturday afternoon at 3 o'clock; relatives and friends are invited to attend.

Her death will be improved in a discourse by Rev Mr Moore, in the Temple on Sunday morning next.

Thus has passed away from all the pleasing circles of home and social life, a ripe and beautiful spirit. The childlike simplicity and womanly maturity of this youthful spirit, were strikingly and harmoniously blended. During a long and severe illness, the peace and patient waiting of resignation were daily exhibited to friends; while the consolations of divine religion, of which she had rare experience, gathered about her like the light. She said to a dear relative, the evening before her death, "'*Right* blessed are the dead who die in the Lord; for they rest from their labors.' Farewell"

A few brief days thy spirit lingered here—
Then, like a dream of pleasure, passed away:
Life brought no sadness to thee—death no fear;
But, calm as sets the sun at closing day,
Thy spirit left this scene, renewed to shine
Bright with the radiance of the Lamb divine,
x.

In Exeter, Oct. 5th, Ada Laurette Boutelle, aged 6 months, daughter of Thomas E. and Lucy Ann Boutelle.

Portsmouth, Oct. 1, 1854.

A MEDICINE that has *never failed* in curing the most severe attacks of Dysentery and Cholera Morbus—

PRESTON'S DYSENTERY ELIXIR.

Within the past three weeks, I have sold over one hundred and twenty bottles of this medicine, and have been made acquainted with the effects of over one hundred. Not a single instance has been reported of failure to perform a *perfect cure*, even when the discharge had become very frequent and bloody. No family should be without it. Prepared by

W. R. PRESTON, Apothecary,
No. 2 Congress Block, Congress st.

Price 50c a bottle. 4tis o3

Cure for Cholera,

Cholera Morbus, Dysentery & Bowel Complaint.

THIS very valuable medicine is prepared and sold only by

BRACKETT HUTCHINGS, 4 Market st.

Where all those who are desirous of having the BEST medicine for the above complaints, are invited to call and purchase a bottle.

Fluid Extract Pink Root and Senna.

THE combination of Pink Root and Senna, has long been held in high estimation as the most effectual *WORM DESTROYER* known. This preparation is made pleasant to the taste; and the quantity being but a teaspoonful, children will take it without any hesitation. For Worms, either in children or adults, it will prove the best article in the market. Sold at 25 cents per bottle, by WM. R. PRESTON, Apothecary,

o3 3t 2 Congress Block, Congress st.

Proposal.

o4 RAYNES & NEIL, 50 Congress st.

A POLITICAL HOTCH-POTCH.

It is no secret in New-England, that the Whigs of Vermont, and most of them in the State of Maine, have avowed anti-slavery sentiments, and sealed them by their votes in the late elections. In other States, as New-Hampshire, Massachusetts and New-York, the resolutions and conventions of the whig party look the same way. Some of their candidates and many of their papers are ultra in that direction. Other papers are more conservative and cautious, fearing a rupture in the party, between the north and south. The fear is just and natural.

Already do we see from southern whig papers, extracts which show their determination to die in the last ditch, defending their blessed institution against the attacks of those fanatical whigs of the north, who believe, with Jefferson and Franklin, that freedom is a blessing, and that slavery is a curse. The Richmond Whig says, it "shall never be found willing to sacrifice further one jot or tittle of the rights (i. e. slavery) of the South, for the sake of keeping on terms with any party!"

The Alexandria Gazette intimates that "henceforth the Whigs of the South will look only to the *principles* of Northern men," candidates for office, and "not to the party" that brings them out.

The Baltimore Patriot terms the Nebraska bill a tardy act of justice to the South.

The Boston Courier considers these discordant sentiments, as pronouncing the dismemberment of the party.

☞ The Steamer Arctic had not arrived at New-York on Thursday, and fears begin to whispered of her loss. She ought to be 15 days out, with 200 passengers.

Bangor, Oct. 4.—MURDER TRIAL.—At the recent term of the Supreme Court for Aroostook County, James Matthews was convicted of the murder of Samuel James, committed last April. They were lumbermen, and Matthews shot James for turning a girl out of his camp during his absence.

RELIC FROM A SUNKEN VESSEL.—We this morning saw a specimen of some black cassimere which was recovered a few day since from the schooner Wallace, which sunk off the island of Grand Meenan, near the Bay of Fundy. This cloth was taken from a depth of 104 feet under water, where it had been lying for 14 years past, and is in an excellent case of preservation—perfectly strong in fibre, and of as good color as ever.

Mr. James A. Whipple, of this city, is engaged in the search after the cargo of the Wallace, with sub-marine armor and other scientific apparatus for the business. Besides a quantity of dry goods, the vessel is reported to have had on board about 50 tons of copper ore and also $500 in specie. The copper has been reached, and it is expected that Neptune will soon have to part with the money.—*Boston Transcript.*

GALLANT MILITIA OFFICER.—The Adjutant of the Fifth Regiment Maryland Militia, is a Conductor on the Baltimore and Susquehanna Railroad. When the Fifth was formed and ready to march at the recent review, the Adjutant, who is somewhat absent minded, thinking he was on duty as conductor, instead of giving as the word of command, 'Forward March!' cried out at the top of his voice, 'All aboard!' This unusual order caused a number of privates to rush out of the ranks to learn from whom it came. As the crowd was passing, the Adjutant held out both hands, saying, 'Gentlemen, show your tickets.' The Fifty-third Regiment was in full march down one of our streets, at a rapid rate, when the Adjutant, in a moment of excitement, thinking he was on the cars, wishing the regiment to move at a slower pace, instead of giving the usual order, sang out 'Down breaks!'—which was received amidst shouts of laughter, and causing much confusion in the ranks.—*Balt. Cor. Washington Star.*

At a Court of Probate holden at Alfred, within and for the County of York, on the first Monday in October, in the year of our Lord eighteen hundred and fifty-four, by the Honorable Joseph T. Nye, Judge of said Court:

ON the petition of Susan Witham, widow of Ephraim Witham, late of Kittery in said County, deceased, praying that administration of the estate of said deceased may be granted to Josiah Remick of Milton in the State of New Hampshire, or to some other suitable person:—

ORDERED, that the petitioner cite the next of kin to take administration, and give notice thereof to the heirs of said deceased and to all persons interested in said estate, by causing a copy of this order to be published in the Weekly Chronicle, printed in Portsmouth in said State, three weeks successively, that they may appear at a Probate Court to be holden at Biddeford in said county, on the first Monday in November next, at ten of the clock in the forenoon, and shew cause, if any they have, why the prayer of said petition should not be granted.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES
BY STEAM,

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability we have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavytontoromens.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Cheap Daguerreotypes Triumphant!
OLD FOGYISM STEPPED OUT.

TWO weeks ago the lowest sum that a Daguerreotype could be obtained for in this city was $1, and the proprietor of one of the Rooms asserted that the twenty-five cent style to put up twenty-five or even fifty cent Pictures. The next day BOUTELLE came in on Hanover street, with his Saloon, and advertised Pictures at Fifty cents.—Now mark the change. First, one of the old fogies "discovered all at once" that he can take Pictures and *beautify* them with *steam* and *electric power* (if he had said *gas* no one would have disputed his veracity,) all for Twenty-five cents.—Next the man that never would stoop to take cheap Pictures, advertises not only to take for twenty-five cents, but to let all the *widows* have them *free of charge.* But the work is not yet complete, for although on the small cheap pictures they are even below par, yet on larger and better quality of cases they still maintain their old exorbitant prices.

All persons who think of sitting for a Picture would do well to first call upon BOUTELLE and examine for themselves his work and his prices.

A good assortment of Fancy Cases and Lockets

CHEAP! CHEAP! CHEAP!

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created that time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his MORLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Fedduzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A cordial invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 23.

Highland Nurseries,
STRATHAM, N. H
J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c., to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says—

"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.

By order of the Board of Directors—
H. HUNTINGDON, Pres."

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Bites.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him. and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humor in his system for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possess properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS,

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
P. Parke, M.D., Prest. College of Physicians, Phila.

Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Med. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

HOUSES, &c.

FARM FOR SALE.

A VALUABLE FARM, on Boyd's Road in Portsmouth, about a mile from the centre of the city: it contains 85 acres, well divided and fenced with stone wall; also a good two story HOUSE, two large Barns, and other out buildings, all in perfect order. The soil is very rich and productive, and the ground in superior order.

This farm must be sold, and offers a rare opportunity for any one in want of a valuable and productive estate, which from its central location must increase in value.

For terms and information, apply to

3m s14 HENRY H. LADD.

House For Sale to be Removed.

THE undersigned offers for sale his dwelling House, 9 1-2 Cabot Street, which he now occupies, together with a wood house and cellar walls, consisting of three feet of stone and three feet of brickwork. The House is nearly new and in an excellent condition. For further particulars apply, on the premises, to

s14 B. NORTON.

House to Let

IN Ladd street. Possession given next week.

s12 J. N. HANDY.

For Sale.

THE subscriber offers for sale the STORE now occupied by him on the corner of North and Deadman streets, with the land and Hay Scal attached thereto. The situation is an excellent one for a grocery, or any other business. The Hay Scale yields an annual income of from one hundred and fifty to two hundred dollars. The premises will be sold low if applied for soon.

If not sold by 1st of November next, the subscriber will lease the same at a reasonable rate.—For any information, apply to the subscriber on the premises.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with some long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Editorial Correspondence of the Chronicle.

STATE FAIR AT KEENE.

KEENE, OCT. 5, 1854.

Last evening, soon after the mailing of my last, we were favored with a beautiful clearing up shower, and a splendid bow of promise appeared in the eastern heavens. This sign of fair weather was hailed with joy by all connected with the fair. On Wednesday the attendance was slim, only about 700 tickets being sold. Last year about 2000 were sold in the same length of time.

In the evening the annual meeting of the State Agricultural Society was held at the Town Hall, for the choice of officers. His Excellency N. B. Baker, was chosen President. Among the executive committee we notice the name of Geo. O. Hilton of New Market. The Treasurer, Mr. Smyth, and the Secretary, Mr. Adams, were re-elected.—Both of these officers are popular and energetic in their respective departments, and have become almost necessary to the existence of the Society. The treasurer at the meeting read his annual report of the financial condition of the Society. The amount of cash received the past year was $7,526.71; expenditures $4,478.91—leaving a balance on hand in cash of $3,047.80. This amount will probably be somewhat reduced when the expenses of the present fair are settled. At the conclusion of the meeting, the audience were favored with a song appropriate to the occasion, by the Hutchinson Family, which was rapturously applauded.

The musical part of the fair proper, is by the Manchester Cornet Band. Last evening Governor Baker and several of the principal citizens of Keene received a serenade from this band. Among those favored, were the gentlemen of the press, who were quartered together. The band were forthwith welcomed to the house by Col. Moore, in an appropriate speech, when they were hospitably entertained by our host, Mr. Colony.

The entries of articles to the fair were numerous this morning, and the appearance inside the building is now very fair; in the fruit department the display is good, both in number and variety. Among the new entries of fruit we see the names of James Hill, Esq., of Greenland, and Henry F. French, Esq., of Exeter, to whose efforts Rockingham County is largely indebted for her success in exhibitions of this kind.

This Keene is an exceedingly out of the way place for the convenience of visitors and exhibitors. But one line of railroad runs through the town, whereas at Manchester and Concord, or some other central place, every body can attend from every direction, making the Fairs profitable both to the public and to the Society. There is some talk about permanently locating the fair at Manchester or Concord, and efforts will be made to accomplish this result. Should this attempt not be successful, it is extremely probable that the next State Fair will be held at Portsmouth. This we hope will be the case. G.

POLITICAL NEWS.—The Boston Times of Oct. 4, says—

We hear from all quarters that the insensate opposition to the Nebraska measure, which has characterized the whig and abolition press since the bill was first introduced into Congress, is fast dying out, even in some of its strongest places in New England.

The only evidence given by the Times of the above "dying out," is a paragraph copied from the Portland Argus, which essays to support the following assertion:

We say, then, that the Nebraska question was not at the foundation of our late defeat.

The Times very modestly suggests that the resolutions of the Massachusetts democratic party at their late State Convention, fully endorsing the present federal administration, including the new test, have produced a great effect already.

We don't doubt it; and we expect to see it proved to a demonstration, when the Massachusetts election comes off next month. Perhaps the insensate opposition will all die out before that time. But as old Grandfather Ritchie used to say, "We shall see."

THE NEW YORK LIQUOR QUESTION.—A friend from the interior remarked the other day, that Judge Bronson's letter on the temperance question took exactly the proper ground. Said he—"Bronson goes in for good liquor, Seymour for poor liquor, and Clark for no liquor at all. On the good liquor platform we are sure to win."

This is said before election. We can tell better afterwards than we can now.

REVIVAL OF RELIGION.—We understand that an extraordinary interest on the subject of religion prevails at East Haverhill. Thirteen new converts were baptized in the Merrimac last Sabbath.—*Newburyport Herald.*

Converts—from what? and to what?

NEW PRESS.—Among the new list of patents, we notice one to Ervin B. Tripp, of Concord, for improved printing press.

MILITANT.

Some soldiers in the church militant, fire blank cartridges; others don't. Among those who don't, we reckon the Rev. T. B. Thayer, of Lowell, Mass., who preached the annual sermon before the United States Convention of Universalists, the other day, at Philadelphia. His second head of discourse, as it is briefly sketched for the Gospel Banner, was in substance as follows:

2. *The Pulpit should be more Political.* Politicians wish to divorce Politics and Religion. Church and State should never be united, but Politics and Religion always should be. Had not the Puritans united these, their feet would never have pressed Plymouth Rock, nor would Penn and his followers have settled Pennsylvania. Had the early inhabitants of this country not made their politics religious, what a different condition should we all be in. The only way to save our country from the evils which threaten its institutions, is to preach Bible politics. All history reveals the path that lies downward, for nations: it is national sin. There are those who prate of the *sacredness* of the pulpit, and say there is no connection between politics and religion. They allow the preacher to denounce the gin palaces of England, and Hungarian oppression, but not to advocate the Maine Law nor condemn negro slavery. The soldier of the Cross may fire blank cartridges—may aim at a painted Indian on a board, but not at a live one. He may shoot at some distant citadel, but not at one in our midst. Can any one consider the corruption of our politics, and not see clearly the necessity of infusing religion into them? We ought to strive to send clean hands and pure hearts to the ballot box. The pulpit ought to sound the alarm whenever a bad law is announced, or attempts are made to repeal a good one. Religion is the whole, of which politics is a part. Slavery and Intemperance are religious questions, and ministers ought never to refrain from bearing a full witness, even though demagogues claim that they are party questions. Great questions, affecting human welfare, are Religious first and always, and the minister must wisely but faithfully preach the fulness of the gospel, and apply it every where.

We clip the following from the Paris correspondence of the New York Times:

Let me warn my young countrymen visiting Paris, and who make the acquaintance of affable young ladies here, never to yield to their pressing solicitations for a portrait on their departure. A man's vanity is gratified by the expression of a desire for his fac simile, and in nine cases out of ten he accedes to it. The result is as follows: The lady takes him to a photographist, with whom she is in league, and who immediately transfers his features to metal or paper. She always finds the first trial satisfactory—the victim pays a large price, and the next day the fair deluder brings the portrait back, returning the frame and the glass, and receiving half the profit. The picture, if a good one, is placed in the gallery, if not, it is destroyed.

STANDARD READER.

We have examined the First Class Standard Reader, sufficiently to say, without doubting our own accuracy, it is a first class reading book in more senses than one. Its literary and moral designs are well conceived and faithfully carried out: and its author, Epes Sargent, Esq., formerly editor of the Boston Transcript, has herein shown himself a workman that needeth not to be ashamed, in getting up a good school book, as he formerly did in making a readable newspaper. We commend the book to the notice of teachers, committees and parents. The following extract from the preface gives an idea of the plan of the book:

In adopting, compiling, or translating the contents of this collection, I have regarded as essential, first, a salutary or unexceptionable moral tone; secondly, literary accuracy and style; and thirdly, peculiar fitness as a reading exercise for schools. The more simple exercises are placed at the beginning. I have observed the line of demarcation that should distinguish a "Reader" from a "Speaker."—Exercises of a purely declamatory character should be sparingly introduced into the former, as they are not favorable to the formation of that style of delivery in reading which is most appropriate; while the habit of giving a level tone to pieces requiring the animation and action of declamatory delivery may spoil the speaker without accomplishing the reader. Still, as the mode in which an oratorical passage should be *read* may differ from that in which it should be *declaimed*, an adequate number of exercises to illustrate this difference have been introduced.

Although I have been more solicitous to present what was suitable than what was novel, it will be seen that more than two-thirds of this collection is composed of pieces to be found in no other "Reader."

"In many instances," says Mr. Mayhew, in his excellent work on *Popular Education*, in reference to exercises in reading, "commendable effort is made to secure correct pronunciation, and a proper observance of the inflections and pauses. But there is a great lack in *understanding* what is read." "I am fully satisfied that it is incomparably better for classes to read once around once a day, and understand what they read, than to read four times around four times a day, without understanding their lessons."

The Reader is handsomely printed, contains 478 pages, and is published by Phillips, Sampson & Co., Boston.

AFFRAY AT ANDOVER.—John Clegg was stabbed in the abdomen by George Hill, at Andover last week, during an excitement caused by rum and cards. Clegg died on Monday night, and Hill has been arrested and committed to Salem jail.

As an instance of the vagaries of trade, we can state that we saw, the other day, a quantity of flour unloading *from* a Portland steamer, to be sold in this city, while a quantity of the same article was going aboard the same vessel *for* Portland.—*Boston Times.*

LOCAL.

For the Chronicle.

THE RECORD SPEAKS AGAIN.

The *interrogatory* writer, who appears in an article in the Chronicle of the 6th inst. headed "Let the whole record speak," says,—"It may be admitted that the statement of three stars is correct as to what the State's counsel in action before Justice Parker, said they expected to prove, as far it goes." This is an ingenuous admission, and what is not controverted we presume is admitted to be true. Our object was "simply to correct any false impression or misrepresentation" made by him.

He can at his convenience answer his own "whethers"; the game is certainly not worth "the powder and shot." Even if we prove beyond the shadow of doubt that the alleged pick-pockets should have been detained by Justice Parker, upon the *reasonable* motion of the City Solicitor, there is no guarantee that pickpockets hereafter, when there is no doubt of their guilt, may be discharged. ***

DEATHS IN SEPTEMBER. — Mr. Robert Bell renders us the following account of mortality in Portsmouth, during the past month: *Males*, thirteen—aged 4 mos., 4 mos., 11 mos., 1 yr., 1 yr. 3 mos., 1 yr. 4 mos., 6 yrs, 13, 23, 53, 71, 74, 77.

Females, thirteen—aged, 4 mos., 6 mos., 10 mos., 11 mos., 1 yr. 6 mos., 2 yrs., 3 yrs. 6 mos., 16 yrs., 45, 49, 71, 77, 79.

Total for September, twenty-six.

☞ Rev. Wm. Rogers of Hampton will preach at the F. W. Baptist Chapel on Hanover street, to-morrow.

☞ MIS. Macready's Dramatic and Poetic Readings, on Friday evening, were of a high order of excellence, and gratifying to every intelligent auditor. A request was made for a repetition of the entertainment, to take place on Monday evening next—of which due notice will be given.

RELIGION IN ALABAMA.—The Montgomery Journal states, that "while a religious revival has been progressing in that city among the whites, for the last five or six weeks, the same work has been going on for the same length of time in the Colored Methodist Episcopal Church there—where every night religious exercises are conducted with the most wonderful results. Rev. Mr. Brown, the minister in charge of the colored church, says that during this year there have not been less than two hundred added to the church of this class of population, and that he has been informed by the authorities of the city that the reformation amongst them has been productive of the happiest results. They have been preached to by white and colored ministers, and enjoy religious privileges to as great an extent as their masters and mistresses do—no attempts being made to interrupt or molest them. We take pleasure, also, in remarking that Bishop Andrew, when here, availed himself of the opportunity to dispense the word of life to them."

All this reads well—but when these christians happen to be sold at auction and scattered—what will become of their privilege?—Uncle Tom is not so much romance as reality, after all.

FOREIGN COSTUMES.—Almost every day, crowds of German, Holland and Swiss emigrants pass from the river boats to the cars of the Central Road, whose costumes are not only novel in the extreme, but present a marvellous contrast to those of our people, of both sexes. We saw yesterday, a party of some forty females, Swiss peasantry, passing up Montgomery street, whose heads were oddly dressed in turbans of fiery red. They wore embroidered boddice waists of substantial woolen stuffs, and skirts of the deepest blue. Nearly all of them were shod in wooden shoes, studded with nails. Strong and healthy women they were too, and bore with them heavy burthens and fat, blooming, square built infants, some of whom will doubtless, one of these days, be found in State Legislatures of the West, and in the halls of Congress.—*Albany State Register.*

Rose Coburn, a colored woman of South Andover, 88 years of age, has obtained from Government the sum of three hundred and twelve dollars besides expenses. She is also, hereafter, to receive $96 annually as a pension. The Andover Advertiser facetiously remarks that "it is understood that a future marriage would cut her off from the annuity."

WISCONSIN CROPS.—HEAVY RECEIPTS.—The Milwaukie Sentinel of Sept. 26 says that over sixty cars, loaded with produce, arrived there on the Saturday previous by the Milwaukie and Mississippi Railroad, bringing 18,000 bushels of grain, 1,000 bushels of potatoes, 300 bbls. flour, 760 bbls. mill feed, besides lots of other items. The grain crops of Wisconsin are said to be unusually large.

DEATH RATHER THAN IMPRISONMENT.—We learn from the Taunton, Mass. Gazette, that a man named Michael McCarty, of Squawbetty, while an his way to the jail in Taunton, to which, as a common seller of liquors, he had been committed, in default of bail, escaped from the officer's grasp, and crying that he would drown himself before he would be arrested, sprang into the river and was drowned.

PHILADELPHIA, OCT. 4.—Henry Massey, the fugitive slave claimed by Franklin Bright, of Kent county, Maryland, was, to-day, rendered by the U. S. Commissioner to the custody of his master.

A REMINISCENCE.—A friend reminds us that thirteen years ago to-day—Oct. 4, 1841—most of the railroads leading to this city, were so blocked up with snow as to render the passage of the cars extremely difficult.—*Boston Telegraph.*

A daughter of the Hon. Caleb B. Smith, late U. S. Senator from Indiana, at a recent county fair at Connellsville, in that State, received the highest prize—a side saddle worth a hundred dollars—as being the best lady rider of all who presented themselves as competitors.

DEATH OF AN OLD CITIZEN.—Capt. Israel Trask died in Gloucester, Mass. on Tuesday at the advanced age of ninety years. Capt. Trask was a successful merchant in Boston half a century ago.

Fines in liquor cases to the amount of $1600, and costs to the amount of $1000, were paid at the recent term of the Supreme Court in Augusta, Me.

LAWRENCE'S

CHERRY PECTORAL.

W. F. LAWRENCE: DEAR SIR,—

It gives me pleasure to state that your CHERRY PECTORAL has given utmost satisfaction wherever it has been used. Some of the most distinguished physicians of the state, are in the habit of purchasing it in bulk, and profess themselves highly gratified with its remedial effects. I can recommend it with confidence as a very superior medicine, and have no doubt that it will earn for itself an enviable reputation. E. H. ROLLINS.

CONCORD, Sept. 20, 1854.

Mr. Rollins is one of the most extensive dealers in drugs and medicines in New England. As the Cherry Pectoral was first introduced in Concord, we subjoin the certificate of John F. Brown, formerly bookseller and publisher, and now city clerk of Concord, N. H., our former agent:

This certifies that I have been an agent for the sale of the medicine, now extensively known as Lawrence's Cherry Pectoral; that so far as I know it has given good satisfaction; that I have repeatedly sold it to physicians in quantity; that I am acquainted with the manufacturer of the Pectoral; that he is a physician of good repute, and that I believe him qualified to conduct the complex operations necessary for the manufacture of this medicine. JOHN F. BROWN.

CONCORD, N. H. April 6, 1854.

The above are but few of the many testimonials in favor of Lawrence's Cherry Pectoral. It is used under the sanction and approbated at Dartmouth College by Prof. Dixi Crosby, and the most eminent of the Medical Faculty of the N. E. states. It is

THE GREAT REMEDY

For the rapid cure of coughs, colds, influenza, croup, hoarseness, pulmonary and bronchial irritations about the throat and chest; and may be had of all apothecaries, and in at least one store in every town in N. H.

Reader, recollect that more than half of all those who die of disease, die of consumption. Here you have a remedy tried and sanctioned by the most eminent among the Medical Faculty. Are you troubled with a cough, or cold, bronchial, or pulmonary complaint? try it immediately, and do not neglect your cough and cold. o6iestf

Singing School & Convention.

A. PEARSON,

WILL give the next Lesson of his Course in Singing, (designed chiefly for those having some knowledge of music,—in which he will give particular attention to the Development and Cultivation of the Voice, Formation of Tone, Style in Singing, &c.,)

AT EXCHANGE HALL,

No. 4 Exchange Buildings, Portsmouth, N. H.,

On Monday Evening, Oct. 9,

at 7½ o'clock.

The Term will consist of 24 lessons, on two evenings of each week.

In connection with this Class, at the close of the Term, there will be held a public

Musical Convention,

at some large hall in Portsmouth,—to continue four days,—under the direction of

Prof. B. F. BAKER, of Boston.

TICKETS for membership to the Class and Convention—including the use of three descriptions of Books—$1.50.

The Books to be used are the Melodia Sacra, the new Handel collection, and the Union Glee Book.

EVENING SINGING SCHOOL.

J. W. CLARK

GIVES notice of his intention to recommence instruction in the several branches that are usually taught in an adult Singing School, on the evening of *MONDAY, Oct. 16th, in ACADEMY HALL,* at 7 o'clock. The course of instruction will be particularly adapted to the class which honored him with their respect and confidence, last winter, and whose patronage, with others who have sufficient knowledge of the elementary principles of Vocal Music, to read common psalmody, is respectfully solicited. The correct style of performing the *Monophonic, Polyphonic,* and *Homophonic* forms of musical composition, which will be of great advantage to leaders, and prominent members of choirs, will be fully exemplified. In addition to the book which was adopted last winter, the class will have the gratuitous use of a work that contains several of the great compositions which were performed at the Musical Congress held in the *Crystal Palace*, New York, under the direction of M. Jullien. A Glee Book will also be introduced during the term, which has been used by the best musical societies in Boston and New York, and will be furnished to the class without extra charge. The term will consist of 24 lessons. Terms, for ladies, $1.00; gentlemen, $1.50, payable on the evening of the second lesson. e27

School for Boys.

MR. KENDALL'S SCHOOL will be opened on Monday morning next, October 9, at No 2 Exchange Buildings, recently occupied as the Exchange Reading Room. o6

ONE WEEK LATER FROM EUROPE.

NEW YORK, Oct. 6.—The Canada arrived this morning with Liverpool dates to the 23d.

The Arctic sailed on the 20th. No news of her.

Consols 95 3-4 money: 95 3-8 on account.

Cotton dull, no material change. Breadstuffs buoyant. Flour advanced 2s. Wheat 4d. Corn 1 a 2s.

The Petrel steamer put back to the Clyde on the 18th, dismasted, her decks swept and leaking. Five of her passengers out of 111 had died.

The United States steamer San Jacinto had arrived at Southampton and would leave in a few days.

It is officially announced by the French and English governments that on the 14th, 58,000 men landed without opposition at Eupatoria, and immediately marched upon Sebastopol; the transports returned to Varna for 14,000 more Frenchmen.

The instructions issued to the troops at Varna, indicate that the intention is to make an immediate attack upon Sebastopol.

A dispatch dated Varna 22d, says, from Russian sources, it had been ascertained that the Russians did not oppose the landing of the allies, because their entire force in the Crimea numbers only 38,000 men, besides the garrison in Sebastopol 2000 strong. The Russians have 30,000 men and forty-eight guns on the heights leading to Sebastopol, and they will defend these heights to the utmost.

FOREIGN PAUPERS.

It is a fact that Massachusetts has more State paupers within her boundaries than any other State in the Union, and she is often abused by the press in other States in relation to this crying evil. Now the question will arise what has brought this burden upon the old Bay State? It is Irish immigration landing upon our shores. By the pauper returns of Massachusetts, compiled by the Secretary of State, it appears that pauperism has increased yearly for ten years past, more than seventy-five per cent. By the last abstract of 1853, the whole number of State paupers supported during the year was 14,811; of this number TEN THOUSAND AND FOURTEEN came from ENGLAND and IRELAND. There was 26,114 relieved or supported by the towns and cities, of whom TWENTY THOUSAND were foreigners by birth, who had gained a residence, i. e. naturalized paupers.

This does not include the insane foreign paupers who are supported in our different lunatic asylums in the State. A fair average of the number may be found in the last report of Dr. Walker, Superintendent of the South Boston Hospital, to the City government.—Two thirds or more of all lunatics are Irish, (and so crowded are they at South Boston that another hospital is to be built.) The whole cost of supporting foreign paupers, in 1853, to the State, towns and cities, was nearly A MILLION OF DOLLARS, the State paying out of the "crib" about *two hundred thousand* to the cities and towns in the Commonwealth. Suffolk county had *nine thousand, nine hundred and ninety* State paupers, last year.

The citizens of Massachusetts are taxed more to support foreign paupers in her alms houses, her jails, hospitals, &c. than they are to support all the public schools within her bounds. Tax payers, are not such facts alarming, and should not some steps be taken to apply a remedy as soon as possible, and instead of feeding the paupers and laborers of Europe, feed our own people? In a short time, by our present policy, we shall become paupers ourselves.

The above is from the Boston Bee. Most of these foreign paupers are hard drinkers, or the families of hard drinkers. The state of Maine has disbanded her pauper army, by cutting off their supplies. Massachusetts has tried to do the same. But the solid liquor men of Boston have so far successfully resisted the effort. Drunkenness must make paupers. So long as we keep the cause, we must also take the effects.

A BOLD PLANNED ROBBERY.—About 5 o'clock on Wednesday afternoon, a man from Brookline was met at the Worcester Depot in Boston, by another man, who endeavored to sell him a lot of land located in Roxbury. After some parley they took the train for Roxbury to "see the site."

A certain vacant lot was pointed out by the would-be seller, and as they entered upon it they were met by three other men, when the Brookline man was suddenly pounced upon by the whole four, who knocked him down and badly wounded him, besides robbing him of $115. The gang fled with their booty, and no trace of them has since been found.

The person robbed was Mr. —— Sturgis, a carpenter of Brookline. It is stated that he had been drinking in some of the low groggeries about town, where he probably exhibited his money, and in consequence the above plan was laid to rob him. The robbers are entirely unknown.—*Boston Journal.*

The Washington correspondent of the N. Y. Times denies the story of the intended naval demonstration at Greytown, and says that the Princeton is merely going there to take out Minister Wheeler and Mr. Fabens, our Commercial Agent.

He also says that Attorney General Drummond is in Washington, endeavoring to get the Reciprocity Treaty put into effect immediately, so far as regards Canada; and that Mr. Perley of Nova Scotia is there on the same business.

SARATOGA, Oct. 4.—At the Court yesterday, at Ballston Spa, the kidnappers Merrill and Russell had their trial put off on account of the absence of material witnesses, until February. They have been endeavoring to compromise the matter, but without success.

Just Received.
No. 22 *Market street, up stairs.* **No. 22**

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.
P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromens.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.
ALL Persons Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."
Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but cheap Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel,
making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his MOSTLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please remember that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Feduzzi, and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Collector's Notice—4 per cent. Discount.
THE time allowed for Four per cent. Discount on Taxes in this city the current year, will expire on Tuesday the 10th day of October.
ROBERT LEFAVOUR, Collector.
Office 74 State street, up stairs.
Portsmouth, Oct. 1, 1854.

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS,

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, containing all the advantages of the elasticity and clearness of the Quill, with the lasting durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor out the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS BROTHERS' PATENT, 1858," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, Col. Gen. Guards, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA;"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different plates, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.]
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer. American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated
MINERAL SPRINGS OF CARLSBAD,
In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.
Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled almost every medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.
This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.
The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called
DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,
In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.
IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,
This Balsam is exceedingly efficacious.
SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,
May be cured by using the Medicine according to the directions.
IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,
This Balsam will prove a sure remedy.
FOR COLDS, COUGHS, SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,
This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.
FEMALES
Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.
Those troubled with periodical turns of
HEADACHE,
Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.
It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable
Nursery Medicine,
Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for
CHILDREN,
Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.
Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Morning Chronicle.

MONDAY, OCTOBER 9, 1854.

Editorial Correspondence of the Chronicle.

STATE FAIR AT KEENE.

KEENE, Sept. 6, 1854.

My last letter closed in the forenoon of yesterday, before the commencement of the Annual Address, which took place at 2 o'clock P. M.

Mr. Simon Brown of Concord, Mass., editor of the New England Farmer, the Orator of the day, was introduced by the ex-President of the Society. The speaker's stand was built near the centre of the field, directly in front of a large pavilion of seats, which were crowded with ladies and gentlemen, while around on every side was a perfect sea of upturned faces to listen to the words of wisdom which fell from the orator's lips. Mr. Brown chose for his subject "The Practical Features of Agriculture," and treated it in a remarkably practical, utilitarian manner, suited to the taste and abilities of all classes.—What rendered it the more palpable to the understanding was his method of making it entirely a matter of dollars and cents, proving satisfactorily that investments in improved stock, and superior tools, were sure to pay good dividends, while outside speculations in railroad and bank stocks, &c., were very liable to involve the parties in difficulty and embarassment. His plan was for each person, whether farmer or mechanic, to use his surplus of receipts in the enlargement of his own business, with the workings of which he must be better acquainted, than he could be with speculations of any other kind.

His remarks were received generally with approval, though we heard remarks of disapproval. In some cases the objector thought his figures were rather too large; another thought it sounded very well, but a trial would produce a different result. Nevertheless, the address abounded in sound suggestions and correct conclusions, and must prove beneficial to all thinking minds that listened.

When Mr. Brown concluded, His Excellency N. B. Baker, President elect of the society, was introduced to the audience, and made a few pleasant remarks. Probably 3000 persons listened to these speeches.

At the conclusion of the speeches, a song was sung by the Hutchinson Family, which was rapturously applauded.

We did not learn the number of tickets sold yesterday, but the attendance was very large—perhaps 8,000 or 10,000 persons being present.

The attendance to-day is also large. The last two days of the Fair being very pleasant, the proceeds will come up pretty nearly to the expenses, though many persons were prevented from coming by the rain of the first day, which is considered the best time to see the display.

The ploughing match took place near the railroad station, and exhibited great skill in the management of the plough, and the training of cattle.

The premiums have been awarded, most of them being given to citizens of Cheshire county, from which, as before remarked, a large portion of the articles were produced.—Henry Smith of New Market, received the first premium for best speed with stallion.

The Fair as a whole, under all the circumstances, has given good satisfaction, and of course another will be held next year. As it has been the custom to hold the Fair where the highest bid is made, it is probable that it go to some other section of the State. It has been held four years near the centre; and this year in the south-western section, where the facilities for attendance were few and scanty. Let Portsmouth people do their duty in this matter, and it can be drawn here. Every one must see that any town where the Fair is held will be largely benefitted by it, and Portsmouth more than any other. The Fair held here would open a larger acquaintance with our country friends, which by proper effort on our part, could be continued, and be productive of mutual advantages. Then next year let us work inseason, and we shall succeed.

A NEW BAND OF VOCALISTS.—Mr. E. Freeman Whitehouse, whose sweet ballad singing has gratified so many thousands of the lovers of music in New England and the West, has organized a capital company, to be called Whitehouse's "New England Bards," and will start in a few days on a concert tour. Mr. Whitehouse has a splendid tenor voice, and sings with fine effect the songs which all who have hearts to feel love to hear. Mr. W. has engaged the services of Mr. Durant, who for the past two seasons sang so acceptably with "Dodge's Bards," as bass. The company will consist of one lady and three gentlemen. This new troupe cannot fail to command success.

FAILURE.—*Philadelphia, 4th.*—A very dull stock market was caused this morning by the failure of Reed Bros. & Co., dry goods Jobbers, whose liabilities are heavy. The firm publish a card this morning, saying they have resolved putting the affairs of the late firm into liquidation, and caution holders of their paper against hastily negotiating the same.

Correspondence of the Chronicle.

THE PORTLAND FAIR.

PORTLAND, Sept. 5, 1854.

Messrs. Editors:—The iron-horse has brought us safely into the metropolis of the pine tree state. On our arrival the strains of martial music greeted our delighted ear; and, wedging our way along through dense crowds, we at length came in full view of the citizen soldiery with their "nodding plumes and bristling bayonets." There has been no cannonading as yet, but we can imagine the Anglo-French battalion before us—a sort of fac similie investment of the Crimea. Oh! what glory is there in all this military display, for Young America—this butterfly show of pseudo warriors, whose temples are here filled with the most magnificent products of genius, and of the arts and sciences! But we envy not the laurels all the heroes may here win, nor fear that "rivers of blood" may flow. The Crimea of Maine, we doubt not, will prove invincible, so long as the glorious fruits of peace triumph.

The Mechanics Fair is the grand feature of attraction at the present time. Since it was opened it has been visited by thousands. It would be quite impossible to describe the many interesting objects that attract our eye on every side. Among the most prominent contributions, however, is the Fresnel lens for our government, manufactured at Paris, for Boon Island, at a cost of about $5000. It is 10 feet high and 4 feet in diameter. It has but one burner situated within its glass house. Its chief merit is in the great saving of oil and in the intensity of light. It will be removed to Boon Island the latter part of next week. In the same room we noticed *"Foster's Reefing Gear"* which is attracting much attention; also, a *"Patent parrell,"* invented by Mr. John Dame of Portsmouth. Mr. Thomas P. Moses has contributed four very beautiful pictures, which have been highly complimented. In the list of articles entered to-day, are "two improved Sofa beds," patented by Mr. Chas. F. Martine, of Portsmouth. The portraits by C. O. Cole, and the daguerreotypes by Masury & Silsbee excel all others in artistic finish and beauty. Of the pianos, one invented by Andrews & Robinson of this city, having a "swell mute" attachment, designed to *prolong* the sound, is, for richness of tone and sweetness, unrivalled. Of all the contributions which evince a singularly rare genius, perhaps none excell the "Design of 13,120 objects" by C. W. King. These objects embrace animals, birds and almost every conceivable thing.—The design is on paper a foot square, done with a lead pencil, and occupied about eight hours per day for three years. There is also to be seen here "a smoothing plane" and a puritanic "platter," which were brought over in the May Flower by the Pilgrims in 1620.—In all there are some 1230 articles contributed to the Fair. Its managers are practical men, and deserve the highest praise for their great energy, untiring perseverance and success. It is, indeed, such a Fair as Portland may justly be proud of, and, we think, we may safely say all things considered it cannot be excelled by any city in the Union. The managers inform us the Fair is to be closed the last of next week. What surprised us not a little was here and there on the street, occasionally an anti-Maine-liquor-law man, whose serpentine course and jolly vociferations, indicated that even here, in the very birth-place of one of the greatest moral laws of the age, there were some few *cories* who knew where the "striped pig" was exhibited. Yankee ingenuity accomplishes almost every thing. The law and its constitutionality are interpreted with the largest freedom to suit the taste, a la Sumner, as some folks *understand* the same.

Yours, &c. VIATOR.

POSTMASTER HELD FOR TRIAL.—Mr. Abel Pond, the Postmaster of Holliston, who was some weeks ago summoned to appear before U. S. Commissioner C. P. Curtis, Jr., to answer to a charge of breaking the seal of a letter addressed to a Mr. Currier of that town, was yesterday examined. It was shown that the envelope contained worthless documents, and that it came to the Holliston office slit, as if by accident; and there was room for the inference that the package was mailed by some opponents of Mr. Pond, with a hope of leading him into difficulty. The evidence, however, was deemed by the Commissioner sufficient to warrant the holding of Mr. Pond, in the sum of $500, to appear at the Circuit Court on the 16th instant, when the matter will be reported upon by the grand inquest.—*Boston Courier.*

The Commissioner did right. The plea that the package was made up and mailed by an opponent, to entrap the honest postmaster, is a mere quibble, a mere dodge of justice, first got up to evade the Maine law, as amended for Massachusetts.

SAD ACCIDENT.—Drowned Tuesday evening in Marblehead harbor, Wm. A. Homan, aged 24, eldest son of the late Capt. Wm. Homan. He had just arrived from the Grand Banks, and while the vessel's hands were securing the cat-head, a boy was ordered to let go a rope, but he let the one go which held the anchor, and Mr. Homan was carried down.

CLOSE OF THE NEW YORK CANALS.—The Canal Commissioners have fixed upon the 5th of December as the day upon which to close the canals for the season.

LOCAL.

For the Chronicle.

MRS. MACREADY'S READINGS.

Messrs. Editors:—I desire the use of your columns, wherein to record the sincere gratification with which I witnessed Mrs. Macready's wonderful display of talent on Friday evening last. From the universal commendation which the leading press of our country had bestowed upon her efforts, I was prepared for an exhibition of no ordinary character. I expected an accurate conception, and artistic rendering of the very beautiful selections which constituted the programme. But I by no means anticipated that consummate display of genius, which, soaring above all the trappings of art, at once exalted and bewildered the senses of every appreciating person in the audience—leading them wheresoever it listed. In her rendering of some of the finer passages, there was something more than eloquence—there was Inspiration.

I have repeatedly witnessed the efforts of the two great dramatic artists, Fanny Kemble Butler and George Vandenhoff, and am satisfied that, compared with either, with an audience purely intellectual, Mrs. Macready would bear away the palm. Mrs. Butler is at the desk, what Edwin Forest is upon the boards, massive, powerful, sweeping all before her by the force of her own resistless will. George Vandenhoff is the artist and the scholar, captivating his hearers more by his finished style of oratory than by power of utterance, or an appeal to the emotional nature. But Mrs. Macready, while endowed by nature with every essential attribute possessed by either, excels both, in her power to reach the heart of an auditory, by her entire loss of individuality during the inspiration of the moment, and her thorough identification with the character represented. This is, after all, the truest evidence of genius, whether in painting, sculpture, song or oratory, and this will live, while the works of the mere artist, perish and are forgotten.

I owe a debt of gratitude to the gentleman whose kind forethought on Friday evening, in requesting a second entertainment of a similar character, will doubtless prove availing. For the credit of our city, this gifted lady should not be suffered to depart without some more substantial token of our appreciation of her high talents, than was awarded her on Friday evening. Should she consent to appear again before her citizens, she should be greeted by a house overflowing with the wealth, and beauty, and fashion of the city. She should receive the patronage of that class who have ever evinced a willingness to sustain real talent, and who are capable of its appreciation.

There are a few selections which I would like to make for the next programme. How effectively would Mrs. Macready's powers enable her to render certain passages from Bulwer's beautiful drama, *"the Lady of Lyons?" "The Raven"* of Edgar A. Poe, would also afford a fine scope for her peculiar talents.—There is also a poem, exceedingly difficult to obtain, but which for tragic utterance, probably far surpasses any other in our language, and which, rendered by this lady, would, I am sure, be worth a journey to hear. I refer to the piece known as "The Lay of the Madman." And some of the productions of one of our own poets—the gifted Fields—might be introduced to the great acceptance of our citizens. These are but suggestions, and it rests with the lady herself to say whether they shall be acted upon. F.

Another correspondent says:

There has been no entertainment of this nature in Portsmouth, that has equalled Mrs. Macready's reading; and the delight she has conferred upon those who listened to her, has given them a strong desire that she will again favor us with an evening,—which it is believed will be more remunerative to herself, and a fairer return for the gems of beauty which she scatters so profusely.

Reported for the Chronicle.

Court of Common Pleas—Sept. Term.

SATURDAY, Oct. 7.

The case Bassett vs. Salisbury Manufacturing Co, which has occupied the attention of the Court since Monday, Sept. 25, was given to the Jury on Friday evening. The Court held a session this morning at 5 o'clock, for the purpose of receiving their verdict.—The Jury not having agreed, the Court took a recess till 9 1-2 o'clock, A. M. At 10 o'clock the Jury were called in, and it was found on interrogating them, there was no probability of an agreement. The Jury were therefore discharged. This case which is for damages for injury to piffs. land by the building of a dam by defts., has been tried twice before. At the first trial the jury were unable to agree; on the second the Jury returned a verdict for piff. for 1 cent damages and costs, which verdict was set aside by the Superior Court, and a new trial ordered. The result of this new trial is now a disagreement, and the case will have to be tried again.

The Jury stood 6 to 5, one juror having been discharged by agreement of the parties.

We think the three trials have occupied about six weeks, and at an expense to the county, parties concerned, and parties litigant in other causes thereby long delayed, which may be estimated from ten to fifteen thousand dollars.

On the civil list there were 465 actions continued from the last term, of which, on the first call of the docket over 150 were marked for the jury. 9 state cases and 8 on the sessions docket were continued from the last term. There are 234 new entries, exclusive of the bills of indictment found this term.—The court commenced the 19th Sept, and during the first week many cases were disposed of by agreement and otherwise, and several civil and criminal cases tried.

The Court adjourned to Tuesday, Oct. 17, at 10 1-2 o'clock, A. M.

EXETER ITEMS.

From a Correspondent.

RUN OVER.—An Irishman named John Roach, was run over by a hand car near Exeter, on Thursday, 5th inst. He was in the car with two others, and a short frock which he wore caught in the handle of the crank, and threw him headlong across the track; the car, with its load, passed over his stomach, injuring him so severely that there is no hope of his recovery.

CAMP MEETING.—The Advent Camp Meeting commenced at Exeter, according to notice, on Friday morning, but little was done except for preparation, until Saturday. They have one of Wright's Mammoth Tents, at a cost of $200 (so said) for the ten days, during which time the meeting is expected to continue. This tent will hold about five thousand persons. Besides this there is another large tent for an eating room, and eight somewhat smaller for sleeping. The preparations are being actively carried on, and it is expected that the meeting will be by far the largest ever held in this part of the country. Three or four persons here, I understand, have given $100 each toward the expenses of the camp meeting, and there is a great deal of excitement among the persons connected with it. One woman rode all alone 80 miles to a meeting in Maine, and from thence to Exeter, 80 miles more.

The order of exercises as announced are, from 8 1-2 A. M., to 10, prayer in small tents; preaching from the stand commences at 10 1-2; conference in the large tent from 1 P. M., to 2 1-2; preaching again at 3; conference at 6; preaching at 7 1-2, and to close at 9 in the evening.

HORSE DROWNED.—A horse worth $200, belonging to Mr. Blake of the Squamscot House, was drowned on Friday last in the following manner. Owing to the dry weather the cistern had become dry, and Mr. Blake was obliged to procure water from the river for the use of his stable. On Friday he sent a man with the horse and wagon, to fill some barrels. The horse was backed down to the water's edge, and as he was troubled by flies, he swung his head round to brush them off. By this the rein caught on the shaft and pulled his head down. He commenced to back and the shore suddenly descending, the wheels gave way and drew him under. J.

CONCERT IN NEWBURYPORT.—The Newburyport Herald says, "Mr. T. P. Moses' Concert, by the 'Nightingale Troupe,' on Thursday evening, drew a full and fashionable house, who were highly gratified with the evening's entertainment, and manifested their approbation by frequent outbursts of applause. Mr. Moses is a skilful, scientific teacher, and deserves credit for the proficiency of his class, several of whom are destined to become stars in the musical world."

MERCANTILE LIBRARY ASSOCIATION.—At the regular meeting held on Friday evening last, the following officers were elected for the current year:

Frank Fuller, *Pres.;* Ezra A. Stevens, *Vice President;* Wm. S. Chase, *Sec.;* Wm. O. Head, *Treas.;* Horatio Parker, *Librarian;* W. G. Nowell, *Ass. Lib.;* Samuel Gray, Thomas Neil, Washington Freeman, Edward N. Mathes, Freeman G. Beal, William H. Hackett, *Directors.*

☞ An adjourned meeting of the Portsmouth Washington Total Abstinence Society will be held at the Temple this evening.

☞ The brick work on the new North Meeting House in this city was finished on Saturday. The woodwork of the roof is completed, and the tower framed up to the height of 100 feet.

THIS EVENING.

Singing School & Convention.

A. PEARSON,

WILL give the next Lesson of his Course in Singing, designed chiefly for those having some knowledge of music,—in which he will give particular attention to the Development and Cultivation of the Voice, Formation of Tone, Style in Singing, &c.,)

AT EXCHANGE HALL,
No. 4 Exchange Buildings, Portsmouth, N. H.,

On Monday Evening, Oct. 9,

at 7½ o'clock,

The Term will consist of 24 lessons, on two evenings of each week.

In connection with this Class, at the close of the Term, there will be held a public

Musical Convention,

at some large hall in Portsmouth,—to continue four days,—under the direction of

Prof. B. F. BAKER, of Boston.

TICKETS for membership to the Class and Convention—including the use of three descriptions of Books—$1.50.

The Books to be used are the Melodia Sacra, the new Handel collection, and the Union Glee Book.

EVENING SINGING SCHOOL.

J. W. CLARK

GIVES notice of his intention to recommence instruction in the several branches that are usually taught in an adult Singing School, on the evening of *MONDAY, Oct. 16th, in ACADEMY HALL,* at 7 o'clock. The course of instruction will be particularly adapted to the class which honored him with their respect and confidence, last winter, and whose patronage, with others who have sufficient knowledge of the elementary principles of Vocal Music, to read common psalmody, is respectfully solicited. The correct style of performing the *Monophonic, Polyphonic,* and *Homophonic* forms of musical composition, which will be of great advantage to leaders, and prominent members of choirs, will be fully exemplified. In addition to the book which was adopted last winter, the class will have the gratuitous use of a work that contains several of the great compositions which were performed at the Musical Congress held in the *Crystal Palace,* New York, under the direction of M. Jullien. A Glee Book will also be introduced during the term, which has been used by the best musical societies in Boston and New York, and will be furnished to the class without extra charge.

The term will consist of 24 lessons. Terms, for ladies, $1.00; gentlemen, $1.50, payable on the evening of the second lesson. e27

Commercial Note Paper.

A LARGE lot just received and for sale low by

oct. 6. JOHN S. HARVEY & SON.

NEW YORK, Oct. 7.—The Eighth Avenue Bank, which has been in difficulty some days, finally suspended payment yesterday. Its notes are selling at 10 per cent. discount.

The Agricultural Fair closed last evening. Hon. John P. Hale delivered the annual address. The total receipts of the Fair amount to about $12,000.

The Know Nothings completed their State ticket yesterday by the following nominations: For Lieutenant Governor, Mr. Scroggs of Buffalo; Canal Commissioner, Joseph B. Williams of Ithaca; State Prison Inspector, Jas. P. Saunders, Peekskill. It is said that the return of the members enrolled in the different councils through the State show a total of a little less than 66,000 members.

Secretary Guthrie has gone to Kentucky on a visit, and Peter G. Washington acts as Secretary *ad interim*.

MADAME ANN ROYALL.—Mrs. Ann Royall, of Washington city, died on Sunday morning, 1st instant, at a very advanced age. She was a remarkable woman 20 years ago; wielding a sarcastic, and often bitter pen, as a domestic tourist through the United States, and flourishing at a time when this sort of literature excited unusual attention because of the books of travel by Mrs. Trollope, Captain Basil Hall, and others. She had also some pretension as a novelist, but neither her works of fiction nor observation had much call. The latter owed much of their notoriety to the local personality which the eccentric author delighted to introduce. About the year 1835, finding a poor return for her labors in book making she turned newspaper publisher on her own account, and conducted for a number of years the Washington Paul Pry.

Mrs. Royall was a native of Virginia, and cotemporary, at Washington, during her singular career of letters, with the administrations of John Quincy Adams, Jackson, and Van Buren.—*N. Y. Times.*

DEVELOPMENT OF FRAUD.—Every now and then, facts are elicted which serve to explain how some of the "fast young men" are enabled to make so much show on moderate salaries. Here is another instance.

An old established iron manufacturing firm found itself seriously embarrassed in its finances, and has just been obliged to make an assignment to the creditors. Upon an examination of the business accounts, it was discovered that the clerk, who had devoted considerable time to sailing yachts and trotting fast horses, and finally sailed for Europe on a pleasure trip, had been unfaithful to the trust confided in him. Among other contrivances for lining his pockets, he had been accustomed, each pay-day, to set apart a considerable amount as the share of wages due to workmen who had not been in the employ of the concern for a year past, and appropriate the same as he saw fit.—*Journal of Commerce.*

ASHLAND DISMANTLED.—The Cincinnati Gazette publishes a letter from Col. Schooler, giving an account of a recent visit to Ashland, late the residence of Henry Clay. The old homestead has been levelled, and nothing but ruins now remain of the mansion house. The letter says:

The present proprietor of the estate—a son of Henry Clay—is about to erect on the site of the old dwelling, a new edifice of its exact form and character. This will make some amends for the work of demolition he has accomplished, but it will hardly pardon it. The old house might have been repaired; it should not have been destroyed. It was one of those consecrated spots, those shrines of liberty, to which the pilgrim would oft retire to revive hope, and strengthen his love of country.

MARRIED.

In Dover, Mr Francis W. Knight of Portland, to Miss Mary J. Haines.—Mr Asa Gilman of Wakefield to Miss Sarah L. Gilman of this town.

DIED.

In this city, Oct 6, Mr Henry H. Fernald, aged 36 years.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM,
For the extremely LOW PRICE of 25 cents.

Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, indeed gentlemen, it is the *steam* and *electric power* that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated Artist, Mons. Heavtontetoromens.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as will be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his MEMENTO-PORTRAIT, LIFE-LIKE, AND PERFECT PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community,

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful perfection and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Pedduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Collector's Notice—4 per cent. Discount.

THE time allowed for Four per cent. Discount on Taxes in this city the current year, will expire on Tuesday the 10th day of October.
ROBERT LEFAVOUR, Collector.
Office 74 State street, up stairs.
Portsmouth, Oct. 1, 1854.

A MEDICINE that has *never failed* in curing the most severe attacks of Dysentery and Cholera Morbus—
PRESTON'S DYSENTERY ELIXIR.

Within the past three weeks, I have sold over one hundred and twenty bottles of this medicine, and have not been acquainted with the effects of over one hundred. Not a single instance has been reported of its failing to perform a *perfect cure*, even when the discharge had become very frequent and bloody. No family should be without it. Prepared by
W. R. PRESTON, Apothecary,
No. 2 Congress Block, Congress st.
Price 50c a bottle. 4tis o8

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattle aks, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer for years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES.

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines on the Bottles. Orders should be accompanied with full directions how it should be sent.

JOSEPH H. FOSTER.

Also, Probate Directory; Justice & Sheriff;—Town Officer; new editions brought down to present time.

Blank Deeds, &c. of all descriptions.

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jewry street, Aldgate, London, and of*

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y. "
W. P. Dewees, M.D., Prof. of Mid., Pa. University.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown in the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared for sale at SWAIM'S PANACEA LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

SAMUEL COOPER,

Late Chief Examiner in the United States Patent Office,

Procures Patents in this and Foreign Countries.

References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, T. H. PEALE,
L. D. GALE, THOS. H. EVERETT,
J. H. LANE, F. SOUTHGATE SMITH,
WM. CRAWFORD LAMBDIN,
Principal Examiners, *Assistant Examiners.*

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thore' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.
Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undertake a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are painted on wood fairly on the rocks, some are chiseled and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of there waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.
This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.
The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS, COUGHS, SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe prosyyem of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.
Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.
It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.
Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

Morning Chronicle.

TUESDAY, OCTOBER 10, 1854.

OUR NEXT PRESIDENT.

GEN. SAM HOUSTON, OF TEXAS.—We cut the following paragraph from the letter of the Washington correspondent of the New York National Democrat, under the date of Sept. 27th:

"The latest Presidential speculations are in reference to Gen. Sam Houston's chances for the succession. The impression now is that the old Hero's friends in the different parts of the Union will hold meetings and nominate him for the Presidency, without regard to State or National conventions. If General Houston will accept these nominations, and run as an independent candidate, no power on earth can keep him out of the White House in 1856. That this will be Gen. Houston's course, I am not authorized to say, but I am confident his friends will urge it upon him.—Sam Houston would be a second Jackson in the Presidential chair, and would arouse an enthusiasm in the Democracy unknown since the palmy days of Old Hickory."

Mr. Burke, in the Concord Old Guard, adds the following remarks:

We concur fully with the writer of the paragraph above, in relation to the great popularity of Gen. Houston, his chance of success if put forth as the People's candidate, independent of packed conventions, and of the brilliancy of his administration, if he should be elected. We know him well. He is a soldier of undoubted courage, a statesman of the first order, and a gentleman of courtly and polished manners. He possesses more of the noble qualities of the illustrious Old Hero of the Hermitage, than any other living man. He was the friend and confident of Gen. Jackson, and Old Hickory never endorsed any thing false or spurious. He is a thorough going, radical Democrat, a sound Union man, a man who keeps faith with his fellow-man, and who religiously observes sacred compacts and compromises. Let Old San Jacinto be nominated everywhere as the People's candidate for the Presidency, and his election is sure beyond a doubt.

General Houston undoubtedly has many strong points as an available candidate for the presidency. We have regarded him as a probable candidate, likely to succeed, ever since the admission of Texas to the Union; and in an article written about that time, (elsewhere) we suggested that the new State might very soon give us a President.

AN IMPOSTOR.—A correspondent of the Meredith Bridge, N. H. Democrat, exposes and stigmatizes one John Marshal, as a black rascal. Marshal professed to have been a slave who bought his freedom, and pretended to be also a preacher. The Democrat states that he never was a slave, but has been a slave dealer; that he belongs in Detroit, where he has a family; that he "is supposed to be the John Marshal that stabbed Mr. Bachelder, in the late riot at Boston, as he acknowledges that he was there at the time;" and finally that he has shown himself to be dishonest and unchaste, and has fled from Eaton, N. H., and the neighborhood.

Let no one be imposed upon by such a fellow as Marshal; and on the other hand let no one swallow all the above statements. Some of them are almost irreconcilable with others—and some almost incredible in themselves.

INFANT BAPTISM.—The Boston correspondent of the New York Journal of Commerce, who is, we believe, a clergyman, says:

"In our Congregational Churches, we fear that there is considerable indifference and neglect in reference to infant baptism. In one of our oldest churches in this State, there had not been a few years since, an instance of infant baptism for the seven preceding years.—Last year there were 70 Congregational Churches in New Hampshire that reported no infant baptisms. This year 96 churches, or about one half in the State report none. If this indifference continues, the ordinance will become extinct in the Congregational Church. In the Presbyterian Churches the ordinance is still observed."

It is undoubtedly true that there is a negligence creeping over many Congregational Churches on the subject of infant baptism; but if any one infers that there were no such baptisms in 70 churches in New Hampshire, because that number of churches reported none—that one deceives himself.

LADIES' GAZETTE.—Federhen & Co. Boston have received, and Mr. Morse, agent for this city, has sent us a copy of Frank Leslie's Ladies Gazette of Fashions for October, 1854, containing a beautiful picture of four Ladies who look as if they had nothing to do except to be fashionable. These are colored and stand as the frontispiece. Then there are an hundred other pictures of over-dressed ladies, girls, boys and babies; bonnets, neat, dashy and tawdey; cloaks, and bags, and ornaments for which we know of no name, place or use.

Price of the work, 25 cts. per number, or $3.00 per annum.

☞ Fowlers & Wells's Magazines, for October, the Phrenological and Water Cure, contain more than their usual variety of matter. On the last page of the Water Cure, there is a whimsical pair of portraits, the lady of fashion, and the sensible woman. They must be seen, to be understood.

☞ Wanted at this office, a few copies of the Daily Chronicle, dated Monday, Oct. 2.

Correspondence of the Boston Transcript.

JERUSALEM, Sept. 28, 1854.

Do not think, dear Transcript, that I hail at present from that Jerusalem which our old friend T. F. Vespasian once beseiged—but set me down as stopping for one night at a town of that name, situated on the Chowan river, in Southampton county, Virginia. The Liberty House, in the spacious parlor of which I am writing, is an excellent hotel. It is kept by Mr. J. Kidd Knapp, a descendant of one of the first families in the Old Dominion, and a host whose polite attentions and whose hominy I shall never forget. His house is well situated on the bank of the river, having a delightful grove in the rear, which is used for temperance meetings, picnics and anti abolition conventions.

I have heard an anecdote here, of one of your Boston men, which is too good to be kept from your readers. Theodore D. Parker, Esq., a merchant in your city, happened a few weeks since to be a guest for one night at Mr. Knapp's hotel. After tea, as he was enjoying the coolness of the evening breeze on the piazza, he noticed a gentleman in the office who was examining the book of arrivals, and who afterwards walked up and down the piazza, scanning him (Mr. P.) very closely. Some ten or fifteen minutes passed in this way, when the stranger broke the silence by addressing him:

'Is your name Parker, Sir?'

'Yes, Sir.'

'Theodore Parker?'

'Yes, Sir.'

'Do you come from Boston, Sir?'

'Yes, Sir.'

'Then, Sir,' (with a look as if the identity of the individual were fairly established) 'I suppose that you are the man who goes about in New England, vilifying the institutions of the South!'

'O no, no!' answered the astonished Mr. Parker, before whose eyes a bag of feathers and a kettle of tar danced a momentary *pas de deux;* 'I am a merchant in Boston—I am not the minister, whom you speak of.'

'Ah! that alters the case, then,' responded the chivalric Virginian, in a milder tone; 'But allow me to give you one piece of advice, and that is, that if you are going to travel round in these diggins, you had better in future, when you sign your name, be particular and make that *D.* —— plain!'

I cannot write more at present, for the mosquitoes, who have been entertaining me with a concert, begin to importune me with their bills. So good night; I shall next write to you from the Dismal Swamp.

Yours, B. S. W.

It strikes us that the Chivalrous Citizen of Jerusalem must be a Lion-like man—all but a pair of long ears.

LIME IN NORTHERN NEW HAMPSHIRE.—The Manchester Mirror states that the new lime quarry in Haverhill, N. H., has turned out much better than was anticipated, and the company will probably be able to procure from it fifty thousand barrels per annum. The Mirror remarks that "lime is a great fertilizer, and the refuse of the quarry will be of incalculable service to the farmers in that part of the State, and along the line of the Boston, Concord and Montreal road, which has a track directly to it."

BREADSTUFFS IN SCOTLAND.—The Dumfries Courier states that 60 lbs. per bushel for wheat, 60 lbs. per bushel for barley, and 40 lbs. per bushel for oats, have generally been considered a kind of standard or medium weight between the heavier and lighter qualities; and it mentions, as a specimen of the present crop, that at last week's Haddington market samples of new grain were shown of the following extraordinary weights:—Wheat, 65 lbs. per bushel; barley, 58 1-2 lbs. per bushel; and oats, 48 lbs. per bushel.

A U. S. SENATOR HIT.—The Galena Jeffersonian has the following account of a fight: Brigadier General George Wallace Jones, Senator of Iowa, and Peter A. Lorimier, Esq., had a chuck of a fight in Dubuque, on Wednesday last, in which Jones was considerably clapperclawed in the face and parts thereto adjacent. The fracas originated in the fact that Jones called Lorimier "a lier,"—words current and polite with the Wellers, Pettits and Douglasses of the United States Senate, but offensive and punishable among gentlemen in the west.

A GOOD REASON.—Some perhaps have blamed Mr. Clay (son of the celebrated Henry Clay) for taking down his paternal mansion at Ashland. But it seems the timber of the building was rotten, so that it had to come down. It is now said it is to be rebuilt as nearly like the old house as may be.

☞ A majority of the Aldermen of Charlestown, Mass., have rendered themselves ridiculous by refusing to certify the returns of the votes on annexation to Boston. A mandamas has been issued for them to make the return, or show cause on a certain day, why they do not.

AN OLD STAGER.—At the Worcester Cattle Show the citizens extemporized a cavalcade a mile long, containing 200 saddle horses, 55 spans, and 120 single horses in carriages. The Argus says that one of the horses was from Barre and was forty-one years old, and looking as hale and hearty as any present; his owner uses him every day, and considers him capable of as much hard work as any of his young horses, and good for at least ten years more of active service.

PANIC.—There was a report a few days ago that the cholera had made a sudden outbreak at Bangor. The Whig of that city states that the report was manufactured by a wag of the Penobscot Bar, who wished to have the court adjourn without engaging in a trial of causes, and that the manufactured panic succeeded capitally.

The Connecticut Clock Makers are just now said to be filling large orders for China and Japan. That is the regular process of American civilization in foreign parts—clocks first, then newspapers. Mass Meetings and Re-Annexation follow in due time.

LOCAL.

MRS. MACREADY'S READINGS.

It will be seen by the following Card from Mrs. Macready, that by particular and repeated request, our citizens are to have another opportunity of listening to the perfect rendering by this lady, of some of the finest poetic gems in the English language, including a production of one of Portsmouth's favorite sons.

Editors of the Chronicle—

GENTLEMEN: The very flattering invitations of your correspondents, in this day's Chronicle, together with the numerous private solicitations with which I have been honored, have induced me to offer a second Dramatic Reading, on Tuesday evening.

In submitting the programme, it affords me pleasure to comply with the suggestions of your correspondent "F.," relative to a *portion* of the selections introduced.

Respectfully,

Rockingham House, } M. MACREADY.
Oct. 9, 1854. }

The Programme will be found in another column, and must be acknowledged an excellent selection—though severely taxing the powers of an orator in the personation. Mrs. M. meets with high favor from our clergymen and other literary gentlemen, and ladies, who have met her; and we take pleasure in giving the following merited compliment from a competent judge, in addition to what we have already published respecting her performance:

Messrs. Editors:—It would seem almost superfluous to add anything to the commendatory notice of your correspondent "F.," concerning Mrs. Macready and her delightful Readings. Permit me, however, to say, that I agree with your correspondent, in the result at which he arrives in a comparison of Mrs. Macready with Mrs. Butler, George Vandenhoff, etc. When listening to her Readings, you feel yourself within the influence of an artiste of rare genius, and power of conception and expression. *Truthfulness and life-likeness,* are the rare and difficult embodiments of her conceptions. And as plessing as these are when they are intellectually discerned, they are all the more so because they excite and sympathize with our affectional and emotional nature. Her intellectualisms are warm and glowing with true conceptions of emotion and passion.

Mrs. Macready gives another entertainment this evening, and richly deserves a full representation of the best mind of our city. M.

For the Chronicle.

THE CONTINUANCE OF TRIALS.

Messrs Editors:—A writer in your paper contends that in criminal cases the State is bound always to be ready for trial. In this State for over thirty years past, no such rule has ever been adopted by our Courts; but the State has been allowed the same privileges in preparing cases and procuring testimony, which has been allowed to individuals. In the Common Pleas, the Attorney for the State, as a general rule, has been allowed to name the day of trial in criminal cases, and the Court acquiesces, under the presumption that he acts in good faith, and has reasons for delay; and when he moves for a continuance for defect of evidence or for any good reason, the Court usually grants it, taking care that there shall be no unreasonable oppression to a defendant. We presume a similar practice prevails in other States.

But in respect to a class of adroit, well dressed, gentlemanly pickpockets, mostly foreigners, prowling about from city to city, courts and magistrates should not be very ceremonious in holding them for trial, in the first instance, upon circumstantial evidence, although not conclusive of guilt. And sufficient time should always be allowed to the prosecuting officers to obtain all the evidence in their power. Even then it is difficult to procure evidence of the guilt of that class of finished rogues. But they are becoming so numerous, that measures, perhaps more arbitrary than would be applied to well known inhabitants, may be expedient or requisite. No uniform rule can be laid down. But for the security of society, much must depend upon the legal qualifications, integrity and discretion of our judicial officers. A.

TEACHERS' INSTITUTES.—On account of not being able to obtain accommodations for an Institute at at a desirable point in the Eastern part of the County, and being disappointed in some of the Instructors be had engaged, the Commissioner is compelled to postpone until the Spring the session he was proposing to hold during the week commencing Oct. 23.

For the session to be holden at Chester Nov. 13th, arrangements are being perfected with the increased means at the Commissioner's command over previous years, to make it the best Institute ever held tn the County. The services of Prof. Wm. Russell, Mr. George S. Houghton, Prof. Herman Prusi, and Calvin Cutter, M.D. have already been secured and others will be announced soon. Prof. Sanborn Tenney, of the N. E. Normal School, Lancaster, Mass., will also deliver a course of lectures on Geology during the session.

Arrangements are to be made for conveying those proposing to attend the Institute from convenient points on the Portsmouth & Concord and Manchester & Lawrence Railroads to Chester.

THE APPLES.—Washington Williams, Esq., gave us on Monday, a dozen of the handsomest apples we have seen this season; ten of which measured a yard in diameter. Their checks were red as roses; and they will taste well presently, we fancy.

COAL.—On Saturday and Sunday seven vessels, loaded with coal, in all about 1500 tons, arrived at this port.

☞ The Summer Term of the Gravelly Ridge School in Dist. No. 1, in this city, will close on the 14th inst. The Winter Term commences on the 1st of November, under the direction of a male teacher. Applications for the situation should be made before the 20th inst.

LATER FROM CALIFORNIA.

NEW YORK, Oct. 8.—The steamship Northern Light, from San Juan, Nicaragua, arrived here at 10 o'clock this evening, with 404 passengers and $690,000 in specie. She connected with the Sierra Nevada, which left San Francisco Sept. 15. She arrived at San Juan on her outward trip on the 28th ult., and left again for New York on the 1st inst. Every thing remained quiet at San Juan, and the town is being rebuilt by the inhabitants.

In the interior, Chamorro had captured the three schooners comprising Castellin's fleet on the lake.

Among the passengers are Ole Bull, M. Strakosch, J. B. Booth and wife, the Bateman family, Judge Blair of Washington, and Judge Canfield of Ohio.

The shipments of gold per steamers Panama and Sierra Nevada amounted to $1,950,000, to which should be added $700,000 worth of United States transfer drafts by Page, Bacon & Co. and another party, which took the place of specie.

The State elections in California were held on 6th September. J. W. Denber, and P. T. Herbert, "anti-Broderick" Democrats, were elected to Congress. In all but six counties the anti-Broderick ticket had 33,000 votes, the Whigs 30,000, and the Broderick ticket 8000. In the Legislature there were twenty-six Democratic and six Whig Senators—and in the Assembly forty-five Democrats and thirty-five Whigs. It is doubted that the Democrats will be able to unite upon a candidate for the United States Senate. In San Francisco the Know Nothings carried every thing before them. They elected their candidate for Mayor, (S. P. Webb) formerly Mayor of Salem, Mass., by over 500 plurality.—On a ticket of over 27 names, the Know Nothings selected 20 of the nominees of the Whig and anti-Broderick Conventions, and 7 were Know Nothing nominees only. They elected every man, some of them by 4000 majority. The Know Nothing vote was 4500 out of about 6000 in the whole city. The new Common Council is composed of twelve Whigs and four Democrats.

From sea, the chief emigrants have been Chinese. Every ten days or so, somewhere between 500 and 1000 of these people arrive at San Francisco. The late clamor against the race has almost died away in the city. In the interior, however, it is still occasionally heard pretty loudly. The people of the different counties are continually quarrelling among themselves, and in different parts of the State they have recently had several pitched battles, in which a considerable number of combatants were slain.

Twenty-four water lots at San Francisco, announced for sale by public auction by the municipal authorities, turn out to have been previously sold at a constable's sale for a debt of $172. The lots are supposed to be worth $5000 to 10,000 each, and were sold at the constable's sale at from 2 to $8 each.—Besides these lots, upwards of $300,000 of indebtedness, of which the most was good, owing to the city, was sold for a few dollars.—The Common Council have passed an ordinance providing for the redemption of the lots and indebtedness sold.

The news from the mines continues to be of a very encouraging description, and the interior papers talk as if the miners in the different localities were averaging gains. In the southern mines the season is represented as being the most favorable for river and bar digging that had perhaps ever been known there.

PITTSBURG, PA., Oct. 7.—A great and enthusiastic Democratic Mass Meeting assembled in this city this evening in the large lot around the American Hotel. The Hon. Wm. Wilkins was elected President, and on taking the chair he proceeded to speak for more than an hour, sustaining the Nebraska bill and glorifying the action of the government in the Greytown affair. He denounced in burning language, the doctrines of the Know Nothings, and said their success would bring disgrace and ruin upon the country. His remarks were given with much warmth, and continuing in an eloquent strain, he said that the federal and State constitutions guarantee civil and religious liberty. He then referred to the patriotic services of foreigners in the war of the revolution and in the late war with Mexico. He argued that if the Know Nothings succeeded, no religious sect would be safe; that next after the Catholic the Hebrew would be proscribed; then probably the Unitarians, and following them the Methodists, and God only knows who next. No ordinary crisis, he said, with his age and infirmities would have brought him before the people; but his devotion to the institutions and welfare of his country imperatively demanded of him that he should raise his feeble voice against such dangerous and iniquitous principles as were proclaimed by those calling themselves Know Nothings. The venerable speaker, completely exhausted, closed his speech amidst the most enthusiastic and deafening cheers.

CINCINNATI, Oct. 7.—Covington, Ky., on the opposite side of the river, is the scene of intense excitement among the Americans and Germans, growing out of the brutal murder of a small child by a German. The little boy called the German an "old Dutchman," whereupon the latter attacked the boy and killed him in the street. The murderer was promptly arrested, and threats have been made that the jail will be attacked to-night, with the view of executing summary vengeance. The officers are taking measures to preserve the peace.

THE OLD MILL AT NEWPORT. The Pawtucket Gazette learns that the old stone Mill lot in Newport, R. I., has been secured for a public park. The citizens have subscribed $3000, which, with the $10,000 legacy from the late Judah Truro, makes up the requisite sum.

Just Received.

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM.
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavlontondon, assistant.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel,
making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendent beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

Hartford Fire Insurance Company.

THE Agents of this Company have received a Circular from the Office, dated Sept. 8, 1854, which says—
"You can with confidence assure its customers that its condition is sound; its capital ample and unimpaired; that it is not indebted to any individual, Banking or other Institution, for money borrowed; that all claims for losses now outstanding will be paid when due or before. The Board of Directors therefore pledge themselves that the Company has never been in a condition to offer its friends and customers more ample security in its policies than at the present time.
By order of the Board of Directors—
H. HUNTINGDON, Pres."

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattle snake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS.

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years. by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him. and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first. but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00. ☜

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

HERTS BROTHERS

AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

1 *Jewry street, Aldgate, London, and of*

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, Waite Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary and brilliant cures, descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid. Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
T. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eourenco de Lux, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain, &c.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have long since made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., back note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

HOUSES, &c.

FARM FOR SALE.

A VALUABLE FARM, on Boyd's Road in Portsmouth, about a mile from the centre of the city: it contains 85 acres, well divided and fenced with stone wall; also a good two story HOUSE, two large Barns, and other out buildings, all in perfect order. The soil is very rich and productive, and the crops are in superior order.

This farm must be sold, and offers a rare opportunity for any one in want of a valuable and productive estate, which from its central location must increase in value.

For terms and information, apply to
3m a14 HENRY H. LADD.

House For Sale to be Removed.

THE undersigned offers for sale his dwelling House, 9 1-2 Centre Street, which he now occupies, together with a wood house and cellar walls, consisting of three feet of stone and three feet of brickwork. The House is nearly new and in an excellent condition. For further particulars apply, on the premises, to

a14 B. NORTON.

House to Let

IN Ladd street. Possession given next week.

a12 J. N. HANDY.

For Sale.

THE subscriber offers for sale the STORE now occupied by him on the corner of North and Dennett streets, with the land and Hay Scal attached thereto. The situation is an excellent one for a grocery, or any other business. The Hay Scale yields an annual income of from one hundred and fifty to two hundred dollars. The premises will be sold low if applied for soon.

If not sold by 1st of November next, the subscriber will lease the same at a reasonable price. For any information, apply to the subscriber on the premises.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of these waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owning to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS, COUGHS, SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

a2 J. H THACHER, Apothecary.

Morning Chronicle.

WEDNESDAY, OCTOBER 11, 1854.

POLITICAL ASPECTS.—The Boston Courier says—

The result of the returns of the California election appears to be that the Gwin party has carried the election in the state, and that the Broderick party has been dreadfully defeated. Two Southern gentlemen will represent California in the next Congress, and both of them belong to the Democratic school. California has in her election decided in favor of Nebraskaism.

From this we understand that Messrs. Denver and Herbert, the Representatives elect from California to Congress, call themselves Democrats, and yet are open advocates of slavery.

In Pennsylvania, in the second district, Mr. Lyson is the *regular* whig candidate for Congress—and Mr. Joseph R. Chandler, the present representative, runs against him.

The Whigs complain that notwithstanding the fact that they have conferred honor and fortune upon Mr. Chandler, and have three times nominated and elected him to Congress, —the last time upon a pledge that he would withdraw at the present trial,—he comes into the field to help break down the nomination of those to whom he owes everything, and pronounce his conduct to be influenced by base ingratitude. The friends of Mr. Chandler reply that he has been a victim of political intolerance, and that his renomination was defeated by the "Know Nothings," and the account will have to be settled at the polls.

Mr. Chandler belongs to the Roman church; and thus we have, in one district a sectarian warfare, mingled with political and partizan strife.

The respective newspaper organs of Senators Cass and Douglass, are belaboring said Senators and each other with much pertinacity and bitterness.

PREJUDICE.

A Kansas correspondent of the Boston Journal, says he saw the author of the famous resolutions passed by the Western fire-eaters, a very mild and inoffensive looking gentleman, who said he had been agreeably surprised at the character of the emigration, and seemed to think the interests of the territory would not suffer from the present movement of population. The impression is that there will be a severe struggle before slavery can be excluded from Kansas. The extensionists are working earnestly, and it is thought that when the struggle comes at the polls they will summon to their aid a cohort of temporary squatters from the Missouri side of the river.

The slaveholders in Missouri, as well as in other slave States, entertain the grossest prejudices against the character and designs of the anti-slavery men of the North, and are usually 'agreeably surprised' when brought into personal contact with them. Their prejudices are the natural result of the slanders and studied misrepresentations so recklessly put forth on the subject by the mercenary pro slavery presses of the North.

MERRIMACK COUNTY COURT.—The Concord Phenix says:

The Grand Jury, at its session, the present week, for this county, found 19 or 20 indictments against ten individuals for violations of law against the sale of intoxicating drinks, and the offenders in all cases save one, we believe, declined a contest with the State, and 18 or 19 fines were assessed, all of which we presume will be paid. Persons indicted for violations of the license laws in the county, find it for their interest to plead in such a manner as to keep away from petit juries.

The case contested is against John S. L. Davis of this city. He was a seller by night, and has been in jail for this same sale, he having been troubled to obtain bonds when he was examined before the Police Judge of the city. He is to be tried about the time we go to press.

GRAND JURY OF MERRIMACK COUNTY ON LIQUOR LAW.—*Grand Jury Room, Concord, Oct. 4, 1854.*—Whereas the experience of many, many years must have convinced every intelligent and reflecting man in all the towns of our goodly county, that the greater portion of the crimes, most of the pauperism and litigation that burden the community, as well as most of the sorrows, sighings, and sufferings, experienced by the unfortunate among us, owe their existence directly or indirectly to the sale and use of intoxicating drinks;—Therefore,

Resolved, As the opinion of this body, that all proper efforts should be made to sustain and enforce the present laws of this State against the sale of intoxicating drinks, until better laws shall have been enacted by the proper authorities,—and we trust the day is near at hand when the people of this State will be favored with a law for the suppression of intemperance equal in stringency to any law in force in any one of the States of this Union.

Resolved, That the Foreman, in behalf of the Jurors present, sign this paper, and cause it to be published in all the papers in this country friendly to the cause of temperance provided its publication shall be free of cost to the county. JOHN TENNANT, Foreman.

MAINE.—The Portland State of Maine has information that a number of plantations in Mr. Fuller's Congressional district, which gave a large majority for him at the late election, had failed to keep up their proper political organization, and that in consequence thereof, their votes should be rejected. Mr. Fuller, it is said, will not be declared elected.

SHIP BURNT.—In Robbinston, Me., about 11 o'clock on Sunday night, fire was discovered issuing from the hold of a ship on the stocks and nearly ready to be launched. She was about 500 tons, and is entirely consumed. Her owner was Mr. Seth G. Lowe, who had her partly insured. Cause of the fire unknown.

PHILADELPHIA, Oct. 7.—The Whigs of this city held a mass meeting this evening in the State House yard. It was well attended.

Judge Pollock, on being presented to the meeting, was received most enthusiastically. He delivered a long and eloquent speech, defining his position and opposing the Nebraska iniquity and other acts of President Pierce's administration. He made the constitution his platform, and he would accord to every one the liberty of worshipping God according to the dictates of his own conscience; and while he yielded this in all sincerity to others, he claimed the same right for himself. He repelled the slanders made against him, which asserted that his opinions were contrary to the rights guaranteed by the constitution, and concluded by opposing any division of the school fund. The meeting, after being addressed by other speakers, adopted strong anti-Nebraska resolutions.

SPRINGFIELD, Ohio, Oct. 5.—*The National "Baby" Show* took place to-day, and twenty entries were made. The first premium for the finest baby of two years old or under, was a tea service with a salver, valued at $300. The second premium for the next best baby was a tea sett, valued at $200. The third premium was $200 for the finest child under one year. The fourth premium was a Parian marble group. The first premium was awarded to Mrs. Romner of Vienna, Ohio, the second to Mrs. McDowell of Cincinnati, the third to Mrs. Arthur of Philadelphia, and the fourth to Mrs. Henry Howe of Cincinnati. Letters were received from Fanny Fern, Mrs. Swisshelm, Mrs. Crittenden, Mrs. Mott, and Horace Greeley, Esq. Mr. Greeley thought that much attention should be given to the development of the human constitution in a country where able bodied men sold for $500 to $1,500 apiece. Mrs. Mott thought that black babies should have been admitted to the exhibition and had an equal chance with the whites. Among the exhibitors was an old lady who came with her sixteenth child. She claimed a premium on that ground.

THE SOUTH BERWICK MURDER.—We learn that the body of the man found at South Berwick has been identified as that of Mr. Charles Brewster of Barrington, son of Samuel F. Brewster, Esq. He had been at Lawrence to work at the carpenter's trade this summer, but came home the last of July and stopped about a week, when he left suddenly without telling his folks he intended to leave. His father and mother went to Berwick on Thursday to make an examination of the clothing found, when his mother at once identified the shirt by a mark which it contained. The vest was also recognized to be his by the tailor in Lawrence, who made it, from the fact that it was made too straight under the arms and a piece set in afterwards. Also some small tools which were found in the pockets were known to belong to him. He was supposed to have in his possession at the time of his disappearance about $50. He was about 25 years old, and was somewhat intemperate at times.—*Dover Enquirer.*

EFFECTS OF COFFEE.—Dr. Mosely observes in his "Treatise on Coffee," that the great use of the article in France is supposed to have abated the prevalence of the gravel.—In the French colonies, where coffee is more used than in the English, as well as in Turkey, where it is the principal beverage, not only the gravel, but the gout are scarcely known. Du Four relates, as an extraordinary instance of the effects of coffee in gout, the case of Mr. Deveran, who was attacked with gout at the age of 25 years, and had it severely till he was upwards of fifty, with chalk stones in the joints of his hands and feet, but for four years preceding the account of his case being given to Du Four to lay before the public, he had, by advice, used coffee, and had no return of the gout afterwards.

REMARKS BY PUNCH.—*The earliest Tubular Bridge.* The 'bridge of the nose.'

A Few of Life's Unfortunates. The logician so distinguished for his 'force of reasoning,' expired in consequence of a 'burst of eloquence.'

The man 'behind the age' was overthrown by the 'advancing civilization' of the 'coming generation.'

The youth who 'chopped logic' did so with the idea of lighting the 'fire of genius.'

A Shot at the East. It is, or was till the other day, somewhat absurd to speak of the 'seat of war,' for the war can hardly be said to have a seat while it is at a stand still.

CULPABLE CARELESSNESS.—A milkman being lately in want of a cow, called upon farmer S. in the neighboring town of D. who was the owner of a fine young brindle. The old man wished to sell, but thought it would not be prudent so to do, until he had referred the matter to the good woman within doors. It was soon evident that there was a division in the "kitchen cabinet." "Mother" was unwilling to part with her heifer. After a long and stormy discussion farmer S. made his appearance, wearing a mug sadly lacerated and bruised. The blood and tears were streaming from his damaged peepers, as he lifted up his voice, not to complain of the shrewishness of his woman, but of her *carelessness—"she don't mind* WHERE *she strikes!"*

LOOK OUT FOR KIDNAPPERS.—A correspondent at Norfolk informs us that William W. Hall, slave trader, accompanied by Eugene Bubbe, a particular friend, recently started for the north, probably on some kidnapping expedition. Hall is a large, stout man about 5 feet 11 inches, light hair, florid complexion, with one eye defective. The other is about 5 feet 8 inches, and so dark as sometimes to be taken for a colored man. Their destination is supposed to be New Bedford. Look out for them.—*Boston Telegraph.*

In the Graham Murder Case, in New York, one juror has been dismissed, because he is a relative of Graham, the prisoner. By consent of all parties, eleven jurors are now sitting on the case.

DROUGHT.—The Mills of Cocheco Manufacturing Company in Dover, have been compelled to suspend work a portion of every day for a week past on account of the scarcity of water. The streams have not been so low for many years as they are at present.—*Engr.*

LOCAL.

Reported for the Chronicle.

U. S. Circuit Court.

DISTRICT OF NEW HAMPSHIRE, } *Oct. 9th*, 1854. }

PRESENT:

Hon. BENJ. R. CURTIS, of U. S. C. C., Presiding Justice.

Hon. MATTHEW HARVEY, District Judge, Associate Justice.

JOHN H. GEORGE, Esq., District Attorney.
ALBERT R. HATCH, Esq., Clerk.
SAMUEL TILTON, Esq., Marshal.

GRAND JURORS:

Stephen Dow,	Brentwood, Foreman.
Josiah Brown,	"
Thos. E. Folsom,	Exeter.
Josiah Batchelder,	"
Moses H. Wiggin,	Durham.
James Chesley,	"
Joshua Banfield,	Dover.
Darius T. Johnson,	"
Elihu T. Webster,	Kingston.

Samuel D. Lane,	Hampton.
Shubael L. Taylor,	"
James L. Leavitt,	Stratham.
Ambrose Wiggin,	"
Joseph Taylor,	Newmarket.
William Lyford,	"
Sherburne Gove,	Raymond.
Nathaniel B. Tilton,	East Kingston.
David B. Kimball,	"

PETIT JURORS—1ST JURY.

John Dow, Jr.,	Epping, Foreman.
Samuel Grant,	Exeter.
Steph. C. Robinson,	Sanbornton.
Samuel M. Foss,	Loudon.
Nathan W. Gove,	Hooksett.
James Chase,	Canterbury.
Chester C. Thing,	Newmarket.
Simon P. Clark,	Kingston.
John S. Philbrick,	Stratham.
Edward Shaw,	Hampton.
Josiah Morrill,	East Kingston.

The charge of Judge Curtis to the Grand Jury was clear and decided, and confined to an exposition of the duties of Grand Jurors in regard to violations of laws and treaties most likely to come under the cognizance of "Grand Jurors for the body of this District."

Judge C. presides with great dignity, is clear as crystal in his decisions and rulings, and commands the respect of all.

Court Docket was called and marked as follows:—

1. Maine Bank *vs.* David Webster.
Davels & Davels, for Bank. *Neither Party.*
2. United States *vs.* Charles Cutter, and J. Cutter, R. C. Cutter, H. Coffin, I. Bartlett, and C. W. March, Sureties.
George, Dist. Att'y for Government.
Emery, for J. & R. C. Cutter & Coffin.—*For trial.*
3. John Goddard *vs.* Sampson B. Lord & George A. Jenness.
Christie & Geo. Evans, for Plf.
Wiggin, Wells & Perley, for Dfts.

The trial of this case by First Jury commenced to-day.

TEMPERANCE MEETINGS.

An adjourned meeting of the Portsmouth Washington Total Abstinence Society, was held at the Temple on Monday evening; and was still further adjourned to meet next Monday evening at the same place, to make arrangements for meetings, lectures &c.

The Rockingham County Temperance Convention will be held at Raymond, Wednesday, the 25th instant, at 10 o'clock, A. M., and will probably be largely attended.

The Central Committee of the New Hampshire Temperance Society have employed an Agent to labor one year in this State, viz. Mr. Jackson, for the last six months agent in Indiana, and formerly agent in Massachusetts and Connecticut. His services may be obtained in any town by writing to the Central Committee at Concord, of which Hon. Joseph Low is chairman.

Hon. Neal Dow of Portland, will also soon spend two or three weeks in the State, if desired.

We learn that the clergymen of different denominations in Concord propose to preach on the subject of Temperance, simultaneously, on the next Sabbath.

FATAL ACCIDENT.—On Monday, at Rye, Thomas R. Garland, a promising lad of 15 years, son of Mr. Reuel Garland, lost his life by the accidental discharge of a gun. It had been loaded to fire at a mischievous cat; and as the boy set it down on the ground, it went off, and the charge entering his head, wounded him so that he died in a few hours.

☞ Under our Auction head this morning, will be found a good chance to invest in horse-flesh, and horse-rigging, for the coming winter.

SHORT WEIGHT IN BREAD.—The police of Troy, N. Y., made a descent upon the bake shops of that city on Thursday, and confiscated 110 loaves of bread for being short of weight. The bakers of Boston are, we believe, beyond the reach of any such exercises of power, but every thing which they sell is most delicately diminutive, and the decrease in the price of flour appears to have no effect in increasing the size of the loaf or biscuit.—*Boston Courier.*

Our bakers, we are happy to say, have begun to enlarge their loaves, so that we can see them now without the aid of glasses.

UNEQUAL YOKE.

A gentleman about sixty years of age, doing a large importing business in South street, and residing in one of the fashionable avenues in this city, for some months suspected his wife, a very handsome young woman, scarcely out of her "teens," with being on more than friendly terms with the son of a wealthy neighbor. On Thursday morning, he announced his intention to leave town on business, and not return until the following morning. He however, did return sooner than was expected (about eleven o'clock at night,) and unlocked the back hall door with his night key, not stopping even to ring the bell, and crept stealthily to the door of his room on the second floor and looked through the key hole, when he saw a light, and imagined that he also saw objects moving in the room. He listened for some moments, and finally heard suppressed whisperings. One of the voices he thought was a man's. His patience now became entirely exhausted, and he attempted to open the door, but found it securely locked on the inside.

He listened again but all was silent. Determined on knowing the worst, he took from his pocket a revolver, and demanded admission to the room. His demand not being complied with as soon as he thought it should be, he burst open the door, and on doing so discovered something white leaning on one of the windows of the bed room. He ran to the window, looked out, saw, and discharged one barrel of the revolver at what he took to be his neighbor's son, as he was scaling the fence of his yard without any other article than his linen on. On looking about the room, the injured husband espied snugly piled up on a chair at the foot of the bed, a pair of pants, in the pocket of which was a port monnaie, containing $103,25: a vest, coat and cravat, and on the floor a pair of patent leather boots and a pair of socks, and on the bureau a hat and fine gold watch, which he says the owner can have by calling for and proving property. The wife during these discoveries said nothing, but wept most bitterly. Efforts are being made by the friends of the parties to settle the affair, without bringing their names before the public.—*New York Sun.*

They had better be divorced as soon as the case can be put through the courts. The old merchant and his juvenile wife are unequally yoked, and misery must be the consequence.

LOSS OF LIFE.

Despatches from Detroit of Oct. 9, state that the Steamer *E. K. Collins*, which left that place the night before with a number of passengers from Sault Ste Marie for Cleveland, took fire about midnight, near Malden, and was soon completely enveloped in flames. Great consternation prevailed among the passengers, most of whom were asleep, and many of whom plunged into the water. Twenty three persons were lost by fire and drowning. Among the missing are Mr. Dibbley, New York; Sam'l Powell, Lawrence Whalon, Thos. Cook (Pittsburgh Railroad agent), all of Cleveland; Mr. McNeil, Mrs. Watson and child of Ashtabula; and fifteen of the crew. The origin of the fire is not at present known.

The current there sets out very strongly into the lake, and few could have been saved had not the propellor "Fentoy," Capt. Langley, fortunately seen the light, and hastened to the rescue. All the propeller's boats were manned and sent off, and nearly every soul saved was through their instrumentality.

The few that reached the shore were in an exhausted condition. Some wretch robbed one of the sufferers of $80. The E. K. Collins came out as a new boat in October last and cost $105,000, was owned by Capt. E. B. Ward, and insured for $18,000.

WASHINGTON, Oct. 9.—Two weeks later advices from Fort Laramie have been received at the War Department. It is reported that 31 of the troops have been killed by the Indians in the late fight. No subsequent attack had been made on the Fort.

William Darley, the Statician and Geographer died to-night.

COLUMBIA, S. C., Oct. 8.—*Florida Election.* Returns from Leon county, Florida, show a gain for the Democrats compared with the election of 1852.

AN EXCELLENT SENTIMENT.—At the celebration of the Middlesex County Agricultural Society in Concord, Mass., on Tuesday last, the Rev. George E. Ellis was called upon at the dinner table to respond to the following toast:

The Orator of the Day—If Boston is not satisfied with such Charlestown men as that, we will give him a certificate to move into the country.

MEXICAN MUSTANG LINIMENT—
Every land has hailed with
Xtacy this preparation whose
Intrinsic merits has introduced its
Curative powers to the notice of the whole
American people. Rheumatism of long duration,
Neuralgia, with its torturers, have yielded to its
Magical influence; cancers, contorted joints,
Ulcerated and swollen limbs that have
Suffered for years under the weight of disease,
Turn by its application to empleness and health.
A remedy of such general usefulness that can
Restore newness of Action to the diseased nerves,
Arteries and glands of the human body,
Is worthy of high praise.
Let the rheumatic, halt, lame and palsied
Invalid examine its qualities, and they will
Not be disappointed. Years of study and
Investigation have enabled the proprietors of the
Mexican Mustang Liniment to furnish a remedy,
Extraordinary in its power over diseases,
No matter of how long standing—sold at
The agents in all parts of the Union.

25 Cent Daguerreotypes
AT
SALEN'S
DAGUERRIAN GALLERY,
No. 8 Daniel Street.
P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take
ELECTRIC DAGUERREOTYPES
BY STEAM.
For the extremely LOW PRICE of 25 cents.
Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.
Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.
The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heartonterommas.
NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.
ALL Persons who obtain Pictures at either of the twenty-five cents Galleries, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."
Daguerreotypes.
A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,
No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.
He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his unsurpassed, LIFE-LIKE ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community.
Particular attention is also invited to his beautiful
STEREOSCOPIC DAGUERREOTYPES.
These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to convince the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.
A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

DR. ORDWAY'S HUMOR DISCOVERY,

AND BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattles ake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth.
One to three bottles will cleanse the system of Blotes.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.

Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.

A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,

It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer or years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.

One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,

It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivalled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.

☞ Price $1.00.

HE HAS ALSO A HUMOR SALVE,

Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.

PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.

This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.

No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.

PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.

This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.

PRICE 25, 37½ AND 50 CENTS A BOTTLE.

Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA

PENS.

WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens has induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

May be had, Wholesale, at the Manufacturers' DEPOTS,

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, Waite Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by

W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
D. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Luz, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER, SAMUEL GRAY, & THOS. W. MILLER
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.

For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

☞ All accounts settled semi-annually.

JOB AND CARD PRINTING promptly executed.

V. B. Palmer, American Newspaper Agent, is the only authorized agent for this paper in the cities of Boston, New York and Philadelphia; and is duly empowered to take advertisements and subscriptions at the same rates as required by us. His receipts will be regarded as payments.

CRUELTY AND EVILS OF BEARING REINS.—Under this title, a member of the English Royal College of Veterinary Surgeons, writes a couple of columns to the N. Y. Spirit of the Times—strongly denouncing the use of all check reins on horses, and urging their discontinuance. The writer proves their entire uselessness in all cases; and says that, irrespective of the humanity of the question, the economy of horse life and utility, of large account, are involved.

"With the one exception of unskillful shoeing, it may be doubted if any common or general practice, as regards horses, has ever been more indefensible, or occasioned a greater amount of positive loss—loss of animal power, and the capacities of useful exertion—than that of the indiscriminate use of the bearing rein."

He would tolerate a properly arranged check rein of India rubber, for city equipages; but "for heavy draught, in cities, and for *all* road and country work, the bearing rein is a useless and cruel restraint, attended by serious impediment to exertion, and by corresponding loss of power.

Bearing reins, by their inflexible action on the mouth, and the torture occasioned by the bit, when a horse is obliged to strive against a load, are the extreme of unreflectiveness and cruelty. And they are as injudicious as cruel; for when a horse cannot extend and drop his neck and head with freedom, he cannot throw into his collar his combined weight and action, and therefore a far lighter load, than would otherwise do, distresses and brings him to a stand still."

The article states that the custom of bearing reins originated with England; and was designed to counteract various evils arising from unskilful and injurious shoeing.

"The first idea of the bearing rein was laid hold of, in order to prevent horses so affected from stumbling. And, doubtless, the hard, inflexible hint of this fixed bit may have some effect as far as stumbling goes, inasmuch that it distracts attention from the pain of the feet. But it neither can nor will keep a horse from falling; on the contrary, in any violent stumble, as it prevents an animal from freely throwing up his head and recovering himself, it rather ensures a fall, and this with all the more violence. It is to horses used for road riding that those remarks, however, chiefly apply; and in this way, when resorted to with an idea of keeping horses from stumbling and falling, when lame in their feet, it is but superadding one evil to another.

From first being so adopted, as a painful check on such horses, the use of the bearing rein soon spread to sound horses, under pretence of its making them carry their heads and necks better. No idea could be more erroneous, either as regards common sense, or good taste. It is only worthy of the same school out of which came the unnatural tail, flexed upwards and distorted by nicking and over pulleying. Unhappily, coachmen, teamsters, and others having charge of horses used in draught, soon discovered that by the bearing rein they were gagged and placed under more automaton like control, and that thereby due measures of care and skill in driving, and attention to well fitted bits and reins, became less essential. And for such objects, have humanity to the willing, noble animal, the impairment of his powers, and the reduction of his usefulness, been sacrificed. The use of bearing reins is now the rule, instead of the exception.

On the continent of Europe this gag never came into agricultural or general use, though there it was also applied to some extent on equipage horses. In the United States, it is to be regretted to see how almost universal is the use of the bearing rein. Not only in cities, but in all country localities, and on horses at the plow, this useless and hurtful appendage to harness is beheld.

Enough has been urged, perhaps, on this subject matter; but before dropping it, the suggestion of a practical illustration may not be ill timed. Let any one load a garden roller to as heavy a degree as he can just manage to drag, when he grasps the handles behind his back and fairly applies his full muscular powers, aided by his head, neck and shoulders being thrown forward—his stoop, or weight, in fact, thrown into the draught. Then let him try to drag the same weight by his muscular strength, mainly, his head being checked back, and his neck and shoulders constrained and erect. The result will impress some apposite conclusions.

In England, where the bearing rein was first introduced, its use has during the last thirty years been greatly on the decrease.—After the introduction of omnibusses, in London, some twenty or twenty five years ago, it was soon found that the tear and wear of the work, over the stones, was terribly destructive of horses. Unskillful shoeing, and the use of this gagging rein, were pointed out as very aggravated adjuncts of the hard work. Proprietors, drivers, and their class were loath to alter old ways; but that potent reasoner, self interest, stept in and led the way to some trials of improved modes of shoeing and disuse of the bearing rein, and this with highly beneficial results. Now, there is not such a rein to be found on an omnibus horse in all London, and to return to other than the unfettered mode of shoeing, or the use of the bearing rein, would be ruinous in a year to any proprietor engaged in the business. Nor is a specimen of this gag now to be discovered on any cab or hack carriage horse; these horses could not continue their present work under its restraints.

Omnibus statistics show that the unfettered mode of shoeing, and the discontinuance of bearing reins, has enabled the trade to pay better at 4d and 5d per passenger, than it did at 10d and 11d, on the former plans. The term of service of an omnibus horse has increased from 50 to 70 per cent.; and their weekly work, or mileage, besides being done altogether in better style and condition, has improved from 30 to 50 per cent.

Were a legislative, or other competent committee, appointed to investigate and report on the questions involved in this subject, it would assuredly condemn the bearing rein as a cruel and injudicious restraint; as occasioning the loss of an aggregate of useful labor beyond estimation, well nigh; and that its discouragement and discontinuance were an object of national moment."

The subject would be a proper one for Agricultural Conventions, Committees, and discussions. Every intelligent teamster knows that horses can draw more, and better, unchecked, than checked.

FOR SALE & WARRANTED PURE.
New Bedford Oils.

PATENTS.
American and Foreign Office.
AGENCY FOR BUSINESS
With the U. S. Patent Office, Washington,
No. 76 state Street, oppo. Kilby street, Boston.
IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered to inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection. Caveats. Specifications, Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.
Inventors can not only here obtain their specifications on the most reasonable terms, but can here avail themselves of the experience of 20 years' practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries; besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one* dollar.—Assignments recorded at Washington.
R. H. EDDY,
Solicitor of Patents.
"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents."
"PATENT OFFICE, ——.
"R. H. EDDY, Esq., Boston, Mass.
"SIR:—Your facilities for the prosecution of any business connected with this Office, are equal to those of any other agent. I am very respectfully,
Yours, &c. THOMAS EWBANK,
Commissioner of Patents."
Boston, Dec. 1, 1853. eodly

Dentistry.
FRANK FULLER, DENTIST,
CALLS the attention of Citizens and Strangers to his extensive and complete

Morning Chronicle.

THURSDAY, OCTOBER 12, 1854.

THE AMERICAN BOARD AND THE CHOCTAW INDIANS.—The Southern newspapers are commenting pretty freely, but not always wisely, on the recent action of the American Board in relation to the Choctaw Schools. The Mobile Tribune of Sept. 28th says:

"No man with any knowledge, in the South, can for a moment believe that there is, or can be, any harmony between the Christian organization of the free and the slave States. Why, then, patch up and endeavor to check the disruption which will presently be inevitable between them."

The Mobile Register says:

"The precise point on which the action of the Board of Missions turned was a proposition to continue its missionary efforts among the Choctaw Indians. These Indians are slaveholders, and the ground of offence to this "Christian Board" is, that they have taken some measures to protect their property against abolition missionaries. The Board has thus renounced the doctrine of "peace and good will to men," and joined in the howl which sedition and fanaticism has raised to excite hatred and jealousy, and finally a rupture between the North and the South. To the Southern man there is in all this madness one consideration of genuine comfort and consolation."

The Boston Traveller, whose editor is posted up in Missions and such matters, especially in the Missions of the American Board, offers the following correct remarks:

This statement is very far from presenting "the precise point" at issue, or truly representing the action of the Board. The question on which the Board acted was, whether they should continue to furnish teachers to the Choctaw schools after the National Council had voted that no teacher or other person connected with their schools should be allowed to teach a slave, or child of a slave, in school or out. The Board simply declined attempting to manage the Choctaw schools with such restrictions around them.

On the question of general missionary labors, the Board voted to continue their missionaries among the Choctaws, as long as they were unmolested in their missionary labors, for the good of the nation.

SENATOR ATCHISON, of Missouri, President of the Senate, and in the event of Gen. Pierce's decease, President of the United States, recently made a speech in the "City of Atchison" in Kansas, a place named after himself. We have already mentioned that in this speech he claimed the paternity of the Nebraska bill, having compelled Senator Douglass to introduce it. One of the journals in upper Missouri says of the speech:

"He spoke of those who had supported and those who had opposed the bill in the Senate, and remarked that the Northern Democrats came up nobly to the work, but that Northern Whigs had proved recreant to the cause of justice and right. Southern men, he said, acted as they should have done, with, he was sorry to say, two exceptions. [A voice in the crowd here called out, Bell and Houston!] Yes, he said, these were the men, one Whig and one Democrat—both aspirants for the Presidency—but poor miserable devils, they had made a false step, and he might say now he [Achison] had a fairer chance for that high honor than either of them. Senator Atchison next alluded to the slavery question as it is now being agitated in our community, and closed by expressing his profound contempt for abolitionists and their machinations, and said that if he had his way he would hang every one that dared show his face here."

A YANKEE'S INTERVIEW WITH QUEEN VICTORIA.—Mr. Nathan Thompson, formerly engineer of the Collins' steamers, recently went to England to exhibit a safety seat, and having found his way on board the royal yacht at Osborne, succeeded in gaining an introduction to the Queen. The London News thus describes the interview:

"Much to his delight, Captain Denman touched him on the shoulder, and said 'Mr. Thompson, I have permission to present you to her Majesty.' 'I shall be very happy, sir;' and, amid the smiles and tittering of the party who surrounded the Queen, he approached, and was introduced by Captain Denman, saying, 'I have the honor to present the inventor of the life-buoy to your Majesty.' 'How d'ye do, ma'am,' said Mr. Thompson. The Queen bowed, and the ladies suppressed their merriment as well as they could. 'I have brought, ma'am,' said Mr. Thompson, 'one of my seats as a present for you and your husband, which I hope you'll accept.' As this, further attempts at repression of laughter were unavailing; but the Queen, with great good nature, smiled, and condescendingly said, 'Thank you, Mr. Thompson, it is a very interesting and useful invention.' After replying to a few inquiries from Prince Albert, whose rank he was not aware of until he subsequently saw the Queen leaning on his arm, Mr. Thompson withdrew, and waving his hat in exuberant spirits, embarked in one of the Fairy's boats, kindly provided for him by the captain."

HUNT'S MERCHANTS' MAGAZINE, for October. Contents:—Our American Lake Cities, by J. W. Scott of Ohio; A Mercantile Autobiography, by Vincent Nolte, of Europe and America; Finances of States of the Union in 1853–4; Sound Dues upon American Commerce to the Baltic, by Benjamin G. Smith of New York; Trade and Commerce of New Orleans in 1853–4; Journal of Mercantile Law; Commercial Chronicle and Review, &c.

NEW YORK, Oct. 10.—This morning, the jury in the case of Dr. Graham, tried for the murder of Col. Loring, after an absence of twenty minutes, brought in a verdict of guilty of manslaughter in the second degree.

A case of breach of promise of marriage and seduction, brought about a year since by Anne Howard, daughter of a gentleman holding a prominent position in one of the departments at Washington, against Wm. K. Ball, then Superintendent of the Harlem Railroad, has just been decided by a Sheriff's Jury, in Hudson county, New Jersey, and a verdict of $13,000 awarded to the plaintiff.

Miss Makeah, of Boston, made her debut at the Metropolitan Theatre, last night, before a crowded audience, and met with the most flattering reception. The critics generally speak well of her performance, and promise her a brilliant future. Mr. Wyzeman Marshall, who supported her, also met with a warm reception.

CLEVELAND, Oct. 10.—A severe storm occurred at Ontonagan, Lake Superior, on the 3d instant. About 400 feet of the pier was carried away, together with a large amount of freight upon it, which had just been discharged from the propeller Peninsula and steamer Samuel Ward, including some machinery for the National Bridge Mine and supplies for the Ohio Trap Rock Company. Total loss about 15,000. The Presbyterian Church was blown from its position. The steamers Samuel Ward and Baltimore were safe at a Fond du Lac and La Pointe.

SPRINGFIELD, Oct. 10.—An incendiary fire was kindled in the wood-shed of the Housatonic Railroad, at Great Barrington, on Saturday night, and destroyed about 1000 cords of wood, belonging to the railroad, besides damaging the depot building, and sweeping down the long stores of Messrs. Granger, Hill & Co., J. F. & F. T. Sanford, the printing office of the Berkshire Courier, and a dwelling house. Loss estimated at $50,000, mostly covered by insurance.

NEW YORK, Oct. 10.—Wm. Darby, long eminent as a geographer, died at Washington yesterday. Rev. John H. Hanson, author of the recent works contending that Rev. Mr. Williams is the lost Dauphin of France, died here yesterday.

The brig Nehemiah Hand, Capt. Turner, arrived this morning from Buenos Ayres, which place she left on the 26th of August. The captain reports that a violent gale from the South-East had set in on the 18th, and blew until the 21st, at Buenos Ayers, during which the shipping in port sustained considerable damage.

NEWARK, Oct. 10.—The charter election was held in this city to-day. About 6000 votes were cast, and the Whigs and Know Nothings literally swept the city. Horace J. Poinea, Whig and Know Nothing, was elected Mayor by about 1200 majority.

WASHINGTON, Oct. 10.—The total drafts on the treasury last week were $635,000.

Attorney General Cushing has left for Massachusetts, and will ne absent about ten days.

The Mayor of the city has signed the anti-tippling bill.

ENGLAND.—In London, the cholera was abating. The deaths for the week ending on the 16th were 1549, a decrease of 561 on the previous week. The total number since the commencement of the epidemic had been 7669.

It is rumored that the Emperor of the French is to visit England shortly before Christmas.

GRAIN SHIPMENTS.—At Chicago, on the 5th, there were more clearances of grain carrying vessels than any preceding day in the season, thus far. The amount of corn shipped was 115,507 bushels, of which 78,809 bushels were to Buffalo, to which port also were shipped 18,470 bushels wheat and 700 barrels flour.

A private letter from San Francisco, dated Sept. 16, says that business of almost all kinds there, is very dull indeed. Hundreds are loafing about the streets for want of employment. And, as to the mines, where one man makes three dollars a day, fifty only get their living. According to the general appearance of affairs, very many heavy failures must come off soon. The writer 'speaks by the card.'—*Boston Post.*

Samuel Rogers, the poet, now over 92 years old, appears to have regained much of his strength, and may be seen taking a carriage airing in Regent's Park, London, every fine day.

The State of Connecticut is out of debt, and has money loaned out at interest. The school fund is valued at $2,076,000, and other productive property of the State is estimated at $400,000, the greater part of which is invested in bank stocks.

END OF THE MURDERER.—It is stated that the remains of Casey, who was hung in East Cambridge, the 29th ult., were carried to the Catholic burial ground in West Cambridge, and were escorted by the driver of the hearse alone. His horrible deeds so abashed his friends and acquaintances, that none dared follow him to the tomb.

The Richmond Enquirer is still after Gen. Cass with a sharp stick. It says that he is no true friend of the South, and never was, and that he conspired with Clay to build up a Union party on the ruins of democracy.

The Oregon Statesman says that there are serious apprehensions of further difficulties among the Indians of Rogue River. Joe, their head chief, had intimated that he will be unable to restrain his warriors from hostilities, and proposed to surrender himself to the whites, leaving the tribe to fight out their differences.

SUICIDE.—A man supposed to be D. N. Thomas, a printer by trade, and whose profession should have taught him better, a victim of the 'Spiritual' delusion, took strychnine and died, in New York last week.

LOCAL.

MRS. MACREADY'S READINGS.

☞ Mrs. Macready's Dramatic and Poetic Readings, at the Cameneum, on Tuesday evening, were attended by a genteel and fashionable audience, who testified their pleasure by frequent applause. Her voice and manner of reading are admirable for beautiful and pathetic pieces, such as the Pauper's Prayer, (written by Albert Laighton, and published in the Chronicle some time since,) which she read with great effect.

It will be seen by reference to our advertising columns, that she is to read again this evening, at the Temple.

We have received the following from a correspondent:

Messrs. Editors:—I was particularly pleased with Mrs. Macready's delightful Readings on Tuesday evening. I cannot speak of them as I wish, but beg to append an extract from a note which I received from a literary gentleman of this city, and one whom I consider a very competent judge of such performances. He remarks:

I cannot express to you the gratification I received last evening. I have no separate idea of Mrs. Macready's reading—

No single tone thereof, no perfect sound
Lingers, but dim remembrance of the whole!
A sound which was a *Soul!*

The rich, deep music of her voice enchanted me.

It *flowed* like liquid peal through golden cells;
It *yangled* like a string of golden bells;
It *trembled* like a wind in golden strings;
It *dropped* and *rolled* away in golden rings!
Then it divided, and became a shout,
That echo chased about!

I am glad to learn that Mrs. Macready proposes to read again this evening, and bespeak for her a full and fashionable audience.

Oct. 11, 1854. K.

PAUL JULIEN.

This celebrated boy violinist, a Mademoiselle Durand, who is said to be a fine singer, and Mr. Weise, the pianist, are coming to this city shortly, to give a concert. Our musical people have heard Paul Julien, and know that he is an uncommonly good player. In addition, the Providence Journal thus speaks of Little Paul and Mlle. Durand:

The Concert of Paul Julien, on Friday evening, at Railroad Hall was very fully and fashionably attended. It was one of the most successful concerts that we have had for a long time. Little Paul, as he is familiarly called, has greatly improved in smoothness and delicacy of execution on his favorite instrument, which was most unmistakably manifested by the long and repeated encores of the audience. He was called out on every piece, to which he responded with a pretty bow, except on the call after playing the Carnival of Venice, when he gave his wonderful imitation of the Scotch bagpipes, after which one never would care to hear the real article.

Mlle. Durand seemed to carry the audience quite away, for, with beautiful execution, fine voice, and rare personal charms, how could it be otherwise? She was also very warmly applauded at every song, and on singing 'Coming thro' the Rye,' was obliged to respond with something more than a sweet smile, and so gave most effectually, a beautiful echo song, which we presume was composed expressly for her, as we never remember to have heard it before, the answering echo being given from an instrument in the adjoining room, which her own beautiful echo so much excelled that it threw the instrumental performance in the shade.

Mr. C. Weise, pianist, is a performer of much skill, and gave good satisfaction.

There is no tiring when such music is offered, and we are pleased to announce that another concert, with a different programme, will be given to-morrow evening at the same place.

☞ The Newburyport Herald is "requested by the members of the party who passed over the Eastern Railroad, last week, to visit the Fair at Portland, to express their thanks to Mr. Elbridge A. Towle, conductor, for his attention to them." Mr. T. is one of a corps of the most gentlemanly and popular Conductors to be found on any railroad—men who, while they attend strictly to their business and the interests of the road, are not forgetful of "the small sweet courtesies of life" which tend so much to the comfort of us all, particularly when travelling.

A STRANGER.—On Saturday morning, a shark came ashore on the flats, near the residence of Moses Pettingell, Esq., Newburyport. Having ventured too far for a safe retreat, he was left by the tide, floundering and gasping. He was ten feet long, and by no means amiable looking. Many persons called to pay their respects to the unwonted visitor. —*Herald.*

THE PRACTICAL DENTIST.—A large edition of this Publication, for circulation throughout every town in Rockingham and York Counties, will be issued next week. Merchants and others desirous of occupying a small space in its columns with their business advertisements, can learn terms by immediate application at Office, No. 60 Congress street. o12 1t*

THE undersigned take this method to apprise the public that a portion of the owners of the Pilot Boat LINDA are about to employ said vessel without the consent and against the wishes of the undersigned; and that they will pay no bills contracted on account of said vessel on her said proposed cruise.

GRAND
FAREWELL MUSICAL TOUR
IN AMERICA.
PAUL JULIEN,
LEAVING the friendly shores of this great country early next Spring, to return to Europe, feels anxious once more to visit some of those splendid cities in which he has been received with so much kindness and munificence, taking in his way many musical places where he has not had the honor to appear; and has much pleasure in announcing to the musical amateurs of this city, that on this occasion he will be
Assisted by the following eminent Artists:
THE FAVORITE YOUNG PRIMA DONNA,
Mdlle. R. A. Durand,
who has created such a sensation in all the cities that Paul Julien has visited; and
Charles F. Weise,
THE DISTINGUISHED SOLO PIANIST.
The First and Only Entertainment in Portsmouth will take place
On Saturday Evening, Oct. 14th,
AT THE TEMPLE.
Doors open at 7 o'clock—Concert at 8 o'clock.

o4 RAYNES & NEIL, 59 Congress st.

FEARFUL CALAMITY!

Sinking of the Collins Steamship Arctic!

THREE HUNDRED LIVES LOST!

The Collins steamer Arctic, Capt. Luce, which left Liverpool 20th ult., for New York, came in collision on the 27th ult., when 40 miles from Cape Race, with an unknown British steamer having troops on board. The Arctic went down, and only 30 of her passengers are known to be safe, leaving three hundred persons on board, all of whom perished, including Capt. Luce and the family of Mr. E. K. Collins.

She left Liverpool with about 250 passengers and a crew, all told, of 175.

When the collision occurred, the propeller had all sail set, and the Arctic was going 13 knots per hour. The shock to the Arctic appeared slight, but to the propeller it was frightful.

The boats were ordered to the relief of the propeller, and one containing the chief mate, boatswain, and three sailors, left.

It was then discovered that the Arctic had sustained injuries, and that the water was pouring into her bows.

The pumps were vigorously worked, and an anchor and chain thrown overboard, but in spite of all exertions, the water extinguished the fires, and the engines stopped.

Four of the five other life-boats, believed to have been well provisioned, containing the engineers, sailors, a few passengers and all the officers, except the captain and the third mate, left the ship at an early stage. A majority of the passengers were working at the pumps, and firing signal guns, and others launching spars under the direction of Capt. Luce and Mr. Dorcan, the 3d mate, to form a raft.

A panic suddenly seized all on board, and a rush was made for the raft. A large number got upon it, and into the boat. The sea was then flush with the dead-lights, and in a few moments more the Arctic sunk, and all on board of her perished.

At 5 o'clock on the afternoon of the 28th the survivors of the boat espied a sail and raised a handkerchief to attract attention, which they succeeded in doing, and found the vessel to be the bark Huron, of St. Andrews, N. B., Captain Wall, bound to Quebec, which took them all on board.

The raft was seen in the distance with only one man clinging to it, who was taken off in a boat. He states that after the vessel sunk he counted 72 men and 4 women on the raft, but at 8 1-2 o'clock he was the only one alive.

During the night of the 28th, Capt. Wall hung out extra lights, fired rockets, and kept a horn blowing, in hopes of falling in with the remainder of the boats, but his efforts were fruitless.

On the evening of the 28th he spoke the ship Lebanon, Capt. Story, bound for New York, by whom 18 of the men were taken off. The Lebanon afterwards transferred them to the pilot boat Christian Berg, No. 16, by which they reached the city. The fate of the propeller and the other five boats of the Arctic, is not positively known.

The propeller is supposed to have been the Charity, from Montreal for Liverpool.

One of the later accounts states that two of the other boats are safe. One of them was under command of Mr. Barlane, 2d officer of the Arctic, who says the collision took place at noon, but the fog was so dense that they did not see the vessel a minute before the collision.

In forty-five minutes after the collision, I came up from the fore hold, and informed Capt. Luce that the water was on a level with the lower deck beams, and that it was impossible to get at the leak, and then asked him what he thought would be likely to be the fate of the ship, when he stated his belief to me, that there was no hope of saving her.—He then told me to see to my boats.

On going to those on the port side, I found them completely filled with men and women, and no possibility of getting near them. I immediately went to the starboard side and ordered two of the crew to lower the guard boat, and asked the captain what his instructions were, who replied "That the ship's fate should be his." I then asked him if he would not allow his son to go with us, as I intended to take a boat, but he returned me the answer that "he should share his fate."

These two boats contained 37 persons, who all arrived safely at Halifax.

NEW ORLEANS, Oct. 9.—*Steamer Burned and sad Loss of Life.*—The steamer Princess, belonging here, was destroyed by fire near Natchez, yesterday, and several persons, including two ladies, perished in the flames.—Their names have not yet been ascertained. The cargo consisted of three thousand three hundred bales of cotton, which, with the vessel, it is supposed will prove a total loss.

The steamship Cahawba sailed to-day for New York via Havana, with 1100 bales of cotton and 260,000 in specie.

Window Shades.

200 PIECES of new and beautiful patterns just received at City Sales Room, 3 Congress Block, and will be sold at great discount from former prices. G. W. TOWLE & CO.

A. PEARSON,

TEACHER OF THE

PIANO-FORTE AND ORGAN,

THOROUGH BASS AND SINGING.

No. 4 Exchange Buildings, rear Chronicle Off.,
Residence, Piscataqua House.

Particular attention given to the Cultivation of the Voice and Vocalization.

☞ Adult Singing School, Monday and Friday Evenings, at half-past 7 o'clock —— Juvenile Class on Wednesday and Saturday Afternoons at 2 o'clock.

☞ Agent for the sale of Messrs. Hallett, Davis & Co.'s celebrated Piano-Fortes. A splendid Grand Piano from their manufactory, may be seen at his Room.

Carl Meinerth,

TEACHER OF MUSIC,

Gives Instruction in
Harmony, Thorough-Bass, Organ, Piano Forte and Singing, Guitar and Flute.
Hanover Street Chapel, Portsmouth, N. H.
At home every day but Saturday and Sunday.

Correction.

THE undersigned, finding various misstatements and misleading reports current, respectfully informs the public, that, with the exception of having transferred his Schoolroom to the beautiful and very convenient locale above the Hanover street Chapel, *not the least change* has taken nor will take place in his business of Instruction in Music and Drawing, which he is attending to, and will always continue to attend, in Portsmouth, with the same unceasing ardor and faithfulness as ever before in the last five years of his residing here.
CARL MEINERTH.
Portsmouth, Sept. 27. 1m

s11 S. W. MOSES, Sec'y.

25 Cent Daguerreotypes

AT

SALEN'S

DAGUERRIAN GALLERY,

No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES

BY STEAM,

For the extremely LOW PRICE of 25 cents.

Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about town here, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel, making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his HIGHLY-FINISHED, LIFE-LIKE, ARTISTIC PICTURES Please observe that his reputation is of *seven years* permanent residence in this community,

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures my study, discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

DR. CARL V. MEYER'S
GERMAN
HOMEOPATHIC BALSAM

THE discovery of this remarkable sanative medicine was obtained by means of a thoro' scientific analysis of the celebrated

MINERAL SPRINGS OF CARLSBAD,

In Bohemia, well known throughout Europe and Asia for their wonderful curative properties in all cases of confirmed disease and general debility of the human system.

Every summer, thousands of invalids of both sexes, who are afflicted by long standing and obstinate complaints, that have baffled the most eminent medical skill, undergo a fatiguing journey of many hundred miles, to drink and bathe in the healing waters of Carlsbad. That they are liberally repaid for their journey, the hundreds of testimonials, in all languages, that arrest the eye of the promenader, in his walks about the place, abundantly testify. These enduring testimonials of gratitude for recovery of health, are cut on stone and fastened to huge rocks, some are chiseled fairly on the rocks, some are painted on wood and fastened to fences and trees—all certifying that the undersigned were seriously afflicted by disease and despaired of recovery, but they came to Carlsbad and drank of the water, and after a time become thoroughly cured and testified their gratitude in this way. Many have arrived so feeble and prostrated that life seemed almost extinct, but after drinking and bathing in the waters a few months, were thoroughly restored to health. The medical properties of there waters are particularly effective in eradicating from the system every species of Humor—particularly of a Scrofulous nature—and for that reason have become popular resorts for persons afflicted with any long standing or hereditary Humor. They range in temperature from tepid to boiling hot, and are very pleasant to the taste.

This Balsam—owing to its wonderful healing properties—may be used EXTERNALLY, as well as internally, and is far better in its effects than any salve or ointment, for it acts DIRECTLY ON THE PART DISEASED, and on no other, just in proportion to which the part is affected.

The use of this Balsam every second or third night, just before going to bed, will supersede the use of pills, (which generally leave the bowels in a torpid state,) and relieve those affections called

DYSPEPSIA,
LIVER COMPLAINT,
Piles, Costiveness, and
WANDERING PAINS,

In most cases engendered by two close confinement in workshops, counting rooms and stores, where too little time is allowed for meals and recreation.

IN SLOW OR CHRONIC DISEASES,
SUCH AS
Scrofula, White Swellings, Scorbutive Eruptions, Ulcers, Erysipelas,
Paralytic and Nervous Affections,
CANKER,
AND ALL DISEASES OF THE SKIN,

This Balsam is exceedingly efficacious.

SALT RHEUM,
PILES,
PIMPLES ON THE FACE,
Running Sores, Eruptions of the Skin,

May be cured by using the Medicine according to the directions.

IN CASES OF NEURALGIA,
AND ALL
RHEUMATIC AFFECTIONS,

This Balsam will prove a sure remedy.

FOR COLDS,
COUGHS,
SORE THROAT,
AND ALL AFFECTIONS OF THE
THROAT AND LUNGS,

This Balsam is the most effectual and lasting remedy ever presented to the public. If you should have a severe paroxysm of coughing, take some of the Balsam, and it will afford immediate relief.—IT MAKES YOU EXPECTORATE EASILY, AND NEVER TIGHTENS A COUGH.

FEMALES

Troubled with a sensation of fullness at the pit of the stomach, or tightness across the chest, or suffering from obstructions or irregularities of the system, will receive relief by taking one tablespoonful on going to bed.

Those troubled with periodical turns of

HEADACHE,

Will find relief by taking a dose of the Balsam. If at any time there is an uncomfortable feeling in the stomach, caused by imprudence in eating or otherwise, this Balsam will give immediate relief.

It also acts powerfully as an ALTERATIVE and will always be effective in

PURIFYING AND REGULATING THE
SYSTEM.

Wherever this Balsam has been introduced, it has proved an invaluable

Nursery Medicine,

Superseding the use of all other aperients—and its salutary and soothing effects render it a superior anodyne, and preferable to any of the cordials used for that purpose. Its pleasant and agreeable taste recommends it particularly for

CHILDREN,

Thereby sparing the distress usually at ending the administration of nauseous medicine.

This Balsam is put up in unique Metalic Cases, containing about one pint, accompanied with particular directions for using it, in both German and English. The packages are very compact, and conveniently adapted for transportation without breakage any distance, and can be forwarded by Express to any part of the United States.

Should any purchasers of this Balsam upon trial find the operation different from what is said in the directions which accompany each package, they are at liberty to return the medicine to my office and have the money refunded.

Price One Dollar.

HERTS BROTHERS
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thusentirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper. and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1853," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.

INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by
W. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., Prof. of Surgery, N. Y.
W. P. Dewees, M.D., Prof. of Mid., Pa. University.
N. Chapman, M.D., Prof. of Physic, Pa. University.
I. Parke, M.D., Pres't College of Physicians, Phila.
Dr. Del Vallo, Prof. of Medicine, Havana.
Jose Eonreneo de Lan, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spaine.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

"SWAIM'S—PANACEA—PHILADA:"

and having the name Wm. Swaim stamped on the sealing wax, and written on the label covering the cork: and a splendid engraving for the side of the bottle, composed of a geocentric lathe work, comprising nine different dies, which have been turned; the exclusive use of the proprietors of the Japer & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swain, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

Greatest Discovery of the Age.

PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sweeny, Swellings, Bad Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, Chest, Back, etc.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure. and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Colic, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Liniment, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's Office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. wich street, New York.

Agents in Portsmouth—B. Hutchings, S. Gilbert, W. R. Preston and J. H. Wells. a21 eod&wly

HOUSES, &c.

FARM FOR SALE.

A VALUABLE FARM, on Boyd's Road in Portsmouth, about a mile from the centre of the city: it contains 85 acres, well divided and fenced with stone wall; also a good two story HOUSE, two large Barns, and other out buildings, all in perfect order. The soil is very rich and productive, and the ground in superior order.

This farm must be sold, and offers a rare opportunity for any one in want of a valuable and productive estate, which from its central location must increase in value.

For terms and information, apply to
3m s14 HENRY H. LADD.

House For Sale to be Removed.

THE undersigned offers for sale his dwelling House, 9 1-2 Cabot Street, which he now occupies, together with a wood house and cellar walls, consisting of three feet of stone and three feet of brickwork. The House is nearly new and in an excellent condition. For further particulars apply, on the premises, to
s14 B. NORTON.

House to Let

IN Ladd street. Possession given next week.
s12 J. N. HANDY.

For Sale.

THE subscriber offers for sale the STORE now occupied by him on the corner of North and Dennett streets, with the land and Hay Scale attached thereto. The situation is an excellent one for a grocery, or any other business. The Hay Scale yields an annual income of from one hundred and fifty to two hundred dollars. The premises will be sold low if applied for soon.

If not sold by 1st of November next, the subscriber will lease the same at a reasonable rate.—For any information, apply to the subscriber on the premises.

THE KNOW NOTHING.

Where have you been ? asked Mrs. Snob
As Mr. Snob reel'd in the door;
A pretty time to seek your home,
I'm sure its twelve o'clock—and more.
These midnight revels will not do;
Shame on you, Snob, for acting so!
Where have you been ? I ask again.
Says he, dear wife—I do not know.

A pretty plight your hat is in;
And see, your coat is muddied o'er;
Your nose is like a to-ma-to;
And you can scarcely reach the door.
How came you so—you naughty man!
Say, Mr. Snob, how came you so ?
My dearest wife, don't bother me—
You've heard me say I do not know.

I see it all, you cruel man!
Cried Mrs. Snob, excited quite;
You've joined the men who nothing know,
And you've been meeting them to-night.
Well, I'll forgive you if you'll tell
Me why they meet in secret so!
Come, Snobby, you can tell me low—
Why, Mrs. Snob—I do not know.

A KNOW NOTHING ALARM.

The Waterville Mail tells the following story about the steady old borough of Kendall's Mills:

Mrs. Soberly went to bed precisely at nine o'clock, thinking it passing strange that her good man had not made his appearance just ten minutes before. Of course he would be home in a minute and a half, or two minutes at furthest, and so Mrs. Soberly left a lamp burning on the table. There it burnt and burnt—but she must tell her own story, as she told it next morning to about thirteen of her most confidential friends:—

Well, there that lamp burnt and burnt, till as near as I can guess, 'twas well nigh on to ten o'clock, and that man had'nt come!—What to make on't I didn't know no mor'n the dead—for he hadn't never been out so before, since the time they had such a fuss about the Aroostook war. Twan't no use to speak to the children, for they would'nt know; and so after I had waited till I could'nt wait no longer, I bounced out of bed, and down stairs I went. I went right into the buttery, and raised the window towards Mr. Blank's, and says I, 'Mrs. Blank!' In a minute I heard her jump out of bed and raise the window—and says she:

'Why Mrs. Soberly, what on earth's the matter?'

'Matter!' says I, speaking low, because I did'nt want anybody to hear—'matter! Mrs. Blank, do tell me if you have seen anything of my husband?'

'Your husband!' says she, 'you did'nt suppose I'd got him, did you?'—and then speaking almost in a whisper, says she—'Look here, what on earth does this mean? have you seen anything of my husband?'

Then we both began to think something had happened certainly, and in about two minutes I was dressed and over to Mrs. B.'s. Well, we concluded to step over to Mr. Quiet's, and start him out for a search; but we had'nt got half way across the street, talking along, when we heard the window shove up, and Mrs. Quiet, says she,

'Who's there?'

Says I—'it's me.'

'Well,' says she, 'do for pity's sake tell me if you have seen anything of my husband?'

Now wasn't here a pretty pickle? Well, to make a long story short, we went up that street as far as the school house, and back on t'other side, and not a woman did we find but what was wondering—'what had become of her husband?'

Well, just as we got to our gate, who should we see there but my husband and Mr. Blank!

'Mr. Soberly,' says I, a little spunky, 'will you just tell me what all this means?'

'What it means?' says he, just as cool as if nothing had happened—'well, Mrs. Soberly—ahem—I should be very glad to gratify you if I could; but the truth is—ahem—that I don't 'Know Nothing' about it!'

Well, from that time to this I go to bed when I get ready, without asking any questions, and if I find Mr. Soberly there in the morning, that's all I care for—for I'd just give him to know that I'm as good a 'Know Nothing' as he is.

PROSPECT OF THE LIBERATION OF ANTHONY BURNS.—The Boston friends of the fugitive Burns, whose case has become so noted in our annals, have been informed that he is now dangerously sick of typhoid fever in the jail at Richmond, where he has been imprisoned since his return to Virginia. The last letters received from him were dated four weeks since, and he then complained of illness. Last week he was attended by two physicians, and his recovery was considered very doubtful indeed. Had his master been a high-toned man of honor, Burns would long since have been free. The time perhaps has not yet fully come for a full and complete account of this case, but should death release the prisoner, we hope the entire history of the negotiations between the parties will be made public. At the last move in the premises, one of the United States officials whose conduct during the trial does not redound much to his credit, offered to pay Mr. Suttle one hundred dollars of the amount originally claimed, if the Colonel would keep his word to said official and Mr. Allen of Louisiana. The last named gentleman has proved to be a man of high character. We hope to be able to publish his written opinion of the "jockey Virginian" one of these days.—*Boston Trans.*

Morning Chronicle.

FRIDAY, OCTOBER 13, 1854.

LOSS OF THE ARCTIC.

The papers are full of particulars of this melancholy disaster, which is one of those which cannot be with certainty provided against, and where the most vigilant watchfulness is sometimes of no avail. In speaking of this matter the Boston Courier says:

It does not appear that this terrible occurrence was owing to anything but pure accident. Two ships encounter on the open sea in a thick fog. Their chance of coming in contact is perhaps less than one in a million, and yet the single chance prevailed! All that human efforts could accomplish seems to have been done to avert the final catastrophe, but in vain. It will easily be understood that no case can be more desperate than that of a ship with more than four hundred persons on board crushed by a fatal shock with so terrific a suddenness as this. On such occasions panic is certain, and the boldest hearts can hardly be expected to retain self-possession enough to deal properly with the emergency.

This awful calamity may possibly have the effect of producing in some minds a distrust of steam navigation, as if the collision was owing to the mode by which the two ships were propelled. Such an impression must be erroneous. Had they been under sail instead of steam, the result would not have been different.

In yesterday's Chronicle we gave such details as were of particular interest in the case. We now append further accounts, from the statement of Mr. Burland, the 2d officer of the ship:

On Wednesday 27th at noon, Cape Race bearing N. W. by W., 65 miles distant, while running in a very thick fog, were struck on the larboard bow, about 60 feet abaft the cutwater, by an iron steamer, which made three large holes in the ship, two below the water, one of which was about five and a half feet in length, and one or one and a half in width, leaving the whole cutwater and stem of the iron steamer clean through the Arctic's side. so dense was the fog that the vessel could not be seen a minute before the collision. The wheel was put hard to starboard, the engine stopped instantly, and backed at full speed until clear of the other steamer, which occupied a couple of minutes. The strange steamer seemed to be sinking how first.

Capt. Luce immediately gave orders to clear away the quarter boats, which was done, and beckoned me to come to him. Upon doing so he ordered me to go over the bow, to ascertain if possible, what damage had been done. I then found the holes above mentioned. Upon informing him of the fact, he gave orders to get the sails up from below, and endeavored to place them over the bow so as to stop the leak, which was promptly done, but with no advantage, so much of the bows and iron which had been broken from the other steamer adhering to the Arctic and projecting beyond her planking, that the sails could not be brought close against the vessel's side.

The carpenter was then lowered over the side, and pillows and mattresses passed down to him, to try, if possible, to close the holes with them, but the leak was found to be so far below the water line that they could not be got in, and every exertion to stop the leak proved unavailing.

Capt. Luce then ordered the ship's head to be kept for the land, which bore N. W. by W. In about 30 minutes all the lower fires were out, and there were at least six feet of water in the ship fore and aft.

It was soon discovered, however, that there was little hope of saving the Arctic, and the lady, daughter and son of Mr. E. K. Collins, with several ladies, were put on board a boat, in the act of lowering which one of the tackles gave way, and all except one lady, who clung to a sailor holding fast to the boat, were precipitated into the sea and lost.

The last sight we had of the ship, her guards were level with the water, and the surface of the sea strewn with human beings, who had jumped or fallen overboard — to whom, however, it was impossible to render any assistance, and we soon lost sight of all, as the fog continued to be very dense.

We were then about 60 miles S. E. of Cape Race. Deeming it my duty, for the safety of all, to take the nearest course for the land, we pulled hard at the oars for 42 hours,—with nothing to guide us but the run of the sea, which I took to be heaving from the Southward, and in a thick fog which lasted all the time; we reached Broad Cove, some 12 miles north of Cape Race.

We then proceeded by land to Renews, where we reached on Friday last.

I there obtained and took charge of a small schooner, which was hired by the purser and myself, and proceeded immediately in search of the wreck of her boats. We cruised round in a strong gale of wind from the northeast, but could find no trace of the ship or boats.

Nothing has yet been learned of the fate of the other five boats. It is stated that the ship was provided with boats sufficient to accommodate 500 persons. But when men are seized by a panic they are almost entirely unmanageable.

The Arctic was insured in England for £60,000, and in this country for $310,000, making a loss of $600,000 on the value of the ship. The excitement in Boston has been intense, and flags were displayed at half-mast on numerous buildings, &c., through the city. On the Commercial Exchange Wednesday, it was resolved that their room be draped with crape for thirty days.

THE AWFUL COLLISION.—*New York, Oct. 11.*—The Board of Underwriters have received information that the steamer in collision with the Arctic was the Cleopatra, from Quebec for Liverpool.

It is now stated that the propeller was not the Cleopatra, but a French vessel from St. Peters with supplies for the fisheries, having 300 men on board. This was gathered from one of the propeller's crew, who clung to the Arctic; but the name of the vessel was forgotten by the cook, to whom the story was related.

STILL LATER.—*Halifax*, Oct. 12.—Newfoundland dates of the 4th are received.

The French Screw steamer Vesta arrived at St. Johns on the 30th, having lost foremast, and bows shattered to pieces. She had been in collision with the Collins steamship Arctic. The Vesta lost 13 passengers.

Thirty-one of the Arctic's crew saved.

Three of the Arctic's boats not yet heard from. They were life boats and probably have been picked up by some vessels.

The vessels which were sent in search of the boats returned on Tuesday without having gained the slightest intelligence of either the Arctic or her boats.

The Passengers and Crew saved from the Arctic left Halifax by the Europa for Boston.

PROBABLE SAFETY OF THE COLLINS FAMILY.—A despatch from New York to the Boston Merchants' Exchange, on Thursday afternoon, says—

"Confident hopes are entertained of the safety of Mr. Collins's family. Mr. Doran, the 3d mate, reports that Capt. Luce placed them in a boat well provisioned, and that they left the ship in safety."

THE CRIMES OF ALEXANDER BORGIA.—Federhen & Co., Boston, have sent us, via J. P. Morse of this city, an Historical Romance, entitled One Link in the Chain of the Apostolic Succession, or the Crimes of Alexander Borgia.

It is well known that Pope Alexander VI. was a monster of wickedness: and this romance professes to give true sketches of the leading crimes in the life of that dreadfully sensual and wretchedly debased man. The work is done up in glowing style; and will be likely to have an immense sale. Those who are afraid to "sup full of horrors," had better not read a page of it.

BOSTON MARKET.—*From the Courier of Thursday.*—Flour—There is more firmness manifested in the market on account of fav orable advices from abroad, with continued light receipts. Prices have improved but are unsettled. We quote Western, common, $8,25 a 8,50; do fancy, $8,62 1-2 a 9; do extra, $9,25 a 9,75, and Genesee do, $9,50 a 10 per brl. Grain—The market is nearly bare of Corn and prices are higher. Small lots white 76 a 80 cents; mixed, 82 a 85 cents, as to quality. No yellow here. Northern Oats, 57 a 59 cents per bushel. Rye, $1,25 do.—Molasses—There have been further sales Cuba sweet at 26 1-2 a 27 cents per gal. 6 mos. Nothing doing in tart. Rice—Sales of fresh beat in lots as wanted at 5 3-4 cents per lb., 4 mos.

A WHALE FOUND.—Some fishermen belonging in Cape Elizabeth, returning from a fishing cruise, last Wednesday, encountered a dead whale floating on the surface of the water, about 40 miles down the coast. Upon examination, they discovered that it had been harpooned a short time previous, which was evidently the cause of his death. The discoverers hitched on to their prize and towed it up to the shore near the Two Lights, where they have since been engaged in extracting the oil, having taken out about 40 barrels, three barrels having been taken from the tongue alone. The monster is 52 feet in length, and is supposed to weigh about 25 tons. Mr. O. C. Frost, of Portland, who furnished us with the above particulars, learned that some whalemen had appeared and claimed a share of the oil, on the strength of having harpooned the animal. This was readily acceded to.—*Portland Advertiser.*

THE CARRYING TRADE.—The New York Shipping List states, as an illustration of the depressed condition of the carrying trade, that a merchant extensively engaged in the shipping business, states that he has just had a first class ship offered to him for a twelve months' voyage *gratis*—nothing being required by the owner but a guarantee that the vessel should be returned to him at the expiration of that period, in as good condition as when she was taken. It is alleged that the rates now current are scarcely sufficient to pay the expenses of sailing the vessels.

A SAD AFFAIR.—Another of those sad events which are now so frequent, and which should be but are not, a warning to others, occurred in Lynn last week. A boy of fifteen years, named Charles Johnson, was standing in the door way of his father's house, with the muzzle of a gun under his arm, his foot and leg moving in the vicinity of the lock, when it suddenly exploded, the whole charge of shot entering his body underneath the arm, and some of it coming out below the neck.—The poor boy lingered until the next day and then died. His dying request to his parents was, that the gun, the careless use of which had resulted in so terrible a misfortune, should be burnt.—*Boston Traveller.*

MELANCHOLY DEATH.—We learn from the Springfield Republican that the Rev. Josiah W. Canning, of Gill, for many years the respected and useful pastor of the Congregational Church in that place, committed suicide on Wednesday morning, while in a state of mental derangement, by drowning himself in a small stream in the village. He was upwards of seventy years of age.

SUICIDE FOR LOVE.—A gentleman informs us that Mr. William Huling, of East Greenwich, in this State, committed suicide on Monday of last week, under the following singular circumstances: He had been paying his attentions to a young lady, and seeing her ride past with another gentleman, and knowing that they would soon return, he went and hung himself upon an apple tree by the roadside, in full view of his lady and rival as they passed by. His age was 22 years.—*Woonsocket Patriot.*

Sheridan Knowles has been lecturing against popery, at Manchester, England, and his son has been joining the Catholic church.

Perhaps the conversion of the son waked up the father.

LOCAL.

SUNDAY EVENING READING.

Mrs. Macready, who has delighted our citizens with her perfect rendering of every description of polite literature—and who grows in favor, the more she becomes known—announces a farewell entertainment, in Portsmouth, on Sunday evening. It was her intention, at first, to give a single reading here; but there were those among her first audience, who were unwilling for such performance to leave our city without a general hearing. So a second reading was given—with good success, as to getting and entertaining a house; and it having been repeatedly suggested to her, to give other readings, including one of Sacred selection, she gave a third at the Temple on Thursday evening—her last of the *Dramatic* character—on which occasion she was greeted by a much larger audience than she before had, and was rapturously applauded. On Sunday evening she will read the beautiful programme in another column—including the incomparable "Sermon on the Mount." The idea of this Sacred Reading was first proposed by one of our clergymen, and approved by others, and meets with general favor. All who have a taste for fine reading will be there. We prefer Mrs. M. in pieces of a pathetic character, like several in this last programme.

☞ In the U. S. Circuit Court at Exeter, on Thursday, Oct. 12, the case Goddard *vs* Lord and Jenness, was given to the jury.—The case, U. S. *vs* Cutter &a, was continued, at the request of the District Attorney, for some absence of evidence. The Court will probably adjourn this day, Friday.

☞ There was no quorum in either branch of the City Council, on Thursday evening.

THE WALDOBORO' FIRE.—A contribution was taken in our churches generally last Sabbath, according to notice, for the benefit of the sufferers by the late disastrous fire in Waldoboro', Me. We have not learned the amount received. A committee of one from each parish was appointed, to take charge of contributions in money and goods; and Mr. John Sise of that committee, received on Thursday from Philadelphia, an anonymous letter, enclosing $10 for this object.

☞ The N. H. Patriot will publish a daily paper during the approaching political campaign, commencing early in November and continuing until the election on the 13th of March.

STATE OF MAINE.

BY THE GOVERNOR.

A PROCLAMATION

FOR A DAY OF

PUBLIC THANKSGIVING AND PRAISE.

Another year, crowned with mercy and goodness from on high, is rapidly approaching its termination. Success far beyond our deserts has attended our various business enterprises,—the labors of seed time have reaped their reward in the fruits of harvest,—the pestilence which has desolated so many homes in other lands, has not visited us,—we are still in the enjoyment of civil and religious liberty, and peace reigns throughout our wide-spread borders.

Every passing day of the passing year has furnished abundant occasion for individual gratitude to God for blessings conferred, yet in view of His great goodness and sparing mercy towards us as a people it becomes us to unite our lips and hearts in rendering to Him our annual tribute of thanksgivtng and praise. I do, therefore, with advice of the Executive Council, appoint *Thursday, the thirteenth day of November next*, to be observed throughout this State as a day of Public Thanksgiving and Praise to Almighty God for the many blessings He has bestowed on us; and I invite the people of the State to observe the day thus set sport in the manner hallowed by time-honored usage.

GIVEN at the Council Chamber, at Augusta, this twenty-ninth day of September, in the year of our Lord one thousand eight hundred and fifty-four, and in the year of the independence of these United States the seventy-ninth.

WILLIAM G. CROSBY.

BY THE GOVERNOR:

ALDEN JACKSON, Secretary of State.

JOSEPH H. FOSTER has just opened a fresh assortment of Porte Monnaies, Pocket Books, Wallets, Purses, Tablets, &c. to which he invites the attention of all who are in want of either a cheap, serviceable or elegant article of the sort; and which will be sold low. o13

Highland Nurseries,

STRATHAM, N. H

J. H. DIMAN, PROPRIETOR,

NOW offers the largest assortment of Fruit and Ornamental Trees, Greenhouse Plants, &c. to be found in the State, all of which will be sold at prices which defy competition. In addition to my usual variety of Greenhouse Plants, I now offer 25 varieties of Pomfone or Daisy Chrisanthemums, none of which have before been offered in this section. These are beautiful plants just going into flower, and will make a fine show during the fall and early in winter; they may be kept in pots for parlor plants, or in the border, with slight protection.

Orders by mail, or left at the store of Henry M. Clark, Portsmouth, will receive prompt attention.

J. H. DIMAN.

Stratham, Sept., 1854. 3taw3w

THIS is a new COOK STOVE made by A. C. Barstow & Co. (Manufacturers of the celebrated Bay State Stove) and is intended for Wood or Coal, and is in every respect a superior Stove.—The castings are smooth, heavy and durable, and the operation is perfect. The oven will heat with Coal as soon as any other oven with Wood. A number of these Stoves have been put in operation in this city this season, and have given perfect satisfaction.

Persons wishing to purchase the best Stove in the market would do well to give us a call before purchasing elsewhere.

Every Stove warranted.

GRAND

FAREWELL MUSICAL TOUR

IN AMERICA.

PAUL JULIEN,

LEAVING the friendly shores of this great country early next Spring, to return to Europe, feels anxious once more to visit some of those splendid cities in which he has been received with so much kindness and munificence, taking in his way many musical places where he has not had the honor to appear; and has much pleasure in announcing to the musical amateurs of this city, that on this occasion he will be

Assisted by the following eminent Artists:

THE FAVORITE YOUNG PRIMA DONNA,

Mdlle. R. A. Durand,

who has created such a sensation in all the cities that Paul Julien has visited; and

Charles F. Weise,

THE DISTINGUISHED SOLO PIANIST.

The First and Only Entertainment in Portsmouth will take place

On Saturday Evening, Oct. 14th,

AT THE TEMPLE.

Doors open at 7 o'clock—Concert at 8 o'clock.

TICKETS 50 CENTS,

THREE DAYS LATER FROM EUROPE.

ARRIVAL OF THE EUROPA.

Halifax, Oct. 11, 1854.

The royal mail steamship Europa, Capt. Shannon, from Liverpool 30th ult., 1 A. M., arrived at this port this morning. The steamer Clyde, from New York, arrived at Glasgow 23d. The U. S. steam frigate, San Jacinto, which left Southampton afternoon of 27th, expected to be present at the bombardment of Revel.

The clipper Red Jacket arrived at Melbourne, May 4, in 71 days from Liverpool.

WAR NEWS.

THE DANUBE.—Lord Raglan has called for a division in Bessarabia, consequently the Turks are advancing to the Pruth. The advanced guard set out from Bucharest on the 27th, and Omer Pacha would follow on the 29th. Ibraila and Galatz will be the basis of operations. Only two battallions will remain at Bucharest, and small detachments will occupy the various *tetes du pont* on the left side of the Danube.

Another dispatch states that Omer Pacha is preparing to besiege Ismael.

The Russians are entrenching themselves in winter quarters along the whole line of the Pruth.

THE BALTIC.—The bombardment of Revel is daily expected. The English press consider this measure impolitic at this late season, and in the absence of the French fleet.

At last accounts the larger part of the allied fleets was at Ledsund, but the British would shortly leave for Bon Sound or Nayea. Admiral Plumridge's squadron was at Nayea, and the Russian fleet at Helsingford, consisting of nine ships carrying 780 guns. At Cronstadt there are 21 Russian ships, carrying 1,688 guns, besides six steamers, and all were striking their topmasts, and preparing for winter.

On the 19th inst., the French and British fleets separated, the French under Admiral Desobenos returning home.

THE WHITE SEA.—Capt. Lyme officially announces to the British Admiralty the destruction of the town of Kola, which he burned to the ground without losing a man.

SEA OF AZOV. Four English and French steamers will attempt to force an entry into the Sea of Azov to capture the Russian transports which now convey reinforcements to the Crimea.

On the 13th a Tuscan ship at Constantinople reported that an army of 30,000 Russians was at Taganrog ready to be conveyed in pontoons and gun-boats to Yeni Kalch or Kaffa. The Journal of Constantipole states that this force had put to sea, but was overtaken by a tempest, and two hundred were drowned. The report was considered doubtful.

ELECTIONS.

PHILADELPHIA, October 11.—*Pennsylvania Election.*—Bigler's majority in Berks county is reduced to 3,300. Henry S. Mott, Democrat and Know Nothing candidate, is chosen Canal Commissioner by over 2,300 majority. In the Fifth Congressional District, John Cadwallader, Democrat, is probably elected. In the First Congressional District, Florence, Democrat, is re-elected by 445 majority; Second District, Tyson, regular Whig, is elected by over 2000 majority.

5th Congressional District, John Cadwallader, (Democrat,) elected by 11 majority; J. Clancey Jones, elected to Congress. In York county, Pollock's majority, 130. The Whole Know Nothing ticket is elected. In Lebanon county, Pollock's reported majority is 1,000. In Luzerne county, 500; Columbia, 800; Susquehanna, 700; Northumberland, 100.

In the 11th Congressional District, Fuller, (Anti-Nebraska,) is elected to Congress.

CINCINNATI, Oct. 11.—*Ohio Election.*—In the 21st district, Bingham, "Independent," is elected to Congress. The anti-Nebraska majority in Hamilton county is set down at 6,000, and it is supposed the anti-Nebraska majority in Ohio is in the neighborhood of 50,000.

It is thought the Know Nothing ticket is elected by a small majority in this city.—There appears to be but very little doubt that Ohio has gone by a very large majority for the Independent and anti-Nebraska ticket.

CINCINNATI, Oct. 11.—*Indiana Elections.* Mr. Mace is re-elected to Congress in the 9th district by 1,500 majority; Barbour, in the 6th district, by 450 majority; Scott, in the 7th district, by 800; Petit, in the 11th district, by 1,500; Barumback, in the 4th district, by 350; and Hollaway, in the 5th, by 2,500 majority. All anti-Nebraska men.

NEW YORK, Oct. 11. *Mr. Bartholomew Boneo* was yesterday arrested, charged with fitting out the American bark Millankon in 1853, at this port as a slaver.

PIANO FORTE TO LET.—A Piano of good tone and volume, may be rented reasonably, on inquiry at the Chronicle Office.

25 Cent Daguerreotypes

AT

SALEN'S

DAGUERRIAN GALLERY,

No. 8 Daniel Street.

P. SALEN takes pleasure in announcing to the world, and particularly to the citizens of Portsmouth, that he has all at once discovered a new process to take

ELECTRIC DAGUERREOTYPES

BY STEAM,

For the extremely LOW PRICE of 25 cents. Many will say this is another HUMBUG—common cheap stuff, like those taken in Boston and about elsewhere, for 25 and 50 cents. No, ladies and gentlemen, it is the *steam* and *electric* power that beautifies these Pictures; and for their durability you have the guarantee of Mr. Salen, who is established here, and has given proof to satisfaction.

Mr. S. has an extra department for those who wish to procure a Picture for the regular fair price, and will be attended to without delay, as usual.

The new cheap Pictures or Electrotypes will mostly be taken by the celebrated artist, Mons. Heavtontetoromenas.

NOW is the time! Come one, come all! When the electricity is gone, all will be over. 1ws16

Daguerreotype Notice.

ALL Persons who obtain Pictures at either of the twenty-five cent Rooms, will be furnished with GOOD CASES to fit said Pictures at BOUTELLE'S Saloon on Hanover street, for 12½ cts.

"Honest industry seeks only its own reward."

Daguerreotypes.

A. GREGORY takes pleasure in acknowledging the discrimination of a *discerning* public in their *appreciation* of his work by a steady increase of patronage, and lest an erroneous impression might be created at this time that nothing but *cheap* Daguerreotypes can be had in Portsmouth, respectfully announces to strangers more particularly, (his friends have already sufficient *tangible* evidence to need any thing being said,) that he still continues at his old stand,

No. 33 Congress St., opposite the City Hotel,

making those superior pictures he is noted for, at such prices as shall be satisfactory.

He has just received a lot of BEAUTIFUL CASES of various styles, and all those desiring likenesses of themselves or friends, will find it true economy to obtain his MIRROR-FINISHED, LIFE-LIKE, ARTISTIC PICTURES. Please observe that his reputation is of *seven years* permanent residence in this community,

Particular attention is also invited to his beautiful

STEREOSCOPIC DAGUERREOTYPES.

These enchanting pictures need only to be seen to be appreciated; and once seen they cannot fail to captivate the beholder with their wonderful peculiarities and transcendant beauties. I make these pictures by a rule discovered by Mr. D. Peduzzi and myself, a year since, and in that time they have been the theme of admiration of a large number of citizens, including the highest cultivated taste, and been pronounced perfect in stereoscopic effect.

A general invitation is extended to all to examine his specimens and convince themselves of the superiority of his work. Sept. 22.

FLAGG'S WRAPPING PAPER, for sale by J S. HARVEY & SON, 7 Exchange Buildings.

MORTALITY AMONG THE ALLIED FORCES. A letter from an officer of United States steamer Saranac, dated at Spezzia, September 18, states that when she was at Constantinople the combined English and French forces had lost *some thirty thousand men* by cholera, and they were still dying in great numbers. One English frigate lost one hundred and seventy men during one night. It is impossible to imagine the horrid state they were in. The writer had several conversations with British officers, and he concluded that they were very doubtful of success at Sebastapol, owing to the dreadful condition of their men. This will account for the bad spirits of the British army, as admitted by the London Times, received by the last arrival from Europe, and the statement of that journal, made recently, that the expedition was anything but popular in the army.

AGED, INDIGENT WOMEN.—A Society has been formed in Portland, to furnish a *Home* for poor women who find themselves destitute in their old age. Any one may become a member by paying one dollar a year, and a life member by paying twenty-five dollars.—The object is a good one.

UNITED STATES AND FOREIGN
PATENT AGENCY,
No. 39 State Street, - - - - - - - - - Boston.
SAMUEL COOPER,
Late Chief Examiner in the United States Patent Office,
Procures Patents in this and Foreign Countries.
References.—The undersigned Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, lately a Principal Examiner in this Office; and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the Office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.
HENRY B. EDWARDS, J. D. GALE, J. H. LANE, *Principal Examiners.*
T. R. PEALE, THOS. H. EVERETT, F. SOUTHGATE SMITH, WM. CRANCH LAMBDIN, *Assistant Examiners.*
From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.
WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.
Boston, Dec. 31, 1858. ja3 eodly

10,000 *Bottles Sold since the First of January.*
DR. ORDWAY'S
HUMOR DISCOVERY,
AND BLOOD PURIFIER.
DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years with great success. He has often been urged by his friends and those who have tried it, and know its efficacy, to put it within the reach of all. He has now added to it an Herb, discovered in California, by Dr. KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,
LIVER COMPLAINTS AND CHRONIC DISEASES.

The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient, sick with that terrible disease, the California Erysipelas and Liver Complaint—the effect was miraculous—curing the man in a few days. The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.—Hundreds are taking this medicine, after trying in vain other remedies, and say that the half was never told them.

If you have Erysipelas, 3 to 5 bottles will cure it.
If you have Scrofula, 3 to 7 bottles will cure it.
Three to six bottles will cure Salt Rheum.
One or two bottles will cure Pimples on the Face.
Two or three bottles will cure Scaly Eruptions and Scald Head.
One to three bottles will cure Nursing Sore Mouth
One to three bottles will cleanse the system of Biles.
Two to five bottles will cure Rheumatism.
Three to four bottles will cure old running Sores and Ulcers.
One or two bottles will cure Barber's Itch.
One to three bottles will cure Canker in the mouth and bowels.

For Liver Complaints and Jaundice.
Its effects are new and wonderful, removing obstructions from the Liver, open the pores of the skin, carrying off the morbid matter, relieving the side, and all-gone feelings of the stomach; and removing low spirits and despondency, which is the result of this disagreeable and often fatal disease.

FOR DYSPEPSIA.
A fair trial will convince you that there is nothing like it.

FOR CANCEROUS HUMORS,
It is the surest remedy ever offered. One widow lady in Lawrence, has been troubled with Cancer for years, by taking two bottles says she is now quite well.

FOR COSTIVENESS.
One gentleman says that it was the only medicine that cured him.

FOR KIDNEY DIFFICULTIES,
It is spoken of in the highest terms. A young man was sick so much with Asthma that he had to leave College; three bottles cured him, and he has now resumed his studies. One lady in Salem was perfectly cured of Periodical Sick Headache, by the use of two bottles. Mr. Williams, of Lawrence, had humors in his eyes for years, and was cured by the use of the Humor Discovery and Blood Purifier. For Chills and Fever, Mercurial Diseases, Taints in the System, it stands unrivaled; sometimes where the system is much deranged it will cause disagreeable feelings at first, but continue its use as indications favorable. It is purely vegetable, and its compound and proportions are such that the effect is perfectly satisfactory and safe.

FULL DIRECTIONS ON THE BOTTLE.
☞ **Price $1.00.** ☜

HE HAS ALSO A HUMOR SALVE,
Unsurpassed for external humors, which, if used in connection with the Humor Discovery and Blood Purifier will much facilitate a cure.
PRICE 25 CENTS A BOTTLE.

Dr. Ordway's Cough Destroyer.
This invaluable Cough Remedy is for the complete cure of Coughs, Colds, Asthma, Influenza, Whooping Cough, pains in the side and breast, hacking or tickling at the throat, spitting blood, tightness across the lungs and chest, and all Lung Complaints leading to Consumption.
No medicine yet discovered has that decided effect in curing Bronchial affections as the Cough Destroyer. It can be taken by all ages and classes, from a child six months old to the oldest man or woman, with the most happy results.
PRICE 50 CENTS A BOTTLE.

Dr. Ordway's Pain Destroyer.
This preparation is composed of a great variety of Extracts, Gums, Essential Oils, most of which have not heretofore been united and compounded into their present form. It will cure attacks of Cramps of the Stomach, Spasms, Convulsions, Faintings, Pain in the Stomach, Bowels, Side, Back, Limbs, and a great variety of other difficulties. It is also invaluable as an external remedy. It will be found to contain nearly double the strength of any similar article, and possesses properties heretofore unknown. No family should be without it for a single day.
PRICE 25, 37½ AND 50 CENTS A BOTTLE.
Full directions for the above medicines, on the Bottles. Orders should be accompanied with full directions how it should be sent.
ORDWAY & WADLEIGH,
LAWRENCE, MASS.
SOLE PROPRIETORS.
Sold in Portsmouth, by Jos. H. Thacher, B. Hutchings and J. P. Morse. ap19eod6m&w

HERTS BROTHERS'
AMALGAMATED IRIDIUM ZINC & PLATINA
PENS.
WARRANTED NOT TO CORRODE.

HERTS BROTHERS, having been many years engaged in the manufacture of Metalic Pens, and during that time, having devoted their unceasing attention to improving and perfecting that useful and necessary article, the result of their unceasing efforts and numerous experiments has been the construction of a Pen on a principle entirely new, combining all the advantages of the elasticity and clearness of the Quill, with six times the durability of the Steel Pen; and thus entirely obviating the only objection that has hitherto existed against the use of Steel Pens.

This Pen will be found an invaluable article in Offices, as they never need wiping, also to Banks and Schools, as they will not spatter nor cut the thinest paper, and are warranted anti-corrosive.

CAUTION.—The universal celebrity of these Pens having induced several disreputable Makers to foist upon the public a spurious imitation, it will please to be observed that each genuine Pen is stamped, "HERTS, BROTHERS' PATENT, 1858," and each box of Genuine Pens will contain a label with a fac-simile of the Manufacturers' name.

MANUFACTORY, BIRMINGHAM, ENGLAND.
May be had, Wholesale, at the Manufacturers' DEPOTS,
1 *Jewry street, Aldgate, London, and of*
L. & A. HERTS, No. 49 John street, NEW YORK,

Swaim's Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,
Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the descriptions of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others, by W. Gibson, M.D., Prof. or Surgery, Pa. University. Valentine Mott, M.D., Prof. of Surgery, N. Y. " P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D., Prof. of Pract. Med. University. T. Parke, M.D., Pres't College of Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Lue. Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spaine. J. Chipman, Member Royal College of Surg., London. Sir Thomas Pearson, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and, being an innocent preparation, it may be given to the most tender infant

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a portrait of the late work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers of Philadelphia. In the centre is a portrait of the late Wm. Swaim, copy right secured

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge. Prepared only at SWAIM'S LABORATORY, OLD SCHOOL, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA, and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them by a person bearing a *somewhat* similar name, well calculated to deceive.

Greatest Discovery of the Age.
PLANTERS, Farmers, Families and others can purchase no Remedy equal to DR. TOBIAS' VENITIAN LINIMENT, for Dysentery, Colic, Croup, Chronic Rheumatism, Sore Throat, Toothache, Sea Sickness, Cuts, Burns, Swellings, Bruises, Old Sores, Headache, Musquito Bites, Pains in the Limbs, and Lame Back.

If it does not give relief, the money will be refunded; all that is asked is a fair trial, and use it according to the directions.

It is an English Remedy, and was used by William IV. late King of England, and certified to by him, as a cure for Rheumatism, when everything else had failed.

Over 10,000,000 bottles have been sold in the United States, without a single failure, and many have stated that they would not be without it if it was $10 per bottle, in case of Croup, as it is as certain as it is applied.

It cures Cholera, when first taken, in a few hours; Dysentery in half an hour; Toothache in five minutes. It is perfectly innocent to take internally, and is recommended by the most eminent physicians in the United States. Price 25 and 50 cents.

Dr. Tobias could fill a dozen Newspapers with certificates and letters relating to the wonderful cures accomplished by his Linimeut, but considers warranting it sufficient, as any person who does not obtain relief, need not pay for it.

Price 50 cents. Dr. Tobias's office, 240 Green

Dr. Tobias has put up a HORSE LINIMENT in pint bottles, which is warranted cheaper and better than any other for Cholic, Scratches, Old Sores, Galls, Swellings, Cuts, Bruises, etc. which street, New York.

The Banner Cook Stove.

THE subscriber having received his WINTER STOCK of COOKING STOVES would especially invite the attention of purchasers to this new and beautiful pattern, which he can recommend to be one of the VERY BEST Cooking Stoves in the market, in regard to durability, economy and convenience. This stove is adapted to the use of Coal or Wood, and is warranted to give entire satisfaction in every respect.
An examination of this Stove by all who intend to purchase or exchange Stoves is respectfully solicited.
Also on hand a variety of other COOKING STOVES, consisting in part of the following:
The Improved Empire State; White Mountain; King of the States; Belle of the States; Marshfield; Pearl of Troy; &c., &c.
And an assortment of
PARLOR STOVES.
For Wood and Coal, with and without ovens—some of very elegant patterns; all of which will be sold as low as at any other establishment in this city or any other.

HOUSES, &c.

FARM FOR SALE.
A VALUABLE FARM, on Boyd's Road in Portsmouth, about a mile from the centre of the city: it contains 85 acres, well divided and fenced with stone wall; also a good two story HOUSE, two large Barns, and other out buildings, all in perfect order. The soil is very rich and productive, and the ground in superior order.
This farm must be sold, and offers a rare opportunity for any one in want of a valuable and productive estate, which from its central location must increase in value.
For terms and information, apply to
3m a14 HENRY H. LADD.

House For Sale to be Removed.
THE undersigned offers for sale his dwelling House, 9 1-2 Cabot Street, which he now occupies, together with a wood house and cellar walls, consisting of three feet of stone and three feet of brick work. The House is nearly new and in an excellent condition. For further particulars apply, on the premises, to
a14 B. NORTON.

House to Let
IN Ladd street. Possession given next week.
a12 J. N. HANDY.

For Sale.
THE subscriber offers for sale the STORE now occupied by him on the corner of North and Bridge streets, with the land and Hay Scal attached thereto. The situation is an excellent one for a grocery, or any other business. The Hay Scale yields an annual income of from one hundred and fifty to two hundred dollars. The premises will be sold low if applied for soon.
If not sold by 1st of November next, the subscriber will lease the same at a reasonable rate.—For any information, apply to the subscriber on the premises.

THE DANGER OF MUSICAL TITLES:

OR, "ONE KISS AT PARTING."

A lady of fashion (the well known Marchioness of Finsbury) had been loitering for nearly an hour in a fashionable music shop. She had purchased a copy of nearly every piece of music that had a sentimental title. She had sent into her carriage a whole Canterbury full of love, going through every mood of the feelings, past, present or future, and was following their example, when she paused upon the step, as if meditating whether she should take it, or some other step that was evidently turning itself over in her mind. The shopman, who had been somewhat moved by the tender tone of voice in which she had asked him, 'Wilt thou love me then as now?' watched her with an anxiety that betrayed itself too plainly in the adjustment of his shirt collar and the arrangement of his hair. Suddenly the marchioness pale, her auburn ringlets fluttering in the wind, stood once more before the admiring shopman:

'I had nearly forgotten,' she said, in a voice that seemed to veil her blushing words—'dear, dear! I cannot tell where my head is to-day. I have come back to ask you if by chance——' here she paused, as if to take new courage, whilst the trembling shopman placed his two thumbs elegantly on the mahogany counter, and leant his body inquiringly forward, 'to ask you to be kind enough to give me one kiss before parting!'

'Ma-a-a-a-d-a-m!' exclaimed the astonished shopman.

'I was you,' repeated the marchioness, 'to let me have one kiss before parting—one will do, if you please.'

She raised her beautiful blue eyes full upon his, and met them boldly, unblushingly. She then, without betraying any emotion, repeated her question, adding, as calmly as possible, 'If you cannot give it me now, I will call some other time.'

He could doubt no longer! Springing over the counter, he seized hold of the marchioness's fair form, and, then and there, gave the kiss she so earnestly begged for, previous to departure. To his great astonishment, the only return the marchioness made was to give him a tremendous box on the ears. This was followed by a volley of blows dealt by her parasol over his head, which were accompanied with an equal number of shrieks that never terminated till the police came into the shop. The affair was carried to Bow street, but was soon dismissed, upon its being explained that 'One Kiss Before Parting' was the title of a song, which the unsophisticated shopman, blissfully green from his native fields, had never heard of before.

It was a favorite joke with the old duke to ask the marchioness, whenever she was at the piano, if she would mind giving him just 'One Kiss Before Parting?'

INTERLUDES.—Among other excellent remarks by Lowell Mason, in the preface to his new church music-book, The Hallelujah, are the following respecting interludes:—

It will be seen that these have been written for a great portion of the tunes. They have been prepared, not for the organist, who is able to play his own impromptu interludes, but rather for the purpose of furnishing other instruments with something better than the constant repetition of the last line; and also for the purpose of furnishing a pattern of what we suppose interludes ought to be; not long detached pieces of music, but a few chords immediately connected with the tune, and leading in regular time to its re-commencement for the succeeding stanza. The interludes in this work are often mere cadences. We would not advise that even short interludes be invariably played between the stanzas of a hymn; on the contrary, we think it better, as a general rule, to proceed directly from stanza to stanza without delay.

An apple tree planted in Bedford, N. H. 120 years ago, is still bearing.

THE BEECHER FAMILY.—The following passage occurs in the October number of the North American Review, in a notice of Mrs. Stowe's "Sunny Memories of Foreign Lands:"

"The Beecher family almost constitute a genus by themselves. The same type of mind and style is reproduced in the writings of the venerable father and of his singularly gifted children, though stiffening into a certain solemn stateliness in the author of "The Conflict of Ages," and in Henry Ward trenching close upon the dividing line between light humor and light buffoonry. The father in his palmy days was unequalled among living divines for dialectic keenness, scathing invective, pungent appeal, lambent wit, hardy vigor of thought, and concentrated powers of expression; but he always fumbled over an extra Scriptural metaphor, and exhibited little beauty, except that of strength and holiness—a beauty which never shone from him so resplendently as now, that, on the verge of fourscore, it hallows the sunset of as noble a life as man ever led, and presages the dawning of a renewed youth in a more exalted sphere of the Divine service. His daughter inherits in full his vigor of conception, his logical acumen, his tenacious hold upon the conscience, his fervent strenuousness of aim, and his wit subordinated to and sanctified by the gravest purpose and the most momentous mission; while in the handling of subsidiary thoughts and in rhetorical ornament she alternates between his unconscious heedlessness and her own finer perception and more graceful culture."
